POLICIES

VIII. Disabilities

Campbellsville University is committed to reasonable accommodations for students who have documented physical and learning disabilities, as well as medical and emotional conditions. If you have a documented disability or condition of this nature, you may be eligible for disability services. Documentation must be from a licensed professional and current in terms of assessment. Please contact the Coordinator of Disability Services at 270-789-5192 to inquire about services

IX. Academic Integrity

Campbellsville University's policy on Academic Integrity states: "Each person has the privilege and responsibility to develop one's learning abilities, knowledge base, and practical skills. We value behavior that leads a student to take credit for one's own academic accomplishments and to give credit to others' contributions to one's course work. These values can be violated by academic dishonesty and fraud." ([2017-19 Bulletin Catalog](#)).

Plagiarism and cheating are examples of academic dishonesty and fraud and neither will be tolerated in this course. Plagiarism is quoting or paraphrasing a phrase, a sentence, sentences, or significant amounts of text from a web or print source, without using quotation marks and without a citation. The plagiarist submits the work for credit in a class as part of the requirements for that class. Examples of cheating include cheating on a test (copying off someone else's paper) or an assignment (e.g., development of a lesson plan) and submitting the work as your own.

If a student commits plagiarism or cheats in this course, the professor will decide on one of the two penalties: (a) an F on that assignment or (b) an F in the course. The student's Dean and the Vice-President for Academic Affairs will be notified of either consequence.

X. Communication Methods

- Communication during and outside of class will be primarily face to face and through Moodle
- When communicating with your professor in **email**, remember to include your name. Please use your CU email and check your university email daily.
- All assignments must be posted to the course site on Moodle.

XI. Title IX Statement

Campbellsville University and its faculty are committed to assuring a safe and productive educational environment for all students. In order to meet this commitment and to comply with Title IX of the Education Amendments of 1972 and guidance from the Office for Civil Rights, the University requires all responsible employees, which includes faculty members, to report incidents of sexual misconduct shared by students to the University's Title IX Coordinator.

Title IX Coordinator: Terry VanMeter; 1 University Drive; UPO Box 944; Administration Office 8A; Phone – 270-789- 5016; Email – twvanmeter@campbellsville.edu

Information regarding the reporting of sexual violence and the resources that are available to victims of sexual violence is set forth at: www.campbellsville.edu/titleIX

XII. Student Academic Progress (SAP)

Department of Education federal regulations require Campbellsville University to monitor its student's academic progress to ensure that they maintain a minimum standard GPA and make steady progress toward degree completion. Students who do not meet the SAP requirements may lose their financial aid eligibility. All students that were enrolled during the current school year and those who have submitted a FAFSA for the upcoming year will be evaluated for SAP at the end of each term including summer. See your Student Handbook for specific details and/or discuss with your advisor.

XIII. Disposition Assessment

Dispositions in teacher education preparation refer to behaviors and attributes while interacting on campus, online, and in clinical experiences with students, families, colleagues, communities, and faculty. Such dispositions are necessary to the empowerment for learning process stemming from the School of Education

mission, conceptual framework, state codes of ethics, and national standards. Campbellsville University's educator preparation program strives to lead candidates in the self-efficacy process of recognizing when their own dispositions shall be developed in the Pre-Professional Growth Plan (PPGP).

Candidates (CU students) will become familiar with and commit to the Codes of Ethics for Professional Educators which delineates behaviors for teachers related to students, parents and colleagues. In addition, candidates must adhere to the CU Computer Resource Acceptable Use Policy that includes posting information, videos, pictures, etc. that infringe on copyright laws or is deemed inappropriate by the mission of CU and the School of Education (ST Handbook). This includes both on campus and off campus activities. Although the unit has adopted a "Disposition Recommendation" form for general use, it is understood that dispositions are also evaluated during instructional opportunities through field and clinical experiences and regular course opportunities. All disposition data are collected and filed in the student's School of Education file.

CU Philosophy of Behavior was founded with the goal of providing a quality education along with Christian values. Learning takes place guided by Christ-like concern and behavior on campus and online. A student whose conduct violates stated behavioral expectations faces specific disciplinary sanctions.

XIV. Late Assignments

All assignments are **due by due dates in the course calendar**. Deductions occur for each day late. Assignments more than **seven days late will receive a 0** and cannot be made up, except in extenuating circumstances. A final grade will not be assigned without completion of the required field/clinical hours.

XV. Textbooks

Students are expected to secure the required textbooks for the class and study them as assigned in order to complete assignments and participate in class activities.

XVI. Incomplete Policy

Only for extenuating circumstances is an incomplete grade possible for this course. Extenuating circumstances include severe illness and/or death in the family. The faculty member will designate the specific requirements of the incomplete upon request by the student and documentation of extenuating circumstances.

KEY ASSESSMENTS for ED 359

ED 359 Content Literacy

**This assignment is designed to increase foundational knowledge (ILA 1.1, ILA 1.3 & ILA 4.1) and introduce students to the PLAN content reading strategy.*

PLAN Concept Map and Reading Notes Assignment: 25 points

- * Create a concept map prior to reading chapters 3 or 4.
- * Take reading notes during reading of the chapter based on the steps of the PLAN reading strategy.
- * See rubric at the end of the PLAN information.

Resources:

- Background Information: <http://mattcox30.weebly.com/plan-predict-locate-add-note.html>
- Example: <https://www.alcaweb.org/arch.php/resource/view/133063>

Predict/Locate/Add/Note (PLAN)

The Predict-Locate-Add-Note (PLAN) graphical organizer helps students summarize the content of a reading selection. This instrument incorporates a number of reading and learning strategies into a single note-taking tool.

Using the PLAN organizer students . . .

- **Predict** selection content based on prior knowledge and experiences.
- **Locate** familiar and unfamiliar words and concepts.
- **Add** new information to prior knowledge.
- **Note** how new information can be applied to everyday tasks.

Steps to Predict-Locate-Add-Note (PLAN):

1. Select a reading passage with a well-defined central concept and distribute copies to students.
2. Have students quickly scan the document and make predictions about its content from titles and key words.
3. Provide students with a graphical organizer (see below) and ask them to create a "map" of their predictions. The top of the map should contain a prediction of the overall content of the document. Each "arm" of the map should contain predictions about specific content items and "evidence" supporting these predictions (key words or phrases from the selection).
4. Have students place an identification mark (an asterisk or question mark) by any unfamiliar or unknown information listed in their predictions. At this point, the "map" should clearly distinguish between known and unknown information.

- Next, have students carefully read the selection and evaluate their predictions. Students should "adjust" their "map" to better reflect their close reading of the document. Special care should be taken to add new information learned while reading.
- Finally, challenge the students to describe specific applications for this newly gathered information in "real world" tasks.
