Empowerment for Learning

Instructions for submitting forms

- Click link to open .pdf form.
- Click the download link to save the form to your computer
- Open the form from your computer and fill out completely
- Save completed form to your computer
- Email the completed form as an attachment to clhamilton@campbellsville.edu at the School of Education.

The RED Underline is to emphasize steps we learned from last semester that when missed can lead to frustration, as forms are submitted and show up blank. This typically happened because the forms were completed from the website and are templates, which means they will not save the material even though it will let you fill in the blanks. The documents will only retain your input if they are saved to your desktop or server and then completed and saved back to your desktop before attaching to an email. There is a "Submit" button on several of the forms and should work if you have your Outlook email open, otherwise just attach them to an email you start. I suggest copying (cc:) your submitted forms to the student teacher, as they will need digital copies for the Portfolio.

If you find the technology frustrating, it is perfectly fine to print copies of the forms and complete them, then scan back to the computer to send digital copies. We are flexible and want to make this a smooth process for everyone. Please contact me at the first sign of a problem or concern and let me work through it with you.

This should take you to the sign off page. The CT must sign off first, then the Principal (who will need a reminder from the Cooperating Teacher), then the US completes the process.
