Subject: Principal Candidate Review

Mr. Smith, would you please review this file for a candidate admission to our principal program. An approval or rejection response is appreciated. If a candidate is not from one of our original partner districts for this program we do need a review from a superintendent as part of our entrance requirement. Please call me if you have questions.

Subject: CU Admin Programs

We have our Principal Preparation Program approved now and have started classes. Thank you for your support and feedback in the development of this program. We will add Superintendent, Instructional Supervisor, DPP and Ed.S by next fall, and then work on an Ed.D program for 2020. We would appreciate your support in notifying any of your faculty who may have an interest in pursuing these certifications from a local university where we can assure clinical practice and internships are locally based. Your partnerships are important to us and it is our goal to give back to districts by preparing high quality candidates for the classroom and leadership in your district.

Please Forward to interested faculty:

Subject: FW: Principal Program Content Validity Review
Attachments: Internship Field Project Content Validity.pdf; School Budget Project Content Validity.pdf

Hello School Administrators:
(Please forward to your principals and district administrators)

We enjoyed working with each of you who were able to meet at our luncheon for our new principal preparation program. Even if you were unable to join us at the luncheon, we still need your initial feedback, as well as the second round of feedback from the luncheon group. We have been in communication with EPSB a couple of times since the program has been submitted, and it is currently with content reviewers who are looking at course and overall program content. We appreciated the feedback you gave us as we evaluated the content validity of two of our program assessments.

Based on this feedback, we have revised the rubrics for the two assessments. We have taken out the criteria for timeliness, and we have taken the APA requirement out of the School Budget Project. We have decided to leave the APA Requirement in the Intern Field Project Assignment. This is the assessment we are using to fulfill the EPSB research requirements. We feel that requires a recognized and standardized system for candidates to cite and document their resources.

All other revisions are highlighted in yellow. We would ask that you please complete the Lawshe's Content Validity Assessment for the revised documents again checking whether each criteria are Essential, Useful but not Essential, or Not Necessary. First: Save the attachments to your desktop; Second: complete the fillable PDF documents; Third: save, and then send as an email attachment to lsallen@campbellsville.edu We really appreciate your assistance in ensuring the content validity of our assessments as we look forward to beginning this program.

We look forward to working with you face to face in the future.

Subject: CU Principal Program Feb 9

Dear Superintendents, we are ready to submit Campbellsville University's program for Principal Certification to EPSB for approval and would like to have one more review from current and former principals. We would love to have a representative or two from each district to meet with us on **Thursday February 9, at 10:00 AM, in the School of Education** conference room to review the submission and offer final critique. We will also be looking at the major assessments for the program and want your feedback as well. Lunch will be provided by the CU School of Education.

Please forward to your principals for their consideration. We would like to have school and district level participation.

(I already copied a few folks who assisted us with survey and focus groups early in the project)

We appreciate and respect your time. We are gratified with your faith and collaboration in this project. Our children will benefit from this work.

I look forward to your response (this will help us plan for lunch).

Subject: CU Principal Program Review
Attachments: Principal Luncheon Oct 6.pdf

Dear Superintendents,

First we want to thank you for your work already done in helping us to develop a Principal Certification Program based on our regional superintendent needs assessment. Many of you responded to our surveys from January of 2015 as to the need for a program with regional perspectives. You encouraged your principals to respond to a survey (October, 2015) on program requirements they found to be of most importance or what was lacking in their own preparation. We are now at the point where we are finalizing some of the courses and would like to have input from current and former principals on areas such as clinical experiences, assessments and resources. The attached letter is an invitation to a luncheon for representatives from your district to collaborate with some of our graduate faculty on these topics. The date is October 6 at 11:30 (EST) and we expect to conclude around 1:30 (EST) to allow folks time to get back to buildings before the end of the school day. We are asking for a confirmation of attendance (with a number) so we can adequately prepare for the lunch, which can be done with an email to me. We respect your administrative team's time and will efficiently utilize their attendance. Please forward the attachment to those in your district you feel may have an interest in participating at this level of our program development.

I could meet at 8:00 AM Wednesday this week or anytime on Friday to review the MOA for the Principal Program. Would this work for you?

That is great news. I am out of office today. I will check my calendar tomorrow and suggest a few times for next week. This program has potential to help us grow our own and help with reducing turn-over in our leadership positions. Thank you.

We would love to partner with Campbellsville University! If you have time available to come by to discuss and then get my signature, I would be happy to meet. Let me know the days and times that work best for you and then I will check that against my calendar. I look forward to meeting with you!

Mrs. Schlosser, you may recall a little over a year ago you responded to a survey about the need for a Principal development program in our region. We have completed writing a program submission for EPSB to initiate just such a program here at Campbellsville University. I have attached a copy of a contract we are asking regional district superintendents to consider signing to show support for the program. The document also includes how you as the district leader would be called upon to vet applicants, identify mentors, and course development. We would also be calling upon you and your top administrators to serve as guest lecturers during course delivery. I have attached a copy of the document for your early review. I would be happy to stop by and visit with you to discuss the program and how we envision P12 district involvement. I appreciate your time to consider this request and will be happy to bring a hardcopy for your signature at your convenience.
