2013 – 2015
UNDERGRADUATE
BULLETIN-CATALOG

MISSION STATEMENT

Campbellsville University is a comprehensive, Christian institution that offers pre-professional, undergraduate and graduate programs. The University is dedicated to academic excellence solidly grounded in the liberal arts that fosters personal growth, integrity and professional preparation within a caring environment. The University prepares students as Christian servant leaders for life-long learning, continued scholarship, and active participation in a diverse, global society.

CORE VALUES

- To foster academic excellence through pre-professional certificates, associates, baccalaureate, masters, and doctoral programs through traditional, technical and online systems
- To provide an environment conducive for student success
- To uphold the dignity of all persons and value diverse perspectives within a Christ-centered community
- To model servant leadership through effective stewardship of resources

CAMPBELLSVILLE UNIVERSITY
1 University Drive
Campbellsville, Kentucky 42718-2799
Telephone: (270) 789-5000 or 1-800-264-6014
FAX: (270) 789-5050
E-mail: admissions@campbellsville.edu
Home Page: http://www.campbellsville.edu

Offices are open Monday through Friday from 8:00 a.m. to 5:00 p.m., Eastern Time.
Visits to the campus are encouraged and welcomed.

This Bulletin-Catalog is for informational purposes and does not constitute a contract between Campbellsville University and any member of the student body, faculty, or the general public. Campbellsville University reserves the right to modify, revoke, add programs, requirements, or costs at any time. Students who have been out of school for at least a year will usually be subject to the requirements currently in effect.

FOUNDED: 1906

LOCATION: Our 95-acre campus is situated precisely in the center of Kentucky, one-half mile from downtown Campbellsville (population 10,500—ninth fastest-growing community in Kentucky), and 40 minutes southeast of Elizabethtown.

Whether it's quiet, natural surroundings you seek, or the faster pace of city life, our campus is ideally located amid peaceful Kentucky countryside, yet is just one and one-half hours from Louisville and Lexington, and two and one-half hours from Nashville. Campbellsville is located on KY 55/US 68 and can be reached from the north via the Bluegrass Parkway and from the south via the Louie B. Nunn Parkway (formerly Cumberland Parkway).

ENROLLMENT: 3,664

FACULTY/STUDENT RATIO: 1 to 13

LIBRARY: Montgomery Library contains more than 160,000 books, over 200,000 e-books, and approximately 25,000 digital periodicals.

DEGREES CONFERRED
Campbellsville University confers degrees at the Associate, Bachelor, and Master levels.

ACCREDITATION:
Campbellsville University is accredited by the Southern Association of Colleges and Schools Commission on Colleges to award certificates, associate, baccalaureate, and masters. Contact the Commission on Colleges at 1866 Southern Lane, Decatur, Georgia 30033-4097 or call 404-679-4500 for questions about the status of Campbellsville University. Campbellsville's music program is accredited by the National Association of Schools of Music (NASM). The teacher preparation program is approved by the Education Professional Standards Board (EPSB) for teacher education and certification and is accredited by the National Council for Accreditation for Teacher Education (NCATE). The NASDTEC Interstate Contract provides opportunity for graduates to earn teaching certificates in other states, although there may be applicable conditions. The Baccalaureate Social Work Program is accredited by the Council on Social Work Education (CSWE). The School of Business and Economics is accredited by the International Assembly of Collegiate Business Education (IACBE).

AFFILIATIONS:
The University is a member of the American Council on Education (ACE), the Appalachian College Association (ACA), the Association of Independent Kentucky Colleges and Universities (AIKCU), the International Association of Baptist Colleges and Universities (IABCU), the Council for Christian Colleges and Universities (CCCU), the Cooperative Services International Education Consortium (CSIEC), the Council for the Advancement for Small Colleges (CASC), the Kentucky Independent College Fund (KICF), the Council for Advancement and Support of Education (CASE), the Council of Independent Colleges (CIC), the Consortium for Global Education (CGE), and the National Association of Independent Colleges and Universities (NAICU).

COLORS:
Maroon and gray.

TELEPHONE:
Access to all offices (270) 789-5000; 1-800-264-6014; FAX (270) 789-5050.

INTERNET:
Campbellsville University’s Internet address is www.campbellsville.edu. Our general email address is info@campbellsville.edu. A directory of employee email addresses is available on the University's website.
HISTORY

Citizens of central Kentucky long realized the need for Christian education. In 1900 the members of the Russell Creek Baptist Association, in a meeting at Salem Baptist Church, Campbellsville, Kentucky, appointed a committee to raise funds for building a school. Work progressed steadily, and in 1907 a building was completed and opened for class work as the Russell Creek Academy. The academy grew and expanded. Improvements were made in the curriculum; new departments were added, and the faculty was enlarged. The institution of Russell Creek Academy became Campbellsville College in 1924. In 1933, Campbellsville was among the first to be admitted to the newly organized Kentucky Association of Colleges and Secondary Schools. In 1949, the College was accredited by the Southern Association of Secondary Schools and Colleges as a junior college.

In October 1957, at the meeting of the General Association of Baptists in Kentucky at Harlan, Kentucky, the Board of Trustees of Campbellsville College was authorized to execute its proposal of expanding Campbellsville College into a four-year institution. In December 1963, the College received membership in the Southern Association of Colleges and Schools (SACS) as an accredited liberal arts junior college.

In December 1994, the Commission on Colleges, acting on the recommendation of the Committee on Criteria and Reports for Institutions at Levels II-VI, approved Campbellsville College for Accreditation at Level III, the offering of the Master of Arts in Curriculum and Instruction.

In April 1996, the Board of Trustees changed the status of the institution to that of Campbellsville University. It is now organized into one college and six schools. The Campbellsville University Louisville Education Center provides primarily non-traditional students the opportunity to complete their degrees in several areas of study in the metro area of the country’s 16th largest city.

As it entered the 21st century, the University continued its growth in student enrollment, academic programs and facilities. Enrollment exceeded 3,000 for the first time in the fall of 2010. Construction of separate men’s and women’s Residence Village has met the growing need for student housing. Expanded athletic programs were aided by the addition of three new structures and the addition of lights to the baseball and football fields. The Winters Dining Hall and the Davenport Student Commons opened in 2005. The Ransdell Chapel was completed and dedicated in 2007.

The University has approximately 358 full-time faculty and staff. There are 47 major buildings, including the Hawkins Athletic Complex, the E. Bruce Heilman Student Complex and the Virginia Pomeroy Flanagan Technology Training Center. The Clock Carillon Tower provides symbolism and sound to the campus community. WCU 88.7 FM, the University’s first broadcast radio station, signed on the air in 2011.

Enrollment at Campbellsville University is anticipated to average over 3,600 for the foreseeable future where faculty, administration, and staff encourage students to strive for excellence in all areas of life and to seek an integration of Christian faith in living, leading, and learning.

EQUAL OPPORTUNITY:

In compliance with federal law, including provisions of Title IX of the Education Amendments of 1972 and Section 504 of the Rehabilitation Act of 1973, Campbellsville University does not illegally discriminate on the basis of race, gender, color, national or ethnic origin, age, disability, or military service in its administration of education policies, programs, or activities; admissions policies; or employment. Under federal law, the University may discriminate on the basis of religion in order to fulfill its purposes. Inquiries or complaints should be directed to Director of Personnel Services, Campbellsville University, UPO Box 784, 1 University Drive, Campbellsville, KY 42718.

COMPLIANCE WITH THE REHABILITATION ACT AND AMERICANS WITH DISABILITIES ACT:

No qualified individual with a documented disability shall be excluded from participation in, denied benefits of, or otherwise subjected to discrimination in any of Campbellsville University’s programs, courses, services and/or activities in compliance with the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. Requests for reasonable accommodations in programs, courses, services and/or activities requires current (i.e., within three years) documentation of the disability after acceptance to the University and before registration.

Campbellsville University is committed to reasonable accommodations for students who have documented physical and learning disabilities, as well as medical and emotional conditions. If a student has a documented disability or condition of this nature, he or she may be eligible for disability services. Documentation must be from a licensed professional and current in terms of assessment. Please contact the Coordinator of Disability Services at (270) 789-5192 to inquire about services.

DISABILITIES

According to the Americans with Disabilities Act, a person with a disability is one who:
- has a physical or mental impairment which substantially limits a major life activity
- has a record of history of such impairment, or
- is regarded as having such an impairment.
Verification of Disability
The Coordinator of Disability Services will ask for documentation to verify the disability, and if appropriate, will cooperate with instructors and Academic Support services to facilitate and track accommodations and services.

No accommodation will be provided without documentation. In addition, Campbellsville University will be unable to provide accommodations in the classroom if the student does not give permission to notify faculty that accommodations are needed. Information regarding a student’s disability is considered confidential. Information will not be released to anyone without the express written permission of the student.

Reasonable Accommodations
- Accommodations are provided on an individual basis.
- Accommodations are provided to support the educational development of students with disabilities.
- In addition to the academic support services available to all Campbellsville University students, some examples of reasonable accommodations include extended time for tests, administration of oral test, note-taking assistance, and use of assistive devices such as calculators or computers.

STUDENT RIGHT TO KNOW AND CAMPUS SECURITY ACT: Campbellsville University complies with the Federal Student Right to Know and Campus Security Act.

CAMPUS FACILITIES
(A Campus Map of Facilities is located inside the back cover)

Campbellsville University is located on a 101-acre tract within the city limits of Campbellsville. A short analysis of each facility follows:

Administration Building (AD) (1940)
The Administration Building houses administrative offices, business services, human resources, student records, business and economics faculty offices, and classrooms.

Alumni Building (AB) (1953/1988)
The Alumni Building houses the Russ Mobley Theater, theater faculty offices, ESL Institute, a student lounge, and classrooms.

Art Building (ART) (2007)
The Art building, which is located directly behind the Art Gallery on University Drive, includes a lobby, classrooms, and faculty offices for the art department.

Art Gallery (AG) (2007)
The Art Gallery is a Bedford stone house is located on University Drive directly across from the Gosser Fine Arts Center. The Art Gallery houses a gallery for showing of art work, a kitchen and additional office space for the art department.

Art Annex (AX) (2011)
The Art Annex houses art classrooms and faculty offices.

Athletic Fields
The athletic fields are as follows: Baseball, Football, Soccer, and Softball.

Badgett Academic Support Center (BASC) (1963/2009)
This structure contains the offices of Academic Support, Career Services, and Introductory Studies as well as the Citizens Bank and Trust Writing/Tutoring Center, the Learning Commons, the Banquet Hall, and an atrium classroom.

Bennett-Smith Nursing Building (NB) (2006)
The School of Nursing is located in a 7,600-square foot building. This facility, which includes two large classrooms, a nursing lab, computer lab, office space and conference room, provides a state-of-the-art learning center.

Betty Dobbins Heilman House (BDH) (1997)
The Betty Dobbins Heilman House is used as a residence for the University President and family.

Broadcast Center (BR) (2005)
The Broadcast Center houses a Class A television station (WLCU), campus radio station (WLCU 88.7 FM), classroom, and offices.

Counseling Center (CSH) (2011)
The Counseling Center is located at 312 North Columbia Avenue. The Center provides confidential personal counseling in a caring atmosphere to assist students in dealing with these innermost needs.
Campbellsville University Professional Center (CUPC)  
This off-campus complex houses classes and offices for Allied Health and Nursing programs and the Center for Distance Education. (2012)

Carver School of Social Work and Counseling (CSW)  
The Carver School of Social Work and Counseling Building houses a mini computer lab, and a student social area for program majors. (2004)

Carver School of Social Work Annex (SWX)  

Carver School of Social Work Faculty Offices (CSA)  

Center for International Education (CIE)  
The Center for International Education is the university-wide clearinghouse of information, resources, and services for international academic exchanges/research, overseas travel opportunities (i.e. study abroad), and immigration policies and regulations. (2005)

Chowning Art Shop (CAS)  
The Chowning Art Shop is a log cabin that dates back to 1780s. It is used to showcase artwork by artists associated with CU—art faculty, art alumni and art students. It is open to the public Tuesdays through Saturdays from 11 a.m. until 2 p.m. daily except national or special university holidays. (2012)

Clay Hill Memorial Forest (CL)  
This 158 acre forested property is located on Highway 289 (Old Lebanon Road). The Joan White Howell Environmental Education Center was constructed on the property in 2001 and provides classroom, pavilion and display areas for visiting school groups. Several plots comprise this nature preserve located in the northern portion of Taylor County. (1996)

Clay Hill Memorial Forest. This is the original plot of 130 acres donated to the University.

Buckman plot. This ten acre plot was purchased from the estate of Ruth Buckman in 1996.

The Edwin Lee White, Sr. Nature Preserve was donated by Edwin Lee White, Jr. and George W. Howell in 2005. This plot is 24 acres.

Feather Creek Nature Preserve was first purchased in 2008 by Taylor County Fiscal Court using funding from the Kentucky Heritage Land Conservation Fund managed the property by CLMF. The court deeded the ten acre plot to the University in 2012.

The Bryan/DeWitt Addition consists of 93 acres and was purchased with grant funding in 2012.

Druien Hall (DH)  
Druien Hall houses classrooms and the offices the School of Theology, Social Sciences and Office of Institutional Research. (1953)

E. Bruce Hellman Student Complex  
This facility houses the Winters Dining Hall and the Davenport Student Commons buildings. The dining hall has a dining room and presidential dining room. The Student Commons houses the Barnes and Noble Campbellsville University Bookstore, Campus Post Office, Chick-Fil-A Express® in the WHL Hardwood Cafe, Starbucks® kiosk and a student lounge. The E. Bruce Hellman Student Complex was named in honor of Dr. E. Bruce Hellman, Campbellsville University graduate and trustee. The Davenport Student Commons was named in honor of Dr. Randy Davenport, former president of Campbellsville University, 1969-1988. The Winters Dining Hall was named in honor of Dr. Ken Winters, former president of Campbellsville University, 1988-1999. (2005)

Education Building (EB)  
This 14,000 square foot facility houses the School of Education. Classrooms, labs, a resource room, small auditorium, a student commons and faculty offices are located in the building. (2009)

Financial Aid House (FAH)  
The Financial Aid House is located on 419 North Columbia Avenue and houses all financial aid services for students. A computer lab is available to assist students with their financial aid applications, scholarship searches, and student loan applications and counseling. (2003)

Gheens Recital Hall (GRH)  
The Gheens Recital Hall, located in the Gossere Fine Arts Center, is a well-equipped facility with seating capacity for over 200 people and is used for a variety of purposes such as student recitals and performances as well as civic events that involve the entire community. The room was named in honor of Edwin Gheens, represented by the Gheens Foundation, Louisville, Kentucky. (1998)
Gosser Fine Arts Center (GC) (1997)
The Gosser Fine Arts Center houses offices for faculty in Fine Arts, classrooms, music practice rooms, and a photography lab. The new area of this building was completed in spring 1998 and includes The Gheens Recital Hall, a band practice room and a chorale room.

Gosser Gym (GG) (2007)
The Gosser Gymnasium houses a multi-purpose gym with a walking track. The Gosser Gym is the home of Tiger Wrestling and includes their locker rooms, and offices.

The 20,000-square-foot Hawkins Athletic Complex houses a weight room, baseball and football locker rooms and coaches’ offices on the first floor. The second floor houses the Human Performance Department, ROTC, faculty offices and classrooms as well as a conference room.

H & W Sport Shop Ronnie Hord Field House (HFH) (1988)
The H & W Sport Shop Ronnie Hord Field House provides offices for men’s and women’s soccer and softball. This building conveniently adjoins Finley Stadium.

Hoffman House
The Hoffman House and Silvicultural Center located at 305 Collins Lane, Campbellsville, Ky., is a 20+ acre property consisting of a log house and approximately 15-acre walnut plantation in a secluded, natural setting. The house is equipped with a full bath, kitchen, two “classrooms”, and a sitting area.

Indoor Practice Center (IPC) (2004)
A 9,600-square-foot facility, designed for athletic practice, the facility also provides an alternate site for large group activities.

JK Powell Athletic Center (AC) (1970)
The Powell Athletic Center houses the offices of the athletic director, sports information, various athletic offices, gymnasium, swimming pool, classrooms, exercise rooms, and dressing rooms. This building is named in honor of the late Dr. J.K. Powell, former president of Campbellsville University 1968-1969.

John M. Carter Hall (CH) (1950/1996)
This building provides faculty offices for the areas of mathematics, CIS, physics, humanities, modern languages, and mass communication. The Carter Hall academic facility also provides space for classrooms, computer and physics laboratories, laser optics lab, instructional media and design labs. This building is named in honor of the late Dr. John M. Carter, former president of Campbellsville University 1948-1968. Formerly used as a men’s residence hall.

Meader Athletic Offices (2012)
This building houses offices for bowling and other student service/support units.

Meditation Chapel (ME) (1971)
A small chapel used for individual and small group prayer, meditation, and Bible study. The structure was donated by Campbellsville Industries.

In addition to its volumes of books and periodicals, the Montgomery Library houses study areas, staff offices, staff work areas, and university archives. Additionally, this facility houses the Bright-Redmond Commons and Books & Beans (a coffee and snack bar). This building is named in honor of the late Dr. Ed Montgomery, who is a former trustee for Campbellsville University.

Physical Plant (PPS) (2007)
A six-acre facility consisting of a large office/shop building and several open storage and parking structures. The university’s fleet of vehicles is parked at this location.

Physical Plant Annex: (2011)
Located at 515 Meader St. on the northwest corner of the campus, this small facility provides storage for grounds keeping and maintenance equipment.

Press Box at Finley Stadium (PB) (1998)
The Press Box is a four-story building that houses a concession stand, football storage, presidential suite, and press area. This building has a total of 3,456 square feet.

Ralph A. Tesseneer Sr. House (RTH) (2011)
Home of the Graduate School, this renovated house is also used for meetings and small receptions. It is named in honor of trustee and benefactor, Dr. Ralph A. Tesseneer Sr.
Ransdell Chapel (RC) (2007)
The Ransdell Chapel consists of an 800-seat auditorium, with room for seating of 100 on the chancel or stage, a large classroom that will seat up to 100 people, and the Baptist Campus Ministry (BCM) offices and BCM student lounge. This facility is named for current trustee and spouse, Dr. George and Betty Ransdell.

Shelby Science Center (SSC) (1963/1997)
The Shelby Science Center houses offices for science faculty, classrooms, laboratories, and a greenhouse.

Student Housing
The University has several buildings used to house students, both on and near the Campbellsville campus.

Broadway Hall (BH) (1997)
On-campus men's dormitory housing.

Central and Todd Apartments (CA) (2000)
Off-campus housing for married and other eligible students.

Fieldstone Estates Apartments (FE) (2008)
Off-campus housing for married and other eligible students.

Off-campus housing for married and other eligible students.

Meadowbrook Apartments (MA) (2007)
On-campus housing for eligible students.

North Hall (NH) (1965)
On-campus men's dormitory housing.

Residence Villages (1999 – 2013)
On-campus suite housing; one for men and one for women. Two groups of buildings comprised of nine total units.

South Hall (SH) (1966/1995)
On-campus men's dormitory housing.

Staple Hall (ST) (1961)
On-campus women's dormitory housing.

Student Activities Center (SC) (1921/1991)
This building, originally built for use as a gymnasium and for assemblies, was renovated in 1991. It houses intramural activities facilities, conference, snack, and game rooms, TV room, and gymnasium. The gymnasium is used for student and community activities and assemblies.

Student Services (SSH) (1998)
This facility provides a one-stop source of services for students. This includes offices for the Dean of Student Services, director for residence life, campus nurse, and security.

Student Welcome Center (SWC) (1998)
The Student Welcome Center (formerly used as the Music Annex) provides a centralized resource for new and continuing students relating to admissions, and continuing studies. The University webmaster's office is also located here.

Virginia Ponser Flanagan Technology Training Center (TTC) (2001)
The Technology Training Center provides training for area business and industry and enhanced technology facilities for the academic community. The Tech Center is furnished with state-of-the-art computers, CAT (computer assisted technology) lab and training facilities. It also houses the Office of Information Technology.

Kelly Hall Tennis Complex (2005)
The tennis complex consists of six lighted tennis courts.

Tuggle-Morris Wellness Center (WEC) (2003)
This addition to Powell Athletic Center houses the wellness center, a classroom/hospitality room, athletic training facility, and offices for coaches and trainers. This facility is named after the parents of Dr. David Morris, a member of the Board of Trustees.

Theater Studio (TS) (2012)
This structure houses the dance studio and costume/prop shop for the Theater Department.

Turner Log Cabin

University Communications (CMH) (2002)
The Office of University Communications is located at 526 Hoskins St., across from the Betty Dobbins Heilman House (President's Home). The Office of University Communications is responsible for the University's advertising, news releases, media relations, photography, the alumni magazine, the Campbellsvilleian, and external and internal publications.
CENTERS, INSTITUTES, AND SPECIAL PROJECTS

THE BAPTIST HERITAGE SERIES
The mission of Campbellsville University's Baptist Heritage Lecture Series is to promote the study, discussion, and research of Baptist historical events, theological distinctive, traditions and leaders that are unique and essential to understanding who Baptists are.

CHRISTIAN WOMEN’S JOB CORPS
The purpose of the Christian Women’s Job Corps, a ministry of Women’s Missionary Union, is to provide a Christian context in which women in need are equipped for life and employment; and a mission context in which women help women.

CLAY HILL MEMORIAL FOREST
Campbellsville University’s Clay Hill Memorial Forest is a 158 acre educational and research woodland developed by the Division of Science as a regional center for environmental education and research on eastern deciduous forests. Clay Hill Memorial Forest includes two designated management areas, the Joan White Howell Environmental Education center and the Dr. James Sanders White Forest Management Woodland.

ENGLISH AS A SECOND LANGUAGE INSTITUTE (ESLI)
The mission of the English as a Second Language Institute is to serve the Campbellsville University community by providing to non-native speakers of English, in an environment of Christian faith, an interrelated curriculum to prepare them for full-time study in the University by assisting them in developing proficiency in English with programs of instruction in English grammar, reading, vocabulary, writing, conversation, pronunciation training, and listening comprehension.

FIRST CLASS-FIRST YEAR EXPERIENCE (FYE)/SERVANT LEADERSHIP
FIRST CLASS/First Year Experience (FYE) seeks to prepare students for a life of Christian character development, servant leadership, and biblical stewardship.

KENTUCKY HEARTLAND INSTITUTE ON PUBLIC POLICY (KHIPP)
The Kentucky Heartland Institute on Public Policy was established for purposes of focusing attention on and debate of public policy issues at the regional, state, national, and international level. A wide range of public issues is studied and presented by the Institute for the purposes of engaging Campbellsville University students, faculty and staff, and the general public, in a greater awareness and understanding of the myriad issues confronting our culture. KHIPP is committed to preparing Christian civic and political leaders for the 21st century. A greater awareness of the public policy process and understanding of the numerous issues being debated in our nation is essential for the citizenry as a whole.

KENTUCKY HEARTLAND OUTREACH (KHO)
The Kentucky Heartland Outreach is an organization created to minister to Taylor and surrounding counties through services that enhance living for those less fortunate by repairing homes and restoring lives through the empowerment of Jesus Christ. This ministry will allow University students and church groups to work evenings, weekends, and summers serving the needs of the community.

THE REUBEN AND JEWEL ROBERTSON WORSHIP ENDOWMENT PROGRAM
The purpose of the Reuben and Jewel Robertson Worship Endowment program is to encourage authenticity and vitality in the corporate worship of Baptist people. Some of its goals are to encourage the rediscovery of Biblical and historical roots of Christian worship, to study Baptist traditions in worship and to assist in the revitalization of all elements of worship.
ADMINISTRATIVE POLICIES

CU Credit Hour Policy

Academic credit is a measure for the amount of engaged learning time expected of a typical student enrolled not only in traditional classroom settings but also laboratories, studies, internships and other experiential learning, and distance and correspondence education. Campbellsville University defines one academic credit hour using the “Federal Definition of the Credit Hour: A credit hour is an amount of work represented in intended learning outcomes and verified by evidence of student achievement that is an institutionally established equivalency that reasonably approximates:

1. Not less than one hour of classroom or direct faculty instruction and a minimum of two hours of class student work each week for approximately fifteen weeks for one semester hour credit, or the equivalent amount of work over a different amount of time. Normally, one credit hour associated with a class meeting for 50 minutes per week for an entire semester (or the equivalent 750 semester-minutes, excluding final exams), or

2. At least an equivalent amount of work as required outlined in item 1 above for other academic activities as established by the institution including laboratory work, internships, practical, studio work, and other academic work leading to the award of credit hours (that each in-class hour of college work should require two hours of preparation or other outside work).” or

3. Hybrid Classes and Distance Education Classes:

Academic technology may be used to replace face-to-face class meetings in full or in part (Hybrid). Hybrid courses are those courses offered replacing a portion (less than half) of the traditional face-to-face class instruction with technology as the instructional modality. The remaining communication is face-to-face, similar to traditional classes. An outline class is a course offering in which the majority of the Instruction occurs when the student and instructor are not in the same place, but it may require synchronous or asynchronous meetings within the given academic term. A Distance Education Class is a course offering in which communication between faculty and student occurs primarily via academic technology, but it may also include off-site meetings through ITV (Interactive televised modality). Credit hours for hybrid and distance education courses are based on equivalent student learning outcomes as classes offered face-to-face. The mode of instruction is normally shown in the university course schedule.

Intellectual Property Policy

University employees and students are encouraged to public, copyright, invent, and patent materials/objects of their own creation that will contribute to the advancement of knowledge. The University shall encourage this and shall protect the interest of its personnel and students in relation to disclosure of scientific and technological developments, including inventions, discoveries, trade secrets, computer software, and original works and ideas which may have monetary value. The University shall ensure that public and University funds and property are not used for personal gains. The author, creator, or Inventor is free to benefit from royalties and monies accruing form such publication or invention subject the following guidelines:

1. All classes of intellectual property, scientific and technological developments, materials or objects created on the employee’s or students’ own time, and with the use of University facilities, equipment, materials, or support, shall be the sole property of the creator.

2. Materials or objects created by employees and students at University expense or on University equipment shall be the property of the University. The University, in return for unrestricted license to use and reproduce original work without royalty payment, shall transfer to the creator of that work full ownership of any present or subsequent copyright/patent in accordance with the following paragraph.

3. In the event that materials or objects are sold to entities outside the University, all income shall go to the University until all developmental expenditures incurred by the University for that project, including stipends paid to the developer (over an above contract salary), prorated support, salaries, supplies, and other expenses related to the creation of the materials or objects, area recovered. Thereafter, all remunerations as a result of copyright publication or patented sale shall go to the creator(s) of the materials or objects.

4. The University shall ensure equity and management participation on the part of the inventor or inventors in business entities that utilize technology created at the institution of higher education.

5. No University employees or student shall realize a profit from materials sold exclusively to Campbellsville University students.

6. When instructional materials developed by the faculty is sold in the Bookstore for a profit, the publisher of the material must be approved by the Administrative Council.
7. All projects funded by the Appalachian College Association (ACA) will confirm to the ACA Intellectual property Policy, namely, "to encourage Proposals and practices that promise to yield products for a broad public use and to discourage those that involve or promote proprietary interest except to the extent that a charitable end may also be served." All products developed with ACA funds shall remain the property of Campbellsville University and ACA if other colleges or universities are involved in the project, ACA shall retain ownership.

Any University employee who intends to create materials or objects developed wholly or partially using University time, equipment, materials, or facilities, and who intends to copyright, patent, or otherwise merchandise those materials or objects will inform the University President through the appropriate Vice President of that intent. The University will initiate an institutional review of scientific and technological disclosures, including consideration of ownership and appropriate legal protection. The President reserves the right to have final approval of the outcome of the review prior to initiation of any work which involves the use of University resources. No properties are excluded from consideration under this policy.

Licensing authority shall rest with the Board.

Personnel of divisions or units whose function is to produce educational materials may not realize a profit from the sale of those materials. In the case of materials produced exclusively by these units, copyright will be held by Campbellsville University. Materials produced under an externally funded grant will be guided by the terms of the grant.

An inventor is not granted any right to share in equity resulting from his or her invention and is not granted any right to participate in the management of a business related to the development of his or her intellectual property.
ADMISSIONS OVERVIEW

Students with strong commitments to improving their knowledge and professional skills for the benefit of mankind are welcome at Campbellsville University. They will find daily challenges, constant encouragement, friendly support, and numerous opportunities for advancement and self-fulfillment.

Admission of all students to Campbellsville University is under the authority of the vice president for admissions and student services. Entry requirements for each of the various types of students who enroll are identified in the following table. Completed applications with credentials and fees, as appropriate, should be submitted well in advance of the desired starting term and sent to:

Vice President for Admissions and Student Services
Campbellsville University
UPO 782
1 University Drive
Campbellsville, KY 42718-2190

Application materials will be carefully reviewed and evaluated by the Office of Admissions professional staff.

Accepted applicants are expected to possess high motivation, initiative, discipline, open-mindedness, tolerance, respect for the freedom of inquiry, and a strong desire to search for truth. Members of all cultural, racial, religious, national, and ethnic groups regardless of sex, economic status, or social standing who desire to attend this Christian University are encouraged to apply.

Interested students desiring specific information concerning the University, including admissions requirements, the availability of financial assistance, academic programs and standards, and campus life may write, visit, or call the Office of Admissions.

The Office of Admissions is located in the Student Welcome Center, at the corner of Hoskins Street and University Drive. The telephone number is (270) 789-5220. Interested students and applicants are encouraged to call toll free at 1-800-254-6014. Office hours are from 8:00 a.m. until 5:00 p.m. (Eastern time zone) Monday through Friday, and by appointment only on Saturday.

Additional Requirements for Students at Regional Centers:
- Must be 23 years of age or older; or
- Hold an associate degree from a regionally accredited institution
Additional Requirements for International Students:

- All/Any Foreign Academic Credentials evaluated by World Education Service (WES – www.wes.org), demonstrating equivalency to completion of US Secondary Education.
- Demonstrated English proficiency (for students whose English is not a native language) by:
  - Presenting an official TOEFL score report of 61 (or higher on the iBT) or 500 (or higher on the iBT)
  - Presenting an official IELTS score report of 5 or higher
  - Successful completion of the ESL’s program

Admission of freshmen to Campbellsville University is primarily reserved for students who have completed college preparatory programs in high school with good records of academic achievement while promoting well-rounded personal development through participation in various organizations and extracurricular activities. Additionally, Campbellsville University will always remain an institution of special opportunity for the few students, despite lower levels of accomplishment in high school, who are deemed fully capable of and highly motivated to achieving success in college.

To enter Campbellsville University as a degree-seeking freshman, a student will take the following steps:

1. Submit a completed APPLICATION FOR ADMISSION (available from the Office of Admissions) with an application fee. The application fee is not refundable. Students may also apply online at www.campbellsville.edu.

2. Arrange for the Office of Admissions to receive an official high school transcript (both current, if applicable, and final showing date of graduation) and an official score report from an American College Testing Program (ACT) or Scholastic Aptitude Test (SAT) examination. Students who are 25 years or older are not required to take the ACT or SAT exam (if scores are not available) unless required in their field of study.

3. Arrange for the Office of Admissions to receive official transcripts for any college credits received before entering Campbellsville University.

4. Acceptance may be granted as soon as a student has successfully completed six semesters in high school and taken the required placement exam.

A high school student desiring to attend Campbellsville University should apply for admission early during his or her senior year. When taking the ACT or SAT examination, an interested student should list Campbellsville University to receive the official test scores directly from the national testing center. The college code number is 1500(ACT)/1097(SAT). If this is not done at the time of the examination, the student may send a completed request form (available from the Office of Admissions) to ACT or SAT to have the test results sent to the University. In the meantime, unofficial ACT or SAT scores (for example, as listed on a student’s high school transcript) should be provided to the Office of Admissions to expedite the process of determining eligibility for provisional acceptance and the award of academic scholarships. However, formal acceptance for admission to Campbellsville University will be granted only when the student’s official and final high school transcript (showing date of graduation) and official ACT or SAT score report have been submitted to the Office of Admissions staff for review and approval.

If any degree-seeking applicant’s grade point average or ACT score does not meet the University’s minimum requirements (2.0 GPA, 19 ACT, 1330 SAT), the Admissions Committee, appointed by the President of Campbellsville University, will determine if the student should be admitted on a conditional basis. Such an applicant is encouraged to submit any information and recommendations that might be useful during the evaluation. A determination will be made of the likelihood of the student achieving academic success at Campbellsville University in view of the high academic standards maintained at the institution. The classroom performance of each conditionally accepted applicant will be closely monitored.

Degree-seeking students who are not high school graduates may present their scores on the Test of General Education Development (GED) and a State Department of Education Certificate (or equivalent) in lieu of high school transcripts. An average GED test score of at least 450 is required (with no score on any one test less than 410). As with other entering freshmen, these students are required to take the ACT or SAT examination.

HOME SCHOOLED STUDENT ADMISSION
To enter Campbellsville University as a degree-seeking freshman, a student will take the following steps:

1. Submit a completed APPLICATION FORM (available from the Office of Admissions) with the application fee. The application fee is not refundable.

2. Arrange for the Office of Admissions to receive an official transcript of all coursework completed on a high school level. The curriculum used will need to be listed as well as the tests used for each class. Any laboratory experiences will also need to be documented along with the facilities (name and location) available for the experiences.

3. Submit an official score report from an American College Testing Program (ACT) or Scholastic Aptitude Test (SAT) examination.
4. When accepted for admission, provide an enrollment fee to guarantee entry to the University during the desired semester. Also, a placement exam will be required.

5. Arrange for the Office of Admissions to receive official transcripts for any college credits received before entering Campbellsville University.

TRANSFER STUDENT POLICY
Students who have attended other colleges or universities and desire to obtain degrees from Campbellsville University will take the following steps:

1. Submit a complete APPLICATION FOR ADMISSION FORM and a non-refundable application fee.

2. Arrange for the Office of Admissions to receive an official transcript (containing a complete record of all courses attempted) from each college or university previously and currently attended.

3. If transferring less than 24 semester hours of credit, arrange for the Office of Admissions to receive an official and final high school transcript and an official ACT or SAT score report.

4. When provisionally accepted, provide an enrollment fee.

At minimum, a transfer student desiring to enter Campbellsville University must be in good standing and eligible to return to his or her previous institution.

If the college or university transcript does not clearly show that the transfer student graduated from high school, the Office of Admissions must receive the applicant's official and final high school transcript regardless of total credit hours previously attained.

Transfer credit evaluation is under the authority of the Director of Student Records, who determines the applicability of transferred work from accredited institutions to the student's degree program.

The University accepts all credit hours earned from a regionally accredited institution. A transfer credit evaluation determines how those hours are applied to the student's program of study and academic degree. Credits from non-regionally accredited institutions are considered on an individual basis and must be approved by the dean and lead professor.

International Students must submit all/any foreign academic credentials to be evaluated by World Education Services (WES – www.wes.org). Credit transfer will be based upon the evaluation report and review of English translations of the course descriptions being considered for the credits to be transferred.

Credits of students transferring from accredited colleges and universities will be accepted when they meet the scholastic standards required at Campbellsville University. Although credit for a "D" grade will transfer, students must repeat any English composition courses, any developmental studies courses, and any courses in their majors, minors, and areas of concentration taken elsewhere in which "D" grades were received. Evaluation of general education courses will be completed by the Office of Admissions.

Transfer students must complete all of the University's requirements for graduation including at least one third of the course requirements in their majors, minors, and areas of concentration at Campbellsville University. The final 30 hours of credit must be completed in residence. A minimum of twenty-five percent of the course work required for graduation must be completed at Campbellsville University.

An individual who has satisfied the requirements for an associate degree at an accredited junior or community college may transfer 73 semester hours of credit to Campbellsville University. After enrolling at Campbellsville University, such a student may transfer an additional three semester hours of credit when approved in advance by the Director of Student Records.

FORMER STUDENT READMISSION
Students who previously attended Campbellsville University may be readmitted in a degree-seeking program if they are in good standing with the Institution. A completed APPLICATION FOR ADMISSION FORM and non-refundable $20 fee should be submitted. The Office of Admissions staff will determine the standing of the applicant with the Office of Student Records, Office of Student Services, and Office of Business Services.

Former students with cumulative grade point averages below the University's minimum standard will be considered individually by the Admissions Committee. A former student who had been suspended for a semester must be approved by the Admissions Committee to be reinstated.

If an individual was a student at any other college or university since last enrolled at Campbellsville University, he or she must arrange for the Office of Admissions to receive an official transcript from each institution attended. Special students (see page 20) are encouraged to apply credits earned toward desired degrees at Campbellsville University. A Special Student may apply for admission as a degree-seeking student (full-time or part-time) by submitting an APPLICATION FOR ADMISSION FORM with non-refundable $20 fee, an official and final high school
transcript (or GED test score certificate), an official ACT or SAT score report, and official transcripts from all other colleges and universities previously attended. All credits earned as a Special Student at Campbellsville University may be applied to graduation requirements at the institution.

ACCEL – Accelerated College Choice for Evening Learners
This program is open to transfers and first-time college freshmen. First-time college students must be at least 23 years of age to be considered for admission to this program. An individual who has either graduated from high school or achieved an average GED test score of at least 450 (with no score on any one test less than 410) may enroll in the ACCEL program. This program enables a student to obtain an Associate’s degree in General Studies or Early Childhood Education (this program does not lead to teaching licensure) or a Bachelor’s degree in Organizational Management or Early Childhood Education. This program does not lead to teaching licensure. All classes meet during the evening hours between 4:00-10:30 p.m. (EST). To be full-time, the student register for two-classes per each bi-term session. Summer sessions will also be offered.

To enter the program, an APPLICATION FOR ADMISSION FORM (available from the Office of Admissions) should be completed and submitted with a non-refundable $20 fee. No enrollment deposit is required. Students may also apply online at www.campbellsville.edu.

Students must:

1. Submit a Campbellsville University Application for Admission.
2. Submit an official and final high school transcript or GED.
3. Submit official transcripts from all colleges and universities previously attended.

SUMMER SCHOOL ADMISSION
The summer session of Campbellsville University provides an opportunity for regular university students to continue their work leading to a bachelor’s degree. Though offerings are less varied than during the fall and spring semesters, the summer curriculum includes a wide range of courses for undergraduates, teachers, and high school graduates who wish to qualify for advanced standing. The course offerings lead to either an associate or bachelor’s degree and to teaching credentials.

The summer term is comprised of several sub-terms of various lengths. The summer courses are planned to meet the educational needs of the students.

Students planning to attend summer school at Campbellsville University will submit a completed APPLICATION FOR ADMISSION FORM with non-refundable fee. Regular credentials are required. Transfer students and former students must be in good standing to gain admission.

INTERNATIONAL STUDENT ADMISSION
Campbellsville University is authorized under federal law to enroll non-immigrant International students. Undergraduate international students will take the following steps to gain admission to the University:

1. Submit an International Student Application or apply online at www.campbellsville.edu
2. Demonstrated English proficiency (for students whose English is not a native language) by:
   1. Presenting an official TOEFL score report of 61 (or higher on the iBT) or 500 (or higher on the iBT)
   2. Presenting an official IELTS score report of 5 or higher
3. Successful completion of the ESU’s program Official SAT or ACT exam results (required for native English speaking students only)
4. Copy of Secondary School Transcript
5. Copy of all University / College Transcripts (if you have 24 credit hours or more, it is not necessary to send the Secondary School Transcript)
6. A copy of each transcript in English
7. World Education Services evaluation of Secondary School Transcript and all University / College Transcripts outside of the U.S. (www.wes.org). If you have never attended a college or university, select the Document evaluation. If you have had any college or university, select the Course-by-Course evaluation. Please be sure to include Campbellsville University as a recipient on the application. (This must be completed and received by CU before students are eligible for athletics.)
8. Bank Statement showing sufficient funds to study for one academic year
9. Completed Housing Application
10. Completed Medical History Form
11. Copy of Passport photo page

When notified of acceptance, an international student will send to the Office of Admissions an enrollment deposit of $100 non-refundable. Upon receipt of this deposit, Campbellsville University will issue the I-20 form needed by the individual to obtain a student visa. In subsequent years, full payment will be made by the international student at the start of the semester. Upon arrival on campus, additional class placement exam is required.

INSTITUTIONAL SERVICE PROGRAM
The Institutional Service Program is for inmates, guards, and administrative personnel at confinement facilities. Admission requirements will be
limited to completion of an abbreviated APPLICATION FOR ADMISSION FORM and application(s) for financial assistance. Official transcripts will be required from both high school and all colleges attended.

COMMUNITY OUTREACH PROGRAM
The Community Outreach Program is for students at other off-campus locations, including factories, schools, churches, and hospitals. To enter this program, a student will take the following steps:

1. Submit an abbreviated APPLICATION FOR ADMISSION FORM.

2. Degree-seeking students will need to complete an application(s) for financial assistance.

3. Provision of high school (or GED score report) and/or college transcript(s), as appropriate, upon completion of nine semester hours as a Campbellsville University student. In coordination with the Office of Student Records, the Office of Admissions will review transcripts and academic progress to determine if continued enrollment is desirable. Each student will receive academic advising and career counseling by Office of Admissions personnel before enrolling for the fourth course as a Campbellsville University student. Degree-seeking students with low grades will be considered by the Admissions Committee.

REQUIREMENTS FOR NON-DEGREE-SEEKING STUDENTS

SPECIAL STUDENTS
Anyone 19 years of age or older who desires to take college courses for credit but not in a formal degree program may apply for admission as a Special Student. Normally, credentials such as transcripts and ACT or SAT score reports will not be required. However, students who have previously attended colleges and universities should arrange for the Office of Admissions to receive their official transcripts from those institutions. Similarly, individuals who have previously attended Campbellsville University should clearly identify themselves as former students when applying for admission as Special Students to ensure that they receive proper credit. Neither an admission fee nor an enrollment deposit is required from a Special Student. A maximum of two courses may be taken by a Special Student during a regular semester. With satisfactory academic progress, the student will be eligible either to continue enrolling as a Special Student or to follow regular admissions procedures for entering a degree program (see above).

SENIOR SCHOLARS
Provided space is available, any person 62 years of age or older who has graduated from high school (or equivalent), may take undergraduate courses for credit at Campbellsville University with full waiver of tuition cost. No application fee, credentials, or enrollment deposit are required. Senior Scholars may also audit (without credit) undergraduate courses for free.

AUDITING STUDENT
An individual not currently admitted to Campbellsville University who wishes to audit a course should submit a completed APPLICATION FOR ADMISSION FORM. Prior approval to audit a specific course must be obtained from the instructor of the class and from the Director of Student Records. No application fee, credentials, and enrollment deposit are required from an Auditing Student.

SPECIAL PROGRAM REQUIREMENTS

VISITING STUDENTS
A college student registered for a degree program at another accredited institution may be admitted as a Visiting Student at Campbellsville University during any semester or term. An application fee, credentials, and enrollment deposit are not required. However, a letter of permission from the Registrar of the Visiting Student's college or university must be provided to the Office of Admissions prior to registration.

STUDENT ACCEPTED BY OTHER ACCREDITED INSTITUTION
A recent high school graduate who has been unconditionally accepted by a regionally accredited college or university for admission during the fall semester may be admitted to Campbellsville University during the preceding summer school. The student should submit a completed APPLICATION FOR ADMISSION FORM and a photo copy of his/her letter of acceptance from the other college or university. No application fee, credentials, and enrollment deposit are required.

SUMMER HONORS PROGRAM STUDENT
Outstanding high school students who wish to increase their knowledge, enrich their academic backgrounds, and participate in a stimulating introduction to college work are encouraged to seek admission to the Summer Honors Program at Campbellsville University. Such a student who has completed his or her sophomore or junior year in high school with at least an overall 3.0 (B) grade point average and provided with a letter of permission from the high school guidance counselor will be selected as a Summer Honors Program Student. No application fee or enrollment deposits are required.
DUAL CREDIT HIGH SCHOOL/COLLEGE STUDENT
Eligible high school sophomores, juniors and seniors can earn college credit while taking certain high school classes during their school day. Qualified high school teachers teach these courses. To qualify, an individual must have:

1. An overall high school grade-point average of 3.25 on a 4.0 scale and 21 or higher ACT composite, or 1450 SAT score. A student may have a 3.0 grade point average with a 23 ACT composite/1570 SAT score. The ACT score in the subject area that corresponds with the dual class he/she is taking must be at least 19. If using the PLAN or PSAT, the student must rank in the 60th percentile or better in related subject and composite, and the student must have a grade point average of 3.25 or better.

2. A letter of recommendation from the guidance counselor or principal.

A student is restricted to enrolling in no more than two dual credit courses per semester. A high school student enrolled in dual credit may take one additional college course per semester with Campbellsville University as a high school honors student. This class may be on the campus of Campbellsville University or at an extension site.

HIGH SCHOOL HONORS PROGRAM
Outstanding high school students who wish to increase their knowledge, enrich their academic backgrounds, and participate in a stimulating introduction to university work are encouraged to seek admission to the High School Honors Program on the campus of Campbellsville University. A student must be a junior or senior in high school with an overall 3.0 (B) grade point average and provided with a letter of permission from the high school guidance counselor. The student will then be selected as an Honors Program Student.

MILITARY PERSONNEL AND VETERANS
Individuals serving in the U.S. Armed Forces and those who have completed such service are welcome as Campbellsville University students. The Kentucky Approving Agency for Veterans Education (SAF) has approved some programs offered by Campbellsville University for G.I. Bill benefits for veterans and other eligible persons. Eligible students should follow the appropriate application procedures required for those particular programs. Campbellsville University also participates in the Yellow Ribbon Program.

ADVANCED CREDIT OPPORTUNITIES
Campbellsville University participates in both the Advanced Placement Program and the College Level Examination Program (CLEP) of the College Board. Additionally, the University gives advanced credit for outstanding ACT and SAT scores in English and in mathematics. As a result, entering students have numerous excellent opportunities to obtain advanced credit while receiving substantial tuition savings.

Achieving any of the high ACT or SAT scores listed below will result in the following advanced credit for an entering degree-seeking student:

<table>
<thead>
<tr>
<th>ACT English</th>
<th>SAT Critical Reading</th>
<th>ACT Mathematics</th>
<th>SAT Math</th>
</tr>
</thead>
<tbody>
<tr>
<td>29</td>
<td>630</td>
<td>30</td>
<td>580</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Course Earning Credit</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENG 111 English Composition</td>
</tr>
<tr>
<td>MTH 110 College Mathematics</td>
</tr>
</tbody>
</table>

For example, such a student with ACT standard scores of 29 in English and 30 in mathematics would be entitled to bypass both English 111 (Freshman English I) and Mathematics 110 (College Mathematics) and automatically receive a total of six semester hours of credit.

Entering students who have satisfactorily completed College Board Advanced Placement courses and who present scores of "3" or higher on Advanced Placement examinations will automatically receive appropriate course credit toward a degree. A student presenting such grades for the equivalent of 27 semester hours of courses will be awarded immediate sophomore standing at Campbellsville University.

A maximum of 32 semester hours of advance credit applicable toward a degree may be earned through the College Level Examination Program (CLEP).

Military personnel seeking the completion of a baccalaureate degree at Campbellsville University may be awarded additional advanced credit. In addition to a maximum of 32 hours of credit through the College Level Examination Program, such a student may accumulate up to 12 hours through the Evaluation of Educational Experiences in the Armed Forces program and 12 hours for attending military service schools. However, the total advance credits military personnel may be awarded is 50 hours.

After attending Campbellsville University for one school year, a veteran who honorably completed two years or more of U.S. military service will receive eight semester credit hours of military service toward graduation requirements.

INTERNATIONAL BACCALAUREATE STUDY
The International Baccalaureate Program is an internationally recognized curriculum that is taught at numerous high schools in the United States and other countries. Score reports should be included with the student's final high school transcript or from the international
Baccalaureate office.

CAMPUS VISITS

Interested students are strongly encouraged to visit the University. The best way to acquaint themselves with Campbellsville University and to decide if they would be successful and happy at this University is to spend time on the campus meeting students, faculty members, and administrators. Students planning to visit the campus should make advance arrangements with the Office of Admissions staff personnel. If possible, call at least one week prior to arrival so the visit may be properly and carefully planned to ensure greatest benefit from it. Visits conducted when classes are in session are most beneficial.

Advance arrangements for overnight accommodations and meals normally may be made by contacting the Office of Admissions at (270) 789-5220 or toll free at 1-800-264-6014, extension 5220. Visiting students will be the guests of Campbellsville University.
PAYMENT POLICY AND DUE DATES

PAYMENT OBLIGATION
Registration constitutes a financial contract between students and the university. Students’ right to university services and benefits is contingent upon their making all payments as agreed upon. If students do not make payments of amounts owed to the university when they become due, the university has the right to cancel students’ registration; to withhold their grades, transcripts, diplomas, scholastic certificates, and degrees; to prohibit registration in future semesters or terms.

PRIOR BALANCES
Students must have a "zero" balance in order to register for a new term or request an official transcript.

PAYMENT DUE DATES
In order for a student’s registration to be complete, students must either pay all tuition and fees in full or enroll in a monthly payment plan with Campbellsville University by the following dates:

Fall Semester       August 1
Spring Semester     December 15
All other Terms     First day of class

Students whose financial aid is insufficient to pay all registration charges, or who applied for financial aid too late to be approved prior to registration, must pay their balances in full or be enrolled in a monthly payment plan.

All student account balances not paid or enrolled in a payment plan by the due date will be automatically enrolled in a 4-month plan with Campbellsville University and a $50 enrollment fee will be charged to your account.

WITHDRAWAL, REFUND, AND DROP POLICY

WITHDRAWAL POLICY
The completion of registration contractually obligates the student and his/her benefactor(s) to pay all his/her tuition and fees for the entire semester. However, the University has established a withdrawal and refund policy to accommodate the need for a student to withdraw. The official withdrawal date is the last day of class attendance. When a student withdraws, he/she must complete an Official Withdrawal Form obtained from the Office of Academic Affairs. The withdrawal form should be completed and signed by each office indicated on the form, then signed by the student and returned to the Office of Academic Affairs.

INSTITUTIONAL REFUND POLICY
Tuition and room/board refunds are calculated on the basis of your official withdrawal date. Once the withdrawal period is over, any student who withdraws from the University will be held responsible for tuition and room/board charges in full. All fees are non-refundable. Please investigate the financial effects of withdrawal before you make a decision.

A student’s withdrawal may require that part or all of his/her financial aid be repaid. All financial aid that is not federally funded Title IV aid will be refunded at the same percentage as tuition and room/board charges.

All federally funded Title IV financial aid programs are administered according to specific program guidelines and regulations. A student’s eligibility for future federal financial aid can be adversely affected by dropping classes and withdrawing from the University after financial aid funds have been disbursed based upon a particular enrollment status. This is particularly true for the grant programs which have limitations placed upon the number of semesters a student can receive aid. The federal refund policy guidelines can be found in the Federal Student Financial Aid Handbook located in the Office of Financial Aid.

Students should also be aware of the effect that altering their enrollment status may have on their measurable "satisfactory academic progress" status. All students receiving financial aid are advised to seek academic counseling and financial aid advisement before deciding to change their enrollment status.

Room & Board refunded 100% 1st week only - no refunds thereafter.

DROPPED CLASS POLICY

There will be no partial refunds for dropped classes.

Students who drop individual classes before the published last day to register “census date,” will receive no grade and a full refund. Classes dropped after this date will receive a grade and no refund.

Adding a second eight-week course even after dropping a class may result in additional tuition charges.

FINANCIAL ASSISTANCE

General Policies

Financial aid at Campbellsville University is a cooperative investment in youth and focuses on the student as an individual. The programs are intended to remove the financial barrier from students who are unable to pay, to ease the financial burden for those who are able to pay, and to manifest a special commitment to disadvantaged students.

At Campbellsville University, the actual amount of the financial aid award is determined primarily by the student’s financial need. “Need” is defined as “Cost of education” minus “Family Contribution.” The type of assistance a student receives is determined by both need and qualification (i.e. academic achievement, character, and future promise).

APPLICATION FOR FINANCIAL AID

1. Submit an APPLICATION FOR ADMISSION and file the Free Application for Federal Student Aid (FAFSA) form (School Code 001959). This form must be completed and processed before eligibility for financial aid can be determined. The priority date for filing these forms is as soon as possible after January 1. APPLICATIONS RECEIVED AFTER THIS DATE WILL BE AWARDED FINANCIAL ASSISTANCE BASED ON THE AVAILABILITY OF FUNDS.

2. Returning students are required to complete the FAFSA for each academic year in which they wish to be considered for financial aid.

3. Applicants may be required to provide supportive documentation such as Internal Revenue Service report (1040, 1040A or 1040EZ) for their parents and/or student depending upon dependency status. Untaxed income may also require verification by the federal government.

4. Students are required to maintain measurable satisfactory academic progress to maintain financial aid eligibility.

FEDERAL AND STATE PROGRAMS

Federal and State Policies

Federal policy prohibits the University from over-awarding federal or state dollars. Therefore, the University may adjust scholarship amounts if federal aid is involved in order to achieve the best possible aid package.
FEDERAL PROGRAMS

Pell Grant
Demonstrated need based on FAFSA

Supplemental Educational Opportunity Grant (SEOG)
Demonstrated need based on FAFSA; Full-time students

Perkins Loan
Demonstrated need based on FAFSA; Repayment begins nine months after graduation
Loan amount: Varies

Parent Loan for Undergraduate Students (PLUS Loan)
Demonstrated need based on FAFSA; Repayment begins 90 days after loan disbursement
Loan amount: Varies (Cost of attendance – Financial Aid offer = PLUS Loan)

Federal Direct Loan
Demonstrated need based on FAFSA; Repayment begins six months after student enrolls full time
Loan amount: Varies

Work-Study Program
Demonstrated need based on FAFSA and desire to work part time

STATE PROGRAMS

Kentucky Tuition Grant (KTG)
Demonstrated need based on FAFSA; Full-time students

College Access Program (CAP)
Demonstrated need based on FAFSA; Pro-rated for part-time students

Kentucky Educational Excellence Scholarship (KEES)
Demonstrated need based on FAFSA; See KHEAA brochure for details

CAMPBELLSVILLE UNIVERSITY SCHOLARSHIPS AND GRANTS

Scholarship value limitations: If a student receives combined scholarships equal to half-tuition or more, he or she may not be eligible for additional institutional scholarships. In no case will a student’s financial aid package exceed direct cost to the University with scholarship and grants including federal and state grant sources.

Presidential Excellence Scholarship → Renewable three years with required GPA of 3.5
Competitive scholarship, open to students with a score of 33-36 ACT/ 2170-2400 SAT and 3.5 GPA
One scholarship up to full tuition, room and board
Deadline: December 1

Presidential Scholarship → Renewable three years with required GPA of 3.2
Competitive scholarship, open to students with a score of 30-32 ACT/ 1980-2160 SAT and 3.5 GPA
Up to five full-tuition scholarships
Deadline: December 1

Academic Scholarship → Renewable three years provided meeting Financial Aid Satisfactory Academic Progress Policy. Scholarship award to freshmen based on combination of GPA, class rank, and ACT/SAT score
Scholarship amount: varies based upon requirements met; $2,500 - $6,500
Governor’s Scholar Scholarship→ Renewable three years with required GPA of 3.0.
Competitive scholarship awarded to students who have participated in the Kentucky Governor’s Scholars Program; application is required. Scholarships will be awarded to students based on GPA, ACT/SAT score and quality and content of essay. Minimum GPA of 3.5 and 35 ACT/1720 SAT required.
Up to five full-tuition scholarships
Deadline: December 1

Transfer Student Scholarship→ Renewable annually provided meeting Financial Aid Satisfactory Academic Progress Policy. GPA will be calculated based on last college attended
For transfer students from accredited colleges:
Students with GPA 2.0-2.499 → $3,000
Students with GPA 2.5-3.499 → $4,000
Students with GPA 3.5-4.0 → $5,000

Performance Grants→ Some renewable annually based upon student performance
Art, Drama, Journalism, Band and Music grants are rewarded based upon skills in the applicable area demonstrated during interviews and/or auditions
Scholarship Amounts vary.

Athletic Performance Grants→ Renewable
Based on student’s demonstrated abilities, leadership, and potential to excel in the following:
Men’s basketball, bowling, baseball, soccer, cheerleading, football, tennis, golf, cross country, or wrestling, or in women’s basketball, bowling, softball, soccer, cheerleading, tennis, golf cross country, track, volleyball, wrestling, or swimming.
Scholarship amounts vary.

Distinguished Young Women Scholarship→ Renewable annually
1st place, 1st runner up, 2nd runner up, and scholastic achievement winner scholarships are available on both state and county levels of competition
Scholarship amounts vary.

Diversity Scholarships→ Renewable annually
General Association of Kentucky Baptists in Kentucky
Diversity Christian Ministry Scholarship
See office of Financial Aid for details.
Scholarship amounts vary.

CU Grant→
Need-based grant; Eligibility is determined by FAFSA
Amounts vary.

KEES Matching→ Renewable annually based upon KEES renewable eligibility
Student must be a resident of Taylor, Green, Adair, Casey, Cumberland, Hardin, Hart, LaRue, Marion, Metcalfe, Nelson, Pulaski, and Russell counties in Kentucky. Must be eligible to receive the KEES Scholarship, and have a minimum of 19 ACT/1340 SAT.
Scholarship amount: Up to $1500

Baptist Leadership Award→ Renewable annually with required GPA of 2.0 and service to campus offices
For high school seniors nominated by their Baptist pastors; evaluated upon church commitment, achievements and leadership in community, school and church
Scholarship amounts: two half-tuition scholarships; 15 $1,000 scholarships; 45 $500 scholarships

Christian Service Scholarship→ Renewable annually
For students whose parent(s) serves in a full-time, paid Christian ministerial position
Scholarship amount: $1,700

Church Matching Scholarship→ Renewable annually
For full-time students, the University will match any amount up to $200 provided by the student’s church, fellowship, or assembly, making the total scholarship amount equate up to $400
Scholarship amount: $200
Other Church-Related Scholarships
Christian Vocation Grants
Actees Scholarship
Baptist youth Speakers’ Tournament Scholarships
Opdyke Scholarship
Many are renewable annually; each award is based on specific individual requirements—see the Office of Financial Aid for details.
Scholarship amounts vary.

ENDOWED NAMED SCHOLARSHIPS
Endowed Named Scholarships are endowed funds in which the donor specifies that the interest be used for student scholarships.

Badgett-Cloyd Family
Sylvia Hubbard Beard Memorial
Billington-Shiplely Family
Don and June Bishop Athletic
Joseph and LurettaBocher
Margaret Frasher Carter Social Work
Jeff and Gladys Cheatham Math

Harrodsburg Baptist Foundation
Kentucky Baptist Matching Fund
Margaret Fund, SBC
Francis and Ruth Moore, KBF
Opdyke, SBC
Bernie Tichenor, KBF
Women’s Missionary Union, KBC

30
SATISFACTORY ACADEMIC PROGRESS - UNDERGRADUATE

Federal regulations require that all students who receive any federal or state financial assistance make measurable academic progress toward a degree at Campbellsville University. Progress is determined quantitatively (hours attempted versus hours earned and time frame) and qualitatively (GPA). Progress is monitored at the conclusion of spring and summer semesters. Most post-baccalaureate students and those seeking a second undergraduate degree or certificate should be aware that assessment of their satisfactory academic progress status will be based on criteria established for undergraduate students. Those students readmitted to Campbellsville will be evaluated for SAP upon registering for classes. Please refer to the information below for the correct calculation for your program.

Enrollment
A minimum standard for full-time enrollment at the undergraduate level is 12 credit hours per semester. A minimum standard for part-time enrollment (at least half-time) at the undergraduate level is 6 credit hours per semester.

Quantitative
The maximum time frame in which a student must complete his or her degree cannot exceed more than 150% of the published length of the student's major. All undergraduate majors at Campbellsville require a minimum of 120 hours to complete the degree. Campbellsville undergraduate students can therefore attempt up to 180 hours and still be eligible for aid. Once 180 hours are exceeded, eligibility for aid would be suspended. All semesters and credit hours attempted are used toward the maximum timeframe allowance regardless of whether the student received financial aid. All repeated courses, failed courses, withdrawals, courses taken from a change of major and transferred hours will count as credit hours attempted toward the maximum time frame.

In order to complete the necessary number of credit hours to complete a degree at Campbellsville at an acceptable rate, students must complete two-thirds (2/3) of all hours attempted. All attempted hours will be totaled and multiplied by 67% (.67) to determine the number of credit hours a student must have earned. Grades of W, I, and F and transfer hours are counted at attempted hours, however grades of W, I, and F will NOT be counted as earned hours. Retaking courses will add to the attempted total but will count only once as an earned credit.

Example:
Fall Hours Attempted Spring Hours Attempted Total Attempted Student Must Earn
12 12 24 x .67 (2/3) 16
9 9 18 x .67 (2/3) 12
6 6 12 x .67 (2/3) 8

Qualitative
The minimum acceptable grade point average for undergraduate students is 2.0 after 2 years (4 semesters).

Notification of Results
Students that do not meet the Satisfactory Academic Progress requirements will be notified via mail within two weeks of the conclusion of the semester.

How to Regain Eligibility

Quantitative-Maximum Time Frame
To regain eligibility, you must graduate and advance to a new career level (UG to GR).

Quantitative-Hours Attempted vs. Hours Earned
To regain eligibility, take courses at your own expense in a subsequent term or terms and meet the standards according to the cumulative credit hours completion ratio outlined above under the heading Quantitative. Once you have taken the courses and earned passing grades, you will need to notify the Office of Financial Aid to complete a clearance form.

GPA
To regain eligibility, complete courses at your own expenses at Campbellsville and raise your cumulative GPA to the acceptable standard. Once you have completed the courses and raised your GPA, you will need to notify the Office of Financial Aid to complete a clearance form.

Right to Appeal
If there were extenuating circumstances (injury, illness, death of a relative) that prevented you from meeting the standards of our Satisfactory Academic Progress Policy, then you have a right to file an appeal with the Committee for Financial Aid Appeals. In this appeal you must explain the following items: 1.) The reason why you did not meet Satisfactory Academic Progress and 2.) What has changed now that will allow you to make satisfactory academic progress at the next evaluation.

If you appeal is approved, you will be placed on probation for one term, and after the probationary period, you must be making satisfactory academic progress or successfully following an academic plan that has been developed for you. You will be notified via mail or email the results of your appeal.
The Office of Student Services is located at 101 University Drive, across the street from the main campus entrance. The staff consists of the Dean of Student Services, Director of Residence Life, seven residence hall directors, three full-time Campus Safety Officers, the Director of Student Activities and Intramurals, the Campus Nurse, Camps, Conferences and Special Events Coordinator, E. Bruce Heilman Student Complex Coordinator and the Secretary to the Dean of Student Services.

The following information is excerpted from the Campbellsville University Student Handbook. Students are responsible to obtain, familiarize themselves with, and be responsible for the content of the handbook.

STUDENT SERVICES PHILOSOPHY

The Student Services Staff also attempts to facilitate the new student’s adjustment to the University environment. The responsibilities of developing the student begin once a student is admitted to Campbellsville University. The registration/orientation sessions held in spring and summer, as well as at the beginning of the semester, serve to acquaint new students with the campus and University life.

The Office of Student Services works in close cooperation with counseling services, campus ministries, and the academic personnel to provide not only a strong knowledge base, but opportunities for personal growth and development of our students. A major part of the educational process is learning about self and how to relate to others. With this philosophy, the Office of Student Services provides services to students to enhance the uniqueness of each individual in his/her developmental process.

STUDENT SERVICES

The Office of Student Services publishes the Student Handbook which contains detailed information regarding University policies and procedures which apply to the students and the calendar of activities. The Student Handbook is distributed to all students, faculty and staff at the beginning of the fall semester. Please refer to the Student Handbook for more information regarding the student services listed below:

Activities
Efforts are made to assist the student in becoming a fully developed, unique, whole person in Jesus Christ. Students mature through all kinds of interpersonal activities and relationships as well as through academic endeavor. Therefore, a wide variety of activities is planned and coordinated through the Office of Student Services. The Student Government Association plays a significant role in planning campus events, such as Welcome Week, Freshman Week, weekend movies, concerts, game nights, and dances. The Baptist Campus Ministry and other campus organizations provide a variety of activities. The Director of Student Activities/Intramurals coordinates a full-year program of recreation and sports for students as well as other activities.

Health Services
A wide array of student health services is available. They include, but are not limited to first aid for minor injuries, administration of doctor-prescribed treatments and medications, health counseling (physical and mental), referral services to area physicians and specialists. A part-time campus nurse maintains posted hours. The City of Campbellsville has a Level III trauma center hospital and an urgent care center available.

Student Health Insurance Coverage
All full-time student athletes must provide proof of health insurance coverage to the athletic trainer by Sept. 1 of each fall semester they are enrolled in classes. Student athletes enrolling in the spring semester must provide this information by Feb. 1. If a student athlete is covered by parents’ Insurance, a copy of the insurance card, giving company name, address and policy number is required to be on file in the athletic trainer’s office.

All other students are encouraged, but not required to have health insurance. For those students interested in obtaining health insurance coverage, information is available in either the campus nurse’s office or the Office of Student Services.

Identification Cards
All students must have an Identification Card to attend campus activities, to use the swimming pool and recreation room, to eat in the Dining Hall, and to attend open dorms in the residence halls. ID pictures are made by the Office of Student Services. Replacement ID cards cost $10. ID cards are not transferable and will be confiscated if presented by anyone other than the person to whom issued.

Enforcement of University Policies and Regulations
The Office of Student Services is responsible for enforcing the policies and regulations for students on campus. When these policies and regulations are broken, disciplinary action is taken. Details of this process can be found in proceeding pages under Judicial Council Procedures.
Campus Safety and Security

Safety and Security officers are on campus to attempt to provide a safe and secure environment for our students. Whether it be locking/unlocking campus buildings, patrolling campus during the day and night time hours, investigating suspicious acts, monitoring parking lots/issuing parking tickets, unlocking vehicles, etc., it is the goal of the department to help keep our students and the campus community safe and secure.

The safety/security officers are also on hand to assist the residence hall directors or other staff in emergency situations. The office of Safety/Security is located in the office of Student Services Building.

“CU ALERTS” Emergency Mass Notification System

Campbellsville University offers an alert notification system called “CU Alerts.” This notification system provides students with notice of severe weather, campus crisis situations, or important information that could be vital to your safety. The alerts will be in the form of cell phone SMS/text messaging, and voicemail. Students may sign up for the cell phone and voicemail notifications through TigerNet in “my profile” or during the registration process. Faculty and staff may also signup through the Office of Student Services. Cell phone carriers may charge for text messages if you do not have a plan that allows text messaging.

CAMPUS PARKING

Campus Parking

Campbellsville University provides ample parking on campus. With the exception of handicapped spaces and those designated for visitors, guests, and VIPs, parking is unrestricted. All parking lots on campus are considered open parking for all decal categories. However, resident students are requested to park in those lots adjacent to/nearest their residence hall.

A parking decal is required for student driven vehicles, available through the office of Student Services. Campus parking is monitored by University safety/security Officers and student staff. Parking areas adjacent to city streets are monitored and enforced by University safety/security, as well as local law enforcement. Persistent violators’ vehicles may be towed without notification at owner’s expense.

Food Service

Three meals a day are provided weekdays and two each on Saturdays and Sundays. Meals are served in the Winters Dining Hall during regular semesters. All students living in University housing are required to be on one of the University’s meal plans.

STUDENT HOUSING

Campbellsville University provides a variety of on-campus housing options for single students. All residence facilities are gender segregated, smoke-free, and have laundry facilities.

All single students, except those living with immediate family, are required to live in University residence facilities. Approval to live off campus may be granted by the dean of student services if certain criteria are met.

General rules governing campus housing include, but are not limited to, the following

- No firearms, pets, space heaters, burning candles/incense, cooking devices (open flame devices, indoor grills), sexual/alcoholic/illegal substance themed decorations are allowed (Exceptions: microwave ovens, approved aquariums)
- Do not deface walls/ceiling with items designed to hang/display decorative items
- Do not remove or detach furniture from room or walls/floor
- Rooms are to be cleaned weekly and will be checked.
- Damage deemed intentional or excessive will be the financial responsibility of the occupant(s).
- entrances to residence facilities are locked each evening according to a published schedule.
- Visiting hours and “quiet hours” are posted and enforced.
- Overnight guests must register, are subject to a daily charge, and must abide by residence facilities regulations.
- Replacement keys cost $50.
- Rooms are to be locked at all times. The University is not responsible for lost or stolen items from rooms or vehicles.

Room Assignments

Room assignments are made by the Office of Student Services with some priority given to previous occupants and in order of receipt of room requests. The contractual statement of the application must be signed and constitutes a binding agreement between the student and the University. Written request for specific room and roommates are honored whenever possible. The University reserves the right to assign rooms according to the best interest of the student and the University. Requests for private rooms are honored when space is available. In most cases, the student who has lived in the room for the longest period will have priority in assignment of that room.
Lost and Found
Any article found in the residence hall should be turned in to the director. Found articles may be claimed upon presentation of proper identification of the article and evidence of ownership. Lost articles found on campus should be turned in to the Office of Student Services.

Bicycles
Students are allowed to have bicycles on campus. To leave bicycles parked inside the residence hall, the student must obtain an ID tag from the residence hall director to place on the bicycle. Untagged bicycles will be removed from the residence hall. The residence hall director of each residence hall will inform students where bicycles can be placed. Bicycles NOT removed in one week after the spring semester will be donated to a needy child in the community.

Guests
Guests must register with the residence hall director when they arrive. Failure to register visitors with the director or having a visitor more than three nights will result in a $25 fine plus the $15 overnight charge. Guests are expected to observe Residence hall regulations. The resident student is responsible for the guests while they are visiting on campus.

Smoking and Use of Tobacco Products
Campbellsville University realizes the health risks involved in smoking and use of tobacco products. Therefore, in compliance with federal guidelines for a smoke-free environment, smoking and use of tobacco products are strictly prohibited in all residence halls and campus buildings. All residence halls are smoke free. Violators will be subject to residence hall/judicial sanctions.

Fire Protection
Fire drills and emergency fire equipment comprise the key features of the fire protection and response plan. To report a fire, call 911 and give exact directions to the building.

Unnecessary tampering with fire alarms or equipment will result in fines to an individual or group. A false fire alarm is a criminal act (Class D misdemeanor) as covered by the Kentucky Revised Statutes 508.080.

Residence Hall Citations
Citations are given for minor offenses that occur in the residence halls to discourage inappropriate behavior. The citations may be given by Residence Assistants (RAs) and/or the residence hall director. With the first offense a verbal warning will be given; after two citations for the same offense, a fine of $10.00 will be issued; a third citation within the same semester will result in a $25.00 fine. With a fourth citation, the student will appear before the Judicial council, with a possible $50.00 fine could be sanctioned.

Offenses for which citations may be given include:
1. Disrespect for Residence hall director and/or RAs; refusing to obey requests; talking back; harassment, etc.
2. Use of lewd, profane, foul language or cursing.
3. Failure to pass room check.
4. Missed floor or residence hall meeting.
5. Inappropriate dress or behavior; short shorts/strapless tops; no shirt; etc.

Major offenses are subject to immediate action by the Office of Student Services as outlined in the Philosophy of Discipline.

Residence Halls Closed Between Semesters
Students will not be allowed to stay in the residence halls during Christmas break (between fall and spring semesters) or between summer school and the fall semester (end of July to the third week of August). Special permission must be obtained from the director of residence life to remain in residence halls during these times. All belongings must be removed from residence hall rooms after the spring semester and summer sessions to allow for adequate cleaning and use by other groups. Storage facilities are not provided during these break periods. The Winters Dining Hall will be closed and students will be responsible for their meals during these interims.

Athletes needing to stay additional days past the end of semesters or return early before residence halls officially open must have their coach send written requests to the Office of Student Services prior to the end of the semester.

Unauthorized Solicitation and Selling
Any form of unauthorized selling or solicitation or door-to-door distribution of materials, including survey, questionnaires, etc., is not allowed. Student organizations must obtain permission from the Office of Student Services to sponsor a fundraiser. The vice president for development's approval is needed for fundraising activities in the community. No student is allowed to use University property/facilities to conduct private business enterprises.

Television Service
Cable TV hookups are in each room of the residence halls and campus student housing. Each resident student has accessibility to the basic cable channels through Comcast Systems. Listings of the available cable channels and weekly programming are printed in Monday's edition of the local newspaper, the Central Kentucky News-Journal.
A campus/community bulletin board is broadcast on channel 22, the University/Community Channel. It features information pertaining to daily campus and community events; snow days; canceled classes; sports scores, etc. Facilities for this service are located in the Office of Broadcast Services with operation under the same supervision as TV-4.

Telephone Service
The University provides telephone hookups in residence hall rooms or commons areas. No application, deposit, or action is required by Residence hall students to have local service. Each resident is responsible for the telephone in his/her room.

Phones must be push-button tone phones. Most answering machines will work with the phone system. Prior to purchasing an answering machine, it would be advisable to insure that the machine can be returned for a full refund if it is incompatible.

Students may make and receive calls in the residence room directly with no switchboard needed. A student cannot receive collect calls in the room or make calls from any phone and have the call billed to a room number. Any misuse of phone services will be subject to disciplinary actions including fines and restitution. All long distance calls must be made collect or by using a calling card.

STUDENT CONDUCT

SUBSTANCE ABUSE: PREVENTION AND INTERVENTION

Policy Statement
As a Christian institution of higher education, Campbellsville University complies with the federal regulations regarding the Drug-Free Workplace Requirements and, therefore, prohibits the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance on its campus and with University sponsored classes, events and activities. Because the use of alcohol, narcotic drugs, and other mind-altering drugs can be detrimental to the health of individual members of the University community, such use is in direct violation of the standards of the University. This policy applies to students, faculty, staff, and administration as well as university guests/visitors.

POLICY ON AIDS

Statement
Because there is no specific therapy for Acquired Immune Deficiency Syndrome (AIDS) or AIDS related conditions (ARC), an objective of this institution is to increase awareness and to provide education to prevent further spread of this disease. The Campbellsville University AIDS education program is an activity of importance. This program addresses both resident and commuter students.

The University seeks to protect its student body and staff from the transmission of AIDS. Since the current medical information indicates that no actual safety risks are created in a normal academic or employment setting, the administration of effective AIDS education and training programs provides a means for institutions to render enrollment or employment safe and healthful.

SEXUAL HARASSMENT

Statement
Campbellsville University is committed to providing its students, faculty, and staff with an environment free from implicit and explicit coercive behavior used to control, influence or affect the well-being of any member of the University community. Sexual harassment can include physical conduct or verbal innuendo of a sexual nature which creates an intimidating, hostile or offensive environment. Sexual harassment of any person is inappropriate and unacceptable, and are grounds for disciplinary action including expulsion. Legal action may be taken against an alleged perpetrator.

PHILOLOGY OF BEHAVIOR
Campbellsville University was founded with the goal of providing a quality education along with Christian values. Learning, we believe, takes place best where student, faculty, and staff are guided by Christ-like concern and behavior. Moral and ethical integrity are essential to the environment we seek to uphold. All who work, study, and learn at Campbellsville University have the responsibility to affirm the value of and work toward the maintenance of a peaceful and purposeful community.

The University strongly affirms its affiliation with the Kentucky Baptist Convention, yet we are a non-sectarian Institution that is committed to integrating Christian faith and learning. Many religious denominations and faiths are represented on campus. However, it is the responsibility of the entire community to be sympathetic to the stated mission, core values, and behavioral expectations of the University.

Student Behavioral Expectations
A student attends Campbellsville University voluntarily and is expected, for the sake of the community, to conduct himself or herself with a high standard of personal behavior. While we realize that it is impossible to create an academic community whose behavioral norms will be acceptable to every person, we believe that it is important to identify the ways in which individual and community concerns can be harmoniously balanced. Personal and communal values must be formed by specific behavioral expectations (rules and regulations). Campbellsville University has defined the values, behavioral expectations, rights and responsibilities that we feel will create an environment in which students can grow spiritually, morally, and intellectually. Of course, a student whose conduct violates stated behavioral expectations faces specific disciplinary sanctions.
Behavioral expectations are clustered around the following individual and community values: worth of the individual, self-discipline, academic integrity, property and the environment, and respect for authority.

**Worth of the Individual**
Each person in our community intrinsically is a person of worth. We value behavior that appreciates the cultural backgrounds of fellow students and respects the right of persons to hold differing attitudes and opinions. The value of the worth of individual can be violated by behaviors such as harassment and indecent and lewd conduct.

**Self-Discipline**
Each person has the God-given capacity for developing one's self to the fullest extent individually possible. We value behavior that leads to the physical, intellectual, spiritual, social, and emotional well-being of the individual. Indecent and lewd conduct; gambling; disorderly conduct; manufacturing, possessing, consuming, or distributing alcohol; intoxication; and manufacturing, possessing, using, and distributing controlled substances are examples of behaviors which violate the value of self-discipline.

**Academic Integrity**
Each person has the privilege and responsibility to develop one's learning abilities, knowledge base, and practical skills. We value behavior that leads a student to take credit for one's own academic accomplishments and to give credit to other's contributions to one's course work. These values can be violated by academic dishonesty and fraud.

**Property and the Environment**
Each person has the duty to treat with care and respect one's own property, the property of others, and University property. We value behavior that recognizes the rights and privileges of owning and using personal and institutional property. Stealing and being in possession of stolen or lost property, vandalism, setting a fire and arson, tampering with fire and safety equipment, possessing firearms or weapons on campus, possessing or using firework on campus and unauthorized entry are examples of behaviors which violate the value of property and the environment.

**Respect for Community Authority**
Each person recognizes that codes of conduct are necessary for prosperous and peaceful community life. We value behavior that abides by and shows respect for the authorities that administer the rules, regulations, and laws of the campus, city, state, and nation. We value our privileges and responsibilities as members of the University community and as citizens of the community beyond our campus. The value of respect for community authority is violated by possessing, consuming, and/or distributing alcoholic beverages; intoxication; possessing, using, and/or distributing illegal drugs; sexual misconduct; aiding, abetting or conspiring to engage in value violations; violating residence hall visitation guidelines; reckless behavior; lewd and indecent conduct; insubordination; unauthorized and/or unruly demonstrations; driving while impaired; habitually offending motor vehicle rules and regulations; creating a nuisance by talking, yelling, singing, playing a musical instrument, electronic device, etc., loudly enough to disturb members of the University community; and committing a city, state, or federal crime.

**THE JUDICIAL BODIES**
Campbellsville University has established the Judicial Council to hear cases of rule violations and render rulings that can include. Authority, composition, and function of each body are detailed in the Student Handbook.

**STUDENT ACTIVITIES**

**STUDENT ORGANIZATIONS AND ACTIVITIES**
There are a variety of clubs and organizations on campus. Many activities involve students, faculty, and staff in sharing togetherness that is unique to small Christian campuses.

Organizations include those related to student government, campus ministries, academic, professional, religious (both on and off campus), special interests, and music. Athletic organizations include those competing on the intercollegiate and intramural levels. A number of student-led or student-assisted publications are available.

The University community conducts several tradition student events each year including Welcome Week, Freshman Week, Heritage Day, Family Weekend, Homecoming, Christmas Celebration, Valentine Pageant, Spring Formal, Spring Fling, and the Graduate Picnic.

A full list including the names and descriptions of the active clubs and organizations appears in the Student Handbook and on the University website (under Student Services).

*The University reserves the right to photograph and/or videotape students, faculty, staff, and guests while on University property or during University-sponsored functions. These images and audio may be used by Campbellsville University for promotional purposes, including use in University magazines, newspapers, press releases, booklets, pamphlets, newsletters, advertisements, videos, website and associated sites and other promotional materials.*
The administration and faculty of Campbellsville University believe that the educational and other programs of the University described in this bulletin-catalog are effective and valuable. However, the ultimate results of programs offered in terms of achievement, employment, professional licensing, or other measure, are dependent on factors outside the programs, such as the personality and energy of the student, governmental or institutional regulations and market conditions. Therefore, except as specifically stated in the bulletin-catalog, Campbellsville University makes no representation or contract that following a particular course or curriculum will result in specific achievements, employment or qualifications for employment, admission to degree programs, or licensing for particular professions or occupations.

ACADEMIC DEGREES

Upon satisfactory completion of all graduation requirements, Campbellsville University grants degrees as follows:

Undergraduate Degrees

Associate of Arts (A.A.) – requires six hours of foreign language
Associate Degree in Nursing (A.D.N.)
Associate of Science (A.S.)
Bachelor of Arts (B.A.) – requires 12 hours of foreign language
Bachelor of Music (B.M.)
Bachelor of Science in Nursing (B.S.N.)

Bachelor of Science (B.S.)
Bachelor of Science in Business Administration (B.S.B.A.)
Bachelor of Science in Medical Technology (B.S. Med. Tech.)
Bachelor of Science in Social Work (B.S.W.)

Graduate Degrees

Teacher Leader Master of Arts in Education (M.A.E.T.L.)
Master of Arts in Music (M.A.M.)
Master of Arts in Organizational Leadership (M.A.O.L.)
Master of Arts in Social Sciences (M.A.S.S.)
Master of Arts in Special Education (M.A.S.E.)
Teacher Leader Master of Arts in Special Education (M.A.S.T.L.)
Master of Business Administration (M.B.A.)
Master of Music in Church Music (M.M.C.M.)
Master of Music in Conducting (M.M.C.)
Master of Music in Musicology (M.M.M.)

Master of Music in Music Education (M.M.M.E.)
Master of Music in Performance (M.M.P.)
Master of Music in Piano Pedagogy (M.M.P.P.)
Master of Teaching English to Speakers of Other Languages (M.T.E.S.O.L.)
Master of Theology (M.Th.)
Master of Science in Counseling (M.S.C.)
Master of Social Work (M.S.W.)
Master of Arts in School Improvement (M.A.S.I.)

Associate and Bachelor of Arts

These degrees are conferred by the University upon candidates who meet the foreign language requirements, discipline requirements, and all other requirements for graduation.

Associate and Bachelor of Science

These degrees are conferred by the University upon candidates who meet all the graduation requirements without foreign language.

Dual Degrees

Any student who desires to earn two different degrees at Campbellsville University must complete requirements for an additional major and minor or the equivalence thereof.
## PROGRAMS OF STUDY

### UNDERGRADUATE MAJORS AND AREAS OF CONCENTRATION

**College of Arts and Sciences**
- Art
- Art—Graphic Design
- Biblical Studies
- Business Administration

**School of Theology**
- Biology

**School of Business and Economics**

**College of Arts and Sciences**
- Emphases: Mass Communication, P-12; Art, Music, Health and Physical Education, Spanish

**School of Education**
- Emphases: Broadcast and Digital Media, Journalism, Public Relations

**School of Music**
- Emphases: Carver School of Social Work and Counseling

**School of Theology**
- Emphases: Pastoral Ministries, Political Science, Psychology, Social Studies, Social Work, Sociology

**College of Arts and Sciences**
- Emphases: Sport Medicine/Exercise Science, Sport Medicine/Fitness Wellness, Sport Management, Sports Ministry, Theater

**College of Arts and Sciences**
- University Studies

**School of Music**
- Vocal Performance, Worship Arts

Additional Academic Programs

LEGISLATIVE INTERN PROGRAM
This program offers University undergraduates the opportunity to participate actively in the state legislative session while receiving full academic credit for one semester. The Legislative Program, held during years when the General Assembly convenes for regular session, begins in January and runs through the third week in May. For further information on this program, please turn to the Social Sciences section.

MEDICAL TECHNOLOGY PROGRAM
Requirements for Bachelor of Science in Medical Technology

1. Student must complete the following academic requirements:
   a. Complete the required course of study with a minimum 2.50 grade point average.
   b. Must fulfill all general education requirements for baccalaureate graduation.
   c. Must complete the science and math courses outlined in course sequence.
   d. Successfully complete the course requirements at an approved medical technology school (The University has official affiliation with Owensboro Medical Health System in Owensboro, Kentucky).

2. After completion of the above requirements the student will be granted a B.S. in Med. Tech. degree from Campbellsville University after proper application has been made.

3. The time limit between the end of the academic work at Campbellsville University and application for the B.S. degree is four years.

PRE-PROFESSIONAL PROGRAMS
Since professional schools vary considerably in their admission requirements, the student is advised to select the professional school of choice and then choose pre-professional courses accordingly. The Campbellsville University faculty will advise the student at the time of registration in the selection of courses which will meet the requirements of the professional school of choice. Students who transfer to professional schools to complete their degrees are dependent upon good records for this privilege. Campbellsville students who plan to pursue a professional course of study in another college or university is, therefore, encouraged to make a good record here.

PRE-ENGINEERING
The student should follow closely the recommendations of the school of engineering he/she plans to attend. Campbellsville University has a memorandum of understanding with the College of Engineering of the University of Kentucky and the University of Louisville concerning the selection of appropriate courses.

PRE-HEALTH PROGRAMS
Students who have a career interest in medicine, dentistry, optometry, pharmacy, physical therapy, and veterinary medicine may meet the general admissions requirements of respective schools by selecting course work leading to a Bachelor of Science or Bachelor of Arts degree in either Biology or Chemistry. Exceptional students may choose to enter their professional school after three years at Campbellsville University. After a successful year at the professional school, the student may transfer credits back to Campbellsville University and may receive either a Bachelor of Science or Bachelor of Arts degree in Biology or Chemistry.

PRE-LAW
No specific courses are designated for admission to law schools. The program of studies for each student will be planned so as to conform to the curricular suggestions made by the graduate institution which the student expects to attend. After meeting the requirements set out in this bulletin-catalog for a degree, the student should elect as many courses as possible in the fields of accounting, business administration, economics, English, history, philosophy, political science, and psychology if he wishes to pursue a law career.
TEACHER EDUCATION
The School of Education offers the following preparation programs that lead to initial teacher certification in Kentucky: Interdisciplinary Early Childhood Education, Birth – Primary; (a) Elementary Education, P-5; (b) Middle Grades Education, S-9; (c) Secondary Education, 8-12 (English, Math, Biology, Chemistry and Social Studies); (d) Art, P-12; (e) Health Education, P-12; (f) Physical Education, P-12 (g) Music, P-12; and, (h) Learning and Behavior Disorders, P-12; Spanish Education, P-12.

The Education Professional Standards Board requires teacher candidates to pass exams called PRAXIS II before the initial teaching certificate, the Statement of Eligibility, is issued. The exams are: (a) PRAXIS specialty exams which measure content knowledge and pedagogical skill and, (b) PRAXIS PLT which measures the principles of learning and teaching.

CLASS BY APPOINTMENT/INDEPENDENT STUDY
A student desiring to enroll in courses identified as independent study shall have a minimum overall academic standing of 2.50 and a 2.80 standing in the major or minor field to which the course is relevant.

Church-Related Vocation Programs
The task of the School of Theology is to produce world changers, persons who are passionately evangelical, rooted in the Biblical story, church-connected, servant leaders, spiritual entrepreneurs, and partners in an enduring fellowship (for further description, see the theology section of this bulletin-catalog). The 15-hour core required of all undergraduate Theology students connects with this task and provides the academic foundation for the nurturing, engaging, and equipping students pursuing the vocational calling of following Christ in all areas of life: (1) upper division OT, (2) upper division NT, (3) spiritual formation, (4) Christian theology, and (5) Church history. Programs of ministry study are Biblical Studies (area, major, minor), Educational Ministries (area, major, minor), Pastoral Ministries and Counseling (area, major, minor), and Sports Ministry (major, minor), with an associate degree in Christian Studies (65 hrs.) and a certificate in Christian Ministry (27 hrs.).

BIBLICAL STUDIES
Students choosing an area, major, or minor in Biblical Studies will discover an emphasis in the study of the Bible and the Biblical languages. The Biblical Studies student must declare a “Bachelor of Arts” as degree type, which commits him or her to the study of the ancient languages (Hebrew and Greek) of the Sacred Text. While there are elective courses within the School of Theology, students are immersed in the historical study and contemporary interpretation of the Biblical story. The curriculum is designed to prepare students for advanced university or seminary degree opportunities but especially to lay the foundation for all ministry vocations and the privilege of teaching and preaching the powerful word of God.

EDUCATIONAL MINISTRIES
Studies in Educational Ministries related to the church involve courses to support students interested in serving as ministers of education, ministry with youth or other age groups, religious journalism, sports ministry, and recreational ministry. A curriculum core of Biblical Studies and Educational Ministries courses is required and may be supplemented with enrichment courses in educational theory and practice found throughout the University’s curriculum. Elective courses related to each student’s particular interests may be added, and field-education courses are also available for vocational practice.

MISSIONS
Students who select Christian Missions as a program of study are answering the call to and preparing for a vocation of ministry like no other. Broad and deep in their scope, courses in the discipline are designed to provide a foundation of biblical and ministry knowledge unique to the missionary’s role in kingdom service. Students can expect to find a program of study and a set of experiences that cultivates knowledge of and praxis in Christian missions, the on-going biblical narrative of God the redeeming Father, the risen Son, and the revealing Spirit.

SPORTS MINISTRY
Campbellsville University is one of the first institutions to offer an emphasis (major and minor) in Sports Ministry. Sport is the tool that will allow Christians access for Christ into every country in the world, every city in the nation. Sports Ministry, a unique blend of athletics and missions, equips students to lead in mission efforts of local churches or other church-related institutions using sports evangelism. The academic program is a blend of Christian studies (Biblical studies, ministerial and educational studies, and philosophy/theology), recreation, and health and physical education. Internships are available through the office of the Director of Sports Ministry.

IN-SERVICE GUIDANCE PROGRAM for MINISTERIAL STUDENTS
Formal internship work in ministry vocations is supported by a well-developed In-Service Guidance Program. This program is designed to make use of support from the churches in the general area of the University as well as state-wide and national denominational groups. Field work activity in the churches is combined with careful support and supervision by experienced ministers so the student may both serve in a ministry position and learn about that ministry in a competent educational framework. Several introductory courses in the curriculum support students who choose to participate in this program as a practical enrichment for their Educational Ministries studies, Biblical Ministries studies, and Biblical studies.
Academic Support

The following services are available in the Badgett Academic Support Center to enhance your educational experience. These services are provided at no extra cost to the student.

Advising — All academic advising by faculty is coordinated through the Office of Academic Support. New students are assigned an academic advisor to assist them in selecting classes each semester that are appropriate for completing their selected degree program. A student's academic advisor should be the student's primary contact person for any academic related questions or issues. All undecided majors are assigned an advisor in Academic Support that will assist them in choosing courses as well as choosing a major.

Career Services — The office of Career Services provides assistance for the student in career planning, choosing a major, and preparing for employment during the educational process and after graduation. Through the use of instruments such as Strong Interest Inventory, TypeFocus personality/interest profiles, and personal sessions, Career Services staff members guide students in discovering the right career path for them. Career events and workshops are provided for students as well as job/career fairs. Employer job postings we receive are posted free of charge at www.campbellsville.edu/career-services.

Disability Services — Within the office of Career Services, accommodations are provided for students with disabilities. Helping remove barriers is the goal of Disability Services. Students who have a documented physical, psychological, emotional, and/or learning disability can work with Career Services to receive necessary accommodations. Students who want to inquire about required documentation and possible accommodations may contact the office of Career Services.

First-Year Experience — The office of First-Year Experience directs the organization and implementation of the FIRST CLASS small group (OR 100) and the First-Year Seminar II (OR 110) courses for all first-year degree-seeking students. Partnering with other offices on campus First-Year Experience works to make it possible for our first-year students to have a successful transition academically, socially, and spiritually into the Campbellsville University community.

Introductory Studies — Introductory Studies is designed to provide adequate academic advising to students taking introductory studies coursework and to facilitate services to accommodate their learning needs. Students that are required to take introductory studies courses must complete the courses with a "C" or better before they continue to other academic courses. Introductory studies courses include, but are not limited to, ENG 099, ENG 110, GS 101, GS 110, MTH 099, and MTH 100. Placement in these introductory studies courses will be determined by the COMPASS placement test. The COMPASS placement test is administered to all first-time, full-time students prior to scheduling classes for the first semester.

Learning Commons/Tutoring — Housed in the Badgett Academic Support Center is Campbellsville University's tutoring program, which makes every effort to provide tutoring for any class students may need assistance. Peer tutors are students who have previously completed the course with a "B" or better. Also, at posted hours professional tutors will be available to provide help on a walk-in basis. To fill out a tutoring request or application to serve as a tutor, visit www.campbellsville.edu/learning-commons.

Writing Center — The Citizens Bank & Trust Writing Center provides peer writing consultants to assist students in the writing process. Undergraduate students are welcome to walk-in for assistance with academic writing; however those seeking consistent help should do so by an appointment.
Chapel / Convocation Program

The chapel/convocation program is designed to provide opportunities for corporate worship and exposure to a variety of informative speakers and presentations. Chapel/convocation speakers and performers are guests of the University community. Chapel/convocations are held each Wednesday of the semester with the exception of the last week of a semester and during mid-term week. Emergencies or special circumstances might necessitate changes in this schedule at the discretion of the Chapel/Convocation Committee. Attendance is required of all members of the University family including faculty, staff, and students. Attendance requirements for students are governed by the following:

<table>
<thead>
<tr>
<th>Full-Time Semesters</th>
<th>Number of Chapel/Convocations Required</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>8</td>
</tr>
<tr>
<td>2</td>
<td>8</td>
</tr>
<tr>
<td>3</td>
<td>16</td>
</tr>
<tr>
<td>4</td>
<td>24</td>
</tr>
<tr>
<td>5</td>
<td>32</td>
</tr>
<tr>
<td>6</td>
<td>40</td>
</tr>
<tr>
<td>7 or more</td>
<td>48</td>
</tr>
</tbody>
</table>

The number of full-time semesters refers to the full-time semesters remaining in the student's degree program at the time of first enrollment at Campbellsville University (that is, the minimum full-time semesters needed to complete degree requirements). Two part-time semesters are considered the equivalent of one full-time semester.

Chapel/convocation attendance is cumulative. The student may attend any number of chapels, convocations, or other approved events in a semester. Once the number needed to meet the graduation requirement is reached, referring to the table above, the student does not have to attend any longer, but is welcome and encouraged to do so.

A student's convocation credit from all previous terms is available on TigerNet. In addition, the student's current total can be checked at any time by going to the Office of Academic Affairs.

A number of additional events are approved for convocation credit. This helps the student attain the required number sooner and it help the student who cannot attend the regularly scheduled weekly chapel/convocation.

Chapel/convocation from past semesters can be made up by attending extra convocations in the current semester. The student may also make a written appeal to the Chapel/Convocation Committee regarding options for make up of convocation credit.
ACADEMIC POLICIES

THE AREA AND THE MAJOR
A program of study labeled as an area offers either a broader or more focused approach to the subject than a major. It requires more hours than the major and no minor is required.

A major requires a minor unless the student pursues a double major program of study. Exception: School of Education majors for teacher certification.

The area or major may be prescribed in some cases where a specific career or advanced degree is the student’s goal. A careful reading of the programs in the discipline of interest will guide the student in this regard. Additional information and direction is available from the academic advisor.

Double majors and areas with minor programs typically require additional terms to complete at additional expense. Financial aid limits may apply.

FOREIGN LANGUAGE REQUIREMENTS FOR BACHELOR of ARTS AND ASSOCIATE of ARTS DEGREES
Students who earn the required number of credit hours in foreign language study may earn the arts degree rather than the science degree. Associate degrees require six hours of language course credit and bachelor’s degrees, 12. The student may take courses in one or two languages only. The foreign culture courses numbered 101 do not count toward this requirement (i.e. SPA 101).

The foreign languages offered through the Division of Humanities (College of Arts and Sciences) include French, German, Russian, and Spanish. Additional information about language courses, advanced placement credit, and waivers/exemptions is found on page 70.

GRADUATION

APPLYING TO GRADUATE
Because enrollment is solely up to the student, completion of a degree may not and often does not occur on a predictable timetable. Therefore, students are required to apply for graduation upon completion of a set number of hours depending upon degree sought. Refer to the table below. The student is encouraged to apply as early as possible so that the Graduation Audit Progress Profile (GAPP) can be prepared. This can take up to 30 days, depending on volume of applications received. There is no penalty for changing the graduation date, so the student can apply for the earliest possible date and change it later if needed.

For Associate degrees, apply after earning 45 hours.
For Bachelor’s degrees, apply after earning 70 hours.

Applying to graduate initiates a number of services that will help the student determine how best to meet all graduation requirements. Failure to apply to graduate can cause delays in these services and may result in a later graduation date.

Graduation applications are available on the Student Records page of the University’s website. Completed applications should be submitted to the Office of Student Records, Room 18, Administration Building (UPO 789).

GENERAL REQUIREMENTS FOR GRADUATION
A candidate for a degree must meet the following requirements for graduation:

1. All candidates must complete a minimum of 120 semester hours of academic work with a minimum standing of 2.10 in the area of concentration, or in majors and minors, and a minimum overall average of 2.0. "D" grades are not acceptable in English 111 or 112. No "D" grade is accepted on area or major and minor programs unless approved by the division chair.
2. Students seeking teacher certification must have an overall 2.75 cumulative grade point average, a 2.75 grade point average in the major, and a 2.75 grade point average in professional education courses.
3. All candidates must have completed all general education requirements.
4. All candidates must have completed one major and one minor or an area as specified by the Division or School applicable in each case. In combination, a major and minor must total 51 hours, exclusive of courses in methods.
5. All candidates must complete a minimum of 42 semester hours of credit in courses numbered 300 or above, and also, complete a minimum of 25 percent of the requirements for graduation at Campbellsville University.
6. All candidates must file an APPLICATION FOR GRADUATION.
7. At least one-third of the course requirements in the major and in the minor or area of concentration must be completed at Campbellsville University with an average of "C" or better.
8. All candidates for a degree must complete the last 30 hours of credit in residence.
9. No more than 32 hours of correspondence and/or extension work will be accepted for credit toward the degree. No student may enroll for correspondence or extension while doing resident work without permission of the Director of Student Records. Correspondence work in major or minor field must be approved also by the Chair of the Divisions concerned.

10. The student must, in all cases, be responsible for meeting the requirements for graduation.

11. The student must have paid all fees due the University before the degree is conferred.

12. All candidates must fulfill Chapel/Convocation Program credit requirements.

SATISFYING ACADEMIC REQUIREMENTS FOR A DEGREE
This section explains how courses are applied to a student’s program of study to determine progress toward degree completion.

All programs of study leading to a degree consist of a series of components called “aims.” A typical program of study will include the following components: General Education, major, minor, and free electives. As each course is completed with a minimum passing grade or higher, it is applied to the appropriate degree aim. Courses that do not apply to any other aim are consigned to the free elective aim.

When a course is required in both the General Education aim and another aim, it will satisfy both. When a course is required in two aims (excluding General Education), it will satisfy the requirement with the highest priority only, as follows: area, major, major related/additional courses, minor, minor related/additional courses. If a higher priority has been met, the course will meet the next highest priority that is unmet.

Progress toward completion of academic degree requirements is maintained electronically and may be monitored by the student and the academic advisor via TigerNet. Upon applying to graduate, a formal degree audit will be performed and provided to the student for review. The audit (Graduation Audit Progress Profile or GAPP) provides detailed information regarding what courses have been taken, what courses remain to be taken, and any course substitutions that have been made and more.
Academic Regulations

UNIT OF ACADEMIC CREDIT
The University operates on the semester system. All academic credit for satisfactory work is given on the basis of the (approximate) 16-week semester. A one semester hour of credit consists of one 50-minute period of recitation or two 50-minute periods of laboratory each week.

GRADING SYSTEM
The quality of a student's academic work is indicated by letter grades on a quality point system that determines the grade point average on the 4.0 scale. An explanation of the grades used, the scale, and how grades are calculated follow.

LETTER GRADE DEFINITIONS

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Definition</th>
<th>Quality Points per Semester Hour</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
<td>4</td>
</tr>
<tr>

</tr>
</tbody>
</table>

Grade "A" represents a work of definitely superior quality. It is distinctly the honor mark.

Grade "B" indicates a higher level of performance than is the satisfactory performance required for a "C" grade. It indicates effective capacity and initiative on the part of the student to do work over and above acceptable course requirements.

Grade "C" represents a satisfactory level of performance on the part of the student. This level of performance can be expected from any student of normal ability who devotes an average amount of time, effort, and attention to the work of the course.

Grade "D" indicates below standard performance. It indicates work which in one or more aspects falls below the minimum accepted standard, but which is of sufficient quality to be counted toward meeting graduation requirements provided it is balanced by superior work in other courses.

Grade "F" indicates an unacceptable level of performance. It indicates work in which several aspects fall below the minimum acceptable standard, work which is not of sufficient quality or quantity to be counted toward meeting graduation requirements.

Grade "I" is assigned to a student when the course requirements are not completed due to illness, accident, death in the immediate family, or other verifiable, extenuating circumstances. The course requirements to change the "I" grade must be completed within 12 months from the time it was awarded. It is the student's responsibility to complete requirements within the 12 month period. It is the professor's responsibility to change the grade by filling out the proper forms in the Office of Student Records.

Grade "S" indicates satisfactory work, but no quality credits are recorded.

Grade "U" indicates unsatisfactory work and no quality credits are recorded.

Grade "W" indicates official withdrawal from the course or University through the 12th week for the regular semester. The withdraw date is prorated for other terms.

Grade "WA" indicates official withdrawal due to excessive absences. Impacts GPA as does the grade of "F."

Grade "X" indicates that the student was absent from examinations. The grade of "X" may be changed by special examination within one month after the student re-enters the University, provided the vice president for academic affairs and the instructor concerned give permission for the examination; otherwise, it becomes a failing grade.

QUALITY POINTS
Each letter grade (A, B, C, D, F, and WA) has a numeric point value, called "quality points.\textsuperscript{a} (See the Letter Grade Definitions table above.) These points, combined with credit hours, determine the Grade Point Average. This applies to a single course, a term, and an academic career.
An explanation of how quality points are used in the grade point average calculation appears below.

GRADE POINT AVERAGE (GPA)
The grade point average is the calculated value that determines and indicates a student's academic standing.

The term or career grade point average (GPA) of a student at Campbellsville University is calculated only on the basis of grades of A, B, C, D, F, and WA. Letter grades are not weighted, meaning "plus/minus" do not affect the number of quality points. Grades I, S, U, W, and X are not included in the calculation of the term or career grade point average, although those grades are included as total hours attempted.*

FORMULA TO COMPUTE GRADE POINT AVERAGE (GPA)
Quality Points + GPA Hours Attempted = GPA

"GPA Hours Attempted" refers to those in which the grade impacts the GPA (A, B, C, D, F, or WA).

RECORDING OF GRADES
All grades are recorded in the Office of Student Records upon submission by the course instructor.

GRADE CHANGES
Grade changes are made by the course instructor who submits appropriate documentation to the Office of Student Records.

REPORTING GRADES TO STUDENTS
Final grades are available to students online via TigerNet the week following final exams. Only deficiencies are reported at mid-term to instructors and academic advisors who will contact their students to determine appropriate action.

ACADEMIC APPEAL AND COMPLAINT PROCESS:
A student may appeal the fairness of any academic action or register a complaint, including a course grade, to the Academic Council following consultation with his/her advisor, the professor, and the appropriate department chair and/or the dean. Such an appeal must be submitted in writing to the vice president for academic affairs by end of the regular semester after the semester in which the action was taken. The Academic Council will then determine whether a hearing is necessary. The decision of the Academic Council is final. Student complaints other than appeals for course grades should be submitted in writing to the vice president for academic affairs. When the complaint is against the vice president for academic affairs, it should be submitted in writing to the president of the University.

MINIMUM REQUIRED GRADE POINT AVERAGES
A minimum grade-point average of 2.0 is required for a student to graduate from Campbellsville University. A student must have a minimum grade point average of 2.1 in areas of concentration, majors, minors, and fields of specialization for all degrees granted. Students interested in teacher preparation must have a 2.75 GPA to be admitted to the Teacher Education program and must graduate with an overall 2.75 cumulative GPA, a 2.75 in the major, and a 2.75 GPA in professional education courses. See the School of Education section for complete requirements.

ACADEMIC HONORS
The University recognizes academic excellence at the career level by granting academic distinction at the annual commencement ceremony and at the semester level by awarding academic honors to such students. Each level of academic honor is described below.

Academic Distinction – Career Recognition

<table>
<thead>
<tr>
<th>Honor Level</th>
<th>Required GPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Summa Cum Laude</td>
<td>3.85 or higher</td>
</tr>
<tr>
<td>Magna Cum Laude</td>
<td>3.70 – 3.84</td>
</tr>
<tr>
<td>Cum Laude</td>
<td>3.50 – 3.69</td>
</tr>
</tbody>
</table>

The grade point average (GPA) of a transfer student must meet the above criteria in each of two ways:
1. The combined average of academic work at all institutions, including Campbellsville University, must meet the criteria.
2. The average of academic work at Campbellsville University alone must meet the criteria. This does not apply to direct-transfer students. Students, however, must earn a minimum of 55 semester hours in residence at Campbellsville University without any grades of "I" (Incomplete).

Academic Honors - Semester Recognition
President's List - Students achieving a grade point average (GPA) of 4.0 for any semester on a course load of at least 12 hours of GPA courses are honored by being placed on the President's Honors List for that semester. No student with an "I" or "X" grade will be placed on the President's Honors List.

Dean's List - Students achieving a grade point average (GPA) of 3.5 or above for any semester on a course load of at least 12 hours of GPA
courses are honored by being placed on the Dean’s Honors List for that semester. No student with an "I" or "X" grade will be placed on the Dean’s Honors List.

The Office of University Communications submits honors lists as press releases to media outlets in students’ hometowns after each semester.

ACADEMIC STANDING

The University recognizes three general levels of academic standing: Good Standing, Academic Probation, and Academic Suspension. Each level is described below.

Academic Good Standing
A student must maintain a minimum grade point average to be in good standing. The GPA required is determined by the number of full-time semesters completed.

<table>
<thead>
<tr>
<th>Number of Semesters Completed</th>
<th>GPA Required for Satisfactory (Good) Standing</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>1.60 or higher</td>
</tr>
<tr>
<td>2</td>
<td>1.80 or higher</td>
</tr>
<tr>
<td>3 and Above</td>
<td>2.00 or higher</td>
</tr>
</tbody>
</table>

Academic Probation
The student who does not maintain the minimum GPA for good standing is placed on academic probation. Academic performance is then checked after the probationary semester to see if the minimum GPA has been obtained. The student may be continued on academic probation for three semesters before the student is suspended.

A student failing to meet the standing required for his/her classification is placed on academic probation for the following semester.

A student may be asked to withdraw from the University for one semester if after one semester all courses are failed or if it is apparent that the student has little chance of attaining Good Standing at the end of the next semester.

A statement governing the extent of involvement in on-campus and off-campus activities and classes by the student on academic probation is printed in the Student Handbook.

Probationary Load
A student on academic probation will be limited to a maximum 13 credit hours course load. Unless instructed otherwise by the academic advisor, the student must include in the course load the courses which need to be repeated in order to improve academic standing (GPA).

Academic Suspension
The student who remains on academic probation for three semesters will face suspension. The student who fails all courses the first semester of full-time enrollment will face suspension. Additional circumstances involving continued poor academic performance may lead to suspension as well.

Suspension does not apply to the summer term which provides the student an opportunity to attain Good Standing.

The student on academic suspension is granted one appeal to the Academic Council for reinstatement. If the appeal is granted, the student is placed on academic probation for one semester and must complete a minimum of 12 hours with a 2.0 GPA. Other conditions may be placed upon the reinstated student. After a one-semester suspension, the student may apply for readmission to the University. Readmission must be approved by the Admissions Committee.

International Students (F-1 visa holders) who are suspended will also have their SEVIS Record / I-20 terminated and will need to make arrangements to regain/maintain their status. Please note, that if F-1 visa holders have their SEVIS record terminated they begin accumulating illegal presence days in the USA, which has a direct impact in future visa applications.

Reinstatement after Suspension
A student readmitted after academic suspension will be placed on academic probation and must carry the limited load of a probationary student. The student will be given two semesters to attain Good Standing (a GPA of 2.0). However, if it is apparent after one semester that this cannot be done at the end of the next semester, the student may be asked to withdraw after the first of the two semesters. If the student fails to attain Good Standing, permanent withdrawal from the University may be recommended. The student has the right to a single appeal of this recommendation to the Academic Council before a final decision is made.

ACADEMIC BANKRUPTCY
Academic bankruptcy is designed to give a student with poor academic record an opportunity to start over. Like financial bankruptcy, it is a drastic measure and involves severe penalties. In applying for academic bankruptcy, the student agrees to the conditions which it entails, such
as loss of credits earned, and accepts the special restrictions, including strict standards for future academic performance. A student may apply to declare academic bankruptcy for at most two adjacent semesters of academic work and begin his/her academic career anew at Campbellsville University with the following provisions:

1. Academic bankruptcy may be declared only once in a student’s academic career.

2. The student must not have been enrolled in any university study during the preceding semester.

3. The student desiring to declare academic bankruptcy will petition the Academic Council at the time of his/her application for admission or readmission. The letter of petition should include a brief narrative explaining any extenuating circumstances that may have caused the academic deficiency.

4. If the application is approved, the course work declared bankrupt will remain on the student’s academic record, with the notation of academic bankruptcy clearly indicated. This work will not be considered in counting hours earned or for calculating cumulative grade point averages.

5. Failure to maintain a subsequent cumulative GPA of 2.0 will result in permanent dismissal from the University.

6. The student who has been allowed to declare academic bankruptcy must fulfill all requirements for his/her degree program, including retaking course work passed during the bankrupt semester.

7. Once declared, academic bankruptcy cannot be revoked.

8. The student who has declared academic bankruptcy will not be eligible to graduate as an honor student.

9. Should the student transfer from Campbellsville University after taking academic bankruptcy, Campbellsville University will not guarantee other institutions will honor the bankruptcy agreement.

CLASS ATTENDANCE POLICY
The official class attendance policy is printed in the Student Handbook.

STUDENT COURSE LOAD
A normal load for a full-time student is 12-18 hours per semester. First semester freshmen entering the University will be permitted to enroll for no more than 15 hours plus one hour in physical education or ensemble. Sophomores, juniors, and seniors with a 3.0 GPA or better standing may enroll for 21 semester hours plus one hour in physical education or ensemble without the permission of the vice president for academic affairs, but the permission of the student’s advisor and the vice president for academic affairs must be obtained to take more hours.

SUMMER SCHOOL LOAD
Six to nine hours is considered a normal load for an eight-week term of summer school. Students who have a standing of 3.0 GPA or better may enroll for more than nine semester hours with the permission of their advisor and the vice president for academic affairs.

ONLINE COURSE LOAD
First semester freshmen are not permitted to take online courses. Thereafter, on-campus and commuters to the main campus students may enroll in a maximum of two online courses (six credit hours) during the 16-week fall and spring semesters. There is no restriction for online courses in summer terms. Entering freshmen may take online courses during the summer preceding their first full fall semester with approval from the Office of Academic Affairs.

International Students (F-1 status/visa holders) may count the course load of only one (1) online class, towards the required 12 credit-hours, each semester. For example a student enrolled in two (2) online classes of three (3) credit hours each, for a total of six (6) online credits, may only count three (3) of these towards the 12 minimum requirement. Thusly, in this example, needing to be enrolled in another nine (9) credit hours of face-to-face classes, for a total of fifteen (15) to meet the minimum requirement and maintain their F-1 (student) status.

ENGLISH COMPOSITION
A "C" or better grade in English 111 and English 112 is required for graduation from Campbellsville University. A student must enroll in Freshman Composition for successive semesters until s/he has made at least a "C" grade. English 111 must be completed satisfactorily before the student enrolls in courses in English beyond the 100 level. The same standard shall apply to transfer students whose transcripts are evaluated for credit toward graduation from Campbellsville University.

SCHEDULE CHANGES BY THE UNIVERSITY
The University reserves the right at all times to cancel a course when the enrollment is not sufficient to justify its continuance, to divide classes when the enrollment is too large for efficient instruction, to change instructors, and to make any adjustment in the school program that seems necessary.

FACULTY TARDINESS
Students are to remain in the classroom for 15 minutes if the faculty member is late. After this time, and after signing an attendance sheet, students may leave. A representative of the class is to take the attendance sheet to the office of the vice president for academic affairs.
COURSE AUDITS
The same registration procedure is followed for credit courses. Auditors will not be expected to take quizzes or examinations. Courses audited cannot be counted toward meeting graduation requirements.

REPEATED COURSES
When a course is repeated, all grades for the course remain on the academic record but only the last grade earned in a completed course is used in the GPA calculation.

CLASSIFICATION OF STUDENTS
A student moves to successive classes when minimum credit hours are earned. The following chart shows the requirements for each level.

<table>
<thead>
<tr>
<th>Class</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>Freshman</td>
<td>26 or fewer credit hours earned.</td>
</tr>
<tr>
<td>Sophomore</td>
<td>27 – 36 credit hours earned</td>
</tr>
<tr>
<td>Junior</td>
<td>37 – 66 credit hours earned</td>
</tr>
<tr>
<td>Senior</td>
<td>87 or more credit hours earned</td>
</tr>
</tbody>
</table>

WITHDRAWAL PROCEDURE
From a course (one or more, but not all courses in a term)

The student completes the Schedule Change form and, depending on the withdrawal date, either drops the course via TigerNet or submits the form to one of the following offices for processing: Student Records, Academics Affairs, or Academic Support.

From a term (all courses in a term)
The student initiates the process by obtaining a WITHDRAWAL FORM from the Office of Academic Affairs. The Withdrawal Form must be signed by the student’s advisor and submitted to a series of offices beginning with the vice president for academic affairs. Before the term registration period ends, all courses are removed from the permanent academic record. After the term registration period closes and through the 12th week of the semester, a "W" will be placed on the permanent academic record. After the 12th week of a regular semester, the student must receive a grade in each course for the term. The balance of assignments and test grades will be calculated into the final grade as zeros (0).

A student who leaves unofficially, that is without permission from the Vice President for Academic Affairs and the completion of the official withdrawal form, forfeits all rights to any reduction of his account, and receives "F" grades in all courses.

In order for a student to withdraw from a class, she or he must initiate the process by obtaining a Withdrawal Form from the Office of Academic Affairs. After consultation with the student’s advisor, the form must be submitted to the Vice President for Academic Affairs by the student withdrawing. After the second week through the twelfth week of the semester, a "W" will be placed on his or her permanent record. After the twelfth week, the student may not withdraw from the class and must receive a grade.

Any claims for refunds and honorable dismissal will be based on the date the withdrawal form is presented to and approved by the Vice President for Academic Affairs.

TRANSCRIPT OF ACADEMIC RECORD
The University maintains a permanent record of each student’s academic work in the form of an academic transcript. The transcript reflects in chronological order the courses attempted each term and the grades earned in those courses. Hours attempted, hours earned, and GPA are indicated for each term and for the student’s entire career.

Students, both current and former, who are in Good Standing, are entitled to one official transcript at no charge. Official transcripts are issued upon written request of the student. The transcript will not be released to a third party without prior written authorization of the student. No transcript will be issued for anyone who has failed to meet all financial obligations to the University. Transcripts are not faxed.

PRIVACY RIGHTS OF STUDENTS
Campbellsville University is subject to the provisions of the Family Education Rights and Privacy Act (FERPA). This federal law affords students rights of access to education records and imposes regulations on the University in the release and disclosure of education records to third parties.

In order to comply with this law, Campbellsville University has formulated and adopted institutional policies and procedures to be followed by the University and by those interested in gaining access to education records. These policies and procedures allow students: the right to inspect substantially all of his/her education records; the right to prevent disclosures of education records to third parties; and the right to request amendment or correction of education records believed to be inaccurate or misleading. These policies are available for inspection and review in the Office of Student Records.

It is the policy of the University to allow students to inspect and review their education records unless those records contain any of the
following:

A. Information on more than one student;
B. Financial information on his/her parents; or
C. Confidential letters and statements of recommendation if the student has waived his/her right to inspect the letters and the letters are related to the student's admission to the University, application for employment or receipt of honorary recognition.

According to the Family Educational Rights and Privacy Act of 1974, institutions may release **without written consent** those records identified as public or directory information for students, current and former.

Directory information includes the following student information: student's name, address, telephone number, date and place of birth, major fields of study, participation in officially recognized activities and sports, weight and height of athletic team members, dates of attendance, degrees and awards received, and most recent educational institution attended.

Under no circumstances shall a member of the faculty disclose an education record which is in his/her possession or control to any person other than the student to whom it pertains. All requests to inspect and review records not within the faculty member's possession or control and all requests by third parties (including the student's parents) to inspect and review records shall be referred to the Vice President for academic affairs.

**TIGERNET**

TigerNet is the secure student access portal of the University's website. With it, students can view and in some cases, update, various personal data elements including contact information, academic program, grades, and financial data.

Semester enrollment is completed, in part, using TigerNet. After meeting with the academic advisor, the student registers various pieces of information and schedules courses using this system. Adding and dropping courses during a semester's registration period is done via TigerNet. Certain restrictions apply.

**STUDENT PERSONAL IDENTIFICATION NUMBER (PIN)**

This number serves as the student's password to TigerNet and other online services provided by the University. The PIN is issued at Student Orientation and remains active throughout the student's academic career. It should kept private and secure. Should the number be compromised, it can be changed by personnel in the Office of Student Records.
Online Courses and Online Academic Programs

The University provides individual online courses and entire online degree programs at the undergraduate level. Policies and procedures that govern them are included here. Students taking online courses either as a part of their main campus or regional center studies or as part of a fully online degree should read the Online Student Handbook.

Students wishing to enroll in an online course or online degree program should consider the following:

- Students attending the main campus may take no more than two online courses per fall or spring semester. No limit applies for summer terms.
- First-semester freshmen may not take online courses without approval of the advisor and vice president for academic affairs.
- Online courses are condensed in time (typically 8 weeks), but not in content. They are convenient, not easy.
- The attendance policy is enforced in online courses.
- A $100 fee (per online course) may apply, depending on the student’s academic program or enrollment status.
- Course work must be completed by posted deadlines regardless of participation in athletics or music ensembles.

Responsibilities of the Online Students

The following items apply to the student in an online degree or an online course.

The student is responsible...

1. To have consistent and easy access to a personal computer (Windows or Mac) with a reliable high-speed Internet connection.
2. For gaining access to online courses in the learning management system (LMS).
3. To acquire all course materials (textbooks, software, etc.) in a timely manner.
4. To know and abide by all applicable policies and procedures as prescribed in the Bulletin-Catalog, Online Student Handbook and individual course syllabi.
5. For acquiring and maintaining the knowledge base needed to operate successfully in an online course/program.
6. For communication to and from the Instructor via the LMS and the CU student e-mail address.
7. To access the online course regularly and complete course activities on time regardless of equipment/technology problems.
8. For observing deadlines as stated on the academic calendar and individual course syllabi.
9. To communicate hardships with the advisor and instructor(s) immediately.
10. For paying the online technology fee, if applicable.

A more detailed explanation of policies and procedures governing online courses and degrees is provided in the Online Student Handbook.

GENERAL EDUCATION

General Education is the foundation that provides students with the necessary skills to achieve academic and professional success, and pursue a lifetime of learning. General education provides a broad base of knowledge and essential skills that are relevant to each academic discipline of the university. The achievement of these goals will help students to enrich their lives and become responsible citizens and servant leaders. Students who complete the general education curriculum will be able to demonstrate their knowledge, understanding, and ability in the following areas:

- Aesthetic Appreciation - Students will demonstrate an understanding of the various modes of creative expression and appreciation of the works of the creative mind.
- Critical Thinking - Students will demonstrate the ability to think analytically, logically, and scientifically about information.
- Diversity and Human Behavior - Students will demonstrate an understanding of the relationship of the individual to society through a study of individual and group behavior.
- Ethics - Students will demonstrate an understanding of Christian values and ethical standards in order to make mature and informed decisions concerning moral issues.
- Oral and Written Communication - Students will demonstrate the ability to express ideas, beliefs, and information in an organized, precise, and persuasive manner.
- Quantitative Literacy - Students will demonstrate the ability to understand and utilize mathematical and/or logical relationships to analyze data, to construct and assess arguments, and to make sound judgments in quantitative situations that arise in daily life.
- Social Responsibility and Citizenship - Students will demonstrate an understanding of personal and social responsibility in a changing global environment so that students can make contributions to their respective discipline and to society as a whole.

Some General Education courses have prerequisites. Some courses have a minimum grade requirement before the next course can be taken. A prescribed sequence of certain courses exists to better serve students as they progress through their academic careers. The student's academic advisor will help the student make appropriate choices when scheduling courses. Many programs of study (areas, majors, and minors) require General Education courses as prerequisites or as core courses. Students should determine if this is the case with the desired program of study and choose General Education courses accordingly.

A course listed in both the General Education component and in the area, major, or minor core will satisfy both requirements. Note that this is true for the core only. Such a course will not satisfy both General Education and a program's prerequisite requirements. When a course meets two requirements (i.e. General Education and the Major), its hours count only once in the total hours earned that apply toward those needed for graduation. Students should monitor this and plan to take additional courses to ensure the minimum total hours required for graduation is met.

GENERAL EDUCATION REQUIREMENTS FOR BACHELOR'S DEGREES

AREA OF PERSONAL DEVELOPMENT ................................................................................................. 14

Physical Education – Take each course on this list ...................................................................... 3
  HP 103  Introduction to Physical Activity and Health Promotion  2

PURPOSE
At Campbellsville University’s Carver School of Social Work and Counseling, the baccalaureate social work program stresses academic excellence, Christian leadership, and personal growth within a nurturing, caring environment. The program expands the University mission in advancing students toward continued learning in all aspects of life with a special emphasis in the professional application of generalist social work practice. As a facilitator of change, the program prepares students to serve diverse communities, organizations, groups, families, and individuals, particularly in a rural environment, at all levels of social work practice.

ACCREDITATION
Campbellsville University’s Bachelor of Social Work Program is accredited by the Council on Social Work Education.

SOCIAL WORK AREA
The Social Work Area is designed to educate students to perform generalist social work practice in a variety of social service settings. This curriculum prepares graduates to practice social work with individuals, families, groups, communities, and organizations at all levels (micro, mezzo, macro) of practice using a solution-focused process that includes assessment, strengths building, planning, intervention, monitoring/evaluating, and termination/follow-up.

The Carver School of Social Work and Counseling views social work as a helping profession sanctioned by society to assist in the elimination of human suffering. In order to address social problems and human needs, the profession takes two approaches: (1) to work to change social institutions, organizations, and communities to better meet the needs of people and (2) to help people identify and utilize their own strengths in problem solving and to connect them to the resources they lack. When resources are not available, social workers advocate and work to establish programs to enhance the well-being of humans and alleviate the suffering brought about by various psycho-social-behavioral issues. Social work promotes the advancement of economic and social justice for all, particularly those classified as vulnerable populations. Generalist social work draws upon common processes, specialized knowledge, communication, and intervention skills for the purposes of intervening on the behalf of people to create changes, which maximize the functioning of systems.

Students wanting to study social work may choose either the Social Work Area leading to the Bachelor of Social Work degree or the Social Work Minor which, when coupled with a major from another discipline, leads to a Bachelor of Science or Bachelor of Arts degree. Students must complete ENG 111, with a grade of "C" or better, to enroll in Social Work courses.

Social work students seeking the BSW degree are required to complete 42 hours of designated social work courses and nine hours of social work electives and/or approved social science cognate courses. In conjunction with the BSW degree, students may pursue a minor in another discipline, but are not required to do so. Students electing to study Social Work must meet requirements as specified in the BSW Student Handbook before gaining acceptance into the program. There is no credit for life experiences or previous work experience given to social work students as substitutions for curriculum or field requirements.

General Education Prerequisites for the Social Work Area and Minor
These courses must be taken as part of the General Education component and not as part of an area, major, or minor.

Social Work Area (leading to the Bachelor of Social Work)

Students must complete ENG 111 with a grade of “C” or better, to enroll in Social Work Area Core courses.

Social Work Area Core:

*Take each course on this list:*

- SWK 210 Introduction to Social Work 3
- SWK 220 Practice I 3
- SWK 310 Social Policy and Planning 3
- SWK 311 Human Behavior and the Social Environment I 3
- SWK 312 Human Behavior and the Social Environment II 3
- SWK 340 Practice II 3
- SWK 342 Human Diversity 3
- SWK 365 Quantitative Research for Social Work 3
- SWK 366 Qualitative Research for Social Work 3
- SWK 450 Practice III 3
- SWK 410 Field Education 12

Social Work Area Electives and Approved Cognates:

*Choose three courses from this list:*

- SWK 315 Crisis Intervention 3
- SWK 331 Marriage and Family 3
- SWK 350 Values and Ethics in Social Work Practice 3
- SWK 355 Faith-Based Social Services and Ministries 3
- SWK 360 Child Abuse and Neglect 3
- SWK 370 Child Abuse and Interventions 3
- SWK 414 Introduction to Counseling 3
- SWK 423 Death, Dying, and Bereavement 3
- SWK 460 Aging 3
- SWK 480 Special Topics 3
- SWK 481 Addictions 3
- SWK 482 Conflict Resolution 3
- SWK 483 Foster Care and Adoption 3
- SWK 490 Independent Study in Social Work 3

Social Work Minor:

The Social Work minor is designed to prepare students for Christian service in their interactions with human and social systems. Students will acquire knowledge about bio-psycho-social needs and gain skills in methods of assessment and intervention. This minor is paired with a major of the student’s choice leading to the BS or BA degree. General education requirements apply to this minor. See above.

Required Courses:

*Take each course on this list:*

- SWK 210 Introduction to Social Work 3
- SWK 220 Practice I 3
- SWK 310 Social Policy and Planning 3
- SWK 311 Human Behavior and Social Environment I 3
- SWK 312 Human Behavior and Social Environment II 3
- SWK 342 Human Diversity 3

Elective:

*Choose one course from this list:*

- SWK 315 Crisis Intervention 3
- SWK 331 Marriage and Family 3
- SWK 350 Values and Ethics in Social Work Practice 3
- SWK 360 Child Abuse and Neglect 3
- SWK 370 Child Abuse and Interventions 3
- SWK 414 Introduction to Counseling 3
- SWK 423 Death, Dying, and Bereavement 3
- SWK 460 Aging 3
Public Child Welfare Certification Program (PCWCP)

An application selection process will be used to choose a select number of students each academic year at each of the participating universities who show interest in pursuing a career in child protective services. Please contact the Carver School of Social Work and Counseling to schedule an appointment with the PCWCP coordinator for application details. Those selected receive a financial stipend and tuition assistance in exchange for years of employment with the Kentucky Cabinet for Families and Children.

Eligibility Requirements - To apply for the PCWCP, the student must:

- Be enrolled full time and pursuing a Bachelor of Social Work
- Have an overall cumulative GPA of 2.5
- Have a cumulative GPA of 3.0 or a "B" average in all Social Work courses
- Have at least three semesters and not more than four of undergraduate Social Work courses left to take
- Have taken a social work practice course prior to taking the second of two PCWCP courses
Dr. Michael Page, Dean

Department of Art

Ms. Linda J. Cundiff, Chair
Mr. Dejan Mraovic
Ms. Davie Reneau

PURPOSE
The Art Department of Campbellsville University provides visual learners in a Christian liberal arts context with an undergraduate program composed of an Area of Art (48 hours), a Major in Art (36 hours), or a Minor in Art (24 hours). The program prepares the student for careers in graphic design, art production, art education, and graduate school for further studies such as studio art, art therapy, arts administration, art history, arts education, and museum studies, among others. To assist the University mission of informing students and interacting with the larger world, a survey course is provided for all undergraduates in visual art which strives to teach understanding of arts language, art from different periods and diverse cultures. Still another goal of the department is to produce visually literate individuals.

All students who choose to minor, major or study an area of art must present a portfolio of artwork from their studies in high school, from private instruction, or done on their own for videotaping early in their first semester of study. Thereafter, artwork from ART 101, ART 120, ART 202 and ART 221 will be videotaped to document progress or lack of progress for accreditation, assessment and evaluation purposes.

If a student at Campbellsville University has already mastered the material in a regular lower division course in the bulletin-catalog, the student may request in writing that full credit be granted for the course. The student may then be called upon for tests, demonstrations, portfolio pieces, exhibits and/or interviews to prove his/her proficiency and knowledge. A committee of the art faculty (including the instructor of the course considered) shall participate in all phases of the examination. The charge for the test is 20 percent of the cost of the course.

SOPHOMORE REVIEW
Art students who are pursuing an art major (36 hours) or art area (48 hours) will have successfully completed four foundations courses (ART 101, ART 102, ART 202, and ART 221) with a G.P.A. of 2.0 or higher OR the student will have completed 56 credit hours of study, whichever option occurs first. The student will present a portfolio of work to the Art faculty within three weeks of the end of the semester when either of the above criteria is met. The portfolio will show ambition of concept/ideas, growth of craftsmanship/techniques, competency of design and personal motivation. Twelve to 15 pieces must be shown. These may be pieces of actual work or images captured in an acceptable electronic format. With either submission, the student is expected to present a brief written statement about each work and be able to explain it to the Art faculty.

If the student's work is not acceptable to pass the sophomore review, the student may retake a class in order to produce stronger work to be shown in a second review the following semester. If work does not pass two consecutive review sessions, the student will need to pursue an art minor (24 hours) and choose another major. No student can proceed to a major of art study with a failing review. This process is to ensure that students are serious about their artwork and competent to finish the course of study in art successfully.

SPECIAL REQUIREMENTS
Transfer students must submit to the art faculty samples and portfolios of artwork from courses taken elsewhere. If these do not show adequate proficiency in art, some coursework may have to be repeated. Students who can show proficiency in art to the art faculty will be permitted to begin with more advanced courses.

All students who major or minor in art will leave a signed work of art to Campbellsville University during their last semester of attendance.
Art Area (with Teacher Certification)

Student must have a cumulative GPA of 2.75 or higher in all university coursework for admission into the teacher education program. He/she must have a cumulative GPA of 2.75 or higher in all professional education courses with no grade less than a "C." He/she must have a cumulative GPA of 2.75 or higher in the major or area with no grade less than a "C."

Mr. Jihyun Nam
Mrs. Ardeen Top

PURPOSE
The Division of Humanities offers programs in English, mass communication (broadcasting, journalism, public relations), theater, and modern foreign languages to enable students to prepare for a wide range of academic, professional, and vocational pursuits and for life-long service to God and to humankind.

THE ENGLISH PROGRAMS
The Department of English provides programs of study for students who recognize the power of language and want to develop a mastery of the English language in order to be insightful critical readers and competent scholarly and creative writers. They may pursue a major, a minor, or an area of concentration as they work toward either a Bachelor of Arts (BA) degree or a Bachelor of Science (BS) degree. The Department of English also provides components of the General Education Program (ENG 111, Freshman Composition I; ENG 112, Freshman Composition II; and ENG 210, Literary Studies) and one developmental course (ENG 110, Basic English).

The English Area
Hours Required: 60 (BA Program) or 66 (BS Program)

The main purpose of the area in English is to enable students to prepare for teaching English in grades 8-12. However, students in English not seeking teacher certification may elect to pursue the area instead of a major. A minor is not required.

Students pursuing the area in English may earn either the Bachelor of Arts degree or the Bachelor of Science degree. To receive the BA degree, they must have at least twelve semester hours of credit for modern foreign language studies. Four three-hour courses in one language or two three-hour courses in each of two languages will fulfill the requirement. Students may be exempted from the requirement on the basis of proficiency certified by both oral and written tests administered by the modern foreign language faculty. Students whose native language is not English will be exempted. To receive the BS degree, students pursuing an area in English do not have to take foreign language courses but must complete six hours in English in addition to the hours in English required in the BA program.

The English faculty recommends that students who expect to enter graduate studies in English or a related field choose the Bachelor of Arts option.

English Area ........................................................................................................................................ 60 or 66

60 hours are required for the BA degree; 66 for the BS. The BA requires 12 hours of foreign language not included in the 60 hours shown here.

Required/Core Courses ............................................................................................................................ 18

Take each course on this list:
ENG 234 Foundations of World Literature 3
ENG 331 British Literature I 3
ENG 332 British Literature II 3
ENG 361 Linguistics: Modern English Grammar 3
ENG 375 Contemporary Drama 3
ENG 491 Shakespeare 3

67
 Restricted Electives

American Literature Courses

Choose one course from this list:
ENG 341  Survey of American Literature I  3
ENG 342  Survey of American Literature II  3

Literature Before 1800

Choose one course from this list:
ENG 351  Renaissance to Restoration Literature  3
ENG 352  Age of Enlightenment Literature  3

Literature After 1800

Choose one course from this list:
ENG 358  Modernism and Postmodernism Literature  3
ENG 380/480  Special Topics  3
ENG 442  Contemporary American Literature  3
ENG 455  Romantic and Victorian Literature  3
ENG 486  Literature in the American South  3
ENG 490  Independent Study  3

Required Capstone Course
ENG 496  Literary Theory and Research  3

Unrestricted Electives

Choose two courses from this list for the BA degree, four courses for the BS degree
ENG 341  Survey of American Literature I  3
ENG 342  Survey of American Literature II  3
ENG 351  Renaissance to Restoration Literature  3
ENG 352  Age of Enlightenment Literature  3
ENG 373  Creative Writing  3
ENG 395  Advanced Composition  3
ENG 380/480  Special Topics  3
ENG 390/490  Independent Study  1-3
ENG 442  Contemporary American Literature  3
ENG 455  Romantic and Victorian Literature  3
ENG 473  Advanced Creative Writing  3
ENG 486  Literature of the American South  3

Theater/Drama Electives

Choose three courses from this list:
TH 200  Stagecraft  3
TH 131  Introduction to Theater  3
TH 253  Fundamentals of Acting  3
TH 334  Directing  3

Journalism Electives

Choose three courses from this list:
MAC 240  Reporting and Newswriting  3
MAC 245  Copyediting  3
MAC 440  Advanced Reporting and Newswriting  3
MAC 465  Graphic Design for Mass Media  3

Required Courses in Teaching Methods

ENG 363  Teaching Reading in the Middle and Secondary School  3
ENG 465  Teaching English in Middle and Secondary School  3

To complete the requirements for teacher certification, students must successfully complete a set of professional education courses and supervised student teaching. See requirements for certification in the School of Education section.
The English Major
Hours Required: 36 (BA program) or 42 (BS program)

A major in English opens the doors to many professions and careers. It is especially appropriate for students who intend to pursue graduate studies in English or a related field (law, philosophy, theology, etc.) It is also appropriate for students who do not intend to enter graduate studies but to have non-teaching careers in fields requiring highly developed skills in analysis, interpretation, and communication (advertising, management, publishing, public relations, etc.).

To receive the BA degree, students pursuing a major in English must have at least twelve semester hours of credit for modern foreign language studies. Four three-hour courses in one language or two three-hour courses in each of two languages will fulfill the requirement. Students may be exempted from the requirement on the basis of proficiency certified by both oral and written tests administered by the modern foreign language faculty. Students whose native language is not English will be exempted.

To receive the BS degree, students pursuing a major in English do not have to take foreign language courses but must complete six hours in English in addition to the hours in English required in the BA program.

The English faculty recommends that students who expect to enter graduate studies in English or a related field choose the Bachelor of Arts option.

**English Minor**

The English minor is a secondary program of study for students interested in exploring the power of the English language; increasing their knowledge of literature in English; enhancing their ability to analyze, interpret, and evaluate texts; and honing their writing skills.

MASS COMMUNICATION PROGRAMS

The Mass Communication programs provide a major with an emphasis in Broadcast and Digital Media, Journalism, and Public Relations with a minor in each of those disciplines as well as film and photojournalism. Students may not complete a double major or a major and minor within mass communication with the exception of film. They may instead complete an area, which is the equivalent to a major and minor combined. Students in mass communication may pursue either the Bachelor of Arts or the Bachelor of Science degrees.

If a BA degree is sought, twelve hours of foreign language are required. To count toward the major, every communication course must be passed with a grade of C or higher.

MAC 440 Advanced Reporting and Newswriting 3
MAC 465 Graphic Design for Mass Media 3

Additional requirements for Mass Communication
All students completing areas and majors must complete a three-hour internship.
They must also compile a portfolio of work completed during their respective programs. Minors are also encouraged to do so. The portfolios will be prepared for the Web in MAC 490 Senior Portfolio. Thus, MAC 490 should be taken near the completion of the respective program. Complete requirements for the portfolio may be obtained from Mass Communication advisors.

MODERN FOREIGN LANGUAGE
The Division of Humanities offers a major and minor in Spanish and provides elementary and intermediate courses in Spanish, French and German. A Spanish Education, P-12, area is available as well.

## ADVANCED PLACEMENT IN FOREIGN LANGUAGE

Students with high school foreign language credit should consult the modern foreign language faculty to seek advanced placement. Students may receive credit in one or more modern foreign languages on the basis of demonstrated proficiency.

## FOREIGN LANGUAGE REQUIREMENT FOR THE BACHELOR OF ARTS DEGREE

To qualify for a Bachelor of Arts degree, students must complete at least twelve hours in modern foreign language courses. Four three-hour courses in one language or two three-hour courses in each of two languages will fulfill the requirement. The foreign culture courses numbered 101 do not count toward this requirement.

## WAIVER OF THE FOREIGN LANGUAGE REQUIREMENT

The foreign language requirement will be waived for students whose native language is not English.

## DETERMINATION OF PROFICIENCY AND ELIGIBILITY FOR WAIVER

The foreign language faculty will use tests to determine whether a student has attained proficiency in a foreign language and whether a student is eligible for waiver of or exemption from the foreign language requirement.
TEACHING ENGLISH AS A SECOND LANGUAGE PROGRAMS
For the TSL certificate, six hours per course classroom observation and tutoring in a community setting are required for a total of 30 hours observation/tutoring. A reflection paper as the culmination of the learning experience both from the courses and observation hours is also required.

Teaching English as a Second Language Certificate

Take each course on this list:
- ED/TSL 240 Language and Culture 2
- ED/TSL 250 TESL Assessment and Testing 2
- ED/TSL 340 L2 Acquisition and the Skill Set 3
- ED/TSL 440 Applied Linguistics and English Grammar 3
- ED/TSL 460 TESL Methods and Materials for P-12 Teaching 3

This certificate is also offered as a teaching endorsement through the School of Education.

THEATER PROGRAM
The Theater Department provides instruction in both the theory and practice of theater performance and production. The department’s minor allows for study of theater practices overall, while the Theater Majors allow the student a more focused path of study in either Performance or Production. The department seeks to enable students to succeed in both academic and vocational pursuits by working towards the following objectives.

- To enable students to succeed in academic and vocational pursuits.
- To prepare students for a lifelong service to God and to the world through the perspective of theater arts.
- To be a foundation in learning aspects of theater arts, and to help students structure their talents for a career in theater.
- To provide a quality learning environment in which students can learn about and engage in the theater arts.

The Theater major consists of 22 hours in core courses and an emphasis in performance or production. Either emphasis requires an additional 17 hours of course work. If a Bachelor of Arts degree is sought, twelve hours of foreign language are also required.

All Theater majors and minors must take TH 131 Introduction to Theater as part of their General Education requirements.

Theater Core for all Theater Majors and Minors

Take each course on this list:
- TH 200 Stagecraft 3
- TH 242 Theater History I 3
- TH 253 Fundamentals of Acting 3
- TH 334 Directing 3
- TH 342 Theater History II 3
- TH ___ Performance/Production Lab 4

Take the lab four times, using a different course number each time. Contact your academic advisor for guidance. Courses bearing this title are numbered 109, 111, 209, 211, 309, 311, 409 and 411 and are ONE hour each.

Choose one course from this list:
- TH 375 Contemporary Drama 3
- TH 491 Shakespeare 3

Theater Major – Performance Emphasis

Core Requirements (see above) ................................................................. 22

Required Courses ............................................................................. 14

Take each course on this list:
- TH 100 Introduction to Dance 1
- TH 113 Ballroom Dancing I 1
- TH 114 Ballroom Dancing II 1
- TH 115 Singing Onstage 1
- TH 380 Special Topics: Advanced Acting 3
- TH 442 History and Analysis of Musical Theater 3
- TH 475 Senior Seminar 1

TH 491  Singing Onstage  1

*This course may be taken up to three times, using a different course number each time. Contact your academic advisor for guidance. Courses bearing this title are numbered 115, 215, 315, and 415 and are one credit hour each.*

Theater Minor  22

Theater Core (see above)  22
Department of Human Performance

Mrs. Donna Wise, Chair of Human Performance
Dr. Roscoe Bowen, lead professor of Sport Medicine track
Dr. Thomas Bell, lead professor of Sport Leadership track
Key Gupton, Instructor
Tim Rogers, Instructor

Purpose
The Department of Human Performance includes disciplines in Health and Physical Education, Sport Management, and Sport Medicine. Curriculum offerings are listed in three tracks. HPE track offers an Area in Health & Physical Education. Students opting for P-12 teaching certification in Health and Physical Education must choose the Secondary Education Minor with the HPE Area. The Sport Leadership track offers the Sport Management Area & Minor and the Athletic Coaching Minor. The Sport Medicine track offers the Exercise Science Area and the Fitness/Wellness Specialist Area.

Academic Tracks

HPE: Health & Physical Education with or without teaching: The program prepares students seeking certification in health and physical education. Students must choose the Secondary Education Minor with the HPE Area for P-12 Teacher Certification.

SPORT MEDICINE:
Exercise Science Area: This area of concentration prepares the students to pursue careers in rehabilitation, health promotion in the workplace, fitness/wellness centers, and/or graduate studies in exercise science and wellness.
Fitness/Wellness Specialist: This area of concentration prepares the student for careers in corporate fitness/wellness or sport training. This Area offers students the opportunity to study one of the fastest growing areas in the health and wellness industry. By integrating fitness/wellness with the area of coaching, students will be able to work independently or within a corporate setting helping employees improve lifestyle behaviors contributing to poor health.

SPORT LEADERSHIP:
Sport Management Area: This area prepares students for a variety of administrative positions within the sport, education, tourism and recreational industries. A Minor in this area is also available.
Athletic Coaching Minor: The minor prepares interested students with the necessary background and experience to become a coach.

Departmental Requirements

Health and Physical Education with Teacher Education (HPETE)

Students who wish to obtain teacher certification in Health and Physical Education must declare the Health and Physical Education Area and the Secondary Education Minor. Declaring these programs does not assure admission into the Teacher Education Program. Students must have a cumulative grade point average of 2.75 in all university coursework for admission into the Teacher Education Program. He/she must have a cumulative GPA of 2.75 or higher in the professional education courses and 2.75 Major GPA with no grade less than a “C” for continuation into CAP 2. The Secondary Education Minor must be chosen for HPETE certification.

Sport Leadership

Students choosing this track with the Sport Management Area must have achieved a 2.5 cumulative grade point average in Area courses (HP 201 and HP 315) to be eligible for admission and continuation with courses in the program. Students may have no grade less than a “C” in the core requirements for Area or Minor courses. There is a portfolio requirement and six-hour internship requirement for the Sport Management Area.

Sport Medicine

Students choosing this track with the Exercise Science area must have achieved a 2.5 grade point average and have been enrolled full-time (12 hours) for at least one semester to be eligible for admission. Students may have no grade less than a “C” in Human Performance area courses.

Organizations and Activities

SWAT Club: Membership in this club is limited to those students choosing academic tracks of study in HPE, Sport Leadership or Sport Medicine.

Department of Math and Computer Science

Dr. Janet L. Miller, Chair
Ms. Linda Beal
Dr. Chris Bullock
Dr. Frank Cheatham

Mrs. Beverly Edwards
Mrs. Ashlee Matney
Dr. Robert Street

PURPOSE
The purpose of the Department of MTH/CS is to promote competency in the calculus, algebraic structures, and function theory with applications, as well as competency in computer programming, computer architecture and systems analysis. These programs are designed to promote academic excellence, prepare students for life-long learning, and continued scholarship in mathematics and computer science. Thus ensuring that our graduates are well prepared to (1) enter the job market in mathematics, computer science, or a related field and (2) engage in graduate study in mathematics or a related field.

DEGREES
A student may pursue a B.A. or B.S. degree with a major or minor in Mathematics or a minor in Computer Science.

MATHEMATICS EXIT EXAMS
All mathematics majors are required to take a Major Field Test before graduation. Please contact the Mathematics Department Chair for details.

Division of Natural Science

Dr. Steve Alston
Mr. Charles Clark
Dr. Tami Cloherty
Dr. Richard Kessler

Dr. Glenn McQuaide
Dr. Chris Mullins
Dr. Michael R. Page
Dr. Milton A. Rogers

Ms. E. Kay Sutton
Mrs. Brenda S. Tungate
Dr. Gordon K. Weddle

PURPOSE
The Division of Natural Science includes the disciplines of Biology, Chemistry, Environmental Science, Geology and Physics. The course offerings in these disciplines are designed to develop in all students a better understanding of the principles of science; to better equip them to meet the needs of a technological society; and to provide the student with the professional competence necessary to successfully pursue a career in one of these disciplines. The Natural Science faculty encourages cooperation with other disciplines in the total education of the student.

A student may pursue a B.A. or B.S. degree with a major Biology or Chemistry. Teacher Certification is available with a major in Biology or Chemistry. Minors are available in Biology, Chemistry, Environmental Science, and Physics.

Pre-Dental, Pre-Engineering, Pre-Medical, Pre-Medical Technology, Pre-Optometry, Pre-Pharmacy, and Pre-Veterinarian students are advised by members of the Natural Science Faculty.

BIOLOGY
A student may pursue a Bachelor of Arts or a Bachelor of Science degree with either a major or minor in Biology. Teacher certification with a major in biology is available with either degree program.

BIOLOGY MAJOR without Teacher Certification ........................................................................................................... 58

Required courses .................................................................................................................................................. 21
Take each course on this list: ......................................................................................................................... 20

**BIOLOGY MAJOR with Teacher Certification for Grades 8 – 12.................................................. (minimum) 56**

This major must be combined with the Secondary Education Minor.

The Commonwealth of Kentucky provides a single method for teacher certification in biology which requires a major in biology with specific courses. Students must also complete the minor in Secondary Education. See page 134 in this bulletin catalog.

A program for middle school science certification with an emphasis in science is also available. See page 130 in this bulletin catalog.

BIO 480  Seminar  1-3
BIO 390/490  Research  1-3

**Environmental Science Minors**

The minor is available in the form of two emphases:

- **Applied Environmental Sciences Emphasis** (intended for biology and chemistry majors)
- **Environmental Studies Emphasis** (intended for majors outside the natural science discipline)

This minor is not intended for teacher certification.

Courses that are common to a major and a minor may count in either, but not both.

**Environmental Science Minor with Applied Environmental Sciences Emphasis**

Required Courses ........................................................................................................ 17

*Take each course on this list:*
- BIO 302  Environmental Science  3
- BIO 415  Aquatic Ecology  4
- ENV 310  Environmental Ethics  3
- ENV 355  Environmental Chemistry  4

*Choose one course from this list:*
- GEO 105  Introductory Earth Science  3
- GEO 211*  Physical Geology  3

**Electives** ........................................................................................................... 8

See Environmental Studies Minor Electives below.

**Environmental Science Minor with Environmental Studies Emphasis**

Required Courses ........................................................................................................ 17

*Take each course on this list:*
- BIO 200*  Biological Concepts  4
- CHE 100*  Introduction to Chemistry  3
- CHE 103  Introduction to Chemistry Lab  1
- ENV 310  Environmental Ethics  3

*Choose one course from this list:*
- GEO 105  Introductory Earth Science  3
- GEO 211†  Physical Geology  3

*Other courses as approved.
CHEMISTRY

The chemistry program offers students a choice between a Bachelor of Science (B.S.) degree or a Bachelor of Arts (B.A.) degree. Students wishing to pursue a graduate degree in chemistry or employment in the chemical industry should pursue the B.S. degree. The B.A. degree is designed for those students seeking secondary education certification in chemistry as well as for several pre-professional majors (pre-dental, pre-medical, pre-pharmacy, etc.). Students pursuing careers in dentistry, medicine, and pharmacy generally major in chemistry with a minor in biology or the converse.

Bachelor of Science Programs

Chemistry Major without Teacher Certification - Bachelor of Science.......................................................... 67

Requirements .......................................................................................................................................................... 39

Take these two courses together:
CHE 109  Technical Writing and Lab Safety
CHE 113  General Chemistry I Lab

The student will typically take CHE 109, 111, and 113 in the same semester, but the above courses are paired regardless of when CHE 111 is taken.

Take each course on this list:
CHE 111  General Chemistry I
CHE 112  General Chemistry II
CHE 114  General Chemistry II Lab
CHE 221  Analytical Chemistry
CHE 223  Analytical Chemistry Lab
CHE 315  Research Methods
CHE 341  Organic Chemistry I
CHE 342  Organic Chemistry II
CHE 343  Organic Chemistry I Lab
CHE 344  Organic Chemistry II Lab
CHE 350  Instrumental Analysis
CHE 380  Junior Seminar
CHE 451  Physical Chemistry I
CHE 452  Physical Chemistry II
CHE 453  Physical Chemistry I Lab
CHE 454  Physical Chemistry II Lab
CHE 480  Senior Seminar

Choose courses from this list totaling at least six hours:
CHE 370  Inorganic Chemistry
CHE 385  Internship
CHE 390  Junior Research
CHE 400  Special Topics
CHE 460  Biochemistry
CHE 490  Senior Research
CHE/ENV 355  Environmental Chemistry

Supporting Courses ................................................................................................................................................. 22

Take each course on this list:
PHY 241*  General University Physics I
PHY 242  General University Physics II
PHY 243  General University Physics I Lab
PHY 244  General University Physics II Lab
MTH 210*  Calculus I
MTH 211  Calculus II
MTH 310  Calculus III
Recommended Courses

<table>
<thead>
<tr>
<th>Both courses on this list:</th>
</tr>
</thead>
<tbody>
<tr>
<td>MTH 311 Differential Equations 3</td>

Chemistry Minor

Required Courses

Take these two courses together:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 109</td>
<td>Technical Writing and Lab Safety</td>
<td>1</td>
</tr>
<tr>
<td>CHE 113</td>
<td>General Chemistry I Lab</td>
<td>1</td>
</tr>
</tbody>
</table>

The student will typically take CHE 109, 111, and 113 in the same semester, but the above courses are paired regardless of when CHE 111 is taken.

Take each course on this list:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>CHE 111*</td>
<td>General Chemistry I</td>
<td>3</td>
</tr>
<tr>
<td>CHE 112</td>
<td>General Chemistry II</td>
<td>3</td>
</tr>
<tr>
<td>CHE 114</td>
<td>General Chemistry II Lab</td>
<td>2</td>
</tr>
<tr>
<td>CHE 221</td>
<td>Analytical Chemistry</td>
<td>3</td>
</tr>
</tbody>
</table>
CHE 223  Analytical Chemistry Lab  1
CHE 341  Organic Chemistry I  3
CHE 343  Organic Chemistry I Lab  1
CHE 342  Organic Chemistry II  3

Electives.................................................................................................................. 4

Choose courses totaling at least four hours from this list:

CHE 315  Research Methods  2
CHE 344  Organic Chemistry II Lab  2
CHE 350  Instrumental Analysis  4
CHE/ENV 355  Environmental Chemistry  4
CHE 370  Inorganic Chemistry  3
CHE 380  Junior Seminar  1
CHE 385  Internship  1-4
CHE 390  Junior Research  1-3
CHE 400  Special Topics  3
CHE 411  Physical Chemistry for Life Sciences  3
CHE 412  Physical Chemistry for Life Sciences Lab  1
CHE 451  Physical Chemistry I  3
CHE 453  Physical Chemistry I Lab  1
CHE 452  Physical Chemistry II  3
CHE 454  Physical Chemistry II Lab  1
CHE 460  Biochemistry  3
CHE 480  Senior Seminar  1
CHE 490  Senior Research  1-3

Supporting Course ................................................................................................. 3
MTH 111*  College Algebra  3

Physics Minor .......................................................................................................... 23

A student in the Physics Minor will gain a broad introductory level of knowledge and understanding of classical (pre-1900) and modern (post-1900) physics as applied to the natural and man-made worlds, will develop highly transferable problem-solving skills, and will delve more deeply into a selected area of physics.

Required Courses ................................................................................................... 16

Take each course on this list:

PHY 241  General University Physics I  4
PHY 243  General University Physics I Lab  1
PHY 242  General University Physics II  4
PHY 244  General University Physics II Lab  1
PHY 338  Modern Physics I  3
PHY 339  Modern Physics II  3

Electives (These courses are taught as needed or requested.) .................................. 3

Choose courses from this list totaling at least three hours:

PHY 331  Mechanics  3
PHY 332  Engineering Statics  3
PHY 333  Electronic Circuits  3
PHY 400  Special Topics  1-3
PHY 421  Computational Science  2
PHY 431  Introduction to Quantum Mechanics  3
PHY 438  Introduction to Electromagnetism  3
PHY 451  Thermodynamics  3

Supporting Courses ............................................................................................... 4

MTH 210*  Calculus I  4

The student must complete the following courses with a cumulative GPA of 2.50 or higher: CHE 111, 112, 113, 109, 114 and MTH 111.
Division of Social Science

Dr. Damon Eubank, Chair
Dr. Lindsay Anderson
Dr. Eric L. Bruns
Mr. Bill Cassell
Mr. Allen Copenhaver
Mr. Larry Creason

Dr. Wendy Davis
Dr. DeWayne Frazier
Dr. Susan Howell
Dr. Jeanette Parker
Dr. Kimberly Pitts

Dr. Craig Rogers
Mr. Ben Stickle
Dr. Allison Timbs
Dr. Shawn Williams
Mr. Max Wise

PURPOSE
The Division of Social Science incorporates traditional major and minor programs that seek to promote intellectual development and a better understanding of society; its history, political systems, psychology, social structures, and human interaction not only as personal as the individual but international in scope. The division offers these academic disciplines within a liberal arts framework of Christian higher education as outlined in Campbellsville University’s stated goals.

To meet the University’s goals the division provides majors and/or minors in criminal justice, history, homeland security, political science, psychology, sociology, and social science areas (with or without teaching certification) leading to a Bachelor of Science or Bachelor of Arts degree. An Associate of Science degree is available in certain disciplines. These programs of study are solidly grounded in the liberal arts tradition and promote intellectual inquiry, critical thinking, reading, writing, and research skills to prepare students for graduate studies, various professional schools, teacher certification, and careers outside academia.

GRADUATE STUDY
A master’s degree is available in social science. See the graduate bulletin-catalog for information.

CRIMINAL JUSTICE
The criminal justice curriculum is designed to provide the student with a thorough understanding of crime and the criminal justice system. Areas of study include law enforcement, the courts, corrections, criminology, juvenile delinquency, and victimology. The Criminal Justice programs of study stress professional ethics, human values, critical thinking, and analytical skills that prepare students for careers in various criminal justice agencies and also provides students with the foundation required for graduate school admission. Students pursuing a B.S. or B.A. may pursue the Criminal Justice Administration Area (60 hrs); the Criminal Justice Administration Major (36 hrs); or the Criminal Justice Administration Minor.

CRIMINAL JUSTICE ADMINISTRATION AREA
This program requires courses in Criminal Justice, Sociology, Political Science, Psychology and Business Administration. It does not require a minor.

Criminal Justice Administration Area.................................................................................. 60

Required courses.................................................................................................................. 30

Take each course on this list: .............................................................................................. 24

CJ 101  Introduction to the Criminal Justice System  3

CJ 450 Victimology 3
CJ 485 Serial Killers 3
CJ 380/480 Special Topics 1-3
CJ 390/490 Independent Study 1-3

**Psychology/Sociology Electives:** 6

**Choose two courses from this list:**
PSY/SOC 215 Human Interaction 3
PSY/SOC 333 Group Dynamics 3
PSY/SOC 341 Social Psychology 3
PSY 311 Learning and Behavior 3
PSY 412 Abnormal Psychology 3
SOC 230 Social Problems 3
SOC 342 Race and Ethnic Relations 3
SOC 413 Sociology of Deviant Behavior 3

**Free Electives:** 3

**Choose courses totaling at least three hours from any discipline.**

---

**GEOGRAPHY**

Courses in geography are designed to provide a background for students with majors or minors in the Division of Social Science and to meet the requirements of other divisions.

GEG 315 World Geography 3
GEG 321 Cultural Geography and Anthropology 3
GEG 332 Economic Geography 3
GEG 442 Political Geography 3
GEG 480 Special Topics 3

---

**HISTORY**

The history curriculum contains survey courses in American History and World Civilization which provide the student with a background for study in this subject. Offerings in American, European, and Eastern history provide the opportunity to specialize on one or more of these geographic and cultural areas. At least three hours of upper division elective hours must be in a non-American field.

**History Major**

**History Core Requirements** 18

**Take each course on this list:**
HST 110* United States to 1877 3
HST 120* United States Since 1877 3
HST 131* World Civilization to 1650 3

* General Education Course
HST 142* World Civilization Since 1650 3
HST 492 Senior Thesis 3
HST One non-US History Upper Division Course 3

History Electives (see below) ................................................................. 15

*Choose five courses from the History Elective list below.*

History Minor ....................................................................................... 21

POLITICAL SCIENCE

The major and minor curriculum patterns are drawn from contemporary fields of political science and allow for a wide range of course selection. The student will be provided with as much exposure to the areas of political science as possible within the framework of the student's interest and career objectives.

The major provides the student with the required choice of either American Politics or Global Politics. The student will complete a core and an emphasis to complete the major.

Political Science Major Core Requirements .................................................................................................................................. 18

Take each course on this list:

POL 110 American Government ........................................................................................................................................ 3

LEGISLATIVE INTERN PROGRAM
This program offers university undergraduates the opportunity to participate actively in the state legislative session while receiving full academic credit for one semester. The Legislative Program, held when the General Assembly convenes for regular session, begins in January and runs through the third week in May.

The Legislative Program content consists of two coordinated parts—the first involving work with legislators during the session and the second consisting of intensive seminars relative to state government and the legislative process.

Interns register on their home campuses and have the status of full-time students. Each participating college or university works out the mechanics of course registration and the number of credit hours to be assigned for the semester’s work, although 15 credits are usually granted. Courses are listed below:

- LI 301 Legislative Internship
- LI 302 Involvement in Government
- LI 303 The Legislative Process
- LI 304 Kentucky History and Politics
- LI 305 Analysis of Contemporary Problems in State Government Administration

Work as a Campbellsville University legislative intern has provided an excellent opportunity to:
- Learn the workings of state government
- Understand the legislative process and its subtleties
- Provide assistance to legislators and their constituents
- Explore careers in public service.

Duties: Interns will be assigned to legislative leadership offices and committees and will be expected to devote fulltime to their legislative duties during the term of their appointments, adapting to the legislative schedule. Duties will vary from office to office, but will include bill analysis, constituent work, research and general office work.

Other Requirements: Interns will be expected to attend all meetings and classes. They will keep a daily journal and complete a written report on their experiences. A 15-30 minute oral presentation is required upon the completion of the internship. The director of the legislative intern program will assign the final grade based on the following criteria: (1) Immediate supervisor’s impression of the intern’s work (50%); (2) the written journal (25%); (3) the written report (15%); and (4) the oral presentation to select social science faculty (10%).

PSYCHOLOGY
Psychology is one of the most popular undergraduate programs at Campbellsville University. Undergraduate training in psychology prepares students for a number of diverse careers including those in the mental health field, government, various areas of business, and many others. The undergraduate degree also provides students with the foundation required for entrance into graduate school.

SOCILOGY
Sociology is the study of human groups, social interaction, and the causes and effects of social relationships. The sociology curriculum prepares students for careers which require an understanding of and participation in groups. Students anticipating careers in areas such as professional ministry, business, government, teaching, and criminal justice can particularly benefit from courses in sociology. The curriculum also prepares students for graduate work in sociology. Areas of study include community, criminology, race and ethnic relations, sociological research, social stratification and mobility, and social theory.

* General Education Course
SOCIAL STUDIES AREA
The Social Studies Area requires a selection of courses in Economics, Geography, History, Political Science, Psychology and Sociology. Based in liberal arts, the Social Studies Area is a 69-hour program that offers a traditional track without teacher certification or a 72-hour program with teacher certification.

Social Studies Area with Teacher Certification
Must be combined with the Secondary Education Minor.
Add this course to the Social Studies Area that follows:

SSE 444  Teaching Social Studies in Middle and Secondary Schools  3

Social Studies Area without Teacher Certification

Economics
Choose two courses from this list:  6
ECO 110*  Introduction to Economics  3
ECO 221*  Macroeconomics  3
ECO 222*  Microeconomics  3

Choose any course in this category:  3
ECO  Upper Division Elective  3

Geography
GEG 315  World Geography  3
GEG 321  Cultural Geography and Anthropology  3
GEG 442  Political Geography  3

History
Take each course on this list:  12
HST 110*  United States History to 1877  3
HST 120*  United States History Since 1877  3
HST 131*  World Civilization to 1650  3
HST 142*  World Civilization Since 1650  3

Choose two courses in this category:  6
HST  Upper Division Electives

Political Science
POL 110*  American Government  3

Choose one course in this category:  3
POL  Any POL course not previously taken

Choose three courses in this category:  9
POL  Any Upper Division course not previously taken

Psychology
PSY 111*  General Psychology  3

Choose one course in this category:  3
PSY  Any PSY course not previously taken

Choose one course in this category:  3
PSY  Any Upper Division course not previously taken

Sociology
SOC 110*  Introduction to Sociology  3

Choose one course in this category:  3
SOC  Any SOC course not previously taken

Choose one course in this category:  3
SOC  Any Upper Division course not previously taken
INTERNATIONAL STUDIES

International Studies Minor

The student enrolling in this minor is required to study abroad (ISA 480) in a sanctioned program (summer or semester). A request for an exemption as well as an acceptable alternative must be approved by the head of international education. The exempted student must still complete a minimum of 24 credit hours to receive this minor.

UNIVERSITY STUDIES AND GENERAL STUDIES

Bachelor of University Studies

General Education Requirements.................................................................................. 44

University Studies...................................................................................................... 51

College of Arts and Sciences....................................................................................... 27

Choose a single division/department from the list below. Complete 27 hours with that division/department where 18 of the 27 are in courses numbering 300 – 499. General Education courses will not count in the 27 hours.

- Art
- Humanities (English, Mass Communication, Theater)
- Human Performance
- Math/Computer Science
- Natural Science
- Social Science

First School .................................................................................................................. 12

Choose a single school from the list below. Complete 12 hours of courses from that numbering 300 – 499.

- School of Business and Economics
- Carver School of Social Work and Counseling
- School of Music
- School of Theology

Second School .......................................................................................................... 12

Choose a single school from the list below other than the one selected as your “first school.” Complete 12 hours of courses from that numbering 300 – 499.

- School of Business and Economics
- Carver School of Social Work and Counseling
- School of Music
- School of Theology

Cultural Experiences.................................................................................................. 25

Choose any courses from any college or school that are not used to meet other program requirements.

The following program of study contains courses that expand the student’s knowledge in the areas of personal and cultural development, English, Mathematics, Science, and Social Science.

Associate of Science in General Studies..................................................................... 64

Personal and Cultural Development.......................................................................... 16

Take each course on this list: .................................................................................... 6

ENG 210  Literary Studies  3
HP 103  Introduction to Physical Education and Health Promotion  2
HP  Any 1-hour Human Performance Physical Activity Course  1

Choose one course from this list: ............................................................................. 3

CHS 111  Introduction to Old Testament Study  3
CHS 121  Introduction to New Testament Study  3
CHS 130  Christ and Culture  3
PHI 241  Introduction to Philosophy  3

Choose one course from this list: ............................................................................. 2

ART 110  Understanding Art  2
ART 310  Art History I  3
ART 311  Art History II  3

HONORS INTERDISCIPLINARY PROGRAM

GOALS
1. To provide students with a personalized and more challenging experience within general education and upper division courses.
2. To foster an intellectual and social community among honors students and faculty that facilitates fellowship and scholarship.
3. To promote Christian excellence in academic achievement.

Campbellsville University recognizes that each student must be given the opportunity to reach his or her full intellectual potential. Part of this mission includes reaching out to exceptional students and providing them with extraordinary academic challenges. Each student who completes the program’s requirements will be recognized as an Honors Graduate at Commencement and will receive an Honors Diploma.

The Honors Program is open to all students who may benefit from it. To graduate with an Honors Diploma, students must complete the requirements listed below:

Course Requirements

<table>
<thead>
<tr>
<th>Requirement</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>Honors designated courses</td>
<td>18</td>
</tr>
<tr>
<td>Suggested that half of these hours are earned from general education courses and half from upper division hours.</td>
<td></td>
</tr>
<tr>
<td>Honors Seminars (HON 105, HON 305)</td>
<td>2</td>
</tr>
<tr>
<td>Senior Capstone (HON 405)</td>
<td>1</td>
</tr>
</tbody>
</table>

Additional Requirements
1. Cumulative GPA of 3.2.
2. Participate in a minimum of three program activities, including monthly meetings and outings each semester.
3. Participate in a minimum of one service project with the program per year.
PURPOSE
The objective of the faculty of the School of Business and Economics is to present collegiate programs in business disciplines, based upon a strong liberal arts foundation delivered in a Christian environment.

Graduate Study
The School of Business and Economics offers a Master of Business Administration degree designed to prepare students for a leadership role in a rapidly changing global marketplace of constantly advancing technology. A strong commitment to Christian values and ethical conduct prepares students to meet the competitive and ethical challenges they will face as managers in an increasingly diverse world. The MBA program prepares students to be financially successful and socially responsible by integrating a thorough foundation in the basic functional areas of business with an understanding of the role of technology in business decision making. The Master of Arts in Organizational Leadership degree is designed to prepare students for Christian leadership with specialization across disciplines. See Graduate Bulletin-catalog for more information.

Undergraduate Study
The School offers a Bachelor of Science in Business Administration (B.S.B.A.) with areas of emphasis in Accounting, Business Administration, Business Information Technology, Computer Information Systems (CIS), Economics, Healthcare Management, Human Resource Management, Management, and Marketing which satisfy the graduation requirements without a minor. A major is offered in Economics which requires a minor. A degree completion program in Organizational Management is offered as a single-option major. Minors are also offered in Accounting, Business Administration, Business Information Technology, Economics, Healthcare Management, Management, Marketing, and ROTC Leadership Studies. Associate degree programs are offered in Accounting, Business Administration and Business Information Technology. These programs are offered in a strong liberal arts general education curriculum to provide a broad-based business education grounded in sound Christian values.

Core Requirements for Business Administration Area
The following courses are required for all emphases of the Business Administration Area:

<table>

Regarding the CPA Examination - Most states require additional education beyond the traditional bachelor's degree to fulfill the requirement for taking the Certified Public Accountant (CPA) examination. At Campbellsville University, this additional requirement can be obtained by completing the Master's of Business Administration program (see Graduate school bulletin-catalog for more information).

SCHOOL OF BUSINESS and ECONOMICS MINORS

ROTC Program (offered in cooperation with Western Kentucky University)

Campbellsville University and Western Kentucky University ROTC have prepared a very flexible college program of study. The ROTC program offers a Leadership Studies Minor in the School of Business and Economics that can be combined with any major field of study. In addition to completing courses in the minor, all ROTC students must complete a military history course in order to be commissioned. Campbellsville University offers HST 465 Introduction to Military History. Please see the Dean of the College of Arts and Sciences to determine when the course will be offered.

Leadership Studies Minor 1

The ROTC student must enroll in the appropriate MSL course each of the eight semesters that comprise the freshman through senior years. This will result in a 24-hour minor. Option: The ROTC student may enroll in the intensive summer field course, MSL 210, in lieu of the freshman and sophomore courses (101, 102, 201, 202). This will result in a 21-hour minor.

Take each course on this list:
MSL 101  Leadership and Personal Development—fall  2
MSL 102  Introduction to Tactical Leadership—spring  2
MSL 201  Innovative Team Leadership—fall  3
MSL 202  Foundations of Tactical Leadership—spring  3
MSL 301  Adaptive Team Leadership—fall  3
MSL 302  Leadership in Changing Environments—spring  4
MSL 401  Developing Adaptive Leaders—fall  3
MSL 402  Leadership in a Complex World—spring  4

Elective Course
This elective course is in addition to the minimum required for the Leadership Studies Minor. It is an intensive 5-week field course taken the summer between the junior and senior years. Prerequisites: MSL 301 and MSL 302.
MSL 410  Practicum - Leader Development and Assessment  6

Leadership Studies Minor 2

The ROTC student must enroll in the appropriate MSL course beginning with the summer term before the junior year and each of the four semesters that comprise the junior and senior years.

MSL 210  Military Science Practicum: (Leaders Training Course)—summer  7
MSL 301  Adaptive Team Leadership—fall  3
MSL 302  Leadership in Changing Environments—spring  4
MSL 401  Developing Adaptive Leaders—fall  3
MSL 402  Leadership in a Complex World—spring  4

Elective Course
This elective course is in addition to the minimum required for the Leadership Studies Minor. It is an intensive five-week field course taken the summer between the junior and senior years. Prerequisites: MSL 301 and MSL 302.
MSL 410  Practicum - Leader Development and Assessment  6

PURPOSE
The theme of the Teacher Education Program is "Empowerment for Learning." Emphasis in all degree programs is given to the development of the pre-service teacher to know and utilize learning theory, pedagogy, culturally responsive instruction, technology, and assessment in order to empower self and others to become life-long learners.

DESCRIPTION
The Teacher Education program is a collaborative effort among all applicable academic areas of the University. The program provides a broad-based education intended to equip the pre-service teacher with knowledge, values, and attitudes essential for developing competency on the Kentucky Teacher Standards. The program also stresses responsible citizenship within the American democracy through the promotion of Christian servant leadership.

Students may pursue initial teacher certification in: (a) Interdisciplinary Early Childhood Education (Birth to Primary), (b) Elementary Education, P-5; (c) Middle Grades Education, 5-9; (d) Secondary Education, 8-12 (English, Math, Chemistry, Biology, Social Studies); (e) Art, P-12; (f) Health and Physical Education, P-12; (g) Integrated Music, P-12; (h) Spanish Education P-12; and (i) Learning and Behavior Disorders, P-12. Endorsements are also available in P-12 English as a Second Language (ESL) and Environmental Science.

The School of Education also offers Associate of Science and Bachelor of Science degrees in early childhood education programs. Neither of these degrees are teacher certification programs.

The Education Professional Standards Board requires teacher candidates to pass exams called PRAXIS II before the Initial teaching certificate, the Statement of Eligibility, is issued. The exams are: (a) PRAXIS II specialty exams which measure content knowledge and pedagogical skill and, (b) PRAXIS PLT which measures the principles of learning and teaching. In compliance with disclosure of passing rates on the PRAXIS II exams, according to the federal government Title II report, the University's passing rate for 2010-2011 was 97%.

The Teacher Preparation program has a Continuous Assessment Plan (CAP) that monitors student progress throughout the program. The Plan requires four checkpoints along the continuum of the teacher preparation program:

CAP 1 acknowledges the intent to enter teacher education;
CAP 2 determines entry into the program, requires evidence of academic competency;
CAP 3 assesses readiness for student teaching; and,
CAP 4 determines program completion/exit.

Students must successfully meet the criteria at each checkpoint. A student will not be permitted to progress in the program if the criteria are not met. CAP will be explained in detail in the appropriate education courses.

CAP 1: INTENT TO MAJOR IN TEACHER EDUCATION
The current requirements for CAP 1 are:

1. Criminal background check
2. Tuberculosis risk assessment
CAP 2: ADMISSION REQUIREMENTS

The current requirements for admission to the Teacher Education Program are:

1. Cumulative GPA of 2.75
2. Academic competency
   a. Passing scores on PRAXIS I
   b. B.S. degree in area of certification sought, 2.75 cumulative GPA plus Praxis I for post-baccalaureate students
3. ENG 111 and 112, grade of C or better
4. MAC 120 or MAC 140, grade of C or better
5. Disposition recommendations
6. Commitment to Kentucky Code of Ethics
7. Autobiography
8. Diversity Survey
9. Pre-Professional Growth Plan
10. Interview
11. Writing proficiency assessment
12. Creativity assessment

Generally, application for admission to the Teacher Education Program is made while the student is enrolled in ED 102 Introduction to Education. No education courses other than ED 102 and ED 210 (Basic Concepts and Philosophy of Education) can be taken without admission to the program. Transfer juniors and seniors must apply and meet admission requirements during their first semester of enrollment.

Note: Requirements for admission and certification are subject to change at any time by the Kentucky Education Professional Standards Board (EPSB) and Campbellsville University.

CAP 3: ADMISSION REQUIREMENTS FOR STUDENT TEACHING

Before a student is eligible to enroll in the student teaching course (ED 450), all content course requirements must be completed and the following CAP 3 criteria must be met:

1. 2.75 Cumulative GPA
2. 2.75 Major GPA
3. 2.75 Professional GPA
4. PRAXIS II specialty exam/s
5. PRAXIS II PLT
6. Disposition recommendations
7. Professional portfolio based on current teacher standards
8. Minimum of 200 field/pre-professional development hours
9. Federal criminal records check
10. Medical exam and tuberculosis skin test
11. Liability insurance
12. Re-commitment to Kentucky Code of Ethics
13. Pre-Professional Growth Plan

CAP 4: EXIT REQUIREMENTS

CAP 4 criteria are:

1. 2.75 cumulative GPA
2. 2.75 major GPA
3. 2.75 professional education GPA
4. Successful completion of student teaching
5. Portfolio and video
6. Exit Interview

Students are encouraged to successfully complete the PRAXIS II exams (see the Teacher Education Handbook for a complete listing of PRAXIS II exams). The Education Professional Standards Board has established passing scores on all exams. It is the responsibility of the student to determine the appropriate PRAXIS exams for which to register and complete. Specialty exams have been subject to change by the Education Professional Standards Board and, therefore, students are advised to take care in registering for the correct exams. Though the School of Education faculty will strive to inform students of this information, it is the responsibility of the students to register for the correct examinations. Though students are not required to pass the exam to graduate, the Education Professional Standards Board will not issue teacher certification until all appropriate exams have been passed.

P-5 TEACHER CERTIFICATION PROGRAM

Students pursuing the P-5 program must be prepared to teach all subjects at the elementary level. Thus, the P-5 program is based on an interdisciplinary model, providing candidates with content knowledge in all core disciplines, as well as the fine arts.

† During the term when the student enrolls in ED 450, no other courses may be scheduled without first successfully appealing to the Dean and Faculty of the School of Education for an exception.

*General Education Course
5-9 TEACHER EDUCATION CERTIFICATION PROGRAM

The courses in the professional studies component below constitute the 5-9 teaching certification. Each 5-9 teacher education major may choose between two options: (a) Option 1, specializing in one teaching field and (b) Option 2, specializing in two teaching fields. In addition to the education advisor, middle grades education students will have content area(s) advisors.

PROFESSIONAL EDUCATION COURSES .................................................................................................................39

Foundation Courses ..................................................................................................................................................12
ED 199  Entry to Teacher Preparation ..................................................................................................................0
ED 102  Introduction to Education ..........................................................................................................................3
ED 210  Basic Concepts and Philosophy of Education .............................................................................................3
ED 300  Human Development and Learning Theory ...............................................................................................3
ED 310  Instructional Technology ............................................................................................................................3

Pedagogy Courses ...................................................................................................................................................15
ED 325  Teaching Diverse Learners ..........................................................................................................................3
ED 351  Reading Methodology, P-8 .........................................................................................................................3
ED 361  Language Arts Methodology, P-8 ...............................................................................................................3
ED 311  Assessment and Evaluation of Learning .....................................................................................................3
ED 414  P-9 Classroom Management ....................................................................................................................3

Clinical Practice .........................................................................................................................................................12
ED 450†  Student Teaching .......................................................................................................................................12

5-9 MIDDLE GRADES, OPTION I - Choose one option from English, Math, Science, or Social Studies. All Math courses above MTH 210 must be taken at Campbellsville University.

English, Option I ......................................................................................................................................................39

Required Courses (includes a three-hour General Education course)........................................................................33
Take each of the following courses:
ENG 210*  Literary Studies .......................................................................................................................................3
ENG 234  Foundations of World Literature ..............................................................................................................3
ENG 373  Creative Writing ........................................................................................................................................3
ENG 341  Survey of American Literature I ................................................................................................................3
ENG 342  Survey of American Literature II ..............................................................................................................3
ENG 361  Linguistics: Modern English Grammar ....................................................................................................3
ENG 363  Teaching Reading in Middle and Secondary School ................................................................................3
ENG 364  Adolescent Literature ..................................................................................................................................3
ENG 465  Teaching English in Middle and Secondary School ................................................................................3
MAC 240  Reporting and Newswriting .....................................................................................................................3
TH 200  Stagecraft ...................................................................................................................................................3

Choose one course from this list: .............................................................................................................................3
ENG 331  Survey of English Literature I ..................................................................................................................3
ENG 332  Survey of English Literature II ................................................................................................................3

Choose one course from this list: .............................................................................................................................3
ENG 375  Contemporary Drama ..................................................................................................................................3
ENG 491  Shakespeare ..............................................................................................................................................3

†During the term when the student enrolls in ED 450, no other courses may be scheduled without first successfully appealing to the dean and faculty of the School of Education for an exception.

*General Education Course
Math, Option 1

All Math courses above MTH 210 must be taken at Campbellsville University.

Required Courses (including a three-hour General Education course)

<table>

SSE 444 Teaching Social Studies in Middle and High Schools 3
SOC 110* Introduction to Sociology 3

Choose one course from this list:

ECO 221* Macroeconomics 3
ECO 222* Microeconomics 3

Social Studies Elective - Choose one course from this list:

GEG 321 Cultural Geography and Anthropology 3
POL 341 Comparative Government 3

Math/Science, Option 2 (including nine hours of General Education courses) .......................................................................................................................... 53

Math Courses .................................................................................................................................................. 25

All Math courses above MTH 210 must be taken at Campbellsville University.

Take each course on this list:

MTH 111 College Algebra 3
MTH 112 Trigonometry and Analytic Geometry 3
MTH 130 Elementary Statistics 3
MTH 201 Math for Elementary and Middle School Teachers I 3
MTH 202 Math for Elementary and Middle School Teachers II 3
MTH 210 Calculus I 4
MTH 450 Methods and Material for Teaching Mathematics 3

Math Elective - Choose one course from this list:

MTH 211 Calculus II 4
MTH 305 Number Theory 3
Science Courses

Take each course on this list:
BIO 103  Environment and Man  3
BIO 200  Biological Concepts  4
BIO 450  Methods of Science Teaching  3
CHE 100  Introduction to Chemistry  3
GEO 105  Introductory Earth Science  3
PHY 131  Conceptual Physics  3

Choose two courses from this list:
BIO 104  Biology Laboratory for Teachers  1
CHE 103  Introduction to Chemistry Lab  1
GEO 106  Introductory Earth Science Lab  1
PHY 143  General College Physics I Lab  1

Choose one course from this list:
BIO 201  Zoology  4
BIO 202  Botany  4

Science Elective - Choose one course as described below:
Any Biology course numbered 300 or higher  3
Any Chemistry course numbered 300 or higher  3

Math/Social Studies, Option 2 (including 12 hours of General Education courses)

Math Courses

All Math courses above MTH 210 must be taken at Campbellsville University.

Take each course on this list:
MTH 111  College Algebra  3
MTH 112  Trigonometry and Analytic Geometry  3
MTH 130  Elementary Statistics  3
MTH 201  Math for Elementary and Middle School Teachers I  3
MTH 202  Math for Elementary and Middle School Teachers II  3
MTH 210  Calculus I  4
MTH 450  Methods and Material for Teaching Mathematics  3

Math Elective - Choose one course from this list:
MTH 211  Calculus II  4
MTH 305  Number Theory  3

Social Studies Courses

Take each course on this list:
GEG 315  World Geography  3
HST 110*  U.S. History to 1877  3
HST 120*  U.S. History since 1877  3
HST 131*  World Civilization to 1650  3
HST 142  World Civilization Since 1650  3
POL 110*  American Government  3
PSY 341  Social Psychology (Prerequisite: PSY 111)  3
SOC 110*  Introduction to Sociology  3
SSE 444  Teaching Social Studies in Middle and High Schools  3

Choose one course from this list:
ECO 221*  Macroeconomics  3
ECO222*  Microeconomics  3

Social Studies Elective - Choose one course from this list:
GEG 321  Cultural Geography and Anthropology  3
POL 341  Comparative Government  3
Science/Social Studies, Option 2 (including 15 hours of General Education Courses) ........................................................................................................... 61

Science Courses ........................................................................................................... 28

Take each course on this list:
- BIO 103 Environment and Man 3
- BIO 200 Biological Concepts 4
- BIO 450 Methods of Science Teaching 3
- CHE 100 Introduction to Chemistry 3
- GEO 105 Introductory Earth Science 3
- PHY 131 Conceptual Physics 3

Choose two courses from this list:

8-12 SECONDARY TEACHER CERTIFICATION

The School of Education provides 8-12 teacher certification programs in the following curriculum areas: English, Math, Biology, Chemistry, and Social Studies. Candidates must have an advisor in both the curriculum area and in education. The Education Professional Standards Board requires ongoing assessment of teacher certification candidates. Therefore, it is important that secondary education majors remain in close contact with their education advisors. The first candidate assessment point, called CAP 1, is intent to major in the teacher education program. CAP 2 is admission to the program and approval is required to take courses beyond ED 310. All CAP requirements are described earlier in this section.

Following are the courses required for 8-12 teacher certification. Due to the developmental nature of teacher preparation and due to extensive field experience requirements, candidates are urged to start taking these courses no later than the first semester of their sophomore year.

The curriculum area (English, Math, etc.) should be selected as the major and 8-12/Secondary Education should be selected as the minor.
PROFESSIONAL EDUCATION COURSES

Foundation Courses
- ED 199 Entry to Teacher Preparation
- ED 102 Introduction to Education
- ED 210 Basic Concepts and Philosophy of Education
- ED 300 Human Development and Learning Theory
- ED 310 Instructional Technology
- ED 325 Teaching Diverse Learners
- ED 390 Assessment and Instructional Strategies
- ED 416 Curriculum and Methodology

Clinical Practice
- ED 450* Student Teaching

ED 450* denotes a practicum or professional practice requirement.

INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION (IECE) AND EARLY CHILDHOOD EDUCATION (ECE)

Application for admission to the Teacher Education Program is made while the student is enrolled in IEC 301. IEC 480 cannot be taken without admission to the IEC program. Application for student teaching is made in IEC 480. Kentucky Childcare Commonwealth Credential receives credit for ECE 111 and the Child Development Associate (CDA) receives credit for ECE 111 and ECE 140. A copy of credentials must be provided to Advisor and the Office of Student Records. ECE 111, ECE 140, IEC 475, and BA 313 are required for a Kentucky Director's Credential that is awarded by the Governor's Office for Early Childhood, Cabinet for Families and Children.

Interdisciplinary Early Childhood Education (IECE) Teacher Certification

Foundation Courses
- Take each course on this list:
  - ED 199 Entry to Teacher Preparation
  - ECE 111 Educational Foundations of Early Childhood
  - ECE 130 Child Development I
  - ECE 140 Guidance of the Young Child
  - ECE 230 Child Development II
  - IEC 301 The IECE Profession

Pedagogy Courses
- Take one course from this list:
  - ECE 216 Introduction to Special Education in Early Childhood Education
  - ECE 270 Observation and Assessment
  - ECE 280 Approaches to Curriculum and Methods
  - IEC 360 Cultural and Linguistic Diversity in Early Childhood Education
  - IEC 381 Language and Literacy Methodology
  - IEC 382 Arts and Humanities Methodology
  - IEC 383 Math, Science, and Social Studies Methodology
  - IEC 384 Interactive and Assistive Technologies
  - IEC 385 Infant and Toddler Methodology
  - IEC 416 Special Education Procedures and Strategies in IECE
  - IEC 420 Teaching Kindergarten
  - IEC 440 Positive Behavior Supports
  - IEC 460 Working with Families in Early Intervention
  - IEC 470 Advanced Assessment in IECE
  - IEC 480 Advanced Curriculum and Methods in IECE

Special Education Courses
- Take one SED course or Advisor Approved Elective

ED 450* denotes a practicum or professional practice requirement.

Early Childhood Education (ECE) No Teacher Certification

*During the term when the student enrolls in this course, no other courses may be scheduled without first successfully appealing to the dean and faculty of the School of Education for an exception.
Foundation Courses

Take each course on this list
ED 199 Entry to Teacher Preparation
ECE 111 Educational Foundations of Early Childhood
ECE 130 Child Development I
ECE 140 Guidance of the Young Child
ECE 230 Child Development II
IEC 301 The IECE Profession

Pedagogy Courses

Take each course on this list
ECE 216 Introduction to Special Education in ECE
ECE 270 Observation and Assessment
ECE 280 Approaches to Curriculum and Methods
ECE 320 Health, Safety, and Nutrition for Young Children
ED 371 P-S Children's Literature
IEC 360 Cultural and Linguistic Diversity in Early Childhood Education
IEC 381 Language and Literacy Methodology
IEC 382 Arts and Humanities Methodology
IEC 383 Math, Science, and Social Studies Methodology
IEC 384 Interactive and Assistive Technologies
IEC 385 Infant and Toddler Methodology
IEC 440 Positive Behavior Supports
IEC 460 Working with Families in Early Intervention
IEC 470 Advanced Assessment in IECE
IEC 475 Organization and Administration of Early Childhood Programs

Choose one course from this list:
IEC 400 Current Issues in the Early Childhood Profession
IEC 410 Special Investigations in Early Childhood Education

Restricted Electives: Advisor approved electives totaling twelve hours

Clinical Practice
ECE 411 Teaching Practicum in Early Childhood Education

ASSOCIATE OF SCIENCE DEGREE IN EARLY CHILDHOOD EDUCATION

General Education for Associate Degree
Take courses listed on page 55.

Early Childhood Education

Take each course on this list
ED 199 Entry to Teacher Preparation
ECE 111 Educational Foundations of Early Childhood
ECE 130 Child Development I
ECE 140 Guidance of the Young Child
ECE 216 Introduction to Special Education in ECE

P-12 LEARNING BEHAVIOR DISORDERS CERTIFICATION ........................................................................... 81

The Learning Behavior Disorders bachelor's program is provided to meet the specific needs of the undergraduate student. Candidates in the undergraduate LBD program must complete 44 hours in general education requirements, 12 hours of foundation courses as well as 21 hours in related studies. In addition to these campus-based hours, the undergraduate would complete 33 blended, online hours in the area of special education. The capstone course (3 hours) and student teaching (12 hours) are the final courses in the program.

TEACHING ENGLISH AS A SECOND LANGUAGE PROGRAMS
For the TSL endorsement, six hours per course classroom observation and teaching in a K-12 setting are required for a total of 30 hours observation/teaching. A reflection paper as the culmination of the learning experience both from the courses and observation hours is also required as is the passing of the PRAXIS II.

This endorsement is also offered as a certificate through the College of Arts and Sciences, Humanities Division.
PURPOSE
The School of Music of Campbellsville University serves to provide music training and the stimulation of creative and professional work in music. The School of Music provides music study within the mission and goals of the University.

The School of Music attempts to broaden the education of each student in the University by providing a wide range of experiences in music; by offering class instruction that seeks to develop an understanding of music as a communicative art, its place in life, and its value to the individual; and by offering specialized training in musical skills.

The School of Music encourages the development of students who wish to prepare for careers as professional performers, teachers, or church musicians by providing competency based courses which lay a technical and broad cultural foundation and which equip music students in their particular fields of interest and endeavor.

The School of Music guides students in the attainment of academic, spiritual, vocational, cultural, and social values through professional training, musicianship, and the liberal arts concept.

The School of Music provides educational and cultural resources to the University, community, and regional constituencies through concerts, workshops, adjudication, research, creative activity, and other professional services; while working cooperatively with the regional constituents to enhance learning opportunities for students.

GRADUATE STUDY
Master's degrees are available in music. See the Graduate catalog for information.

DEGREE PLANS
The School of Music offers programs of study leading to the Bachelor of Music (B.M.) degree, the Bachelor of Arts (B.A.) degree, or the Bachelor of Science (B.S.) degree.

Bachelor of Music: The area of concentration in this program is either Music Education or Vocal Performance.

Bachelor of Arts: The area of concentration in this program is music in general or Theory-Composition emphasis.

Bachelor of Science: The area of concentration in this program is Worship Arts.

PROGRAMS OF STUDY
Music (leading to the Bachelor of Arts)
This program concentrates on music in general, without specialization toward music education, vocal performance or worship arts. It prepares students for graduate study and/or careers in performance, composition, or college/private teaching in music. This is accomplished through the following emphases: (1) developing personal musicianship/performance skills; (2) acquiring knowledge of music literature, music history; and music theory (3) understanding the philosophy of music; and (4) mastering a variety of music-related techniques and methods.

Additionally, this program offers an emphasis in theory and composition. Students who want more freedom to take courses outside the field of music may be interested in pursuing the Music Area leading to the Bachelor of Arts degree.
Music Education (leading to the Bachelor of Music)
This program prepares students to teach music in primary and secondary schools. This is accomplished through the following emphases: (1) understanding the philosophies of music and music education; (2) mastering techniques and methods for teaching music; (3) developing personal musicianship/performance skills; and (4) acquiring knowledge of music literature, music history; and music theory.

Vocal Performance (leading to the Bachelor of Music)
This program prepares students for graduate study and/or careers in vocal performance. This is accomplished through the following emphases: (1) developing personal musicianship/performance skills; (2) acquiring knowledge of music literature, music history, and music theory; (3) mastering of voice science, pedagogy, and vocal literature; and (4) mastering a variety of performance-related techniques and methods.

Worship Arts (leading to the Bachelor of Science)
This program prepares and equips students to face the needs of today's Christian Church. This is accomplished through the following emphases: (1) understanding the role of music in the mission of the twenty-first century Christian Church; (2) understanding the philosophies of music, worship, and ministry/worship leadership; (3) mastering techniques and methods for music ministry/worship leadership through a strong training in music and a foundation in biblical studies; (4) developing personal musicianship/performance skills.

MUSIC PERFORMANCE GRANTS
Grants in varying amounts are available based on student ability and willingness to participate in two or more musical ensembles. Auditions are held throughout the year. For more specific information, write the dean of the School of Music.

REQUIREMENTS AND OPPORTUNITIES FOR HEARING MUSIC
Students have many opportunities to attend music and cultural programs, both on and off campus. Campus performances include recitals by faculty, students, and guests, and concerts by choral and instrumental ensembles. The Central Kentucky Arts Series, located in Campbellsville, offers several music programs each year. All music majors and minors must attend 75 percent of the musical events during the semesters they are studying applied music. After six semesters of applied study, the requirement is reduced to 50 percent.

APPLIED MUSIC (private lessons)
Students with a music area or minor should enroll each semester in applied music until all requirements have been fulfilled—continuity is particularly important. Applied music students will perform before a jury of music faculty members at the end of each semester, and also at least once in general recital each semester. Upperclassmen Music majors who do not present a separate junior recital will be expected to perform six to 12 minutes of music on a Junior Serenade. Music majors are required to perform at least one-half of an evening recital during the senior year. Bachelor of Science in Music Worship Arts Emphasis require the Junior Serenade/Recital only.

PIANO PROFICIENCY
Since basic keyboard ability is a must for every musician, all music majors and minors must pass a Piano Proficiency Examination. This normally should be completed by the end of the sophomore year. At the latest it must be completed prior to the student's Senior Recital hearing. A student must be enrolled in class piano every semester until the Piano Proficiency Exam is passed.

VOCAL and CONDUCTING PROFICIENCY
Every student who completes a major or minor in music should be able to make effective use of his/her natural instrument, the voice, and to conduct a choral group. For this reason, each music major or minor is required to pass Vocal and Conducting Proficiency requirements. These may be met through course work or by examination. Music majors must fulfill this requirement prior to their senior recital hearing. Music minors are expected to meet the requirements before beginning their final year of study.

UPPER DIVISION
The music faculty reviews the work of all students seeking a degree program in music at the end of their sophomore year. The progress and potential of the student in both course work and applied music will be considered. If, in the opinion of the Music Faculty, the student has made satisfactory progress and shows the potential to complete the upper-level courses satisfactorily, s/he will be approved to pursue the completion of a degree in music.

MISSION: It is the mission of the nursing program at Campbellsville University to motivate students to think critically through knowledge and experience. Our nursing students and graduates will uphold the dignity of all persons and respect diversity, empower others through Christian servant leadership, and promote health through innovative holistic care.

MISSION RN TO BSN PROGRAM: The RN to BSN Program is committed to the mission of Campbellsville University. The mission of the RN to BSN Program is to offer a higher level of nursing education through an innovative, highly accessible curriculum. Tailored to the working adult, the program will provide an avenue for the adult learner to further his or her education in a Christian environment. The program serves the nurse through incorporation of professional values, improved interprofessional relationships and leadership qualities, and enhanced ability to provide care and health promotion for a diverse aggregate community. The program serves the community and the region through promoting lifelong learning and contributing to the profession of nursing and the health of society.

A prospective student must be admitted to the University first and then apply to the School of Nursing. Admission to the University does not guarantee admission to the Associate Degree Nursing Program. The student must also have an ACT score (not older than five years) or an NLN exam score. Applicants are considered on the basis of cumulative GPA in the five prerequisite courses and ACT or NLN scores which will be combined into a point system. The student is also required to be licensed in the State of Kentucky as a Nurse Aid (SRNA) (CNA) prior to admission.

Students may apply for the RN to BSN Program at Campbellsville University if they have completed an associate degree or diploma program for registered nursing and have a current, unencumbered license to practice nursing in their state of residence. Students must submit official transcripts from all previous colleges or universities for a transcript evaluation.

Because of the nature of the RN to BSN Program, it is anticipated that students will be employed at least 20 hours per week as a registered nurse. Class discussion is enriched by the diverse work experience of students at this level of education. Students who choose not to work while enrolled in course work may discuss this option with the Director of the RN to BSN Program prior to enrollment. New graduates who have not yet received their license may also apply, but will be conditionally admitted and will take non-nursing courses until the licensure process is complete.

Dr. Joe Early, Jr.
Dr. Joel Drinkard

Dr. Shane Garrison
Dr. Twyla Hernandez
Dr. Dwayne Howell
Mr. Joe Neikirk

Dr. Ted Taylor
Dr. Scott Wigginton
Mr. Jim Woolums

THE MISSION

The heart of the School of Theology is to produce world changers for Christ. Jesus first issued the call for “world changers” to his own disciples: “The harvest is great, but the workers are few. So pray to the Lord who is in charge of the harvest; ask him to send more workers into his fields” (Matt. 9:37-38, NLT). The need for workers in the harvest has never been greater. Students enter the School of Theology responding to God’s claim on their lives for the varied work of ministry in and through the church of the Lord Jesus Christ. Who are world changers? The School of Theology identifies world changers as persons . . .

1. Passionately Evangelical: whose message is the good news of the love of God in Christ Jesus;
2. Rooted in the Biblical Story: who know the power of the word of God in a person’s life;
3. Church Connected: who know that Jesus created the church to be his hands and feet in the world;
4. Servant Leaders: who know that the greatest power in the world is to serve others in the name of Christ;
5. Spiritual Entrepreneurs: who discover people’s spiritual needs and find creative ways to meet them; and

The School of Theology has built this mission upon three foundations: first, we are committed to the kingdom of God: as baptized believers our first allegiance is to God’s rule that is coming yet already present among us; second, we are committed to Christian higher education: as lifelong learners we are committed to loving God in the academy with our whole heart, mind, soul, and strength; and, third, we are committed to a “divine conspiracy”: as apprentices of Jesus, forgiven by the finished work of Jesus on the cross, we have received the Holy Spirit of promise, the promise of transformation from the inside out.

Upon these foundations we and our students attempt to learn and live deeply into six core values, or disciplines, in order to more fully become world changers . . .

- Passionately Evangelical
- Rooted in the Biblical Story
- Church Connected
- Servant Leaders
- Spiritual Entrepreneurs
- Partners in an Enduring Fellowship

THE TOOLS

The tools to prepare world changers for Christ consist of a comprehensive program of Christian studies (missions and evangelism, biblical studies, pastoral ministries and counseling, theology, church history, philosophy, educational ministries, and sports ministry) within the context of a fellowship of learners (professors and students) and within the matrix of the academy and the church (or parachurch ministry). We take seriously our church-connectedness. The work of the School of Theology is carried out as an integral part of the mission and core values of Campbellsville University.

Students may choose from the following five programs of study:
- Biblical Studies (area, major, minor): teaching/preaching/researching
- Christian Missions (major, minor): leading/witnessing/church planting
- Christian Social Ministries (area): leading/caring/counseling/relationship building
  Only available to students enrolled in the Louisville Education Center.
- Educational Ministries (area, major, minor): faith nurturing, equipping, teaching/mentoring
- Pastoral Ministries (area, major, minor): leading/advising/equipping/care and counseling
- Sports Ministry (major, minor): relationship building/leading/witnessing

School of Theology degrees are designed to graduate able Christian ministers whose training also prepares them for further educational growth in graduate professional or graduate academic theological education.
ACADEMIC MATTERS
The primary academic work of the School of Theology is to maintain educational programs leading to a Certificate in Christian Ministry, an A.S. degree in Christian Studies, a B.A. or B.S. degree in the area, major, and minor emphases listed below, and an M.Th. degree (see Master of Theology information in Graduate Bulletin-Catalog). Additionally, the School of Theology contributes four courses to the core undergraduate curriculum of the University including two general survey introductory courses in Biblical studies, a course in Christ and Culture, and an introduction to Philosophy.

LANGUAGE OPTION for the BACHELOR OF ARTS DEGREE
A student wishing to earn the Bachelor of Arts degree with any School of Theology area or major must complete the 12-hour Theology Language requirement shown here. It consists of six hours in two languages. At least six hours (two semesters) must be in one of the Biblical languages (Hebrew or Greek) with the remaining six hours (two semesters) in the other Biblical language or six hours in a single modern language.

Additionally, language courses transferred from other institutions may require approval before meeting the language requirement for the Bachelor of Arts degree.

LANGUAGE REQUIREMENT for the BACHELOR OF ARTS DEGREE

Select any two languages listed here: .......................... 12
Hebrew ................................................................. 6
HEB 221 Beginning Hebrew I .............................. 3

CERTIFICATE IN CHRISTIAN MINISTRY

This program is a congruent unit of study consisting of 27 semester hours of credit. It is designed to assist ministers concurrently serving churches and/or ministers who have been unable to engage in post-secondary study of a more lengthy nature. All courses taught in this program are fully accredited and may be later applied toward degree programs where they match the degree requirements. The Certificate is offered in one of two modes: fully face-to-face or fully online.

Choose nine courses from this list:

EXPERIENTIAL LEARNING

Experiential learning credit is granted in various disciplines, for prior learning experiences outside the classroom, which are deemed worthy of credit on an "equivalency" basis. That is, the experience for which credit is granted is deemed to be equivalent to a number of hours of credit by the judgment of departmental faculty, based upon documentation by the student in a portfolio. Such credit is not limited to the courses taught at Campbellsville University, nor is credit granted for specific courses in this manner, although credit may be allowed to satisfy prerequisite requirements, or graduation requirements in departmental programs or general education requirements, upon recommendation by departmental faculty. This listing is not intended to be used for granting credit for current experiential learning, which is covered under other course titles, such as internships and practicals.

Upon application in writing by the student for experiential learning credit, the vice president for academic affairs or dean of the college or school in which credit is being requested will appoint a committee of one to three faculty members from the academic disciplines in which credit is to be granted, to review the proposal with the student, and supervise the preparation of the Experiential Learning Portfolio, which will consist of six possible components, as applicable. The six components are:
1. Transcripts of work from accredited colleges, universities, and institutions.
2. Documentation of training from non-accredited sources (Professional and Technical Schools, Seminars, Workshops, etc.) for which documentation is available.
3. Test results, such as CLEP, or other approved tests for granting credit on an equivalency basis.
4. Resumes of Work and Educational Experiences for the student.
5. Autobiography of Experiences supporting credit application.
6. Experience Papers. (See below.)

The faculty committee appointed will usually have a chairperson from the discipline in which most credit is requested, and faculty from other disciplines involved, unless all credit is requested within one discipline. The chair of the committee will usually supervise the preparation of the student's learning experience portfolio, and draw upon other committee members for approvals and direction in their areas of expertise. A majority of the committee must agree upon a report to the vice president for academic affairs, recommending credit or denial of credit, and recommending allocation of credit (to departments, upper division, inclusion in major or minor, or general education requirements).

Students requesting credit must be enrolled in a degree program at Campbellsville University and may request that the vice president for academic affairs appoint faculty members of their choice from academic disciplines in which credit is requested, subject to approval by the vice president for academic affairs.

EXPERIENCE PAPERS: A series of papers may identify different areas of prior learning experiences for which credit might be allowed, such as specific job assignments, mission experiences, family experiences, travel, or other relevant experiences. These papers explain learning that is a potential area of credit identified in the students resume, biography, or interviews with faculty members. Experiences may be presented in one longer paper, or several shorter papers, at the discretion of the student applicant. Redundancy should be avoided.

Potential areas of credit include, but are not limited to: business, sociology, psychology, the sciences, Christian studies, drama, journalism, and human performance. Limits are placed on such credit by governmental or other certification requirements which do not recognize experiential learning, such as education and accounting.
Each course offered by Campbellsville University is indexed in the pages which follow. All course titles have a two or three-letter prefix, indicating the discipline responsible for the course. Freshman-level courses are numbered 100-199; sophomore courses 200-299; and junior-level and senior-level courses are numbered 300-499. The designated units of credit granted for successful completion of the course are listed with the course title. Prerequisites for courses and scheduling requirements are also indicated. The University reserves the right to alter the schedule of courses and the courses offered as circumstances dictate.

ACCOUNTING
(School of Business and Economics)

ACC 223 Principles of Accounting I Three hours
An introduction to financial accounting concepts and principles as they apply to various forms of for-profit business. The role of accounting information in decision-making, financial statement interpretation and use, communicating accounting knowledge, and the ability to think and apply accounting knowledge are collectively the focus.

ACC 224 Principles of Accounting II Three hours
Continuing coverage of accounting principles with an introduction of managerial accounting principles and systems, planning and control, current management trends, and applications to real-world problems. Prerequisite: ACC 223

ACC 330 Accounting Information Systems Three hours
A study of information systems as they apply to the functional areas of accounting. Emphasis is on the nature and relevance of accounting internal control, with coverage of modern information technology. Prerequisites: ACC 223, ACC 224, CIS 100.

ACC 351 Intermediate Accounting I Three hours
This is the first course in a two course sequence covering financial accounting (reporting) as it is used to communicate information that supports business decision-making. Coverage includes how decision makers use accounting information and how they critically evaluate accounting method alternatives. This course will focus on the study of contemporary accounting theory and application of generally accepted accounting principles to various specific topics and financial statement elements, as well as coverage of international financial reporting standards. Prerequisites: ACC 223 and ACC 224.

ACC 354 Intermediate Accounting II Three hours
This is the second course in a two course sequence covering financial accounting (reporting) as it is used to communicate information that supports business decision-making. Coverage includes how decision makers use accounting information and how they critically evaluate accounting method alternatives. This course will focus on the study of contemporary accounting theory and application of generally accepted accounting principles to various specific topics and financial statement elements, as well as coverage of international financial reporting standards. Prerequisites: ACC 223 and ACC 224.

ACC 360 Managerial Accounting Three hours
Interpretation and use of accounting data to solve management problems. Management and economic concepts applied to accounting data. Cost concepts, variance analysis, process costs, variable costing, capital investment decisions, master budgets, cost estimation and analysis are topics. Prerequisites: ACC 224 and ECO 222.

ACC 362 Cost Accounting Three hours
This course focuses on planning, decision-making, and control by the organizations and on the accounting systems that managers have to assist them in their decisions about resource allocation, performance evaluation, etc. In addition to students in accounting, the course is designed for those who plan careers in management at all levels and in all functions and who will need to motivate other employees and evaluate both managers and business units in the organization. The emphasis is on cost information—how it is computed and how it is used in decision-making. Prerequisite: ACC 224.

ACC 410 Federal Taxation I Three hours
Introduction to federal taxation of individuals and corporations, including tax determination, ethical considerations, and related communication skills. Prerequisites: ACC 223, ACC 224.

ACC 421 Auditing Three hours
A study of the important elements of risk-based auditing, addressing the concepts of audit evidence and materiality. Emphasis is given to the meeting of user expectations through audit risk analysis, application of audit judgment, and ethical considerations in auditing. Prerequisites: ACC 330 and ACC 351.

ACC 431 Advanced Accounting I Three hours
Covers the partnership form of business organization, particularly the nature, formation, ownership changes, and liquidations. A study in consolidations and the related FASB statements is made. Prerequisite: ACC 351.

ACC 442 Advanced Accounting II Three hours
Study of consolidations is continued. Additionally, the course covers segmental accounting and the area of not-for-profit accounting, including governmental and fiduciary accounting. Prerequisite: ACC 351.

ACC 452 Federal Taxation II Three hours
Study of the fundamental concepts of the federal income tax system as applied to entities other than individuals, with course work focusing on problem solving and tax planning. Prerequisites: ACC 224, 410.

ACC 472 Accounting Concepts Three hours
A study of financial and managerial accounting designed for the student who has had little or no previous exposure to accounting.

ACC 480 Special Topics One to Three hours
A special course offered on demand to business students. The course may be repeated for credit provided the topics differ each semester. No more than six hours total from ACC 480 may be counted toward a major or a minor. Consent of instructor. Offered on demand.

ACC 385/485 Internship One to Three hours
Designed to provide the student with experience in business or accounting office. Open to students with junior/senior standing. Accounting faculty approval required before registration. Six hours maximum enrollment.

163
ART 101 Drawing I Three hours
Instruction for beginning drawing with practice in drawing, perspective, shading, form and composition, in the classroom and on location. Students prepare a folio of their work for end-of-semester exhibit. Six hours studio class per week.

ART 110 Understanding Art Two hours
A survey of ancient art to art of the present, with emphasis on art principles and how they are related to everyday life.

ART 120 Elements of Design Three hours
Problems in two-dimensional design and the use of art techniques, collections of problems presented at the end of the semester. Six hours studio class per week.

ART 121 Graphic Design I Three hours
This course is an introduction to the practice of graphic design. Symbols and type will be introduced through the study of drawing and composing for design. The course will provide instruction in both physical and digital media for graphic design. Six hours of studio class per week.

ART 202 Drawing II Three hours
Continuation of Drawing I. Field trips and outside sketching involving figure drawing, portrait drawing, and color drawing. Collected problems are made into a folio with selected drawings placed on exhibit at the end of the semester. Prerequisite: ART 101, ART 120. Six hours studio class per week.

ART 214 Painting I Three hours
Oil painting and painting techniques, color mixing, picture making and color/value relationships. Painting from still life. Exhibit at end of semester. Prerequisites: ART 101, ART 120. Six hours studio class per week.

ART 215 Ceramics I Three hours
An introduction in pottery techniques including pinch, coil, slab and the use of the potter's wheel, preparation of glazes, the use of the electric kiln and techniques of glazing. A collection of selected projects are to be presented at the end of the semester. Six hours studio class per week.

ART 221 Three-Dimensional Design Three hours
Continuation of Elements of Design. A development of the principles of art with emphasis on three-dimensional concepts and individual creativity. The three-dimensional design study includes modeling, carving, and space organization. A collection of problem solutions presented at end of semester. Prerequisite: ART 120. Six hours studio class per week.

ART 222 Sculpture I Three hours
Three-dimensional form in clay, plaster, wire, and mixed-media sculpture, including figure and animal work. A portfolio of projects is to be presented at end of semester. Prerequisites: ART 120, ART 221. Six hours studio class per week.

ART 233 Jewelry Design I Three hours
Elementary silversmith techniques starting from flat silver and bezel. Exhibit at end of semester (non-credit participation encouraged). This class will be offered in the evenings. Prerequisites: ART 120, ART 221. Six hours studio class per week.

ART 280 Special Topics in Art Three hours
This course investigates a broad topic in the field of Art in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Art.

ART 300 Stagecraft II Three hours
An introduction to the technical aspects of school play production with instruction in design, plans, and construction of sets for a play. Prerequisite: ART 120. Six hours studio class per week.

ART 302 Drawing III Three hours
Continuation of Drawing II. Emphasis on original work and making of preliminary drawings for other techniques of art, as well as drawings for reproduction. Prerequisite: ART 202. Six hours studio class per week.

ART 310 Art History I Three hours
A survey of world art from the prehistoric era through the Gothic art of Europe. Lectures, supplemented by slides, videos, and teaching aids. A short research paper; projects related to period of study and a field trip are part of the course. Prerequisite: sophomore level.

ART 311 Art History II Three hours
A survey of the history of art from the Renaissance through contemporary trends. Lectures, supplemented by slides, films, reproductions of paintings, and teaching aids. A field trip to a museum will be encouraged. Prerequisite: sophomore level.

ART 314 Painting II Three hours
Continuation of Painting I with problems in painting people and landscapes using acrylic paints. Exhibit at end of semester. Prerequisite: ART 101; ART 214 or demonstrated equivalent ability. Six hours studio class per week.

ART 315 Ceramics II Three hours
Continuation of Ceramics I. Introduction to production ware, wheel-thrown or fabricated, and advanced glazing techniques with emphasis on either ceramic sets or glaze calculations. A collection of selected projects is to be presented at the end of the semester. Prerequisite: ART 215. Six hours studio class per week.

ART 320 Photography Three hours
This course will use a digital camera with removable lens so a student will need the use of this type of camera for the course. It will introduce the student to the use of the camera, composition and design in photography, professional practices as a photographer in art, presentation techniques, burning and dodging by using Photoshop. Various techniques of learning how to improve one's photographs will be demonstrated. A portfolio of work will be collected during the course of the semester and the best compositions will be selected for printing. Six hours of studio class per week.

ART 321 Graphic Design II Three hours
This mid-level studio course introduces students to using images and type to communicate visually. The course will build on typographic, imaging and compositional skills that students have begun to cultivate in earlier studio courses. Six hours of studio class per week.

ART 322 Sculpture II Three hours
The design and construction of built-up sculptural assemblies in choice of clay, wood, plastic, metal or any combination. A portfolio of projects is to be presented at end of semester. Prerequisites: ART 222; ART 221. Six hours studio class per week.

ART 330 Elementary School Art, P-5 Three hours
This course will enable the student to apply methods of teaching art, attitudes and manipulation of materials, essential to classroom activities in the primary through fifth grades. Emphasis is placed on the developmental stages of art and how these are affected by the Intellectual, physical, perceptual, aesthetic, creative, emotional, and social growth of a child. Field and clinical observation hours reinforce the concepts. Prerequisite: Admission to Teacher Education Program.
ART 333 Jewelry Design III Three hours
Continuation of Jewelry Design I. Advanced problems in the design and making of jewelry with instruction in preparation for fabrication. Prerequisite: ART 233. Six hours studio class per week.

ART 335 Printmaking I Three hours
Introduction to fine art printing and printing processes in intaglio, relief, serigraphy, and photogravure methods. Exhibit at end of semester. Prerequisites: ART 101; ART 120. Six hours studio class per week.

ART 350 Watercolor Painting I Three hours
Techniques of transparent water color painting, color mixing, and the painting of landscapes. Class demonstrations and field trips included. A portfolio of selected paintings is to be presented at end of semester. Prerequisite: ART 101 and ART 120. Six hours studio class per week.

ART 410 Twentieth Century Art History Three hours
An intensive study of the development of art from the Impressionists to post-modern styles of the twentieth century. Lectures will be supplemented by slides, films, and reproductions of paintings. A field trip to a museum will be encouraged. Prerequisite: ART 311.

ART 411 World Art Three hours
A survey of ethnographic art history from India, Africa, China, Japan, the Americas, and the Islamic World. Lectures supplemented by slides, videos, teaching aids, and one planned museum field trip.

ART 414 Painting III Three hours
Advanced painting in oil or acrylic paint with emphasis on creativity and the development of a personal style. Exhibit at end of semester. Prerequisite: ART 314. Six hours studio class per week.

ART 421 Graphic Design III Three hours
This advanced studio course introduces students to using images and type to communicate visually by building on the content of the previous two graphic design classes. The course will extend students' knowledge of various Adobe software and to understand and learn all parts of letter, text block, page and layout. Visiting professional graphic designers will be used in lectures and critiques. Six hours studio class per week.

ART 422 Graphic Design for the Web Three hours
This studio course introduces students to web design. It will prepare students for their future careers as professional graphic designers. Students will design a website to feature their best work to present to a potential employer. It will be a personal digital portfolio which the student can access for a competition, freelance job, group or solo show. It will visually show what they can do. Six hours of studio class per week.

ART 431 Secondary School Arts and Crafts Three hours
Arts and crafts for teaching in middle and secondary schools, adult education or rehabilitation programs, with instruction in organization of teaching facilities and acquisition of materials. Prerequisites: Admission to Teacher Education, ART 330. Three hours lecture, three hours studio class per week.

ART 432-433 Studio Problems I Two to Three hours
Special studies in advanced work in an art field, chosen by the student with instructor's approval. Independent work with frequent consultations between instructor and student. Exhibit at end of semester. Two hours credit for four hours work per week or three hours credit for six hours work per week. Prerequisite: consent of instructor.

ART 435 Printmaking II Three hours
Continuation of ART 335. Specialized techniques including aquatint, lithography, serigraphy, and relief including printing multiple colors. Prerequisite: ART 335. Six hours studio class per week.

ART 442-443 Studio Problems II Two to Three hours
Similar to Studio Problems I. Continuing previous problems or investigating another phase of Art Techniques. Exhibit at end of semester. Two hours credit for four hours work per week or three hours credit for six hours work per week. Prerequisite: consent of instructor.

ART 450 Watercolor Painting II Three hours
A continuation of Watercolor I, with emphasis on advanced compositions and techniques. Prerequisite: ART 350. Six hours studio class per week.

ART 450 Supervised Field Experience One to Four hours
Students are placed with cooperating firms for an on-the-job training in an area of Art selected and approved by the art faculty. Written reports to be submitted by the firm and the student to the supervising instructor. Prerequisite: consent of instructor and field supervisor. Credit commensurate with time worked and experience; the course is repeatable up to 12 semester hours.

ART 470 Senior Exhibit and Seminar One hour
A retrospective of works from each studio course. Required of all seniors, with an art area or an art major. Prerequisite: senior level.

ART 390/490 Special Studies in Art History One to Three hours
Independent, individual study, and research in a designated period of Art History. Limited to students majoring or minoring in Art. Enrollments should be able to travel to historical sites, museums, or libraries if necessary. Prerequisites: ART 310; ART 311; and ART 410.

BIOLOGY
(College of Arts and Sciences)

BIO 103 Environment and Man Three hours
An examination of man's relationship to the environment with an emphasis on current environmental problems. This is a general education course and does not count toward a major or minor in biology.

BIO 104 Biology Laboratory for Teachers One hour
This course is designed to meet the laboratory requirement for the K-5 elementary education program. One 150-minute laboratory per week.

BIO 110 Biology Three hours
An examination of basic biological principles and concepts including a survey of the five kingdoms. This course is a general education course and does not count toward a major or minor in biology.

BIO 200 Biological Concepts Four hours
A foundation course for biology majors and minors. This course will introduce the student to basic biological concepts including biochemistry, metabolism, respiration, photosynthesis, meiosis, genetics, ecology, and evolution. Includes one 150-minute laboratory per week.

BIO 201 Zoology Four hours
A systematic survey of the structure and function of animals. Includes one 150-minute laboratory per week. Prerequisite: BIO 200 with a C or better, or consent of instructor.

BIO 202 Botany Four hours
A study of the structure, development, physiology, and classification of plants. Includes one 150-minute laboratory per week. Prerequisite: BIO 200 with a C or better, or consent of instructor.

BIO 205/305 Laboratory in Biology: Selected Topics One to Two hours
This course is designed to accommodate transfer students who need a separate laboratory course in anatomy and physiology, botany, zoology or microbiology.
BIO 206/306 Lecture in Biology: Selected Topics
One to Three hours
This course is designed to accommodate transfer students and other students with special circumstances who need a 200/300 level biology course without the associated laboratory.

BIO 215 Winter Botany
One hour
A survey of plants in winter including identification characteristics and taxonomy.

BIO 216 Spring Flora
One hour
A survey of native spring wildflowers.

BIO 221 Human Anatomy and Physiology I
Four hours
An introduction to the structure and function of the human body including the integumentary, skeletal, muscular, and nervous systems. If a professional or graduate school requires anatomy and physiology, four hours can be counted on a biology major or minor; however, to receive four hours of credit, the student must complete the sequence, I and II. Includes one 150-minute laboratory per week. BIO 110 or CHE 101 recommended.

BIO 222 Human Anatomy and Physiology II
Four hours
A continuation of BIO 221 that covers the endocrine, cardiovascular, lymphatic, respiratory, digestive, excretory, and reproductive systems. Prerequisite: BIO 221 or consent of instructor.

BIO 280 Special Topics in Biology
Three hours
This course investigates a broad topic in the field of Biology in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Biology.

BIO 300 Paleontology
Three hours
A study of the ecology, morphology, and evolution of ancient life forms. Prerequisite: BIO 201 or BIO 202.

BIO 302 Environmental Science
Three hours
An examination of human relationship to and impact on the environment with an emphasis on current environmental problems. This course is designed for students in the environment science minor and does not count toward a biology major or minor.

BIO 310 Nutrition
Three hours
A survey of the nutrients required for proper growth and maintenance of the body. This course is cross-referenced with HE 310 and does not count toward a major or minor in biology.

BIO 312 Environmental Physiology of Animals
Three hours
A course that investigates animal adaptations to the environment primarily focusing on temperature, oxygen, salinity and pressure effects.

BIO 315 Research Methods
Two hours
Cross referenced with CHE 315.

BIO 317 Plant Taxonomy
Three hours
A study of flowering plant classification and of the local flora. Includes two 100-minute laboratories per week. Prerequisite: BIO 202.

BIO 320 Immunology
Three hours
An examination of selected topics concerning the theory and practice of immunology and serology.

BIO 321 Microbiology
Five hours
A study of the farm, function and importance of micro-organisms with an emphasis on bacteria. Includes two 100-minute laboratories per week. Prerequisite: BIO 200, CHE 111, and CHE 112.

BIO 322 Medical Microbiology
Four hours
A study of microorganisms and their relation to health and disease for nursing students (three-hour lecture; two-hour lab). Credit does not apply to a major or minor in biology. Prerequisites: Must be officially enrolled in the nursing program and have completed BIO 221 – Human Anatomy and Physiology I and BIO 222 – Human Anatomy and Physiology II.

BIO 332 Entomology
Four hours
An introductory survey of the insects and related arthropods. Includes anatomy, classification, ecology, and identification of representative insects. Includes one 100-minute laboratory per week. Prerequisite: BIO 201.

BIO 355 Internship
One to Four hours
A program designed to provide practical experience in an area of biology including the health professions. Approximately 50 hours of intern experience equals one hour credit.

BIO 341 Ecology
Four hours
An examination of basic principles governing the structure and the function of ecological systems and the distribution and abundance of organisms. Includes one 150-minute laboratory per week. Prerequisite: BIO 200.

BIO 342 Field Study in Biology
One to Three hours
A field trip of variable duration (1-2 weeks) to selected regions of the U.S. preceded by supportive lectures that examine the biology of the region to be visited. Prerequisite: consent of instructor(s).

BIO 344 Genetics
Four hours
An introductory study of the patterns of inheritance with an emphasis on the structure and function of the hereditary material. Prerequisite: BIO 200, CHE 111, CHE 112.

BIO 348 Medical Terminology
Three hours
An introduction to the study of medical language related to the human body. Prerequisites: BIO 201/BIO 202, BIO 221 and 222 recommended.

BIO 362 Comparative Vertebrate Anatomy
Five hours
An examination of the phylogeny and ontogeny of the vertebrates. Phylogenetic relationships are examined by comparison of the anatomy and development of selected vertebrates. Includes two 100-minute laboratories per week. Prerequisite: BIO 201 or equivalent.

BIO 371 Ornithology
Four hours
An introduction to birds including general biology, form and function, behavior, systematics, and ecology. Laboratory and field techniques for the identification of major bird features and the local avifauna will be stressed. Course includes a laboratory equivalent to one 50-minute session per week. Prerequisites: BIO 201.

BIO 372 Ichthyology
Four hours
A study of fish including structure, function, systematics, evolution, behavior, ecology, and conservation. Freshwater fish of the Green River drainage will be emphasized. One 150-minute laboratory per week. Prerequisite: BIO 201.

BIO 400 Special Topics
One to Four hours
A special course offered on demand of advanced biology students. The course may be repeated for credit provided the topics differ. Consent of instructor is required. Possible special topics include aquatic biology, human genetics, medical microbiology, natural history of the vertebrates, ornithology, stream ecology, parasitology, and marine biology.

BIO 410 Cell Biology
Three hours
A study of the basic concepts of structure and function at the cellular, subcellular, and molecular levels of organization. Prerequisite: BIO 200, CHE 111, CHE 112.
BIO 415 Aquatic Biology Three hours
Study of the structure, function, and ecology of freshwater ecosystems, with special emphasis on lake and stream ecosystems. One 150-minute lab per week. Prerequisite: BIO 201.

BIO 422 Animal Physiology Four hours
A study of the function and control mechanisms of cells, tissues, organs and organ systems of animals. One 50-minute laboratory per week. Prerequisite: BIO 201, CHE 111, and CHE 112.

BIO 441 Principles of Biological Conservation Three hours
An analysis of current issues and topics in conservation biology. Prerequisite: BIO 341.

BIO 450 Methods of Science Teaching Three hours
An overview of instructional methods and materials for teaching science in middle and secondary schools. This course is required for students in these science education programs. Prerequisite: Admission to Teacher Education.

BIO 460 Biochemistry Three hours
Biochemistry is the study of major biologically important classes of compounds and their relation to metabolic processes in living organisms. Prerequisites: CHE 341; BIO 201; BIO 202 recommended.

BIO 470 Speciation Three hours
An examination of phylogenetic relationships and mechanisms that affect biodiversity and organismic design.

BIO 475 Human Physiology Four hours
A study of the function and control mechanisms of cells, tissues, organs, and integrated organ systems of humans. Includes one 150-minute laboratory per week.

BIO 480 Seminar One to Three hours
Student conducted literature survey or creative project with the guidance of a faculty sponsor. The topic, methods and number of credit hours are determined in consultation with the sponsoring faculty. Results are presented orally in a public seminar and in a comprehensive written report. Prerequisites: Junior standing and consent of faculty sponsor.

BIO 390/490 Research One to Three hours
Student conducted independent research with the guidance of a faculty sponsor. The topic of research, the research methods, and the number of credit hours are determined in consultation with the sponsoring faculty. Results are presented orally in a public seminar and in a comprehensive written report. Prerequisites: Junior standing and consent of faculty sponsor; six hours maximum.

BUSINESS ADMINISTRATION (School of Business and Economics)

BA 100 Introduction to Business Three hours
A survey of the business disciplines, including management, marketing, finance, data processing, accounting, economics, and business legal environment. Recommended for students without previous business coursework. Does not apply toward BA major or BA minor.

BA 300 Contemporary Healthcare Management Three hours
This course is designed to develop the student's understanding of healthcare organizations and the delivery of health services in the United States. Trends and issues will be explored through consideration of ethical and legal principles and cultural and social concepts.

BA 301 Marketing I Three hours
Introduction to the "marketing concept," including product, price, promotion, and distribution. Prerequisite: ECO 222.

BA 302 Marketing II Three hours
Marketing management, strategic planning, and application of the marketing mix. Prerequisite: BA 301.

BA 303 Business Law I Three hours
Introductory survey of the United States legal system, study of fundamentals of contracts and sales, and case laws and the common law methods are introduced. Prerequisite: Upper level standing.

BA 304 Business Law II Three hours
Advanced topics in business law and uniformed commercial codes. Application of business organization, commercial papers, secured transactions, agency and employment, real property, personal property and bailments, insurance, estates, and trusts. Prerequisite: BA 303.

BA 310 Consumer Behavior Three hours
A managerial approach to the study of consumer behavior including purchasing and consumption processes, cognitive and experiential processes, consumer characteristics, lifestyles, and cultural influences. Prerequisite: BA 303.

BA 311 Principles of Management Three hours
Management functions of staffing, planning, organizing, leading, and controlling the organization. Prerequisite: ECO 221 or 222.

BA 312 Organizational Behavior Three hours
Fundamentals of organization theory and behavior and how they affect the management of organizations, domestic and international. Prerequisite: ECO 221 or 222.

BA 313 Small Business Management Three hours
Organization and operation of the small business firm. Finance, accounting, marketing, and management in the small business. Prerequisite: ECO 221 or 222.

BA 314 Human Resource Management Three hours
Personnel policies. Compensation policy. Recruiting, selection, and training of personnel. Issues in motivation and supervision. Fringe benefit plans. Prerequisites: BA 311; ECO 221 or ECO 222.

BA 315 Sales Management Three hours
This course includes but is not limited to: examining the roles of effective sales as a key component of marketing, sales as a profession, relationship selling, personnel selling, and career management.

BA 316 Recruiting, Retention, and Development Three hours
This course will examine ways to plan and conduct professional training programs dealing with how to enhance the following skills: supervision/management, presentation, communication, interviewing, customer relations and leadership. This course will also help in enhancing the ability to develop and manage employment strategy and sourcing techniques, selection and onboarding activities, and how to implement effective, efficient and innovative programs to ensure quality employees are hired and retained.

BA 317 Compensation and Performance Management Three hours
This course will cover the Competency Model and how it contributes to and increases the value of an organization for stakeholders and shareholders and how it assists in gaining expertise on such roles as business partners, HR leaders, and change agents. This course will also provide in-depth discussions relating to employee benefit plans such as: wage and salary programs, pay structures, job evaluation, benefit plans and adjusting and evaluating pay structures.
BA 318 Supervision: Concepts & Practices of Management Three hours
This course will utilize a blend of traditional management concepts and emerging insights, to assist in conveying the leadership skills hiring managers look for in new recruits. Special attention to diversity and ethics will help instill a sense of life beyond the classroom, and will enhance communication, decision-making, conflict resolution, virtual employees, technology, outsourcing, downsizing, and other essential HRM skills.

BA 321 Distribution Management Three hours
A managerial approach to the study of distribution functions and systems including the traditional marketing channel structures of retailing, wholesaling, transportation and franchising, strategic alliances, relationship management, and logistics. Prerequisite: BA 301.

BA 323 Investment Three hours
An analysis and evaluation of financial assets and their allocation to develop an efficient portfolio. Emphasis will be on equities and fixed income securities. Major topics include evaluation of securities, risk and return, market efficiency, and allocation of financial assets. Prerequisite: ECO 221, BA 324.

BA 324 Introduction to Finance Three hours
Introduction of principles of finance, concepts, and analytical tools in finance. Examination of the sources and uses of funds, budgeting, and the concepts of present value and its role in capital budgeting decisions will be covered. Prerequisites: ECO 221, ACC 223.

BA 325 Legal and Ethical Environment of Healthcare Management Three hours
This course is designed to develop the student’s understanding of healthcare law and ethics as these matters pertain to management of different elements of the United States healthcare system. Emphasis will be placed on consent to treatment, patient rights, organizational and professional liability, malpractice, patient autonomy and privacy, and related matters. Prerequisite: BA 303.

BA 350 Health Policy and Politics Three hours
This course emphasizes the relationship between the politics of healthcare and the health policymaking process. The roles of government, bureaucratic agencies, organizations, consumers, political action groups, and health care providers will be discussed in detail. Extensive focus will be directed toward the policy formulation, policy implementation, and policy modification phases.

BA 360 Principles of MIS Three hours
The role of information technology in organizations. Basic concepts and terminology regarding development and applications of Information systems will be covered. The course will emphasize both organizational and technical aspects related to information systems in organizations.

BA 365 E-Commerce Three hours
This course focuses on the essentials of E-Commerce—how it is being conducted and managed as well as assessing its major opportunities, limitations, issues, and risks.

BA 375 Health Economics Three hours
This course is designed to provide an introduction to the economics of healthcare through an exploration of the supply and demand of services in a politically driven market. Economic theories related to production and consumption and distribution of healthcare services are examined in detail. Supply-demand analyses will be applied to specific markets in the health care sector. The role of government in production and distribution of health care and market failure will be discussed. Prerequisites: ECO 221 and ECO 222.

BA 384 Business Ethics Three hours
This course focuses on conflicts of interest, values and ethics, cases in business ethics: cases in advertising and product policies, liability and legality vs. ethics, the organization as a citizen with social responsibility, the morality of profits.

BA 399 International Business Three hours
The major purpose of the course is to prepare managers to compete in the global economy. The rapidly changing economic, political, technological, and cultural environments will be studied as a foundation for understanding how to compete in differing environments, utilizing the resources available to the enterprise in managing the various functional areas of business.

BA 400 Financial Management in Healthcare Three hours
This course is designed to provide basic applications of accounting and finance principles as they pertain to healthcare decision making. Emphasis is placed on financial statement analysis, working capital management, operating capital and cash budgeting techniques and cost benefit analysis.

BA 401 Marketing Research Three hours
A managerial approach to the study of marketing research including quantitative methods, research ethics, the research process, research design, data collection and analysis, bivariate and multivariate correlation and regression analysis, and probability and sampling issues. Prerequisites: BA 301, ECO 361.

BA 402 Promotion Management Three hours
A managerial approach to the study of promotion including advertising, public relations, publicity, direct marketing, and sales promotion. Prerequisite: BA 301.

BA 403 Labor Relations Three hours
Topics in this course include: how assisting supervisors in dealing with employee discipline issues can create a positive work environment throughout the entire organization, providing individual guidance to supervisors who are considering initiating disciplinary action and monitoring/recordng union release time along with discovering how bargaining agreements are negotiated.

BA 412 Risk Management and Insurance Three hours
Introductory survey of the concept of risk identification, evaluation, and management. Both insurance and non-insurance methods of risk management are covered. Topics include property, liability, life, health, and income loss exposures. Risk management techniques of avoidance, loss control measures, risk retention and risk transfer are also covered. Prerequisites: BA 303, upper level standing, or consent of instructor.

BA 413 Managerial Decision Making Three hours
This course categorizes problem solving and decision making into operational and strategic components, examines their different features, and provides logic for achieving solutions. Development of a culture of problem solving is illustrated and encouraged through an emphasis on diagnostic questions, informed empirical induction, the application for problem solving agendas, and an analysis of group settings.

BA 420 Real Estate Three hours
Introduction to the real estate business, concepts of the law of real property, rights and interests in real property, real estate contracts, deeds, titles, recording of real estate instruments, leases, home ownership, brokerage, real estate marketing, licensing, and transactions. Prerequisite: BA 303, or consent of instructor.

BA 422 Managerial Finance Three hours
Advanced treatment of financial topics, including capital budgeting, risk and cost of capital, portfolio theory, dividend theory and policy, stock and bond valuation models, capital structure of the firm, financial statement analysis, ratio analysis, financial and operating leverage, and time value of money. Financial analysis project. Prerequisites: BA 324; ACC 224; & MTH 111, MTH 130 or ECO 361.
BA 425 Health Services Information Management Three hours
Provides an introduction to the informatics of healthcare. Basic terminology and concepts related to information technology, data structures and elements, programming logic, flowcharting and use of pseudo code will be considered in detail. Legal and ethical issues will be discussed.

BA 450 Strategic Healthcare Management Three hours
An integrative course designed to incorporate the knowledge and skills acquired in previous coursework in order to formulate and implement management policies and strategies. Special emphasis is placed on the manager’s ability to manage cost management with quality management.

BA 480 Special Topics One to Three hours
A special course offered on demand to business students. The course may be repeated for credit provided the topics differ each semester. No more than six hours total from BA 480 may be counted toward a major or a minor. Consent of instructor. Offered on demand.

BA 482 Conflict Resolution Three hours
This course will focus on skills necessary for managers and business owners to effectively resolve conflicts and controversies associated with organizations. Focusing on the differences among negotiation, mediation, and arbitration, and the ability to identify the underlying issues giving rise to the conflict or controversy and how to resolve such issues in an ethical manner.

BA 483 Operations Management Three hours
This course describes the principles and concepts of operations management. Operations management embodies techniques and models used in manufacturing and service operations. Operations activities include core activities and strategic issues used in business organizations such as forecasting, supply chain management, system design, quality, and project management. Topics include inventory planning and control models, location planning and analyses, facility layout, scheduling and workforce planning models, quality control, aggregate planning, simple and multiple regression analysis, MRP and ERP, just-in-time systems, and decision-making.

BA 385/485 Business Internship One to Three hours
Experience in a work position with management content. Healthcare management, marketing, supervision, industrial administration, finance positions, and retail experience are examples of the type of work experience required. Prerequisites: Junior/senior standing in Business Administration major or emphasis, consent of instructor prior to registration.

BA 490 Independent Study One to Six hours
Senior research projects for students with 2.50 GPA and 2.80 cumulative average in business subjects. Open only to students with major or emphasis in Business Administration. A term paper will result from this project. Prerequisites: Consent of business instructor prior to registration. Offered on demand.

BA 495 HRM Seminar Three hours
This capstone course will utilize the knowledge, skills and abilities learned in previous Human Resource Management courses by examining the following areas of interest: management/confidential areas, employee’s titles and bargaining units, job descriptions, job analysis, American with Disabilities Act, Collective negotiations, unit work determinations, Equal Employment Opportunity Commission and the Fair Labor Standards Act.

BA 498 Business Strategy Capstone Three hours
This course serves as the capstone for the Business Administration Area programs. The purpose of the course is to integrate concepts and practices from the core business classes. Case analysis [requiring formal paper and formal presentation], computer simulation or creative project (used for student to gain a comprehensive and integrated view of business operations and the role of management in analyzing the environment, setting goals, and implementing plans), comprehensive exam, specific emphasis case studies, etc. will be utilized. Prerequisites: Senior standing, completion of business core classes: ACC 223, ACC 224, BA 301, BA 305, BA 311, BA 324, BIT 320, ECO 222, and ECO 361.

BUSINESS INFORMATION TECHNOLOGY
(School of Business and Economics)

BIT 120 Keyboarding and Formatting Three hours
The first part of this course develops key placement for the beginner or serves as a refresher for those who already know the proper key placement. During the remainder of the course, students will be instructed on the proper format of business and professional papers, letter, memos, reports, etc. Emphasis is on accuracy and greater achievement in keyboarding speed using the MS Word 2007 program.

BIT 222 Business Presentation Application Three hours
This course serves as an introduction to business presentations through the use of a presentation program. A hands-on approach will be utilized as students complete introductory through advanced applications.

BIT 223 Database Application Three hours
This course serves as an introduction to database applications using a database program. A hands-on approach will be utilized as students complete introductory through advanced applications.

BIT 320 Microcomputer Applications Three hours
This course serves as an introduction to microcomputer applications. Lecture, discussion, and intensive "hands-on" experience with Microsoft Word and Excel will be utilized. Prerequisite: AT 120 or consent of instructor.

BIT 325 Medical Office Procedures Three hours
Introduction to administrative medical secretary's career. Defines tasks that a medical secretary performs, describes various work environments, and introduces medical ethics and medical law as they apply to the medical secretary. Medical terminology is introduced.

BIT 340 Business Communication Three hours
Study of business communication, writing various types of business letters, memos, and reports. Practicing listening skills, exploring nonverbal communication, writing resumes and application letters. Interviewing for employment, conducting meetings, and giving oral presentations.

BIT 350 Information Resource Management Three hours
Study of electronic, micrographic, and paper information resources of an organization, including the systems used to classify, sort, retrieve, protect, and preserve records. Planning systems that control the creation of information, store and retrieve information, and dispose of inactive information.

BIT 480 Special Topics One to Three hours
A special course offered on demand to business students. The course may be repeated for credit provided the topics differ each semester. No more than six hours total from AT 480 may be counted toward a major or a minor. Consent of instructor. Offered on demand.
CHE 100  Introduction to Chemistry  
Three hours  
This course is designed to give the student an understanding of the basic principles of chemistry and the properties of the more common elements and chemical compounds. This course does not count toward a science major or minor, but will satisfy the General Education requirement for Physical Science.

CHE 101  Chemistry for the Health Sciences I  
Three hours  
This course is designed for students enrolled in Nursing and the Health Sciences. The major emphasis will be on the inorganic processes in chemistry which are applicable to biological systems. Co-requisite: CHE 103.

CHE 102  Chemistry for the Health Sciences II  
Three hours  
Chemistry 102 is a second semester course designed for nursing and health sciences students. The major emphasis is on Organic and Biochemical molecules, reactions, and pathways. Prerequisites: CHE 101 (with a grade of C or better), 103.

CHE 103  Introductory Chemistry Laboratory  
One hour  
An introductory laboratory course for non-science majors and first semester nursing and health science students. Topics covered will include methods of measurement, analyzing evidence of chemical reactions, gas laws, solubility and other topics discussed in introductory chemistry and first semester health science courses. This course will fulfill the General Education requirement in Physical Science for Elementary and Middle School Teacher Education. Co-requisite/Prequisites: CHE 100.

CHE 104  Chemistry for the Health Sciences Lab II  
One hour  
Chemistry 104 is a laboratory course designed to accompany Chemistry 102. Chemistry 104 is required of nursing students. The emphasis in this course is laboratory experiences relating to organic and biochemistry. Prerequisites: CHE 101, 103 with grades of C or better. Co-requisite: CHE 102.

CHE 109  Technical Writing and Lab Safety  
One hour  
This course will provide the student with a formal introduction to the technical writing process and will prepare students to undertake laboratory experimentation in a safe and thorough manner. Topics will include laboratory notebook and report writing, various topics pertaining to laboratory safety, and a brief introduction to peer-reviewed publications of scientific research. Co-requisite: CHE 113.

CHE 111  General Chemistry I  
Three hours  
An introductory chemistry course for science majors and minors. A general course in theoretical and descriptive chemistry. Topics include modern atomic theory, chemical bonding, stoichiometry, quantitative treatment of gas laws, and an introduction to thermodynamics. Prerequisite: MTH 111 (or above), one year of High School Chemistry is strongly encouraged. Continued enrollment subject to result of the placement exam. Co-requisite: CHE 113.

CHE 112  General Chemistry II  
Three hours  
Continuation of CHE 111. Prerequisites: MTH 111 (or above), CHE 111, CHE 113 with grades of C or better in each. Co-requisite: CHE 114.

CHE 113  General Chemistry Laboratory  
One hour  
A laboratory course to accompany CHE 111 General Chemistry I. Course content will deal with chemical principles discussed in CHE 111. Pre-/Co-requsite: CHE 111.

CHE 114  General Chemistry II Laboratory  
Two hours  
This course involves laboratory activities that illustrate topics discussed in CHE 112 General Chemistry II. These activities include kinetics, equilibrium, synthesis, quantitative and qualitative analysis. Two-three hour laboratory periods per week are required. Co-requisite: CHE 112.

CHE 221  Analytical Chemistry  
Three hours  
An introductory course giving an overview of gravimetric, volumetric, electrometric, and spectrometric analysis. Prerequisites: CHE 112 and CHE 114 with grades of C or better. Co-requisite: CHE 223.

CHE 223  Analytical Chemistry Laboratory  
One hour  
A laboratory course involving qualitative analysis of unknowns using methods discussed in CHE 221. Co-requisite: CHE 221.

CHE 280  Special Topics in Chemistry  
Three hours  
This course investigates a broad topic in the field of Chemistry in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Chemistry.

CHE 315  Research Methods  
Two hours  
An overview of methods used in the collection, analysis, interpretation, and presentation of scientific data. Experimental design, literature search techniques, statistical treatment of data, preparation of figures and tables, scientific writing, and oral presentation will be covered. One lecture/recitation and one 100-minute laboratory per week. Majors should enroll in BIO/ CHE 315 during their second year of study.

CHE 341  Organic Chemistry I  
Three hours  
A beginning course for the student who has no previous background in organic chemistry. Some of the fundamental types of aliphatic organic compounds are treated with regard to theory and application. Prerequisites: a grade of C or better in CHE 112, CHE 114. Co-requisite: CHE 343.

CHE 342  Organic Chemistry II  
Three hours  
A continuation of CHE 341 with emphasis on the aromatic organic compounds. Also included are aliphatic compounds not treated in CHE 341 in light of modern theories. Prerequisite: CHE 341, with a grade of C or better.

CHE 343  Organic Chemistry Laboratory  
One hour  

CHE 344  Organic Chemistry II Laboratory  
Two hours  
A laboratory course illustrating typical organic reactions and an introduction to qualitative organic analysis. Two three-hour laboratory periods per week are required. Co-requisite: CHE 342.

CHE 350  Instrumental Analysis  
Four hours  
A study of the modern methods of chemical analysis. Methods of spectroscopy, gas chromatography, and atomic absorption will be included. Three-hour lecture and one three-hour lab per week. Prerequisite: CHE 221, 223 with grades of C or better.
CHE 355 or ENV 355  Environmental Chemistry  Four hours
The course will provide the student with an introduction to the chemical principles of environmental systems. Topics will include chemical equilibrium, acid-base chemistry, environmental organic chemistry, heavy metal chemistry, and treatment applications. Three lecture hours and one three-hour laboratory per week. Prerequisites: CHE 112 and CHE 114 with grades of C or better and consent of instructor. CHE 221 and CHE 223 preferred.

CHE 370  Inorganic Chemistry  Three hours
Structure and bonding of inorganic compounds, survey of chemistry of nonmetal and metal elements; coordination compounds, organometallic compounds and mechanisms and reactions. Prerequisites: CHE 112 with a grade of C or better.

CHE 380  Junior Seminar  One to Three hours maximum
Included is a survey of topics of current interest in chemistry. Prerequisite: Major or minor in chemistry with junior standing or consent of instructor.

CHE 385  Internship  One to Four hours
A program designed to provide practical experience in an area of chemistry including the health professions. An intern will be supervised by a faculty member who will determine the specific requirements which may include a daily log of activities, a written report, oral presentation and an evaluation by their immediate supervisor. Generally, 50 hours of intern experience would be worth one hour of credit. Pre-requisite: Consent of instructor.

CHE 390  Junior Research  One to Three hours (six hours maximum)
This course provides a student with an opportunity to do research under the guidance of an advisor. Pre-requisite: Consent of instructor.

CHE 400  Special Topics  One to Three hours
A special course offered on demand to advanced chemistry students who have a specific interest in the field of analytical, organic or physical chemistry. The course may be repeated for credit provided the topics differ each semester. Possible special topics: Instrumental Analysis, Reactions and Mechanisms in Organic Chemistry, Chemical Kinetics, Chemical Thermodynamics or Inorganic Chemistry. Pre-requisite: Consent of instructor.

CHE 411  Physical Chemistry for the Life Sciences  Three hours
An introduction to the physical chemical principles of thermodynamics, equilibrium, and kinetics with an emphasis on application to systems of biological or biochemical interest. Prerequisites: CHE 342, and MTH 213 or MTH 210 or consent of instructor. Co-requisite: CHE 412.

CHE 412  Physical Chemistry for the Life Sciences Lab  One hour
A laboratory course illustrating the theoretical principles discussed in CHE 411. One three-hour laboratory period per week is required. Co-requisite: CHE 411.

CHE 450  Methods of Science Teaching  Three hours
This course presents an overview of instructional methods and materials for teaching science in middle and secondary schools. It is required for students in middle and secondary science education programs. The hours do not count toward a major in chemistry. Prerequisite: Admission to Teacher Education Program.

CHE 451  Physical Chemistry I  Three hours
An introduction to the theoretical foundations of chemistry including thermodynamic properties of physicalchemical systems; free energy and equilibria; electrochemical processes; and solutions. Prerequisites: Sixteen hours of chemistry at or above CHE 111, PHY 241; PHY 242; MTH 210; MTH 211 (or concurrent enrollment). Co-requisite: CHE 453.

CHE 452  Physical Chemistry II  Three hours
A continuation of CHE 451 with concentration on reaction rates, the nature of chemical bonding, and electrochemistry. Prerequisites: Sixteen hours of chemistry at or above CHE 111, PHY 241; PHY 242; MTH 210; MTH 211 (or concurrent enrollment). Co-requisite: CHE 454.

CHE 453  Physical Chemistry Laboratory I  One hour
A laboratory course illustrating the theoretical principles discussed in CHE 451. One three-hour laboratory period per week is required.

CHE 454  Physical Chemistry Laboratory II  One hour
A laboratory course illustrating the theoretical principles discussed in CHE 452. One three-hour laboratory period per week is required.

CHE 460  Biochemistry  Three hours
Biochemistry is the study of major biologically important classes of compounds and their relation to metabolic processes in living organisms. Prerequisites: CHE 341 (with a grade of C or better); BIO 201; BIO 202 recommended.

CHE 490  Senior Seminar  One hour (three hours maximum)
A survey of topics of current interest in chemistry. Prerequisite: Major or minor in chemistry with junior standing.

CHE 499  Senior Research  One to Three hours (six hours maximum)
This course provides a student with an opportunity to do research under the guidance of an advisor. Prerequisites: Major or minor in chemistry with senior standing and permission of instructor.

CHRISTIAN STUDIES
(School of Theology)

CHS 111  Introduction to Old Testament Study  Three hours
A survey of the Old Testament dealing with its backgrounds, customs, history, formation, theologies, and interpretation. Required for areas, majors or minors in Christian Studies.

CHS 121  Introduction to New Testament Study  Three hours
A survey of the New Testament including the study of its history, formation, theologies, and interpretation. Required for areas, majors or minors in Christian Studies.

CHS 130  Christ and Culture  Three hours
Relates the vital issues of the Christian faith to the contemporary scene.

CHS 211  Art of Reading the Bible  Three hours
The essentials of Biblical interpretation and the application of these to the primary genres of Biblical literature to prepare the student to accurately handle the written word of God. Prerequisites for this course are CHS 111 and CHS 121.

CHS 230  Spiritual Formation  Three hours
The purpose of this class is to empower students in developing a solid Biblical foundation for their lives that will guide their future. The components of the class will include clarification of call, spiritual gift discovery, establishing spiritual disciplines, and understanding the Biblical model of family.

CHS 234  World Religions  Three hours
The study of the essential character of religion, its meaning and significance in human experience. Existing religions are compared with Christianity.

CHS 251  Ministry of Christian Leadership  Three hours
Introduction to Baptist church organizational structure, budget adoption and stewardship promotion, and the educational ministry of the church. This course requires supervised fieldwork activities.
CHS 252 Introduction to Bivocational Ministry Three hours
The class is an introduction to the particular dynamics of bivocational ministry, defined as when a minister derives a significant part of his or her income from a secular job, or when a person in a secular vocation simultaneously serves as a paid minister.

CHS 265 Worship and Technology Three hours
This course is dedicated to a practical understanding of the various presentational technologies available to worship services and a balanced perspective on how and when they should be used.

CHS 271 Biblical Studies in the Holy Land Three hours
This course is intended to help students gain a deeper understanding of biblical geography, history, and culture. The course is integrated with a tour of selected sites in the biblical lands where God revealed his word and promises. Tours alternate between Israel/Jordan and Greece/Turkey.

CHS 276 History of Christian Missions Three hours
This course will examine the factors that have led to the expansion and spread of Christianity. Successes and failures in mission endeavors, important missionaries, and the birth of missionary organizations will be analyzed. Mission strategies employed for the last two hundred thousand years will also be studied.

CHS 280 Special Topics in Christian Studies Three hours
This course investigates a broad topic in the field of Christian Studies in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Christian Studies.

CHS 311 Wisdom and Poetic Lit. of the Old Testament Three hours
A study of selected Hebrew poetry and wisdom literature with special reference to their significance in the faith of Israel. Prerequisite: CHS 111.

CHS 312 Studies in Old Testament Prophets Three hours
A survey of prophecy in Israel with attention given to historical settings of selected prophets and to the interpretations of their message. Prerequisite: CHS 111.

CHS 323 Studies in the Gospels Three hours
An examination of the Synoptic Gospels and investigation of the life of Jesus, critical studies, and interpretation. Prerequisite: CHS 121.

CHS 324 Studies in Paul Three hours
A study of Paul as the central figure in early Christianity and a detailed study of his selected Pauline letters. Prerequisite: CHS 121.

CHS 325 Studies in John Three hours
An investigation of the formation, history and interpretation of the Johannine literature. Half of the course focuses on a commentary study of the Fourth Gospel. Prerequisite: CHS 121.

CHS 328 General Letters (Hebrews-Jude) Three hours
An historical and exegetical study of the general letters of the New Testament Hebrews, James, 1 and 2 Peter, James, 1, 2, & 3 John, and Jude -- with a focus on the development and struggles of the early church, theological themes and issues of the letters, and implications of the letters in the life and work of the contemporary church. Prerequisite: CHS 121.

CHS 331 Renaissance and Reformation Three hours
Intellectual, social, religious, and economic forces and conflicts in European history from 1350 to 1650. Cross-listed at HST 331.

CHS 337 Theology in Film Three hours
Theology in Film is an upper level course on the interface between Christian theology and popular film, one of the dominant cultural expressions of the last hundred years. The course introduces students to the basics of cinema and principles of theological exegesis of celluloid texts.

CHS 350 Introduction to Sports Ministry Three hours
The purpose for this class is to introduce students to a historical overview of ancient sport history and its relationship to the Scriptures. Students will study sport as a cultural phenomenon and its impact on institutions. This historical perspective will include key people, institutions, and models of the Sports Ministry movement as well as church models of Sports Ministry. Biblical principles related to a Christian athlete, Christian coach, and Director of Sports Ministry will be examined.

CHS 351 Christian Coaching Three hours
The purpose for this class is to assist participants to develop a Biblical theology of competition. The course takes a practical look at integrating a Christian world view in coaching practice and other competitive settings. There will be exploration of various theories of the role of the coach, and the ethical dilemmas posed by competitive athletics from an applied perspective of Biblical principles. Guidelines will be given by which any team at any level can be organized on a Christian foundation.

CHS 352 Pastoral Ministries Three hours
Introduction to pastoral ethics and the ministries of worship, witnessing, pastoral care, and counseling. Prerequisite: Junior standing.

CHS 353 Ministry of Proclamation Three hours
A study of the techniques of sermon preparation and delivery. Prerequisites: CHS 111, CHS 121.

CHS 354 Introduction to Christian Evangelism Three hours
A study to develop the student's knowledge and skills of sharing the good news of Jesus Christ by examining Biblical and theological bases of evangelism; characteristics and content of evangelistic preaching, teaching, and witnessing; a local church program of evangelism; denominational programs available for planning and growing effective evangelistic ministry; and personal plans for effective witnessing.

CHS 355 Introduction to Pastoral Care and Counseling Three hours
An introduction to the Christian discipline of pastoral care and counseling as practiced by Christian clergy. The course will range from a study of the biblical/theological and other foundational principles of the discipline to the application of those principles in the practice of pastoral care and counseling ministry in contemporary churches and institutions of the church.

CHS 361 Introduction to Educational Ministries Three hours
The study of the origin, scope, and importance of educational ministries. The course requires supervised fieldwork activities.

CHS 362 Teaching for Life Change Three hours
An examination of teaching techniques through determining objectives, Bible utilization methods, such as questions and answer, discussion, lecture, role playing, story, and project; use of audiovisual aids, and evaluation of teaching. The course requires supervised experience in teaching.

CHS 363 Children's Ministry Three hours
The purpose of the class is to introduce students to faith nurture of children and their families in the ministry of the Christian church. The course provides teaching approaches, program administration, and childhood development related to educating kids up to age 12. Students will discover the roles of the minister to children and the director of children's programs, as well as investigate the wide array of church programs for children.

CHS 364 Youth Ministry Three hours
The purpose of this class is to introduce students to youth ministry. Students will be equipped to develop a model of youth ministry that includes the needs of today's youth, parents of youth, and all volunteer leaders who work with youth.
CHS 365  Christian Studies Internship  Three to Six hours
An internship providing experiential learning in one of the following
ministries: pastoral, religious education, youth or missions. Student
placement is negotiated on an individual basis by conference between a
divisional faculty member and the student. Credit will be given on an S/U
system of grading. Prerequisite: Junior standing.

CHS 371  The Baptist Heritage  Three hours
This course is designed to introduce the student to the denomination of
Baptists. It will deal with the importance and characteristics of the Baptist
heritage, Baptist distinctives and doctrines, the beginnings of Baptists, and
the historical development and spread of Baptists. Attention will be given
to the topics of Baptist succession, Baptist polity, Baptist literature, and
Baptist controversies, as well as to various problems, issues, trends, and
personalities in Baptist history.

CHS 376  Introduction to Missiology  Three hours
This course will explore the task of the missionary in the twenty-fifth
century. Attention will be given to the calling of the missionary and to the
carrying out the Great Commission in the world today. Instruction will
include an explanation of terms pertinent to the missionary movement as
well as a biblical and theological basis for the missiological task.

CHS 378  Missionary Principles and Methods  Three hours
This practical course will investigate methods used by missionaries today,
including church planting, education, and various tent-making endeavors.
The course will seek to develop in the student a creative understanding of
missions as practiced in an international context and to provide a biblical
basis for the strategies employed.

CHS 380/480  Special Topics  One to Three hours
A survey and discussion of selected advanced topics in Christian Studies.

CHS 390/490  Independent Study  One to Three hours
Designed for students with at least 2.50 overall average and 2.80 area,
major, or minor average in Biblical Studies or Educational Ministries. The
study must be directed by a faculty member in conjunction with approval of
the school. Credit will be based upon the nature and scope of the study.

CHS 411  Studies in the Pentateuch  One to Three hours
A critical, historical, and interpretative study of the first five books of the
Old Testament. Prerequisite: CHS 111.

CHS 412  Intertestamental Period  Three hours
A study of the history and literature of the Intertestamental Period and the
relationship to the Old and New Testaments. Historical, literary, and
theological issues will be discussed through a thorough examination of the
Apocrypha, Pseudepigrapha, and Qumran documents. Prerequisite: CHS
111.

CHS 431  Contemporary Theology  Three hours
An examination of the position of the leading Christian theologies of the
twentieth century. Prerequisite: CHS 111, CHS 121, or permission of the
instructor.

CHS 432  Christian Theology  Three hours
A systematic study of the basic teachings of the Christian Faith.
Prerequisite: CHS 111, CHS 121, or permission of the instructor.

CHS 436  Ethical Teachings of Jesus  Three hours
An examination of the teaching of Jesus, their impact on Christian
philosophy, and their implications for contemporary Christian studies.
Prerequisite: CHS 121.

CHS 437  Faith and Beauty  Three hours
Course explores the interaction between aesthetics and theological
reflection. Emphasis placed upon historical, theological, and philosophical
discussions that engage culture and religion.

CHS 451  Growing a Healthy Church  Three hours
An examination of the principles of church planting and church growth that
emphasizes such strategies as evangelism, local church organizations and
ministries, goal setting, spiritual development, and the use of traditional
and innovative methods and principles.

CHS 462  Intergenerational Ministries  Three hours
Today's local churches are faced with the enormous challenge of integrating
the needs of four vastly different demographic groups - builder, boomer,
busters, and generation X. The class will assist students in understanding
how to ride the wave of the future of intergenerational ministry and
ministry studies and the potential for reaching all three generations.

CHS 463  Innovative Educational Ministries  Three hours
A study of the purpose, organization, and activities of the educational units
in a local church and an introduction to leadership training, weekday Bible
study programs and staff relationships. The student is required to
participate in supervised fieldwork activities during the semester.

CHS 471  Church History  Three hours
A study of the growth of Christianity from the first century through the
Reformation. Prerequisite: CHS 111, CHS 121, or permission of the
instructor.

COMPUTER INFORMATION SYSTEMS
(School of Business and Economics)

CIS 106  Computer Concepts and Applications  Three hours
This course provides an overview of microcomputer applications including a
brief introduction to computer concepts, Microsoft Windows, Microsoft
Internet Explorer, Microsoft Word, Microsoft Excel, Microsoft Access, and
Microsoft PowerPoint. Other topics such as creating Web pages and
integration of the applications may also be included.

CIS 150  CIS I  Four hours
The first of a two-semester sequence using a high-level language, such as C
or C++. The first course of a CIS emphasis. The topics covered will include
language constructs, simple data structures, strings, and sets. The language
and principles of structured programming will be used to solve problems.
Three lecture hours and two hours of lab per week.

CIS 161  CIS II  Four hours
A continuation of CIS 160. The topics covered will include language
constructs, software engineering principles, records, pointers, stacks,
queueing, linked lists, trees, and sorting. Three lecture hours and two hours
of lab per week.

CIS 222  Business Presentation Application  Three hours
This course serves as an introduction to business presentations through the
use of a presentation program. A hands-on approach will be utilized as
students complete introductory through advanced applications.

CIS 223  Database Application  Three hours
This course serves as an introduction to database applications using a
database program. A hands-on approach will be utilized as students
complete introductory through advanced applications.

CIS 280  Special Topics in Computer Information Systems  Three hours
This course investigates a broad topic in the field of Computer Information
Systems in more depth than a general survey class. Class topics will vary
with offering. This course will meet general education requirements in
Computer Information Systems.
CIS 330 Computer Architecture
Three hours
A survey of topics related to computer systems with emphasis on the
relationships between hardware architecture and assembly instructions.
The architecture of processors and storage systems are explored and the
implications for systems software design are covered along with the impact
of hardware and system software design on the development of application
programs. Assembly language is utilized. Prerequisite: Successful
completion of a course in a programming language.

CIS 315 Project Management
Three hours
This course brings together the concepts of project management and
systems management through conception and design of products and
services in response to customer requirements. Prerequisite: BA 311.
Taught on demand.

CIS 320 System Analysis and Design
Three hours
Overview of the system development lifecycle. Emphasis on current system
documentation through the use of both classical and structured
tools/techniques for describing process flows, data flows, data structures,
file designs, input and output designs, and program specifications.
Discussion of the information gathering and reporting activities and of the
transition from analysis to design. Prerequisite: Knowledge of a
programming language.

CIS 330 Special Topics
Three to six hours
A special course offered on demand to advanced CIS/CS students who have
a specific interest in the field of computer science or computer information
systems. The course may be repeated for credit provided the topics differ.
Prerequisites: Consent of instructor and upper level standing. No more than
six hours total in this course and CIS 480.

CIS 340 Business Communication
Three hours
Study of business communication, writing various types of business letters,
memos, and reports. Practicing listening skills, exploring nonverbal
communication, writing resumes and application letters. Interviewing for
employment, conducting meetings, and giving oral presentations.

CIS 341 Networking
Four hours
An initial course in networking. The course introduces the student to
various networking models, especially the OSI model; deals with
introductory networking problem solving; and lays a foundation for further
work in networking.

CIS 350 Visual Basic
Three hours
Students will learn how to create applications using the Visual Basic
programming environment. VB tools for creating GUIs (Graphical User
Interface) and the VB programming language will be explored, with
emphasis on application design considerations and good programming
techniques.

CIS 360 Principles of MIS
Three hours
The role of information technology in organizations. Basic concepts and
terminology regarding development and applications of information
systems will be covered. The course will emphasize both organizational and
technical aspects related to Information systems in organizations.

CIS 365 E-Commerce
Three hours
This course focuses on the essentials of E-Commerce—how it is being
conducted and managed as well as assessing its major opportunities,
limitations, issues, and risks.

CIS 372 Web Development
Three hours
This course presents students with the principles of website design. The
use of a text editor, such as TextPad, will be utilized in the development of
course assignments including the development of a web project.
Prerequisites: the student should be comfortable with Windows and
familiar with fundamental programming concepts such as those used in
C++.

CS 374 Computer Operating Systems
Three hours
Provides an overview of operating system concepts. Presents
implementation through the use of operating systems commands. Class
studies operating system concepts such as file systems, variables, and
permissions. Students will use a computer system to execute problem-
solving exercises, both in the shell and in the GUI (Graphical User Interface).
Students will learn and use commands that are necessary for maintaining
an OS workstation including file and directory management commands,
editors, pipes, filters and redirection commands, permissions, processes,
and elementary shell scripting.

CS 380 Systems Analysis and Design II
Three hours
Advanced study of structured systems development. Emphasis on
strategies and techniques of structured analysis and structured design for
producing logical methodologies for dealing with complexity in the
development of information systems. Prerequisite: CIS 320.

CS 390/480 Independent Study
One to Three hours
Major or minor in computer information systems with junior standing; 2.50
overall grade average; 2.80 in Computer Information Systems. Limited to a
total of six hours between 390 and 450.

CS 420 Database Program Development
Three hours
Introduction to application program development in a database
environment with an emphasis on loading, modifying and querying the
database using a host language. Discussion and application of data
structures, indexed direct file organizations, models of data including
hierarchical, network and relational. Discussion of storage devices, data
administration and data analysis, design and implementation. Prerequisite:
CIS 320.

CS 450 Software Engineering
Three hours
Application of computer programming and system development concepts,
principles and practices to a comprehensive system development project.
A team approach may be used to analyze, design, and document realistic
systems or moderate complexity. Use of project management methods,
project scheduling and control techniques, formal presentations, and group
dynamics in the solution of information systems problems. Development of
a database to support the system. Prerequisites: Upper level standing.

CS 480 Special Topics
One to Three hours
A special course offered on demand to advanced CIS/CS students. The
course may be repeated for credit provided the topics differ each semester.
No more than six hours total from CIS 480.

CS 481 Internship
One to Six hours
Employment experience in a computer-related function in a business or
government agency. Must be approved by the lead professor of CIS.
Prerequisites: Must be a junior with a minimum average of 2.75 and 3.00 in
CIS. (Limited to six total hours with a maximum of three
hours per semester).

CRIMINAL JUSTICE
[College of Arts and Sciences]

CJ 101 Introduction to the Criminal Justice System
Three hours
A critical assessment of the nature, operations, and processes of
organizations providing criminal justice service in the United States.
Organizations include the police, the criminal courts, and the correctional
system.
CJ/HS 200 Fundamentals of Homeland Security  Three hours
This course offers a variety of conceptual tools and frameworks for students to think strategically about key issues in the contemporary homeland security environment. This course is intended to be an introductory level indoctrination to the homeland security arena and will lay the groundwork for those students wishing to pursue a career in the Homeland Security discipline.

CJ 215 Criminal Investigation  Three hours
An examination of the techniques, ethical dilemmas, and significance of the lawful search for people and things useful in reconstructing an illegal act or omission.

CJ 230 Social Problems  Three hours
See SOC 230 for course description.

CJ 232 Juvenile Justice in America  Three hours
An examination of the processes, issues, emerging trends, research base, and special challenges of juvenile justice in the United States. The course covers the history and philosophy of juvenile justice, current practices for processing youthful offenders, the detention of juveniles, the diversion of youth from the juvenile justice system, and describes the jobs and problems of juvenile justice system practitioners.

CJ 235 Criminology  Three hours
The systematic scientific study of the definitions, causes, correlates, extent, and societal responses to crime.

CJ 310 Police Administration and Management  Three hours
An in-depth study of the structures, processes, and behaviors involved in the administration and management of police services.

CJ 320 Police Operations and Programs  Three hours
An exploration of police operations and procedures. Included in this course is law enforcement history, organization, functions, processes, operations, procedures, technology, and personnel in the United States.

CJ 330 Introduction to Forensics  Three hours
Forensic Science is the study and application of science to the processes of law and involves the collection, examination, and interpretation of evidence. This introductory course is a broad exploration of the history, specialties, principles, and application of forensic science to the processes and questions of evidence and law intrinsic to criminal justice systems. Prerequisite: CJ 101.

CJ 332 Juvenile Delinquency  Three hours
An exploration of the history, trends, correlates, and theories of juvenile delinquency in the United States. Included in this course is a historical overview of the juvenile justice system and programs as well as an examination of contemporary issues, problems, and reform initiatives.

CJ 334 Introduction to Criminal Law  Three hours
A concise yet comprehensive introduction to and exploration of the criminal law.

CJ 342 Race and Ethnic Relation  Three hours
See SOC 342 for description of course.

CJ 361 Social Statistics  Three hours
See POL 361 for description of course.

CJ 362 Methods of Research  Three hours
See POL 362 for description of course.

CJ 400 Criminological Theory  Three hours
This course is an intensive overview and examination of the major criminological perspectives, theory construction, theory testing, and theory integration. Prerequisite: CJ 235.

CJ 405 Terrorism Studies  Three hours
See POL 405 for description of course.

CJ 410 Senior Seminar  Three hours
This course provides an intensive review and application of knowledge gained from Criminal Justice coursework; career and graduate school resources; and an exploration of select and highly contemporary criminal justice issues. The course format allows students to draw upon, and integrate knowledge gained from previous courses which can be applied in an area of individual, intensive research. The content will vary. Prerequisite: senior standing.

CJ 420 Criminal Justice Administration  Three hours
This course is an advanced course in justice administration designed to provide an examination of the procedures, principles, and challenges encountered by managers of criminal justice agencies. Prerequisite: CJ 101.

CJ 421 Corrections  Three hours
An in-depth exploration of the aggregate of programs, services, facilities, and organizations responsible for the management of people who have been accused and/or convicted of criminal offenses. Areas of study include jails, prisons, and alternative sanctions.

CJ 426 Probation and Parole  Three hours
An in-depth examination of the processes, procedures, problems, and issues of probation (conditional freedom in lieu of incarceration) and parole (conditional release prior to the completion of an incarceration sentence).

CJ 428 Internship/Career Preparation Seminar  One to four hours
Supervised work experience in various criminal justice agencies that offer a setting for the integration of classroom and pragmatic learning as well as the application of theory to practice. Requires permission of the instructor.

CJ 431 Civil Liberties  Three hours
See POL 431 for description of course.

CJ 440 Court Processes and Procedures  Three hours
An in-depth exploration of the history, organization, functions, processes, procedures, and personnel of the United States criminal court system.

CJ 450 Victimology  Three hours
The scientific study of victims and victimization including the social and individual impact of victimization and the laws, policies, practices, strategies of intervention, and costs resulting from criminal activities.

CJ 380/480 Special Topics  One to three hours
A survey and discussion of advanced topics in criminal justice. May be repeated for credit up to six hours provided topics differ.

CJ 390/490 Independent Study  One to three hours
An independent exploration of an area of particular interest to a student. This course requires a research paper using primary source material and an oral presentation to the division faculty. Limited to academic seniors majoring in criminal justice, sociology, or social science. An overall GPA of at least 3.25, a major field GPA of at least 3.5, an ability to do research, demonstration of promise in the field of criminal justice, and approval by criminal justice faculty are prerequisites for this course. Course prerequisites include: CJ 101, CJ 235, and CJ 362.

CJ 485 Serial Killers  Three hours
An examination of the phenomenon of serial killing and serial murderers. The focus of the course is defining serial murder as well as characterizing serial killers and their victims. Attention will also be given to techniques of investigating, profiling, apprehending, and the judicial disposition of serial killers.
CS 160  CIS I  Four hours
The first of a two-semester sequence using a high-level language, such as C or C++. The first course of a CIS major or minor. The topics covered will include language constructs, simple data structures, strings, and sets. The language and principles of structured programming will be used to solve problems. Three hours of lecture and two hours of lab per week.

CS 161  CIS II  Four hours
A continuation of CS 160. The topics covered will include language constructs, software engineering principles, records, pointers, stacks, queues, linked lists, trees, and sorting. Three hours of lecture and two hours of lab per week.

CS 310  Computer Architecture  Three hours
A survey of topics related to computer systems with emphasis on the relationships between hardware architecture and assembler instructions. The architecture of processors and storage systems are explored and the implications for systems software design are covered along with the impact of hardware and system software design on the development of application programs. Prerequisite: A knowledge of a programming language. Assembly language is utilized.

CS 320  System Analysis  Three hours
Overview of the system development life cycle. Emphasis on current system documentation through the use of both classical and structured tools/techniques for describing process flows, data flows, data structures, file designs, input and output designs, and program specifications. Discussion of the information gathering and reporting activities and of the transition from analysis to design. Prerequisite: A knowledge of a programming language.

CS 330  Special Topics  Three hours
A special course offered on demand to advanced CIS/CS students who have a specific interest in the field of computer science or computer information systems. The course may be repeated for credit provided the topics differ. Prerequisites: Consent of instructor and upper level standing. No more than six hours total in this course and CS 480.

CS 341  Networking  Four hours
An initial course in networking. The course introduces the student to various networking models, especially the OSI model; deals with introductory networking problem solving; and lays a foundation for further work in networking.

CS 350  Visual Basic  Three hours
Students will learn how to create applications using the Visual Basic programming environment. VB tools for creating GUIs (Graphical User Interface) and the VB programming language will be explored, with emphasis on application design consideration and good programming techniques.

CS 372  Web Development  Three hours
This course presents students with the principles of website design. The use of a text editor, such as TextPad, will be utilized in the development of course assignments including the development of a web project. Prerequisites: Student should be comfortable with Windows and be familiar with fundamental programming concepts such as those used in C++.

CS 374  Computer Operating Systems  Three hours
Provides an overview of operating system concepts. Presents implementation through the use of operating systems commands. Class studies operating system concepts such as file systems, variables, and permissions. Students will use a computer system to execute problem-solving exercises, both in the shell and in the GUI (Graphical User Interface). Students will learn and use commands that are necessary for maintaining an OS workstation including file and directory management commands, editors, pipes, filters and redirection commands, permissions, processes, and elementary shell scripting.

CS 380  Structured Systems Analysis and Design  Three hours
Advanced study of structured systems development. Emphasis on strategies and techniques of structured analysis and structured design for producing logical methodologies for dealing with complexity in the development of information systems. Prerequisite: CS 320.

CS 390/490  Independent Study  One to Three hours
Major or minor in computer information systems with junior standing; 2.50 overall grade average; 2.80 in computer information systems.

CS 420  Database Program Development  Three hours
Introduction to application program development in a database environment with an emphasis on loading, modifying and querying the database using a host language. Discussion and application of data structures, indexed direct file organizations, models of data including hierarchical, network and relational. Discussion of storage devices, data administration and data analysis, design, and implementation. Prerequisite: CS 320.

CS 450  Software Engineering  Three hours
Application of computer programming and system development concepts, principles, and practices to a comprehensive system development project. A team approach may be used to analyze, design, and document realistic systems or moderate complexity. Use of project management methods, project scheduling, and control techniques, formal presentations and group dynamics in the solution of information systems problems. Development of a database to support the system. Prerequisite: Junior or senior Standing.

CS 480  Special Topics  One to Three hours
A special course offered on demand to advanced CIS/CS students who have a specific interest in the field of computer science or computer information systems. The course may be repeated for credit provided the topics differ. Prerequisites: Consent of instructor and upper level standing. No more than six hours total in this course and CS 330.

CS 481  Internship  One to Six hours
Employment experience in a computer-related function in a business or government agency. Must be approved by the lead professor of CS. Prerequisites: Must be at least a junior with a minimum overall average of 2.75 and 3.00 in CS. (Limited to six total hours with a maximum of three hours per semester.)
ECE 111 Educational Foundations of Early Childhood  Three hours
Orientation to key components, issues, current trends, careers, and opportunities in the early childhood profession. Provides an overview of significant theoretical and historical developments impacting practices. Defines the role of early childhood educator including professionalism, ethics, professional standards, and advocacy. Emphasizes professional development and self-evaluation. Examines Kentucky's vision for young children. Other topics include observation, developmentally appropriate practice; program models, types, and approaches; regulations, accreditation and quality initiatives. Reflects on personal dispositions for working with young children and their families. Required: ten hours of field experience. Prerequisite: None.

ECE 130 Child Development I  Three hours
Examines the Interdisciplinary field of human growth and development. An in-depth study of developmental processes from conception through infancy and toddlerhood with emphasis on the biological and environmental aspects of physical, cognitive, language, social, emotional, and personality development. Processes are discussed within the framework of historical and contemporary theories and current research. Includes strategies for documenting individual children's development and learning. Required: six hours of field experience. Prerequisite: None.

ECE 140 Guidance of the Young Child  Three hours
Explores positive guidance strategies for young children in order to create safe, respectful environments where unconditional acceptance is practiced and membership in the group is never threatened. Promotes the encouragement of children instead of discouragement. Focuses on the teaching, modeling, and practicing of democratic life skills so that children can solve problems in non-hurtful ways. Emphasis on developing relationships with children, parents, and other professionals will be addressed. Observation and assessment will be used to evaluate teachers and programs and suggest ways to improve the guidance of young children. Required: six hours of field experience. Prerequisite: None.

ECE 216 Introduction to Special Education in ECE  Three hours
Overview of philosophical, historical, and legal foundations of special education. Studies characteristics of children with various exceptionalities and service delivery options. Includes processes of identification, referrals, eligibility, diagnostic, treatment, and educational procedures. Topics include development of individual service plans, litigation, inclusion strategies, gifted, advocacy, assistive technology, home-based intervention, and rights and responsibilities of professionals working with families of children with disabilities. Required: twenty hours of field experience. Prerequisite or Co-requisite: ECE 111, ECE 230.

ECE 230 Child Development II  Three hours
Applies the basic principles and theories of growth and development to examine children from two years of age through the years of middle childhood. An in-depth study of developmental processes with emphasis on the biological and environmental aspects of physical, cognitive, language, moral, social, emotional, and personality development. Investigates the current research on the brain and individual development with implications for educational practice. Includes strategies for documenting individual children's development and learning. Required: six hours of field experience. Prerequisite: ECE 130.

ECE 270 Observation and Assessment  Three hours
A comprehensive introduction to observation and assessment in early childhood education. Reviews legal provisions, regulations, and guidelines. Develops skills and methods of observing young children in structured and unstructured situations. Training in identification, selection, and implementation of various screening and developmental assessment instruments as well as program evaluation tools and links results to planning, guidance, and instruction. Overviews diagnostic process and implications of evaluation. Includes role of the family in the assessment process. Required: Twenty hours of field experience. Prerequisite or Co-requisite: ECE 230.

ECE 280 Approaches to Curriculum and Methods  Three hours
Introduces the student to the history of early childhood education and the theoretical perspectives of curriculum development in early childhood programs. Teaches the design of curriculum for children with and without disabilities and allows for practice in developing curriculum units. Introduces Kentucky Early Childhood Standards and uses as a framework in the development of curriculum. Promotes teaching methods that work best to develop concepts and encourage learning with young children. Examines societal factors that impact programming. Explores High Scope, Montessori and Reggio Emilia curriculum approaches. Considers effective arrangement of inclusive indoor and outdoor spaces in early childhood environments in accordance with program philosophy, goals, objectives, and needs of children from birth through kindergarten. Studies brain research to understand impact of physical environment on development and learning. Examines licensing standards, regulations, and quality rating tools. Required: Ten hours of field experience. Prerequisite or Co-requisite: ECE 111, ECE 230.

ECE 320 Health, Safety, and Nutrition for Young Children  Three hours
Develops an understanding of components and skills necessary for creating, maintaining, and evaluating healthy and safe environments for young children. Designed to help students become aware of techniques for promoting general health care and safety standards in children's programs and available community health resources. Prepares students to provide immediate and temporary care in emergency situations involving accidents or sudden illness. Studies dietary needs of young children and the nutritional requirements during pregnancy and lactation. Examines nutritional problems and dietary habits. Includes the essentials of food purchasing, preparation, storage, and safety concerns as well as menu planning and the fundamentals of family-style dining in center-based settings. Emphasizes development of lifelong health habits and attitudes. Required: Three hours of field experience. Prerequisite or Co-requisite: ECE 111, ECE 230.

ECE 411 Teaching Practicum in Early Childhood Education  Three hours
Integration of theory and practice in approved infant/toddler, preschool, prekindergarten, and/or kindergarten settings, with guidance from a classroom cooperating teacher and/or a university supervisor. Students assume teaching responsibilities and complete professional portfolio documenting competencies in the nine ECE teaching standards. Students are formally and informally assessed including site visits conducted by course instructor. Students demonstrate competency in professional early childhood teaching standards and early childhood course content. Concurrent seminar sessions are held to analyze, synthesize, and reflect on the experience and engage in collaborative planning. Required: Six hours of field experience per week for 15 weeks for a total of 90 hours. Prerequisite: Consent of advisor.
ECO 110  Introduction to Economics  Three hours
A survey of the present economic system; price-making forces; production, consumption, distribution of goods and services; wealth, money, credit, banking, public finance; capitalism, and other economic systems. For non-business students and associate degree students.

ECO 211  Macroeconomics  Three hours
A study of modern economic society: economic concepts of national income, inflation, unemployment, and the role of banking. The problems of economic stabilization through monetary, fiscal, and trade policies.

ECO 222  Microeconomics  Three hours
A study of modern economic society: the subsystems of consumer and firm behavior; pricing, production, and problems in markets both domestic and international.

ECO 280  Special Topics in Economics  Three hours
This course investigates a broad topic in the field of Economics in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Economics.

ECO 321  Economic History of the United States  Three hours
Development of agriculture, manufacturing, trade, banking, transportation, large business, labor unions, farm organization, and foreign trade. See HST 321. Prerequisite: ECO 110, 221, or 222.

ECO 332  Economic Geography  Three hours
A study of the influence of geographical factors on development of economic activities, production, location of industries, manufacturing, commerce, internal trade, and economic welfare. See GEG 332.

ECO 342  Labor Problems  Three hours
This course covers the working force, wages, levels of living, conditions of work, labor unions, industrial conflict, and governmental control of labor-management relations. Prerequisites: ECO 221, 222.

ECO 343  Consumption Economics/Personal Finance  Three hours
This course covers consumers' incomes and choices, household expenditures, buying homes and cars, money management, financial planning, personal insurance, savings, and investments. Prerequisite: ECO 110, 221, or 222.

ECO 352  Money and Banking  Three hours
Principles of commercial and central banking; monetary and income theory; monetary and fiscal policy; history and trends of financial instruments and institutions. Prerequisites: ECO 221, ECO 222.

ECO 361  Social Statistics  Three hours
Course designed to acquaint the student with the logic and method of statistics, covering frequency distributions, measures of central tendency and variation, random sampling, and testing of hypotheses. Recommended for students planning graduate study in business, economics, law, or social sciences. See POL 361, SOC 361, and POL 361.

ECO 370  Managerial Economics  Three hours
Problems, cases, and applications of microeconomic theory to business problems. Revenue, demand, and elasticity: the production function, substitutability, and diminishing returns; cost of production, profit analysis, optimization; monopoly, oligopoly, monopolistic competition, and perfect competition; game theory, estimating demand, economic trend analysis, and forecasting, pricing and profit strategy, and statistical quality control. Prerequisites: ECO 222; and MTH 111, MTH 130 or ECO 361.

ECO 375  Health Economics  Three hours
This course is designed to provide an introduction to the economics of healthcare through an exploration of the supply and demand of services in a politically driven market. Economic theories related to production and consumption and distribution of healthcare services are examined in detail. Supply-demand analyses will be applied to specific markets in the healthcare sector. The role of government in production and distribution of health care and market failure will be discussed. Prerequisites: ECO 221 and ECO 222.

ECO 451  Public Finance  Three hours
Growth and finance of the public sector; principles of taxation, tax structures, revenue and expenditures of government fiscal units. Prerequisites: ECO 221, ECO 222.

ECO 452  Comparative Economic Systems  Three hours
Comparisons of economic systems under capitalism, socialism, fascism, communism, and cooperatives. Conditions causing different economic systems; production, distribution, and controls or freedom from control under each system are stressed. Prerequisites: ECO 110, ECO 221 or ECO 222.

ECO 461  International Trade  Three hours
Differences between domestic and international trade; foundations of international trade; economic effects of free and restricted trade; mechanisms of international payments and structure of balance of payments; history and contemporary issues of trade policies and world monetary systems. Prerequisites: ECO 221, ECO 222.

ECO 472  Government and Industry  Three hours
The structure, conduct, and performance of American industries; public policies toward business; economic analysis of those policies. See POL 472. Prerequisites: ECO 221, 222.

ECO 475  History of Economic Thought  Three hours
Comparative study of economic doctines of Mercantilists, Physiocrats, Classical and Historical Schools, Social Theorists, Marginal Utility School, Marshall and Neo-Classists, and the Keynesian School. Prerequisites: Junior standing. ECO 221, ECO 222.

ECO 480  Special Topics  One to Three hours
A special course offered on demand to economics and business students. The course may be repeated for credit provided the topics differ each semester. No more than six hours total from ECO 480 may be counted toward a major or a minor. Consent of instructor. Offered on demand.

ECO 385/485  Internship  One to Three hours
Supervised work experience in the current economy. Prerequisite: Junior standing. Faculty approval required before registration. Six hours maximum enrollment.

ECO 390/490  Independent Study  One to Six hours
Directed research resulting in a paper and presentation on an economic issue. Senior standing required, with GPA of 2.50 overall, and 2.80 in economics. Faculty approval required before registration. Course may be repeated, with maximum six hours earned.
ED 102  Introduction to Education  Three hours
This is an entry level course into the teacher education program leading to
P-5, 5-9, 8-12, or P-12 teaching certification. All entry and exit procedures
for teacher education programs and orientation toward completion of exit
and certification requirements are covered. This course also introduces
students to national, state, and institutional requirements for certification
regarding ethics, professionalism, field experiences, and pedagogy. Students will gain a knowledge of the Kentucky Department of Education
curricular guidelines.

ED 199  Entry to Teacher Preparation  Zero hours
This course is required for anyone enrolling in an education course the first
time. It facilitates the state criminal background check required for
students to begin field hours. There is a $30 fee.

ED 210  Basic Concepts and Philosophy of Education  Three hours
Explores the various philosophies of education so that students will
construct their own philosophy of education. In addition, students will
focus on the historical, social, and ethical foundations of American
education at the P-5, 5-9, 8-12, and P-12 levels.

ED 300  Human Development and Learning Theory  Three hours
The study of how children develop socially, physically, emotionally, and
mentally from birth through adolescence identifying developmental
patterns and implications on the learning process. It will also provide
purposeful observations of the child. Prerequisite: ED 102

ED 310  Instructional Technology  Three hours
Explores IT as hands-on aids to teaching and learning. Included is
instruction in the usage of various technologies with linked learning
elements such as developmental, and cognitive change in the classroom.
Deals with pedagogical aspects of integrating technology in the classroom
for teachers in all public school disciplines. Introduces prospective teachers
to CU's Instructional Technology program. one committed to preparing P-12
teachers who know the content of their field, promote professional and
pedagogical knowledge, demonstrate acquired skills, applying them in such
a way all students learn. Prerequisites: Admittance to Teacher Education
Program, ED 102; knowledge of MS Office.

ED 311  Assessment and Evaluation of Learning  Three hours
A study of the concepts and methods used in the assessment and
evaluation of learning. Students will explore research on assessment,
critically evaluate the strengths, weaknesses and their impact upon student learning. Emphasis given to unit planning and
individual assessment for exceptional children. Prerequisites: Admission to
Teacher Education Program, ED 210, 300, 310.

ED 325  Teaching Diverse Learners  Three hours
This course is devoted to the study of the exceptional child who is
developmentally exception in physical, cognitive, emotional or social
areas. Prerequisites: Admittance to the Teacher Education Program, and
ED 210, ED 300.

ED 331  P-5 Social Studies Methodology  Three hours
This social studies methods course requires pre-service teachers to
demonstrate an understanding of curriculum and content selection,
pedagogy, learning theory, assessment and technology related to
elementary social studies instruction. The study of standards, classroom
management, social context of school, learning styles, assessment, and
other topics will be addressed. The course is designed to prepare pre-
service P-5 teachers for teaching social studies. Students will examine
social studies education as a process that creates and reflects relations of
class, race, sex, caste, nation, and culture. The course is designed to reflect
upon the role of teachers in preparing their students to become democratic
citizens who can live successfully in a global and culturally diverse world.
Prerequisite: Admittance to Teacher Education Program, CAP 2.

ED 341  Math Methodology  Three hours
This course is designed to familiarize pre-service teachers with processes of
thinking about integrated concepts of mathematics that are taught to
students in the P – 5 levels. Pre-service teachers will explore national and
state standards for mathematics including the Kentucky Core Academic
Standards (KCAS) as well as other appropriate standard documents.
Instructional materials, strategies and evaluation tools will be investigated
and evaluation tools will be investigated noting response to developmental and diverse needs of learners. The
course will include research on effective schools and best practices (implications for teaching). Prerequisites: Admittance to Teacher Education
Program, MTH 201 and MTH 202.

ED 343  Science Methodology  Three hours
This course is designed to familiarize pre-service teachers with processes of
thinking about integrated concepts of science that are taught to students in
the P – 5 levels. Pre-service teachers will explore national and state
standards for mathematics including the Kentucky Core Academic
Standards (KCAS) as well as other appropriate standard documents.
Instructional materials, strategies and evaluation tools will be investigated
and evaluation tools will be investigated noting response to developmental and diverse needs of learners. The
course will include research on effective schools and best practices (implications for teaching). Prerequisites: Admittance to Teacher Education
Program.

ED 351  Reading Methodology, P-8  Three hours
This course consists of an overview of reading theories and methods. It
emphasizes the topics of emergent literacy, phonemic awareness, phonics,
whole language, and the balanced approach to reading Instruction,
vocabulary growth, fluency, reading comprehension, and reading in the
content areas. Students are required to have field experiences with diverse
learners in the public school. They will administer a reading skills
assessment and teach a K-6 or 5-8 classroom. Prerequisite: Admittance to the Teacher Education Program.

ED 361  Language Arts Methodology, P-8  Three hours
This course is designed for exploration by the student in basic related
language arts skills, with emphasis on a continuum of strategies. Includes
field projects in the school setting. Prerequisites: Admittance to the
Teacher Education Program, ED 210, 300, 310.

ED 363  Teaching Reading in Middle and High Schools  Three hours
See ENG 363 for description of this course. Prerequisite: Admittance to the
Teacher Education Program.
ED 371 Children’s Literature Three hours
This course is designed to introduce the pre-service teacher to the wide variety of quality literature available to P-5 students. Candidates will understand that children’s literature contributes to empowerment process of teacher knowledge, skills and dispositions regarding diverse issues and diverse authors of literature that enhance children’s appreciation of diversity in the world. The nine genres of children’s literature (picture books, poetry, traditional fantasy, modern fantasy, contemporary realistic fantasy, historical fiction, multicultural and international, informational, and biographies) will enhance instructional strategies by effectively using literature across the curriculum. Prerequisite: Admission to the Teacher Education Program.

ED 390 Assessment and Instructional Strategies Three hours
This course is designed for 8-12 certification level students. Students will explore the methods, materials, and assessment appropriate to their teaching field. Field experiences will be designed to place students in professional development sites for in-depth pre-student teaching experiences. Preferably taken in conjunction with major teaching area methods course. Prerequisite: Admission to Teacher Education Program, ED 210, 300, 310, 325.

ED 400 Special Topics One to Three hours
This course includes topics of individual interest and need. Course may be repeated for credit provided that topics differ.

ED 414 P-9 Classroom Management Three hours
This course supports the mission of Campbellsville University and the School of Education through a focus on servant leadership. It is designed for candidates to learn about and reflect upon differing classroom management theories and techniques with the expressed purpose of creating classroom environments that focus on ways of empowering students to become self-regulated learners. This course also explores various teaching strategies and assessment strategies that improve student learning. Prerequisite: Admission to Teacher Education Program, ED 210, 300, 310, 325. Field experience hours required.

ED 416 Curriculum and Methodology Three hours
Course is designed to learn about and reflect upon differing classroom management theories and techniques, as well as various teaching and assessment strategies, with the purpose of creating classroom environments that focus on ways of empowering students to become self-regulated learners. The professional portfolio will be completed and submitted for further evaluation by the School of Education faculty. Students will require field hours in their assigned student teaching placements. Students will apply for CAP 3, entry to student teaching, during this course. Prerequisites: Admission to Teacher Education Program, ED 210, 300, 310, 325. Field experience hours required.

ED 450 Student Teaching Twelve hours
Student teachers are placed in a clinical setting for 16 weeks. Students’ certification levels determine whether the placement is a continuous 16 weeks or is divided into two-eight-week periods. See the Director of Student Teaching for details concerning placements. Student teachers have opportunity to teach their content, implement management strategies and translate theory into professional practice. Prerequisites: CAP 1, 2, 3 approval.

ED 380/480 Independent Study One to six hours
A student must have a minimum of 72 semester hours of credit, at least eight hours of which were earned in residence at Campbellsville University, including at least five hours of professional education courses. A P-5 student must have had the basic education course at Campbellsville University in the area in which he/she does the special study. A student must have earned a 2.50 overall GPA; must have permission of the professor directing the study, divisional chair, and the Vice President for Academic Affairs; and must submit a prospectus in conjunction with the professor directing the study.

ENG 090 Writing Skills Three hours
This course is intended to prepare students for ENG 111 and ENG 112 through the acquisition of basic writing and grammar skills, the medium for self-expression and communication. The students will write compositions paying close attention to the mechanics of and relationships between words, sentences, paragraphs, and ideas. Students whose final grades are lower than a "C" must retake ENG 090. Credit for this course does not count toward graduation, but the course should propel students toward success in their college careers.

ENG 110 Basic English Three hours
A course for students whose placement tests indicate a lack of readiness for ENG 111. The students experience writing as a self-expressive act resulting in self-knowledge and as a social interaction resulting in communication. They write whole compositions with attention to relationships among the components (sections, paragraphs, sentences, and sentence parts) in order to develop writing skills and to practice the conventions of academic writing. Students whose final grades are lower than "C" must retake ENG 110 the next semester.

ENG 111 Freshman Composition I Three hours
A course in writing as a recursive process involving the discovery and communication of meaning. The students write, revise, and edit texts with the aim of communicating with various audiences of readers. Students whose final grades are lower than "C" must retake ENG 111 the next semester.

ENG 112 Freshman Composition II Three hours
A course in argumentative and persuasive writing and academic discourse. Students practice rhetorical strategies and scholarly methods as they perform assigned research and writing projects. Students whose final grades are lower than "C" must retake ENG 112 the following semester. Prerequisite: ENG 111.

ENG 210 Literary Studies Three hours
Practice in reading, interpreting, evaluating, and writing about literature. The purpose of the course is to enable students to cultivate a critical appreciation of literature, its aesthetic qualities, and its relevance to the real-life experiences and concerns of individuals and cultures. Prerequisite: ENG 112.

ENG 294 Foundations of World Literature Three hours
A survey of literature from the ancient world, the Middle Ages, and the Renaissance. Content varies, but an emphasis will be placed on texts in translation that have had a significant influence on the development of world literature. Prerequisite: ENG 112.

ENG 280 Special Topics in English Three hours
This course investigates a broad topic in the field of English in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in English.

ENG 331 Survey of British Literature Three hours
A survey of British literature from the Anglo-Saxon invasion to the end of the Neoclassical Period. Prerequisites: ENG 112 and ENG 210.

ENG 332 Survey of British Literature II Three hours
A survey of British literature from the Romantic Period to the recent twentieth century. Prerequisites: ENG 112 and ENG 210.

ENG 341 Survey of American Literature I Three hours
A survey of American literature from the colonial times to the 1860s. Prerequisites: ENG 112 and ENG 210.
ENG 342 Survey of American Literature II Three hours
A survey of American literature from the 1850s to the 1960s. Prerequisites: ENG 112 and ENG 210.

ENG 351 Renaissance to Restoration Literature Three hours
The course surveys Renaissance literature from the Early Modern through the Restoration periods, both fiction and nonfiction. It covers a wide range of works, antecedents, criticism, and contexts, with close readings of selected authors. The focus is mainly on British literature, although selections from other countries may be included. Prerequisites: ENG 112 and ENG 210 or ENG 234.

ENG 352 Age of Enlightenment Literature Three hours
The course includes intensive reading from the age of Dryden, Swift, Pope, and Johnson. Chiefly British in focus, the course covers drama, poetry, novels, and nonfictional prose. Prerequisites: ENG 112 and ENG 210 or ENG 234.

ENG 358 Modernism and Postmodernism Three hours
The course explores the twentieth- and twenty-first-century movements modernism and postmodernism. The course will represent a variety of national literatures with texts by writers of America, Great Britain, and other countries and will include discussions of cultural and political contexts. Prerequisites: ENG 112 and ENG 210 or ENG 234.

ENG 361 Linguistics: Modern English Grammar Three hours
An investigation of the elements of the English language and their syntactical relations and functions.

ENG 363 Teaching Reading in Middle and Secondary School Three hours
Directed to assist the secondary English teachers in the training in the organization of programs with emphasis on reading in the content areas. Clinical and field experiences are provided for appraisal of reading abilities, appropriate materials, and evaluation. Prerequisite: Admission to Teacher Education.

ENG 364 Adolescent Literature Three hours
Emphasizes the subject matter, materials, and methods of teaching and learning the various forms of literature suitable for middle grade and adolescent readers.

ENG 373 Creative Writing Three hours
Study and practice are provided in writing poetry, fiction, and non-fiction. Students are encouraged to offer their writings for publication. Prerequisites: ENG 111; ENG 112; and three hours of literature.

ENG 375 Contemporary Drama Three hours
Representative American, English, and continental European plays are studied, beginning with Ibsen and continuing to the present. Prerequisites: ENG 112; ENG 210.

ENG 380/480 Special Topics One to Three hours
This course is designed for special studies of authors, genres, or themes offered for English major or minor credit on demand if qualified instructor is available. Specific topics include Kentucky writers, Victorian poetry and prose, the Romantic period, twentieth-century British literature, English novels, Chaucer, the Age of Realism, and the American Short Story. The course may be repeated for credit provided that topics differ.

ENG 390/490 Independent Study One to Three hours
Superior students with 24 hours in English may apply for permission to do independent reading or research in literature or in the English language. All independent study must be directed by a member of the English faculty, and credit will be based upon the nature and scope of the study done.

ENG 395 Advanced Composition Three hours
The course includes study of a variety of rhetorical modes, writing styles, and research methods and requires student application of critical thinking and rhetoric as they complete scholarly research and writing assignments. Its primary purpose is to prepare students for graduate-level academic pursuits and professional writing. Prerequisites: ENG 112, 210 or 234, and junior or senior classification.

ENG 442 Contemporary American Literature Three hours
A critical study of recent 20th-century American writers of fiction and poetry. Prerequisites: ENG 112 and six hours of literature.

ENG 455 Romantic and Victorian Literature Three hours
The course examines works of major writers of the nineteenth century and includes poetry, plays, novels, and nonfictional prose written between 1785 and 1900. Prerequisites: ENG 112 and ENG 210 or ENG 254.

ENG 465 Teaching English in Middle and Secondary School Three hours
This course is designed to help prospective English teachers develop a pedagogy and learn applications of current developments in the field of English education.

ENG 473 Advanced Creative Writing Seminar Three hours
This seminar is an upper-division course that assumes previous creative writing training in short fiction, poetry, and drama. It will be focused on the workshop of multiple original works of fiction, drama, and poetry. Prerequisites: ENG 112, 210 or 234, and ENG 375 or consent of instructor.

ENG 480 Special Topics Three hours
This course includes topics of individual interest and need. Course may be repeated for credit provided that topics differ.

ENG 486 Literature of the American South Three hours
This course includes selected works of major writers of the American South, including writers of Kentucky.

ENG 491 Shakespeare Three hours
In this course, representative comedies, histories, and tragedies of Shakespeare are studied. Prerequisites: ENG 112 and six hours of literature.

ENG 496 Literary Theory and Research Three hours
This capstone course is an introduction to the discipline of advanced literary studies, with an emphasis on reading literary theory and applying it in producing scholarly writings about literary texts. The course will also include an exploration of graduate programs and job opportunities. Prerequisites: classification as a senior pursuing a major in English.

ENGLISH AS A SECOND LANGUAGE

[English as a Second Language Institute]

ED/TSL 240 Language and Culture Two hours
This course will assist pre-service and currently practicing teachers in understanding the diversity in foundational belief systems and world views and the relationship between the belief system/world view and how language is used to express those systems. It will introduce the student to the idea of universal and particular beliefs of various cultures.

ED/TSL 250 TESL Assessment and Testing Two hours
This course is a survey of the principles and practices of second language classroom and standardized testing and evaluation, and of assessment of levels of proficiency for initial placement. Exposure to various types of test and test items with a view toward designing and critiquing classroom test is provided. Various commercial tests are evaluated.
ED/TSL 340 L2 Acquisition and the Skill Set Three hours
This course will assist pre-service and currently practicing teachers in understanding how language is learned, and therefore in understanding how to better teach the English language. There will be an emphasis on the impact of the theories of second language acquisition on ESL/EFL pedagogy.

ED/TSL 440 Applied Linguistics and English Grammar Three hours
This course will assist pre-service and currently practicing teachers in understanding the linguistic sciences such as phonology, morphology, semantics, psycholinguistics, socio-linguistics, the nature of language and how it is learned, and the history of the English language. There will be an emphasis on the impact of the theories of linguistics on ESL/EFL pedagogy. This course is also a review of modern English grammar for teachers and of the rules L2 learners need for language decision making and self-monitoring. It will promote an understanding of how the linguistic sciences affect L2 learner processing of English grammar.

ED/TSL 460 TESL Methods and Materials for P-12 Teaching Three hours
This course will use knowledge derived from the linguistic sciences about the nature of language and how it is learned, to assist pre-service and currently practicing teachers in the exploration and evaluation of the various methods, techniques, and approaches to the teaching of English as a Second Language, and in the development of skills, procedures, and strategies for teaching from and utilizing commercial materials and developing teacher-made materials for teaching English as a Second Language.

ENVIRONMENTAL SCIENCE

ENV 310 Environmental Ethics Three hours
This course addresses human responsibilities and ethical concerns about the environment.

ENV 355 Environmental Chemistry Four hours
The course will provide the student with an introduction to the chemical principles of environmental systems. Topics will include chemical equilibrium, acid-base chemistry, environmental organic chemistry, heavy metal chemistry, and treatment applications. Three lecture hours and one three-hour laboratory per week. Prerequisites: CHE 221 and CHE 223 with grades of "C" or better or consent of instructor.

ENV 390 Research One to Three hours
This course provides a student with an opportunity to do research under the guidance of an advisor. Prerequisite: Minor in Environmental Science.

EXPERIENTIAL LEARNING

EL 480 Experiential Learning Credit One to 32 hours by Portfolio
Under this listing, credit is granted in various disciplines, for prior learning experiences outside the classroom, which are deemed worthy of credit on an "equivalency" basis. That is, the experience for which credit is granted is deemed to be equivalent to a number of hours of credit by the judgment of departmental faculty, based upon documentation presented by the student in a portfolio. Such credit is not limited to the courses taught at Campbellsville University, nor is credit granted for specific courses in this manner, although credit may be allowed to satisfy prerequisite requirements, or graduation requirements in departmental programs or general education requirements, upon recommendation by departmental faculty. This listing is not intended to be used for granting credit for current experiential learning, which is covered under other course titles, such as internships and practica.

Additional information about experiential learning credit may be found on page 161.

FRENCH

(FR 111 Elementary French I Three hours
An introductory course in the French language. Grammar, conversation, reading and writing are emphasized by means of pattern drills, exercises, tapes, and CDs accompanying the textbook.

FR 112 Elementary French II Three hours
A continuation of FR 111. Prerequisite: FREN 111 or equivalent.

FR 211 Intermediate French I Three hours
A continuation of the study of the French language by means of further grammar study; readings and discussions in French of various cultural presentations; and conversational practice in class and in the laboratory. Prerequisite: FR 112 or equivalent.

FR 212 Intermediate French II Three hours
A continuation of FREN 211. Prerequisite: FREN 211 or equivalent.

FR 311 Advanced Composition and Conversation Three hours
A continuation of the development of the students ability to speak and write French by means of a comprehensive review of grammar and practice using basic conversational terminology. Prerequisite: FREN 212 or equivalent.

FR 312 Advanced Composition and Conversation* Three hours
A continuation of FREN 311. Prerequisite: FREN 212 or equivalent.
FRE 321 Survey of French Literature I* Three hours
A study of great French writers and their works from the Middle Ages through the 18th Century. Prerequisites: FRE 311 and FRE 312 or equivalent.

FRE 322 Survey of French Literature II* Three hours
A study of great French writers and their works from the 19th and 20th centuries. Prerequisites: FRE 311 and FRE 312 or equivalent.

FRE 380/490 Independent Study* One to Three hours
Superior students who have completed Survey of French Literature I (FRE 321) or Survey of French Literature II (FRE 322) may apply to the chair to do independent reading in the French language. All independent study must be directed by a member of the language faculty.

* Currently inactive

GENERAL STUDIES
(College of Arts and Sciences)

GS 101 University Success Skills Three hours
This course is designed to focus on developing practical study skills to maximize academic success. Skills taught in this class are time utilization, concentration, listening, note taking, testing, use of library resources, and personal issues that face many university students.

GS 110 Improving Reading Proficiency Three hours
This course is designed to develop better reading skills through expansion of vocabulary and improvement of reading comprehension and writing skills. The successful student will be able to understand, improve, and use reading skills in order to gain the knowledge and self-confidence that is needed to be more successful in the academic world and life in general.

GEOGRAPHY
(College of Arts and Sciences)

GEG 315 World Geography Three hours
This course highlights the topography, climate, natural resources, and demography of the seven continents and further emphasizes map and political status of major world powers and other regional considerations.

GEG 321 Cultural Geography and Anthropology Three hours
Students explore the interplay of natural environment, social organization and culture. Emphasis is on the diverse ways that ethnicity emerges as various human groups adjust to life in which they live.

GEG 332 Economic Geography Three hours
This course is a study of the influence of geographical factors on development of economic activities, production, location of industries, manufacturing, commerce, international trade, and economic welfare.

GEG 442 Political Geography Three hours
This course is a study of the influence of geographical factors on political institutions, foreign policies, and national and international attitudes of people of modern nations. Prerequisites: POL 110 or consent of instructor.

GEG 480 Special Topics Three hours
A survey and discussion of selected advanced topics in contemporary geography including such subjects as Human Geography, Spatial Research, Computerized Topography, etc.

GEOLOGY
(College of Arts and Sciences)

GEO 105 Introductory Earth Science Three hours
The fundamental concepts of geology, meteorology, and astronomy will be studied. General topics will include: origin of the universe, solar system and earth, the structure and composition of the earth, physical and historical geology, the atmosphere, weather, and climate. There are no prerequisites for this course. Does count as a physical science general education requirement.

GEO 106 Introductory Earth Science Lab One hour
The fundamental concepts of geology, meteorology, and astronomy will be studied through participation in laboratory and field-based activities. This course is designed to give hands-on, inquiry-based knowledge, and applications in the Earth sciences. General topics will include: origin of the universe, solar system and earth, the structure and composition of the earth, physical and historical geology, the atmosphere, weather and climate, and mapping. Geology 105 is a co-requisite or prerequisite for this course.

GEO 210 Field Studies in Geology Three hours
A general overview of physical geology is included along with emphasis on selected regions of the United States. A two-week field trip is included. Prerequisite: Permission of instructor.

GEO 211 Physical Geology Three hours
Description: Study of the materials which make up the earth's crust, followed by a study of the processes of erosion and weathering and the forces of volcanism and tectonism. Required for biology and chemistry students completing a teaching area in biology or chemistry.

GEO 213 Physical Geology Laboratory One hour
Laboratory work designed to accompany GEO 211. Minerals, rock, aerial photographs, and topographic maps are studied. Required for biology and chemistry students completing a teaching area in biology or chemistry, optional for other students. Prerequisite: permission of instructor and concurrent enrollment in GEO 211.

GEO 280 Special Topics in Geology Three hours
This course investigates a broad topic in the field of Geology in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Geology.

GEO 300 Paleontology Three hours
Paleontology is a study of the ecology, morphology, and evolution of fossiliferous life forms. Prerequisites: GEO 211; BIO 201; or BIO 202 recommended.

GERMAN
(College of Arts and Sciences)

GER 111 Elementary German I Three hours
An introductory course in the German language. Grammar, conversation, reading, and writing are emphasized by means of pattern drills, exercises, tapes, and CDs accompanying the textbook.

GER 112 Elementary German II Three hours
A continuation of GER 111. Prerequisite: GER 111 or equivalent.

GER 211 Intermediate German I Three hours
A continuation of the study of the German language by means of further grammar study; readings and discussions in German of various cultural presentations; and conversational practice in class and in the laboratory. Prerequisite: GER 212 or equivalent.

GER 212 Intermediate German II Three hours
A continuation of GER 211. Prerequisite: GER 211 or equivalent.
HP 100/TH 100 Introduction to Dance
This course covers basic body alignment, exercise, steps, and positions or beginning technical and performance dance. Dance styles to be covered include ballet, jazz, tap. Exercises include center work, across-the-floor, barre and combinations.

HP 101 Adapted Physical Activity
Assignments to this class are made for students with special needs in Basic Instruction focusing primarily on acute and chronic physical limitations. Activities are assigned commensurate with interests and abilities.

HP 103 Introduction to Physical Activity and Health Promotion
This course provides an understanding of an appreciation for the various components of personal health and wellness. Emphasis is placed on rudimentary understanding of how it relates to physiological body systems, nutrition, body composition, stress management, and personal lifestyle choices. Students will practice analyzing current levels of healthy behaviors and will implement strategies to increase these behaviors.

HP 104 Beginning Weight Training
Basic techniques and knowledge of machine and free weight systems are taught. Fitness evaluation and individual workout programs are included. Development of muscular strength and endurance is stressed. Physiological principles of fitness and their relationships to weight training are also emphasized.

HP 107 Beginning Golf
This course stresses swing motion and the basic fundamentals. Techniques of the full swing and the short game are presented. Rules and etiquette are covered.

HP 109 Beginning Rhythmic Aerobic Exercise
This course provides a cardiovascular fitness program incorporating physiologically safe low-impact exercise to music. It develops strength, flexibility, and improved cardio-respiratory efficiency.

HP 110 Intermediate Rhythmic Aerobic Exercise
This course challenges students to achieve higher levels of cardiovascular, flexibility, and strength fitness through safe low-impact exercise to music. Students with experience in rhythmic aerobics are expected to be able to participate in a minimum of 30 minutes of aerobic exercise per session.

HP 113/TH 113 Ballroom Dancing I
This course covers basic dance steps, positions, and formations. Danced to be covered include: cha-cha, mambo/salsa, waltz.

HP 114/TH 114 Ballroom Dancing II
This course covers dance steps, positions, and formations. Danced to be covered include: swing, tango, rumba.
HP 150  Billiards  One hour
This course covers the basic fundamentals of pocket billiards, basic shot making, and position play.

HP 155  Beginning Soccer  One hour
Basic soccer skills are presented including dribbling, shooting, passing, heading, trapping, and tackling. Position play and strategies for basic offense and defense are introduced. Rules and terminology are covered.

HP 160  Beginning Tennis  One hour
Basic skills are learned including forehand and backhand ground strokes, the volley, and the serve. Rules, terminology, and basic game strategy will be taught.

HP 190  Special Topics In Physical Education  One hour
This course is designed to include classes taught by special instructors who have talents in activities not listed in the current catalog. Courses offered include: Intermediate Bowling, Intermediate Weight Training, Intermediate Golf, Intermediate Soccer, Intermediate Tennis, and Intermediate Volleyball, Beginning Gymnastics and Beginning Ballroom Dance.

HP 200  Healthful Living  Three hours
This course provides an extension of concepts learned in HP 101. NCAE, AAHE and Kentucky teaching standards are included in overview of the course. Content involves an intermediate understanding of health as it relates to physiological body systems, nutrition, body composition, stress management, and personal lifestyle choices. Specific strategies for positive lifestyle change are learned, and basic techniques for teaching these strategies in a health setting are introduced. Additional areas covered include mental health, infectious and noninfectious disease, substance use and abuse, and environmental and consumer health issues.

HP 201  History and Philosophy of Health, Physical Education and Sport  Three hours
The historical and philosophical perspectives of sport and physical education are combined in this course to provide the student with a better understanding of the present condition of the discipline. This course is primarily a history of ideas regarding sport and physical education. Particular emphasis is placed on the relationship between mind and body and how that relationship has changed during various historical eras, the development of American physical education and athletics, and the modern Olympic movement.

HP 212  Introduction to Rhythmic Movement  Two hours
This course provides an overview of the history and cultural influences of folk and square dance and the basics of rhythmic activities for classroom and recreation settings. The course is designed for physical education, recreation and education majors. Students will be exposed to the basic steps, formations, terminology and instructional methods of various dances and rhythmic activities.

HP 233  BLS for the Healthcare Provider  One hour
This course is intended for certified or non-certified licensed or non-licensed healthcare providers such as: physician's assistant, physical and occupational therapists, medical or nursing students. Includes adult and pediatric CPR and AED training, special resuscitation situations, foreign-body airway obstruction and other cardiopulmonary emergencies. This course is a requirement for Exercise Science majors. There is a fee for this course.

HP 234  Safety in Sport and Physical Activity  Two hours
This course is intended for all individuals who have a duty to respond to a first aid or emergency because of job responsibilities including: teachers, coaches, day care workers, aerobic/sport trainers, camp counselors, nursing home assistants, resort workers, and others. In addition to certification in the American Heart Association Heartsaver, First Aid with CPR & AED the student will benefit from current issues in coaching, school and event safety and practices in establishing and maintaining a healthful and safe environment. This course is required for HPESET majors. There is a fee for this course.

HP 250  Care and Prevention of Athletic Injuries  Three hours
The course is designed to introduce the future human performance professional to the recognition, management, rehabilitation, and prevention of athletic injuries. Practical experiences in basic treatment protocols for common injuries are also included.

HP 251  Teaching Sport Skills I  Two hours
This course introduces students to the individual sports of tennis, golf and track and field. Students will be instructed on the basic skills, rules and strategies related to each sport and will be given opportunity to instruct their peers. The goal of the course is for students to be able to effectively teach skill activities, games, rules, and modifications for individual sport activities.

HP 252  Teaching Sport Skills II  Two hours
This course introduces students to the team sports of basketball, volleyball and soccer. Students will be instructed on the basic skills, rules and strategies related to each sport and will be given opportunity to instruct their peers. The goal of the course is for students to be able to effectively teach skill activities, games, rules and modifications for team sport activities.

HP 280  Special Topics In Human performance  Three hours
This course investigates a broad topic in the field of Human performance in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Human performance.

HP 300  Principles of Strength Training and Conditioning  Three hours
This course involves the study of training and conditioning methods used to improve and sustain athletic performance. Students will expand on their background in the structural, metabolic, and physiologic constructs of neuromuscular function. These concepts will be applied to exercise and physical training, and students will learn about the technique and characteristics of several advanced weight-training programs. Age, gender, race, and clinical issues will also be explored. Pre-requisite: BIO 110.

HP 302  Test and Measurements  Three hours
This course introduces future educators in health and physical education to the art of conducting research. Research methodology explored is from hypothesis formulation, searching for background information, test or methods construction, result presentation to discussion, and summary of findings. Students participate by conducting a semester long research project aimed at designing a curriculum for a fictitious Health and physical education class. Students are required to support their findings quantitatively by using basic statistical methods. Prerequisite: MTH 130.

HP 305  Community & Consumer Health  Three hours
This course deals with principles of assessing the health of the local and global community. It also covers methods of becoming more knowledgeable healthcare consumers, thus insuring a healthier life. Environmental issues related to health are also covered.
HP 310 Nutrition Three hours
A survey of the nutrients required for proper growth and maintenance of the body. Principles of diet analysis and techniques for teaching healthy nutritional behaviors in a health education setting are included.

HP 311 Drugs, Individuals, and Society Three hours
This course will examine various approaches to drug education with an emphasis on prevention models. Epidemiology of drug use in the US and the effects on American society are discussed. Specific exploration of the physiological, psychological and legal aspects of drug use and abuse is included. Emphasis is on understanding and preventing abusive drug behaviors.

HP 312 Coaching Theory of Baseball Two hours
This course investigates the theories and practices of coaching fundamentals in the sport of baseball.

HP 315 Introduction to Sport Management Three hours
To provide the student with an overview of the structure of the sports industry and to highlight the scope and variety of career opportunities in the area. The value of professional management to sports organizations will also be emphasized. Attention will be given to the issues facing sport organizations and to the use of management techniques to solve business-related problems. The development of effective communication skills, both written and oral, will be emphasized through class presentations and written assignments.

HP 320 Human Sexuality, Education, and Society Three hours
In this course, the student will explore fact and opinion about human sexuality in contemporary society. Students will discuss respect, communication, and other physiological and psychological factors in sexual relationships. Etiology and transmission of the human immunosupressant virus and ethical and social factors of HIV and AIDS will be a course emphasis. Issues such as abortion, premarital sex, and sex education in the public schools will be debated. Christian principles and Biblical scripture will always be incorporated in discussion and debates.

HP 321 School Health, Physical Education, and Recreation P-5 Three hours
This course introduces the Elementary Education student to instructional methods and strategies relevant to teaching health and physical education in grades P-5.

HP 322 Coaching Theory of Basketball Two hours
This course investigates the theories and practices of coaching the sport of basketball. Techniques as they apply to the offensive and defensive skills of the sport will be covered. Also included in class meetings will be administrative duties, scouting, basketball handbook development, and the development of a coaching philosophy.

HP 325 Sport & Media Three hours
This course provides a comprehensive approach to public relations practice within sport. Issues covered include development of media policy, providing information services, introduction to sport writing, interviewing, news conferences, media public relations, web development. Addressing legal and ethical consideration are also covered. The portfolio requirement of this course will be met with the design of a Media Guide.

HP 335 Coaching Theory of Volleyball Two hours
This course investigates the theories and practices of coaching fundamentals in the sport of volleyball.

HP 342 Coaching Theory of Football Two hours
This course investigates the theories and practices of coaching fundamentals in the sport of football. Various philosophies, fundamentals, budgets, and equipment will be discussed.

HP 345 Coaching Theory of Softball Two hours
This course investigates the theories and practices of coaching fundamentals of softball.

HP 350 Sport Tourism Three hours
To provide an introduction to the scope, characteristics, and management aspects of the commercial recreation and tourism industry. Three major component studies are: the travel industry, the hospitality industry, and the local commercial recreation industry.

HP 351 Christian Coaching Three hours
The purpose for this class is to assist participants to develop a Biblical theology of competition. The course takes a practical look at integrating a Christian world view in coaching practices and other competitive settings. There will be exploration of various theories of the role of the coach, and the ethical dilemmas posed by competitive athletics from an applied perspective of Biblical principles. Guidelines will be given by which any team at any level can be organized on a Christian foundation.

HP 354 Coaching Theory of Soccer Two hours
This course emphasizes the psychology of coaching, the role of the coach, understanding of the game of soccer and drills that teach the technical and tactical aspects of soccer.

HP 355 Stress Management Three hours
This course examines the physiological, psychological and interpersonal effects of stress. A variety of healthful coping mechanisms are identified with emphasis placed on students' developing effective personal coping strategies.

HP 360 Gender and Diversity Issues Three hours
This course will explore several topics related to diversity in sports, including racial, gender, religious, political, economic, and disability controversies. Class discussion will focus on current issues and debates on these and other topics. In addition, practical ways on dealing with minorities in teaching, coaching, or administrative positions will be addressed.

HP 365 Coaching Theory of Tennis Two hours
This course emphasizes the role of the coach, coaching fundamentals of the sport, and drills for conditioning and skill improvement.

HP 370 Sport Facility Management Three hours
This course provides the student with an understanding and appreciation for the design and management of a large sport/recreation facility. Students will design a facility, meeting deadlines to gain an understanding of what is involved in facility construction. Skills and knowledge related to site selection, facility financing, public relations, risk management along with the common facility and court component and specifications will be covered.

HP 371 Sport Finance Three hours
This course is designed to prepare the prospective sport manager with an overview of the major financial issues facing the sport industry.

HP 375 Current Issues and Trends in Sport Three hours
This course examines current topics in the field of physical and health education, and the sport industry.

HP 380 Motor Learning Three hours
This course provides an examination of the motor and cognitive characteristics of individuals involved in learning or performing motor skills and the conditions that can influence learning. Emphasis is on how humans learn complex movement skills and control voluntary, coordinated movement. Principles and theories discussed will provide the student with concepts of skill development for application in teaching and coaching.
HP 399 Kinesiology Laboratory One hour
This laboratory course introduces measurement and evaluation methods in kinesiology. The aim of this lab course is to practice and understand the results of these methodologies in the healthy, physically injured and in some disease states. In conjunction with the course, specific clinical cases are presented and studied for different injuries within various regions of the body. The lab course is based on a qualitative assessment of human movement. The course is required for Exercise Science Area students only.

HP 390 Kinesiology Three hours
Kinesiology is the study of how movement is realized by the muscles, the skeleton, and its joints. The goals of the course require that aspects of somatic nervous system control be explored and the fundamental mathematics describing the basic mechanics of human movement be introduced. Additionally, the effects on human movement due to injury, disease, and maturation are examined. Prerequisites: BIO 221

HP 391 Adapted Physical Education Three hours
This course is designed to introduce students in physical education and related disciplines to current information on the physical education/activity needs of individuals with disabilities. Emphasis will be placed on adapted physical education service delivery in accordance with federal laws; unique attributes of disabling conditions with implications for physical education; procedures for adapting regular physical education programs to meet the needs of students with disabilities; and quality teaching, community instruction, and recreational programs for individuals with diagnosed disabilities.

HP 392 Motor Control Three hours
The aim of this course is to provide an appreciation for the complexity and adaptability of the biological neurocontroller. The general principles governing neural control of movement in mammalian systems are introduced. The fundamentals of posture, balance, and locomotion are discussed. Select topics in neurophysiology and motor control modeling are also presented. Prerequisites: BIO 222.

HP 393 Biomechanics Three hours
This is an introductory course that examines the mechanical properties and behavior of biological tissues and systems. Topics include stress/strain, torsion, bending/buckling, shear, and equilibrium. Biomateterials such as collagen and elastin are investigated, as are the tissue structures they make up. Rigid body mechanics are introduced.

HP 399 Physiology of Exercise Laboratory One hour
This laboratory course introduces the student to measures in exercise physiology with areas of content in metabolism, cardiovascular, respiratory, neuromuscular, and skeletal systems. The purpose is to reinforce the understanding of the effects that exercise has upon these systems and processes which are discussed in the main course.

HP 400 Physiology of Exercise Three hours
The course examines the physiological response to exercise in the cardiovascular, respiratory, endocrine, immune, skeletal, and neuromuscular systems. Other topics covered include cellular respiration, anaerobic and aerobic metabolism, metabolic adaptation, nutrition, maturation, and body composition. Prerequisite: BIO 221.

HP 401 Principles of Human Factors of Ergonomics Three hours
Human interactions as operators in complex systems are affected by several features including workplace design, safety, efficiency, productivity, information processing, comfort and other human factors. Performance in medicine, transportation, manufacturing, process control, or aviation systems is dependent upon the reliability and repeatability of the human interactions with these systems. This course introduces human factors and ergonomic topics of regulation (OSHA), anthropometry, system design, task analysis, activity related disorders and injuries as well as organizational and psychosocial aspects of work.

HP 405 Sport Marketing Three hours
This course is designed to provide the student with information and approaches relevant to today's sport marketplace. Included is sales materials, promotional activities, theoretical models, market research and segmentation and the five Ps of a sport marketing plan. The portfolio requirement of this course will be met with the development of a Sport Marketing Plan.

HP 411 Teaching Health and Physical Education 5-12 Three hours
A survey of materials, content, and methods used in teaching physical education 5-12.

HP 420 Exercise Testing and Prescription I Three hours
Course exposes student to assessment tools from field tests to laboratory techniques in an approach to assessment that uses evaluation followed by prescription. Topics covered are cardio-respiratory endurance, muscular fitness, body weight/composition, and relaxation. Prerequisite: BIO 221.

HP 421 Exercise Testing and Prescription II Four hours
Continuation of HP 420 with an in-depth study of exercise management in cardiovascular, pulmonary, metabolic, immunological, orthopedic, neuromuscular, cognitive, and sensory disease and disabilities. Mechanisms of action for medications such as ACE inhibitors, peripheral vasodilators, diuretics, calcium channel blockers, alpha and beta blockers, nitrates, anti-inflammatory bronchodilators, inotropic, and their physiological actions. American College of Sports Medicine Guidelines are highlighted to include some practical experience with exercise test technology and methods of exercise prescription.

HP 422 Exercise Testing and Prescription II Laboratory One hour
This laboratory course is a continuation of HP 420 Exercise Testing and Prescription I with emphasis of exercise management in cardiovascular, pulmonary, orthopedic, metabolic, neuromuscular, cognitive, and sensory disease and disabilities.

HP 430 Psychology and Sociology of Sport Three hours
A course designed for the prospective teacher and coach to acquaint them with the psychological and sociological aspects of sport and physical activity.

HP 444 Sport Policy and Governance Three hours
The basic theories of organization and administration as they relate to physical education and athletics will be covered. Surveys of the duties of physical educators and sport administrators in secondary schools, colleges, and universities as they relate to interscholastic and intramural athletics will be discussed.

HP 445 Sport and the Law Three hours
This course provides the student with an overview of elements of the law as they apply to physical activity and sport. Attention will be given to current and future practitioners and administrators and the need to develop safe and legally sound physical activity and sport programs.

HP 450 Physical Activity and Aging Three hours
The aim of this course is to develop an understanding of the effects that exercise or lack thereof have on anatomy and physiology throughout the life cycle focusing on the aged. Scientific evidence concerning the relationship between physical activity level and physical as well as psychosocial wellness is presented. Prerequisite: BIO 222.
HP 475 Conditioning and Rehabilitation Techniques Three hours for Athletic Injuries
This is an advanced course encompassing orthopedic evaluation, assessment, management, and rehabilitation of athletic injury and designed for the future exercise scientist, athletic trainer or coach. The course goals and objectives are to improve the students assessment skills and problem solving abilities, and to deepen the student's knowledge of rehabilitation techniques for common athletic injuries by incorporating therapeutic exercise and specific therapeutic exercise techniques and modalities.

HP 480 Special Topics Three hours
Includes topics of individual interest and need. Courses may be repeated for credit provided that topics differ. Courses include: Women's Health, Public Health and Disease Prevention, Utilizing Research, Role of Recreation in Children's Youths Ministry, Health Teaching for At Risk Populations, Public Health and Disease Prevention, Research In Health Education, Philosophical Foundations of Sport and Recreation, Sport and Nutrition.

HP 485 Internship One to Three hours
Designed for the student seeking field experience in their related area. 50 hours of clinical work per one hour course credit within a park, recreation, educational, or health related agency. Sport Management Area majors are required a 6 hour internship. There is a fee for this course.

HEBREW
(School of Theology)
HEB 221/222 Beginning Hebrew An Introduction to Old Testament Hebrew including grammar and translation. Six hours
HEB 321/322 Intermediate Hebrew Exegesis This course teaches the development of exegetical skills in the study of the Hebrew text of the Old Testament. Six hours

HISTORY
(College of Arts and Sciences)
HST 110 United States to 1877 Three hours
Colonization, settlement, revolution, economic, social and political development, sectional conflict, Civil War and Reconstruction.

HST 120 United States History Since 1877 Three hours
Immigration, westward movement, economic growth and problems; world power, the two World Wars, the Cold War, and national developments to the present.

HST 131 World Civilization to 1650 Three hours
Cultural, social, religious, economic, and political developments; contributions of European people through ancient, medieval, and early modern times.

HST 142 World Civilization Since 1650 Three hours
Commercial and industrial revolutions, colonial expansion, nationalism, international rivalries, two World Wars, the cold war, and world events to the present.

HST 261 European Studies Three hours
This course centers around a tour of Europe. It includes lectures before, during, and after the tour.

HST 280 Special Topics in American History Three hours
This course investigates a broad topic in American History in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements for History.

HST 321 Economic History of the United States Three hours
Development of agriculture, manufacturing, trade, banking, transportation, large business, labor unions, farm organizations, and foreign trade.

HST 331 Renaissance and Reformation Three hours
Intellectual, social, religious, and economic forces and conflicts in European history from 1350 to 1650. Prerequisite: HST 131 or consent of instructor.

HST 332 The Age of Reason and Enlightenment Three hours
Europe from about 1650 through the French Revolution with emphasis on institutions and ideas. Prerequisite: HST 131 or consent of instructor.

HST 336 Modern Presidency See POL 336 for course description.

HST 341 Nineteenth-Century Europe Three hours
Political, economic, social, and cultural history of Europe from 1815 to 1914. Prerequisite: HST 142 or consent of instructor.

HST 342 English History Three hours
Cultural, social, economic, and political development from early times to the present commonwealth.

HST 343 Twentieth-Century Europe Three hours
Political, economic, social, and cultural history of Europe since about 1914. Prerequisite: HST 142 or consent of instructor.

HST 351 American Diplomacy Three hours
American foreign relations from the Revolution to the present, principles of successful diplomacy, effect of foreign relations on domestic affairs. Prerequisite: HST 110 or consent of instructor.

HST 362 Kentucky History Three hours
Settlement, economic, political, social, religious, and cultural development of Kentucky; its place in American history as a border state; its modern development. Prerequisite: HST 110 or consent of instructor.

HST 366 Colonial America and Independence to 1789 Three hours
The origins and establishment of English colonies in America; imperial policies, intercolonial wars, independence, and the formation of the federal union under the Constitution. Prerequisite: HST 110 or consent of instructor.

HST 371 History of the South Three hours
Settlement, westward expansion, slavery, Civil War, reconstruction; twentieth century economic, social, and political developments in the South. Prerequisites: HST 110; HST 120; or consent of instructor.

HST 372 History of the West Three hours
Westward expansion, beyond Appalachians and Mississippi River, Indian affairs, influences of frontier life; basic Western literature; more recent developments. Prerequisites: HST 110; HST 120; or consent of instructor.

HST 382 American Constitutional Development Three hours
See POL 382 for course description.

HST 385 Social and Intellectual History of the United States Three hours
A study of selected concepts and attitudes in their social framework, ranging from the heritage of the Reformation and the Enlightenment to determinism and pragmatism. Prerequisite: HST 110 or consent of instructor.

HST 386 American Women in Literature and History Three hours
This course will examine the experience of American women in history from the founding of America through the present time. Prerequisite: HST 110, HST 120 or consent of the instructor.

HST 465 Introduction to Military History Three hours
Major theoretical, strategic, technological, and social developments in military history from earliest times to the present.
HST 466 United States Since 1933 Three hours
Economic, social, and political developments since 1933, participation of
the United States in world relations; effects of foreign developments on
domestic affairs. Prerequisite: HST 110; HST 120; or consent of instructor.

HST 471 Church History Three hours
A study of the growth of Christianity from the first century through the
Reformation.

HST 472 Modern Russia Three hours
Nationalism and expansion in the nineteenth century; emergence as a
world power, economic, political, and social development under communism; present international relations. Prerequisite: HST 242 or
consent of instructor.

HST 473 Latin American History Three hours
Early settlement, economic, social, and political developments, and the
present place of Latin American countries in international affairs.

HST 475 Civil War and Reconstruction Three hours
Slavery agitation, sectional crises, constitutional issues; the war,
reconstruction, and its legacy. Prerequisite: HST 110 or consent of
instructor.

HST 476 African-American History and Religion Three hours
A three-hour Interdisciplinary course that emphasizes African American
history and the unique role of religion that shaped Black history in the
United States from its African roots through the Civil Rights movements in
the twentieth century. Emphases are placed on political and social
development, religious and secular leadership, and cultural contributions of
African Americans.

HST 480 Special Topics One to Three hours
A survey and discussion of advanced topics in history.

HST 481 Middle East Three hours
A lecture course that introduces the rise and spread of Islam, the influence
and significance of the Ottoman Empire, European Imperialism in the
Middle East, and contemporary political developments.

HST 482 East Asia Three hours
Recent Western influences, resistance to Western influences; rise of
nationalism, coming of communism, and present international relations.

HST 390/490 Independent Study Three hours
This course requires a research paper using primary source material and an
oral presentation to the division faculty. Limited to students majoring in
history in senior year. Enrollees must have a 3.00 cumulative GPA, 3.50
GPA in history, show promise in field of history, and be able to travel to do
research, if necessary.

HST 491 History Practicum Three hours
An out-of-classroom experience for students in history to learn through
first-hand experience some of the basic techniques of primary research,
archival management, and historic preservation. Prerequisite: Upper
division major or minor in history/social studies area in good standing and
permission.

HST 492 Senior Thesis Three hours
An intensive independent research project showcasing student research,
organization, written and oral communication skills covering an approved
topic by the instructor. Prerequisite: History majors with senior academic
standing.

HOMELAND SECURITY
(College of Arts and Sciences)

HLS 201 Fundamentals of Homeland Security Three hours
This course offers a variety of conceptual tools and frameworks for
students to think strategically about key issues in the contemporary
homeland security environment. This course is intended to be an
introductory level indoctrination to the homeland security arena and will
lay the groundwork for those students wishing to pursue a career in the
Homeland Security discipline.

HLS 300 Government and Homeland Security Three hours
This course will focus on how government is structured to handle
homeland security in the United States. It is essentially a course in
federalism, with a concentration on issues related to homeland security.
The key theme of the course is to differentiate the differences between
the levels of government who make funding, oversight and restrictive
decisions within a federal system.

HLS 350 Critical Infrastructure Protection Three hours
This course examines various catastrophic emergencies and response plans
in the event of a terrorist attack and/or natural disaster. The course will
provide collaborative approaches designed to help the student who may
enter a job in the public sector, emergency management, business, and
public service. Topics covered will include vulnerability assessments,
emergency planning, physical security surveys and hazard mitigation.

HLS 400 Intelligence and Intelligence Analysis Three hours
This course will introduce students to the role of intelligence in U.S.
homeland security policy-making. The subject of this course is the U.S.
intelligence system, its origins, development, functions, and current
operations. The course will provide the student an overview of what is
involved in the production of analyses for intelligence organizations, what
are the primary sources of information for these analyses, and what are
the main institutions and organizations in the United States Intelligence
Community.

HLS 480 Special Topics Three hours
A survey of special or selected topics in the discipline of Homeland
Security.

HLS 485 Internship/independent Study Three hours
Requires a research paper/ternship journal using primary source materials
and an oral presentation to the division faculty. Limited to those
students pursuing a minor in homeland security. Enrollees must have an
overall 3.25 standing, 3.5 in homeland security, and show promise in the
field of homeland security and be able to travel to do research if necessary.

HONORS INTERDISCIPLINARY STUDIES
(Honors Interdisciplinary Program)

HON 105 Honors Seminar Three hours
Students in HON 105 are introduced to the Campbellsville University
Honors Program through an exploration of the concept of honor from its
classical roots through its modern applications. The purpose of the
seminar is to provide highly motivated students with the opportunity to
utilize the tools of the liberal arts education — intellectual curiosity, strong
critical thinking skills, and a firm foundation of knowledge in a variety of
disciplines — in understanding the concept of honor.

HON 305 Honors Seminar Three hours
HON 305 is a thematic seminar required for graduation with the honors
degree. The topic for the seminar will be chosen by the seminar instructor.
The purpose of the seminar is to provide students with the opportunity to
understand and explore a variety of academic topics, while also developing
the fruits of a liberal arts education — intellectual curiosity, strong critical
thinking skills, and a foundation of knowledge in a variety of disciplines.
HON 405 Senior Capstone Three hours
HON 405 is the capstone course in the honors program. In HON 405, students conduct independent research with a professor from their major and write a substantial essay in their discipline.

INTERDISCIPLINARY EARLY CHILDHOOD EDUCATION
(School of Education)

IEC 301 The IEC Profession Three hours
Course designed to orient candidates entering IEC degree program regarding the national, state, and university requirements for certification. Examines the foundations of early childhood and early childhood special education including the ethics, history, philosophy, research, and legislation surrounding programs for children from birth through kindergarten. Provides overview of interdisciplinary teams, service delivery models, and blended practices in home and center-based settings. Field experience required in the early intervention system, Kentucky's public preschool programs serving 3-to-5 year old children with and without disabilities, and kindergarten settings. Required: Twelve hours of field experience Pre-requisites: ECE 111, 140, 230

IEC 360 Cultural and Linguistic Diversity in Early Childhood Education Three hours
Investigates the value and importance of complex characteristics of children's families and communities. Explores the dynamics of family life including roles, functions, and relationships. Examines community programs that focus on forming partnerships with families to support child development and family well-being. Introduces basic concepts, theories, and issues involving cultural and linguistic diversity and the educational system. Emphasizes development of skills needed to interact with families of diverse backgrounds in order to facilitate educational involvement. Examines the influences of gender, culture, economic situation, learning styles, and language on the socialization of young children with implications for practice. Attention is given to appropriate strategies to support English Language Learners and children with unique cultural backgrounds, traditions, and practices. Evaluates and develops curricular materials for culturally and linguistically diverse children. Required: ten hours of field experience. Pre-requisite: ECE 111, ECE 230

IEC 381 Language and Literacy Methodology Three hours
Covers developmental foundations, major issues, and curricular applications of language and literacy in inclusive early childhood programs. Specific attention given to typical and atypical development; environmental influences that enrich or delay emerging literacy and language; methods, techniques, materials, and experiences for instruction and assessment; early childhood standards and learning goals; and evaluation of language and literacy curricula, methods, and environments in early childhood programs. Curriculum mapping strategies used to integrate developmentally appropriate language arts content. Required: six hours field experience. Pre-requisite: ECE 280 or consent of instructor

IEC 382 Arts and Humanities Methodology Three hours
Curriculum, methods, and assessment of arts and humanities, health, and physical education for inclusive preschool and kindergarten classrooms. Examines the value of creative expression, methods for fostering creativity, and techniques for integrating creative arts across all curricular areas. Provides understanding of developmentally appropriate health, motor, and self-help activities. Required: six hours field experiences. Pre-requisite: ECE 280

IEC 383 Math, Science, and Social Studies Methodology Three hours
Applies principles in planning, teaching, and assessing math, science, and social studies in inclusive preschool and kindergarten settings. Emphasizes active, inquiry-based learning and integration of content across the early childhood curriculum. Required: six hours of field experience. Pre-requisite: ECE 280

IEC 384 Interactive and Assistive Technology Three hours
Develops content and methods for teaching young children with computers and related technologies. Focuses on evaluation of children's software, technology for administration of early childhood programs, assessment supported by technology, and the integration of technology in the classroom for learning. Considers current issues and policies related to young children and technology. Provides overview of assistive technology and augmentative/alternative communication devices. Includes application and development of a technology plan and resource lists to facilitate school success for children with disabilities. Includes integration of assistive technology into IEPs, IFSPs, lesson plans, activities, and daily routines. Required: six hours of field experience. Pre-requisite: ECE 280

IEC 385 Infant and Toddler Methodology Three hours
Plans, implements, and evaluates programs, curriculum, family involvement, the learning environments, and community resources for children ages birth to three with and without disabilities in center-based settings. Required: eight hours of field experience. Pre-requisites: ECE 280; Prerequisite or Co-requisite: ECE 270

IEC 400 Current Issues in the Early Childhood Profession Three hours
In-depth study of selected topics, current issues, or trends in early intervention, childhood education/special education, or family studies, selected to meet the professional needs or interests of students or to solve real problems in the professional community. Topics may include issues such as changes in early childhood legislation or policies that affect professional practice. Course may be repeated once for credit. Pre-requisite: Consent of advisor

IEC 410 Special Investigations in Early Childhood Education Three hours
Students conduct an action research project to investigate a topic of special interest. Research includes a review of the related literature, development of a data collection plan, the preparation of a written and oral report of the findings, and the development of an action plan based on the research to improve professional practice. Students read and reflect on the research submitted by classmates. Course may be repeated once for credit. Prerequisite: Consent of advisor

IEC 416 Special Education Procedures and Strategies in IEC Three hours
Course prepares students in the application of special methods to teach young children with disabilities. Students will be introduced to relevant special education legislation, laws, and regulations. Overview of school district policies for implementation of services will be explored. Students will acquire skills in the development and implementation of Individual Education Programs. Students will develop competency in matching intervention strategies to the strengths and needs of young children with disabilities. Course provides an overview of methods that facilitate teaching and collaboration with other professionals to support diverse learners. Students develop awareness of the resources of the Department of Education, special organizations, professional associations, and other resources to address the needs of young students with disabilities. Required: Fifteen hours of field experience.

IEC 420 Teaching in Kindergarten Three hours
Focus on kindergarten context, curricula, methodology, materials, structure, classroom management, resources, and learning environment for children with and without disabilities. Includes historical background, philosophical approaches, school readiness, family involvement, and current issues and trends. Required: Twenty hours of field experience.
IEC 440 Positive Behavior Supports Three hours
Examination of strategies designed to prevent challenging behavior, support social/emotional competencies, and develop individualized intervention plans for young children. Exploration of factors contributing to social and emotional competencies. Special attention given to person-centered planning; functional assessment of behavior using direct and indirect methods; and working collaboratively to prepare, implement, and monitor positive behavior support plans. Required: ten hours of field experience. Prerequisites: ECE 216, ECE 270, ECE 280.

IEC 460 Working with Families in Early Intervention Three hours
Studies the collaborative processes and communication skills for effective interaction among parents, paraprofessionals, teachers and other professionals. Examines the value of family involvement and practices aimed at strengthening the role of parents through partnerships in the educational process. Focuses on methods and materials useful in working with families. Considers the impact of crises or special issues in family life. Studies communication strategies for initiating and maintaining home-school-community collaboration. Focuses on research surrounding best practices related to working with families of young children, ages birth to three, with special needs to provide family-centered services. Involves students in home visits, formal and informal assessments, analysis of family dynamics and resources within the community context, and development of an IFSP. Required: ten hours of field experience. Prerequisite: ECE 216, ECE 270, ECE 280; Prerequisite or Co-requisite IEC 360.

IEC 470 Advanced Assessment in Interdisciplinary Early Childhood Education Three hours
Examines systematic assessment procedures to determine eligibility for services and to monitor the healthy growth and development of children birth through kindergarten with and without disabilities. Includes observation, portfolio development, and practice in the administration of an array of assessment tools including play-based arena assessment that emphasizes a transdisciplinary approach. Focuses on collaboration with related services personnel and families, writing assessment reports, and using assessment data to plan instruction and activities. Required: twenty hours of field experience. Prerequisites: ECE 216, ECE 270, ECE 280.

IEC 475 Organization and Administration of Early Childhood Programs Three hours
Investigates administration of inclusive programs for young children, including federal and state requirements, standards, and accreditation guidelines. Focuses on organizational and legal responsibilities in creating and implementing quality education programs for young children and their families. Explores program leadership and management dimensions including human resources, program planning and evaluation, space and equipment, budgeting, and public relations. Pursues professional leadership opportunities to serve within the school, community, and education profession using Kentucky's vision for young children as a basis for project work. Required: ten hours of field experience. Prerequisite: ECE 280.

IEC 480 Advanced Curriculum and Methods in Interdisciplinary Early Childhood Education Three hours
This capstone course is designed to increase classroom management, instructional, and assessment competencies. Involves planning, implementation, and evaluation of integrated curricula and activity-based instructional methods for children birth to primary in home-based and inclusive center-based settings. Provides practice in developing IEP/IFSP activity matrices; adapting the learning environment and instruction across content areas to meet the diverse needs of young children; and advancing collaboration skills to guide inclusive practices. The professional portfolio will be completed and submitted for further evaluation by the School of Education faculty. Students participate in supervised field experiences to prepare for their assigned student teaching placements. Required: twenty hours of field experience. Prerequisites: Admission to IEC teacher education program and permission of advisor.

INTERNATIONAL STUDIES
(College of Arts and Sciences)

ISA 480 Study Abroad Three hours
This course allows students to obtain knowledge and experience with global activities by studying nations, culture, language and peoples from a multidisciplinary outlook. Subjects and locations of study will vary by student.

LEGISLATIVE INTERNSHIP
(College of Arts and Sciences)

LI 301 Legislative Internship Three hours
Each intern is assigned to work under legislators and/or a legislative committee. When possible, interns are placed according to their political preference and special interests. Each intern prepares an extensive, written, analytical evaluation of the legislative process based on his experience. The academic coordinator of the participants home campus supervises preparation of this paper and determines the grade awarded. The program director arranges and coordinates the work with the legislators.

LI 302 Involvement in Government Three hours
Interns will be involved in active problem-oriented conferences that will begin upon conclusion of the legislative session. In those sessions students will work with the state officials in a problem solving and advisory capacity and make research trips relating to the Department of Corrections, Natural Resources, Mental Health, Child Welfare, etc.

LI 303 The Legislative Process Three hours
This course consists of a seminar focusing on the political dimensions of the legislative process. Key administrative personnel, legislative leaders, professors, and representatives of political groups are featured speakers. Except for several orientation sessions held prior to the opening of the legislature, the seminar runs concurrently with the legislative session and for two weeks after the session concludes.

LI 304 Kentucky History and Politics Three hours
This course is taught as a seminar providing an overall look at the total government process as it operates in Kentucky in the context of Kentucky's history.

LI 305 Analysis of Contemporary Problems in State Government Administration Three hours
This course provides a thorough analysis of major problems facing state government. Recognized academic authorities of Kentucky government are invited to participate. In addition, state administrators provide source materials in such areas as finance and budget, personnel, administration, and program development.

LIBRARY INFORMATION SCIENCE

LIS 150 Information Mastery Three hours
Information Mastery is designed to provide students with the skills and knowledge needed for successful information gathering and implementation in both an analog and virtual environment. Students will learn how to access, identify, and evaluate information, as well as, gain a better understanding regarding issues of authorship, copyright, and ethical convention in a digital environment.

LIS 280 Special Topics in Library Information Science Three hours
This course investigates a broad topic in the field of Library Information Science in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Library Information Science.
MAC 120 Fundamentals of Speech Three hours
This is a general education course that guides the student in developing a positive attitude toward public speaking and in increasing confidence in his or her own speaking skills.

MAC 140 Introduction to Communication Three hours
This course will provide an overview of the many different types of communication, including interpersonal, group, public, mass, verbal, nonverbal, computer-mediated, organizational and intercultural communication.

MAC 175 Introduction to Broadcasting and Digital Media Three hours
This course will cover the major aspects of radio, television and new media delivery processes through the effective use of relevant media and technology. Course highlights include usage of broadcast terminology, writing for radio and television, and broadcast production delivery with announcing.

MAC 210 Mass Media and Society Three hours
This course surveys the broad field of communications, touching upon history and theory as well as practice (economics of making money).

MAC 240 Reporting and Newswriting Three hours
An introduction to journalism with emphasis on reporting and newswriting. Students will study the purpose of journalism and learn basic newswriting techniques.

MAC 245 Copyediting Three hours
This course prepares students to edit their own copy as well as that written by others. Students will also write a variety of stories for print and broadcast. English grammar and the Associated Press Style Book will be emphasized. Prerequisite MAC 240.

MAC 275 Broadcasting and Digital Media I Three hours
This course provides practice in gathering, writing, and reporting news for broadcast stations and online news outlets. WLCU-FM will be used as a laboratory experience. Emphasis is placed on assignment reporting, interviewing techniques and some specialized reporting. It is a laboratory class in which students report for the radio station and its online edition.

MAC 280 Special Topics in Mass Communication Three hours
This course investigates a broad topic in the field of Mass Communication in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Mass Communication.

MAC 300 Social Media Three hours
This course introduces learners to social media as mass communication outlets through a theoretical view of the phenomenon and a practical approach that requires thinking critically about the appropriate use of such services and developing the necessary technology skills.

MAC 330 Photojournalism Three hours
Study of photojournalism theory and applications. Students will shoot a variety of photo assignments for class as well as the Campus Times. Emphasis will be placed on producing photos that tell stories. Use of a digital SLR camera with interchangeable lenses is required. A point and shoot digital camera is NOT acceptable.

MAC 345 Mass Media Ethics Three hours
An overview of various ethical dilemmas experienced in print journalism, broadcast and new media. Possible solutions will be discussed in relation to objectivity, fairness, accuracy, as well as conflict of interest, accountability and privacy.

MAC 365 Public Relations Three hours
This course introduces students to the wide-ranging world of corporate communication, government public information and agency-side public relations. The course will discuss communication strategies and tactics for non-profits as well as for the traditional duties and methods employed in the private sector and in government service. Special attention will be devoted to the popular sub-fields of “crisis communication” and “international public relations.”

MAC 370 Media Advertising Three hours
This overview of advertising will cover the influence of advertising on society and its importance and role in the media. Students will develop advertising strategies and design that incorporate multiple forms of media. Prerequisites: MAC 175 and 245.

MAC 371 Writing for Public Relations Three hours
This is a writing and research course aimed at public relations practice. Students will write in this class (weekly) and outside of this class (often), sometimes under deadline pressure. Prerequisite MAC 240 and MAC 305.

MAC 375 Broadcasting and Digital Media II Three hours
This class is an examination of and practice in television production. It is an intro course to broadcast journalism. Emphasis is placed on writing, videography, editing, scripting, producing and performance. The students will make extensive use of university equipment and facilities, including Broadcast Services and WLCU. Prerequisite MAC 275.

MAC 380 Special Topics Three hours
This is a special course designed to meet specific needs and interests in the field of mass communication. Prerequisite: permission of instructor. Offered as needed.

MAC 386 Practicum One to Three hours
This course will provide students hands-on experience with WLCU-Broadcast Services, the university public relations office, Campbell Times or other media as determined by the instructor. Students will perform duties at the respective media including production, writing stories, taking photos, layout and other tasks that may be assigned. Every semester.

MAC 390 Independent Study Three hours
Individual study of mass communication issues not offered in other courses. Prerequisite: permission of instructor. Offered as needed.

MAC 400 Mass Media Law Three hours
A contemporary and historical examination of English common law, the First Amendment, communication regulatory efforts, libel, invasion of privacy, protection of sources and selected legal cases involving media. Emphasis will be placed on the laws directly affecting media — broadcast and print.

MAC 412 Advanced Photojournalism Three hours
This course will emphasize composition, lighting, visual communication and other advanced techniques. The skills necessary to produce news, feature and sports photographs for newspapers and other publications will be stressed. Students will produce a portfolio of photographs for publication on the Net, newspaper, magazines and other media. The course will consist of lecture, fieldwork and computer lab work. Prerequisite MAC 240 and MAC 330.

MAC 430 Broadcast Sales and Management Three hours
This is a management course designed to introduce students to electronic media management. It will explore special issues associated with the management of media properties in the context of rapid change in the industry with respect to print, broadcast and digital media.
MAC 440 Advanced Reporting and Newswriting Three hours
Advanced Reporting and Newswriting is designed for students who have completed the basic Reporting and Newswriting class or those who have a basic understanding of newspaper writing or possibly experience in the field. Emphasis will be on writing for publication. Students will produce a variety of stories suitable for publication and a portfolio. Prerequisite MAC 240 and MAC 245.

MAC 451 Internship One to Three hours
Supervised study of communication in the workplace. Students will get hands-on experience in the communication industry. May be repeated for a total of six credit hours.

MAC 461 Advanced Public Relations Three hours
This course introduces public relations students to the broad world of research as it is undertaken and/or bought in public and private sector communications. The course will cover qualitative and quantitative methods, content analysis, focus groups, structured interviews (oral history) and some statistics. Prerequisite MAC 365.

MAC 465 Graphic Design for Mass Media Three hours
Design basics for newspapers, magazines, brochures and other publications will be studied as will the basics of Web design. Students will use Adobe Photoshop, Adobe InDesign and QuarkXPress to create such publications. The course will also focus on the creation and use of advertisements, graphics and illustrations. Students will also use generic software to create a basic Website.

MAC 475 Broadcasting and Digital Media III Three hours
This course is an examination of and practice in developing news for television and digital media. WLCU-TV will be used as a laboratory experience. It is an advanced course for broadcast journalism in which includes reporting, writing, videography, editing, scripting, producing and performance for television. The students will make extensive use of university equipment and facilities including Broadcast Services and WLCU where the students' material will air. Prerequisite MAC 275, MAC 375.

MAC 490 Senior Portfolio One hour
This course prepares the students for graduation and their careers to follow by focusing on resume building and developing an online portfolio. This course should be taken during the student's final semester after completion of the majority of the requirements for the area or major.

MTH 110 College Mathematics Three hours
This course is designed as a terminal course in mathematics in the general education curriculum and does not assume any algebraic or geometric background on the part of the student. The objective of the course is to acquaint the student with the various branches of mathematics and to develop an appreciation and understanding of the relationship of mathematics to the modern world. This course will not count toward mathematics major or minor programs.

MTH 111 College Algebra Three hours
This course is designed to extend knowledge of high school algebra to more advanced topics. Topics included in this course are polynomials, rational expressions, solving linear quadratic, higher degree polynomial, exponential equations, as well as equations involving radicals. Functions, coordinate geometry, several conic section curves, and applications of these concepts are also included in the course. Prerequisites: Two years of high school algebra or MTH 100 with a "C" or better in these courses. This course does not count toward the Math major, but is required for a Math major with teacher certification.

MTH 112 Trigonometry and Analytic Geometry Three hours
In this course emphasis is given to trigonometric functions, reduction formulas, graphs, identities, applications to practical problems, the oblique triangle, etc. We also study the straight line, circle, ellipse, hyperbola, parabola, their graphs and uses in practical mathematics. This course is required for the mathematics major with teacher certification, however it will not count for credit toward the mathematics major (without teacher certification). Prerequisite: MTH 111 or consent of instructor. A grade of "C" or better is required to advance to MTH 210.

MTH 123 Elementary Calculus and Its Applications Three hours
An introduction to differential and integral calculus, with applications to business and biological and physical sciences. Not open to students who have credit in MTH 210. This course will not count for credit toward the mathematics major (with or without teacher certification) or minor programs. Prerequisite: MTH 111 or equivalent.

MTH 130 Elementary Statistics Three hours
This course is designed to acquaint the student with the logic and method of statistics through topics that include summarizing data in tables and graphs, measures of center and variability, correlation and linear regression, sampling, Central Limit Theorem and the Normal curve, and hypothesis testing. Applications will be given through examples in various fields. This course will not count toward mathematics major or minor programs. Prerequisite: Basic algebra skills.

MTH 201/202 Mathematics for Elementary Teachers Three hours
This course is designed for prospective teachers of the base-ten number system, arithmetic operations on whole numbers, integers, rational numbers, and real numbers including problem solving are covered. Additionally, topics in statistics and probability, Euclidean geometry and measurement, and functions and use of variables, are among the topics to be considered in these courses. Prerequisite for MTH 201 or MTH 202: MTH 110 or MTH 111 or consent of instructor.

MTH 210 Calculus I Four hours
The important topics studied are the historical beginnings of the calculus, analytic geometry, limits, derivatives, and its applications, the definite and indefinite integrals with applications. Prerequisite: MTH 112 or consent of instructor. Fall semesters. A grade of "C" or better is required to advance to MTH 211.

MTH 200/201 Intermediate Algebra Three hours
This course is remedial in nature and covers material commonly found in first and second year high school algebra. The purpose of the course is to prepare a student for College Algebra (MTH 111). Only students whose major requires College Algebra should be enrolled in this course. This course meets three hours (with an additional required two hours of lab) each week, and it does not satisfy general education requirements.

MTH 100 Intermediate Algebra Lab Zero hours
This lab meets twice weekly and is required for students taking MTH 100.
MTH 211 Calculus II
This course affords further study in differentiation and integration of logarithmic, exponential, and other transcendental functions. The following topics are also emphasized: techniques of integration, indeterminate forms, improper integrals, Taylor's Formula, infinite series, analytic geometry, and a historical perspective of Calculus. Prerequisite: MTH 210 or equivalent. A grade of "C" or better is required to advance to MTH 310.

MTH 280 Special Topics in Mathematics
This course investigates a broad topic in the field of Mathematics in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Mathematics.

MTH 305 Number Theory
This is a good introductory course to higher level mathematics. It is particularly appropriate for use in the teacher education program. The topics studied are divisibility properties of integers, prime numbers, congruences, conditional congruences, Fermat's Theorem, The Quadratic Reciprocity Law, and Cryptography. Prerequisite: MTH 210 or consent of instructor.

MTH 310 Calculus III
This course affords further study in differentiation and integration including, three-dimensional analytic geometry, the polar coordinate system, vectors and vector-valued functions, multivariate calculus including partial derivatives, multiple integration and applications of both, as well as, a continued look at the historical development of calculus. Prerequisite: MTH 211. A grade of "C" or better is required to advance to MTH 311.

MTH 311 Differential Equations
Included in this course are methods for solving various types of differential equations such as homogeneous equations, exact equations, linear first order equations and higher order equations with constant coefficients. Systems of differential equations, Laplace transforms, and applications are also covered. Prerequisite: MTH 310.

MTH 331 Probability and Statistics
This course will include topics in the history of probability theory and statistical research, descriptive and inferential statistics with applications, probability, counting techniques, discrete, and continuous probability distributions. The Central Limit Theorem, hypothesis testing, and other applications. Prerequisite: MTH 211.

MTH 350 Introduction to Linear Algebra
An introduction to Linear Algebra including historical development of linear algebra, finite dimensional vector spaces, system of linear equations, linear transformations, and determinant, Eigenvalues and eigenvectors, Orthogonality, and Jordan Canonical form. Prerequisite: MTH 310 or consent of instructor.

MTH 400 Special Topics
A special course offered on demand to advanced mathematics students. The course may be repeated for credit provided the topics differ each semester. Consent of instructor is required. Possible special topics: Numerical Analysis, Statistical Analysis, or Complex Variables.

MTH 401 Modern Algebra I
Elements of number theory, groups, rings, and the historical development of modern algebra are included. Prerequisite: MTH 310 or consent of instructor. Students must have upper division standing. A grade of "C" or better is required to advance to MTH 411.

MTH 402 Modern Geometry
Foundations of geometry, advanced Euclidean geometry, non-metric and metric geometry, transformation theory, non-Euclidean geometries and the historical development of geometry. Prerequisite: MTH 211 or consent of instructor.

MTH 411 Modern Algebra II
This course is a continuation of MTH 401 with emphasis on rings, integral domains, fields, polynomial rings and modules. Prerequisites: MTH 401 and students must have upper division standing.

MTH 430 Foundations of Analysis I
Topics include historical development of advanced calculus, the study of sequences, infinite series, limits of function, continuity, differentiation, and the Riemann integral. Prerequisite: MTH 310 or consent of the instructor. Student must have upper division standing. A grade of "C" or better is required to advance to MTH 431.

MTH 431 Foundations of Analysis II
This course is a continuation of MTH 430. Topics included in this course include differentiation, Riemann integration, sequences of functions, numerical series, power series, and an introduction to differentiation and integration of multivariable function. Prerequisites: MTH 430 and students must have upper division standing.

MTH 440 Topology
Included in this course will be topics on the history of modern mathematics, the study of sets, functions, relations, metric spaces, compactness, connectedness, and topological spaces. Prerequisite: MTH 310. Student must have upper division standing or consent of instructor.

MTH 450 Methods and Materials of Teaching Mathematics
A survey of the methods employed in teaching at the middle and secondary levels, using appropriate materials available in various situations. Prerequisite: Major in math with teacher certification or math middle school option I or II. Admission to the Teacher Education Program is required. Must be taken in the last year prior to student teaching. Not for P-4 education students as their required methods course. Does not count toward the mathematics major program requirements.

MTH 480 Senior Seminar
Prerequisite: Major or minor in mathematics with a last semester junior standing; 3.0 overall grade average, 3.0 in mathematics.

MTH 390/490 Independent Study
Prerequisite: Major or minor in mathematics with a last semester junior standing; 3.0 overall grade average, 3.0 in mathematics.

MILITARY SCIENCE and LEADERSHIP STUDIES(ROTC)
(School of Business and Economics)

MSL 101 Leadership and Personal Development
Two hours
Introduces the student to the personal challenges and competencies that are critical for effective leadership. The student will learn how the personal development of life skills such as goal setting, time management, physical fitness, and stress management relate to leadership, officership, and the Army profession.

MSL 102 Introduction to Tactical Leadership
Two hours
Overviews leadership fundamentals such as setting direction, problem-solving, listening, presenting briefs, providing feedback, and using effective writing skills. The student will explore dimensions of leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises.
### MSL 201 Innovative Team Leadership
Three hours
Explores the dimensions of creative and innovative tactical leadership strategies and styles by examining team dynamics and two historical leadership theories that form the basis of the Army leadership framework. Aspects of personal motivation and team building are practiced planning, executing and assessing team exercises and participating in leadership labs.

The focus continues to build on developing knowledge of the leadership values and attributes through understanding Army rank, structure, and duties as well as broadening knowledge of land navigation and squad tactics. Case studies will provide a tangible context for learning the Soldier’s Creed and Warrior Ethos as they apply in the contemporary operating environment.

### MSL 202 Foundations of Tactical Leadership
Three hours
Examines the challenges of leading tactical teams in the complex contemporary operating environment (COE). This course highlights dimensions of terrain analysis, patrolling, and operation orders. Continued study of the theoretical basis of the Army leadership framework explores the dynamics of adaptive leadership in the context of military operations.

MSL 202 provides a smooth transition into MSL 301. Cadets develop greater self-awareness as they assess their own leadership styles and practice communication and team building skills. COE case studies give insight into the importance and practice of teamwork and tactics in real-world scenarios.

### MSL 301 Adaptive Team Leadership
Three hours
The student is challenged to study, practice, and evaluate adaptive team leadership skills as he or she is presented with the demands of the ROTC Leader Development and Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations are used to develop self-awareness and critical thinking skills. Systematic and specific feedback on leadership abilities will be given.

### MSL 302 Leadership in Changing Environments
Four hours
You will be challenged to study, practice, and evaluate adaptive leadership skills as you are presented with the demands of the ROTC Leader Development and Assessment Course (LDAC). Challenging scenarios related to small unit tactical operations are used to develop self-awareness and critical thinking skills. Systematic and specific feedback on leadership abilities will be given.

### MSL 401 Developing Adaptive Leaders
Three hours
Develops student proficiency in planning, executing, and assessing complex operations, functioning as a member of a staff, and providing performance feedback to subordinates. You are given situational opportunities to assess risk, make ethical decisions, and lead fellow ROTC cadets. Lessons on military justice and personnel processes prepare you to make the transition to becoming an Army officer.

During your MSL IV year, you will lead cadets at lower levels. Both your classroom and battalion leadership experiences are designed to prepare you for your first unit of assignment. You will identify responsibilities of key staff, coordinate staff roles, and use battalion operations situations to teach, train, and develop subordinates.

### MSL 402 Leadership in a Complex World
Four hours
Explores the dynamics of leading in the complex situations of current military operations in the contemporary operating environment (COE). You will examine differences in customs and courtesies, military law, principles of war, and rules of engagement in the face of international terrorism. You also explore aspects of interacting with non-government organizations, civilians on the battlefield, and host nation support.

### MSL 210 Leader’s Training Course Practicum
Seven hours
The Leader’s Training Course experience is a unique four-week opportunity to develop new skills, to grow personally, and to qualify for enrollment in Army ROTC. The Leader’s Training Course is a 28-day leadership development program that will instill self-confidence and provide leadership skills for life.

### MSL 410 Leader Development and Assessment
Six hours
This is a six-hour Leader Development and Assessment elective course. It is an intensive five-week summer field course to be taken between the junior and senior year. Prerequisites: MSL 301 and MSL 302.

</table>

### MUE 131, 231, 381, 481 Concert Chorus
Zero to One hour
Open to all students without audition. Large choral works are performed. Meets two hours a week. Fall and spring semesters.

### MUE 182, 282, 382, 482 Percussion Ensemble
Zero to One hour
The Percussion Ensemble is a percussion performing group designed to provide instruction and experience in percussion ensemble music. The repertoire includes original 20th century composition, ragtime, orchestral transcriptions, and percussion music from Africa, Asia, and Latin America. Meets three hours per week. Fall and spring semesters.
MUE 194, 294, 394, 494 University Chorale Zero to One hour
The University Chorale is a mixed choir built along professional standards to represent Campbellsville University off campus and for special events on campus. The choir studies and performs choral literature from all periods, with emphasis on sacred anthem literature. Membership by audition. Meets three hours each week.

MUE 195, 295, 395, 495 Wind Ensemble Zero to One hour
This Wind Ensemble is an auditioned performance-based ensemble that performs the highest-level literature of the wind band medium. This course offers the opportunity to study sophisticated literature in an advanced and mature ensemble setting. Membership is open to students and non-students by audition.

MUE 196, 296, 396, 496 University Flute Ensemble Zero to One hour
The objective of the ensemble is to expand the student's performance ability and knowledge of flute ensemble repertoire, as well as the student's growth as a musician. This will be accomplished through a daily practice routine by the student and weekly ensemble rehearsals.

MUE 197, 297, 397, 497 University String Ensemble Zero to One hour
This ensemble focuses on the rehearsal and performance of literature within the string chamber music idiom. Instrumentation is flexible depending on the number of string players available each semester.

MUE 198, 298, 398, 498 Jazz Ensemble Zero to One hour
The Jazz Ensemble is an instrumental performing group designed to provide instruction and experience in Jazz and popular music. Jazz style and improvisation will be stressed. Membership by audition. Meets three hours each week.

MUE 199, 299, 399, 499 Woodwind Ensemble Zero to One hour
This ensemble provides an opportunity for students to participate in a regular basis in some performance-oriented ensemble other than the traditional bands. On demand.

MUE 200, 300, 400, 500 Church Choir Zero to One hour
This choir is a small choral ensemble selected from the membership of the University Chorale. It performs repertoire that normally would be beyond the scope of either Concert Chorus or University Chorale, including early music, medium-length choral works from all periods, contemporary classical music, and secular music (including popular styles). Membership in Church Choir is by invitation or audition. Meets two hours per week.

MUE 201, 301, 401, 501 Opera Workshop Zero to One hour
This ensemble is designed to expose students to operatic singing, acting, techniques for make-up, costuming, set design and construction, and other aspects of opera production. The class will present a fully staged opera or a selection of opera scenes. Membership is open to all students.
MUS 125 Understanding Music Two hours
An introductory course for non-music students, Understanding Music investigates the purposes and functions of music in our own western culture and in other cultures. It also provides the student with "tools" to enable critical listening to and understanding of music in a wide variety of styles.

MUS 140 Guitar Class I One hour
For beginners. Basic chords, basic strumming and fingerpicking styles. Simple song accompaniments and guitar solos.

MUS 141 Guitar Class II One hour
For students who know the basics. Emphasis on bar chords and note reading. Song accompaniments, guitar solos and ensembles.

MUS 142 Beginning Handbell Class One hour
For ringers with no previous experience. Ringing and damping techniques, appropriate literature, care and handling of handbells. One semester of Handbell Class may be substituted for Handbell Choir with consent of instructor. Meets two hours a week.

MUS 143 Voice Class I One hour
Group instruction in fundamentals of vocal production and technique for students without previous experience in voice. On demand.

MUS 144 Voice Class II One hour
More advanced group instruction. On demand.

MUS 145 Piano Class I One hour
Beginning piano instruction in a group setting introducing fundamental skills for keyboard proficiency. Study includes technique, harmonization, and beginning literature at a progressive level of development. Classes are divided between music majors/minors and non-music students.

MUS 146 Piano Class II One hour
A continuation of MUS 145. Prerequisite: Music 145 or faculty consent.

MUS 201 Theory III Three hours
Corporation of Theory II, plus borrowed chords, 9th 11th, and 13th chords, the Neapolitan, augmented sixth chords. Prerequisite: MUS 102. Five hours a week.

MUS 202 Theory IV Three hours
Continuation of above, plus altered dominants, chromatic mediants, 20th century techniques. Prerequisite: MUS 201. Five hours a week.

MUS 240 Foundations and Principles of Music Education Two hours
A systematic investigation into the historical and philosophical foundations of music education as well as the study of music education curriculum development and evaluation.

MUS 241 Woodwind Methods Class One hour
Elementary group instruction of a practical nature is given to students of the woodwind instruments. Correct tone production, technique and care of the woodwind instruments with considerable attention devoted to embouchure and fingering problems of each instrument. Suitable materials for public school use are evaluated. Two hours a week.

MUS 242 Brass Methods Class One hour
Practical elementary class instruction is given to students on the instruments of the brass family with considerable attention devoted to correct tone production, technique, and care of the brass instruments. Critical examination of materials appropriate for use in public schools is included. Two hours a week.

MUS 243 String Methods Class One hour
Elementary group instruction. The study and application of the fundamentals of playing stringed instruments including correct tone production, bowing, technique, and care of the instruments. Materials applicable for public school purposes are critically examined. Two hours a week.

MUS 244 Percussion Methods Class One hour
Practical class instruction is given to students on the various percussion instruments, which will include snare drum, accessory percussion instruments and the care of the instruments. Materials applicable for public school use are evaluated. Two hours a week.

MUS 245 Piano Class III One hour
Second year of group piano instruction. Continued development of keyboard skills and proficiency. Prerequisite: MUS 146 or consent of Instructor.

MUS 246 Piano Class IV One hour
Continuation of MUS 245. Prerequisite: MUS 245 or consent of instructor.

MUS 280 Special Topics in Music Three hours
This course investigates a broad topic in the field of Music in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Music.

MUS 301 Counterpoint Two hours
A study in application through composition and analysis of 18th C. counterpoint. Prerequisite: MUS 202.

MUS 302 Orchestration Two hours
A study of instruments of the band and orchestra with regard to range, tone quality, and appropriate use in instrumental ensembles, including practice in arranging. Prerequisite: MUS 202.

MUS 303 Choral Arranging Two hours
Principles and practices of arranging music for choral groups with emphasis upon producing useful arrangement. Prerequisite: MUS 202.

MUS 304 Jazz Theory and Improvisation Two hours
A historical study of twentieth century jazz music in America via scales, chords, and harmonic progressions with an emphasis on performance applications to traditional jazz band instrumentation: sax, trumpet, trombone, and rhythm section. Also a study of jazz band chart reading and a basic understanding of keyboard voicings and scoring for combos and big bands. On demand.

MUS 305 Jazz History and Literature Two hours
In this course the evolution of jazz music will be traced from its origins through the present. The course will explore the development of the various stylistic trends that characterize jazz. Socio-economic factors and events which have influenced the course of American's native art music will be included in the discussion as will the evolution of and changes in the musical style and form. In addition, students will be introduced to the innovators of each style through recordings.

MUS 306 Twentieth Century Popular Music Style and Analysis Two hours
This class will explore the particulars of the main styles of popular music developed along the twentieth century and the main musicians or bands associated with it. Emphasis will be put on the role of the rhythm section that represents the foundation of each one of these styles. Funk, R&B, Rock, Punk Rock, Contemporary Christian, Bluegrass, Gospel, Alternative Rock, Pop, Jazz, Latin as well as hybrids formed by the combination of two or more styles are the topics to be covered by this class. The analysis of the music will enable the student to understand what components form the essence of each style, and what roles each instrument performs on it.
MUS 307 Contemporary Vocal & Instrumental Two hours
Composing/Arranging Techniques
This course will focus on familiarizing the student with all of the
rudimentary techniques associated with the art of arranging. Two, three
and four-part writing techniques, alternative voicings, how to arrange for
the rhythm section etc. Instrument and voice ranges, and music calligraphy
techniques will also be included.

MUS 308 Computers and Music One hour
This course will serve to familiarize the student with computer applications
used in the production of music. The fundamentals of MIDI
(Musical Instrument Digital Interface), electronic keyboards, music notation
softwares, sequencers, samplers etc.

MUS 309 Jazz Piano Voicings Two hours
This course will familiarize the student with the techniques used by jazz
pianists to execute chord progressions over a jazz chart. Articulation,
rhythm, melodic comping, voicings and awareness of the main melodic
movement will be taken into consideration so that the accompaniment
produced will be totally idiomatic in accordance to the demands of style.

MUS 321 History of Music I Three hours
A study of the history of music in Western cultures beginning with the rise
of West Asian and East Mediterranean music and extending to the time of
Haydn. The course is designed to establish a working knowledge of the
development of musical styles and their historical importance.
Prerequisites: MUS 121; MUS 122.

MUS 322 History of Music II Three hours
A study of the history of music in Western cultures from the time of Haydn
to the present day. Continuation of study in MUS 321. Prerequisites: MUS
121; MUS 122.

MUS 325 Music in World Cultures Three hours
A survey of the role of music in non-Western cultures and major stylistic
trends in musical development throughout the world. This course serves as
an introduction to the discipline of ethnomusicology and the study of music
as human behavior. Prerequisite: Knowledge of music fundamentals, or
consent of instructor.

MUS 327 Congregational Song Three hours
This course is a systematic study of the many varieties of song used by
Christian congregations. Attention will be given to the development and
use of hymns and songs for Christian worship. It will outline the historical
threads and discuss the biblical, historical, practical, and cultural
dimensions of congregational song. Prominent hymn/song writers and
derivations of tunes will be studied.

MUS 328 Principles of Worship Leadership Three hours
A course designed to immerse the student into the leadership issues of
worship ministry. Also featured will be clarification of role, working with
musicians, recruiting, administration, strategic planning, and the study of
skills critical to effective leadership.

MUS 329 Foundations of Christian Worship Three hours
A course designed to study the elements and acts of Christian worship.
Attention will be given to the history and development of liturgical, musical,
and free forms of Christian worship, as well as interpreting current issues
and future implications for evangelical congregations.

MUS 340 Elementary Music Methods Three hours
The aim of this course is to present a survey of materials and methods in
teaching music in the elementary grades for music education. The different
phases of public school music such as singing, listening, rhythms, and
creating music are studied. Music education majors and elementary
education majors who are pursuing a music minor should take this course
as substitute for MUS 347.

MUS 342 Secondary Vocal Music Methods Three hours
This course deals with the general program for senior high school as well as
choral music education problems and practices. Methods and materials of
each will be investigated and collected. Some practicum required.

MUS 343 Conducting I Two hours
This course gives attention to basic conducting skills with a choral emphasis.
Attention also to rehearsal techniques, styles, etc. Video tape used
extensively. Prerequisite: MUS 202 or consent of instructor.

MUS 344 Conducting II Two hours
This course is a continuation of MUS 343 with added unique techniques of
instrumental conducting. Laboratory and observation experiences will be
scheduled. Prerequisite: MUS 343.

MUS 346 Accompanying One hour
A study of the nature of accompanying at the piano and the many problems
inherent to ensemble performance. This course may be taken to complete
the requirements for a minor in piano upon completion of the piano
proficiency requirement. With consent of instructor. On demand.

MUS 347 Elementary School Music P-S Three hours
For the elementary education major, this course is designed to combine
fundamentals of music with the methods of music education for the
elementary classroom (P-4). Laboratory experiences are included. Music
majors should take MUS 340.

MUS 348 Secondary Instrumental Music Methods Three hours
A study of the materials, procedures, techniques, and systems associated
with secondary instrumental music education and the administration of
school instrumental music programs. The student will obtain a general
history of wind literature and development. The student will demonstrate
knowledge of teaching methods, planning, and practices for the secondary
general music and instrumental music classroom. Field experience hours
are required. Prerequisites: MUS 240.

MUS 365 Service Playing I One hour
An introduction to techniques, materials, and practical considerations for
playing keyboard instruments in church services. May be taken following
completion of the piano proficiency requirements. On demand.

MUS 366 Service Playing II One hour
A continuation of MUS 365 with particular emphasis upon improvisation.
Prerequisite: MUS 365. On demand.

MUS 380/480 Music Seminar/Field Study One to Two hours
MUS 390/490 Independent Study One to Six hours
MUS 391 Junior Recital One hour

MUS 401 Form and Analysis Two hours
A study of the various forms of compositions, including song forms, dance
forms, ronde, canon, fugue, and sonata form, with critical analysis of
compositions for voice, chorus, piano, solo instruments, and small
ensembles. Prerequisite: MUS 202.

MUS 415 Music and the Arts in Worship Three hours
A course designed to explore the historical and current use of all Arts within
the context of Christian worship.

MUS 416 Worship Forum I One hour
This course will examine a range of current topics and issues related to the
contemporary practice of worship/church music in specific contexts and not
covered in the regular curriculum. Prerequisites: MUS 328, MUS 329, and
have junior standing.

198
MUS 417 Worship Forum II One hour
This course will examine a range of current topics and issues related to the contemporary practice of worship/church music in specific contexts and not covered in the regular curriculum. This course is a continuation of MUS 416. Prerequisites: MUS 415 and have junior standing.

MUS 418 Senior Capstone One hour
A capstone course for students to produce a senior project related to the Bachelor of Science in Music. The project development will be submitted as a formal written paper and then implemented in a local church. To be taken simultaneously with MUS 419. Prerequisites: CHS 265, MUS 327, MUS 328, MUS 329, and senior standing.

MUS 419 Supervised Internship I One hour
An intensive semester-long worship ministry experience. The internship is designed as a culminating experience in the student’s career preparation. The practice-oriented experience should take place at a pre-approved church under the supervision of an approved worship leader/music minister mentor in cooperation with music/worship arts faculty. To be taken simultaneously with MUS 418. Prerequisites: CHS 265, MUS 327, MUS 328, MUS 329, and senior standing.

MUS 420 Supervised Internship II One hour
An intensive semester-long worship ministry experience. The Internship is designed as a culminating experience in the student’s career preparation. This course is a continuation of MUS 419. Prerequisites: MUS 419.

MUS 422 Music in the 20th Century Three hours
A survey of styles and trends in music since 1900 to the present day. Emphasis is placed upon both major and minor composers and their contributions in light of the social-cultural developments of this century.

MUS 424 Piano Literature Two hours
An introductory study to the literature for stringed keyboard instruments, primarily the piano, extending from the late Renaissance to the present day. Emphasis is placed upon the development of pianistic writing throughout each era.

MUS 426 Organ Literature Two hours
A chronological survey of works written for organ. On demand.

MUS 441 Piano Pedagogy Two hours
A study of methods and approaches to piano instruction from beginning to early advanced levels of study. Practice teaching.

MUS 442 Vocal Pedagogy and Literature Three hours
Theories and teaching procedure in training the singing voice and preparing vocal groups for performance, including study of anatomy and physiology of the vocal mechanism. Basic survey of vocal literature in historical sequence. Prerequisite: Four semesters of voice or approval.

MUS 443 Organ Pedagogy Three hours
Methods and materials for organ pedagogy. Practice teaching. Junior level with permission. Prerequisite: Four semesters of organ or permission. On demand.

MUS 444 Marching Band Techniques Two hours
This course is designed to provide basic training in writing marching band field-show presentations through the use of traditional charting techniques and computerized charting. This course also provides an introduction to the multi-faceted role of the marching band director covering various topics in the areas of instruction, administration, public relations, and fund raising.

MUS 449 Arts in Worship Three Hours
This course will explore the use of the Arts (music, video, drama, literature, visual art) within the context of Christian worship. Discussions and projects will include effective worship plans that utilize the Arts and compiling resources, print and Internet, for incorporation of the Arts in worship.

MUS 491 Senior Recital Zero to One hour

NUR 100 Fundamentals of Nursing Six hours
This course is designed to introduce the associate degree nursing student to cognitive, interpersonal, and psychomotor skills. Attention will be given to the theoretical and clinical knowledge needed to make sound judgments and perform nursing activities for clients experiencing health problems with predictable outcomes.

NUR 101 Maternal-Newborn Nursing Four hours
Care of the child-bearing woman from conception to six weeks postpartum is the focus of this course. Normal and abnormal variations experienced during pregnancy and the postpartum period will be discussed. Care of the newborn and normally occurring variations will be emphasized.

NUR 102 Pediatric Nursing Four hours
Commonly occurring health problems in children from infancy through adolescence will be discussed in this course. The importance of the family in promoting the growth and development of the child will be stressed.

NUR 103 Medical-Surgical Nursing I Nine hours
Application of the nursing process as it relates to health promotion and care of adults with acute and chronic health care alterations.

NUR 200 Psychiatric Mental Health Nursing Four hours
Commonly occurring psychiatric disorders and the nursing care associated with these disorders will be the focus of the course.

NUR 201 Medical-Surgical Nursing II Ten hours
This course builds upon concepts taught in the first Medical-Surgical course. An integrated practicum consisting of 120 clock hours of concentrated clinical experience of direct patient care in a health care facility or health care organization required by the Kentucky Board of Nursing is the primary focus of the course (201 KAR 20:320). (The integrated practicum shall be completed within a period not to exceed seven consecutive weeks during the last semester or quarter of a nursing program).

NUR 202 Trends and Issues Two hours
The role and importance of the registered nurse in health care will be explored from a historical prospective. Issues confronting the profession will be analyzed.

NUR 203 Professional Nursing and Applications to Practice Two hours
The role and importance of the Registered Nurse in health care will be explored from a historical prospective. Issues confronting the profession will be analyzed.

NUR 204 Pharmacology for Nurses Two hours
This course explores the basic principles of pharmacology and the nursing process as it relates to drug therapy. Pharmacologic intervention will be reviewed from the context of nursing implications and responsibilities.

NUR 206 Pathophysiology for Nurses Three hours
This on-line course focuses on exploring the basic pathophysiology body systems and selected disease process that can affect the health of individuals across the lifespan. This course offers an exploration of selected pathophysiological processes that occur in the body when a homeostatic imbalance is brought about by internal or external factors. Knowledge of the etiology of specific impaired health states that individuals may experience, as well as the behavior and symptomatology that may be manifested will be explored. These principles will enable the student to frame problems through the critical thinking process.
NUR 325 Nutrition for Nursing Three hours
This course is designed to introduce those interested in healthcare careers to nutrition basics and then to nutrition specifics for healthcare. Nutrition is important to health and healing. Nutrients are needed to build and maintain every cell and for every metabolic process in the body, including a healthy active immune system. As Hippocrates is quoted as saying, “Let food be your medicine and your medicine be your food.” The first part of the course covers nutrition in healthcare and includes nutrition screening for malnutrition and case studies of sample patients and disease states.

NUR 350 Advanced Health Assessment Four hours
This course is designed to further develop knowledge of the practicing nurse in the area of advanced health assessment. The course will focus on the comprehensive holistic health and physical assessment of the client. Using evidence-based practice and quality improvement standards the course will focus on the client’s physical, behavioral, psychological, spiritual, socioeconomic, and environmental parameters. The course will also promote health promotion and well-being of the Individual, families, groups, and communities using developmentally and culturally appropriate approaches. The course will also incorporate evidence-based practices to guide health promotion and illness prevention objectives such as health teaching, health counseling, screening, outreach, disease and outbreak investigation, referral, and follow-up throughout the lifespan. These evidence-based practices and interventions will be based on effectiveness, efficiency, cost-effectiveness, and equity using compassionate, patient-centered, evidence-based care that is respectful to the client and the family and retaining their preferences.

NUR 360 Transcultural Nursing Four hours
This course is designed to introduce the student to culturally competent nursing care across the lifespan. The course will identify different cultures and the health-illness attitudes, beliefs and practices inherent in those cultures. Students will have assignments designed to enhance self-reflection and awareness of cultural orientation to enable a greater understanding of culture-specific care. Students will learn how to perform culturally-sensitive assessments with attention to safeguarding, preserving, advocating and protecting diverse cultures in the healthcare setting. Students will focus on delivery of compassionate, patient-centered, evidence-based care that respects patient and family preferences.

NUR 370 Community Health Nursing I Three hours
This course is designed to further develop knowledge of the practicing nurse in the area of community health nursing. The course will focus on assessment of community health needs, use of evidence-based practice and quality improvement standards in promoting health and well-being of the individual, family and the community. Basic public health concepts of the wellness-illness continuum, population needs, and prevention strategies will be incorporated into the course. The course will also cover the public health nurse role and values-oriented decision-making, along with current cultural principles involved in providing such care.

NUR 371 Community Health Nursing II Three hours
The purpose of this course is to apply the principles of community health nursing as learned in NUR 370. Students will utilize the community assessment from the prerequisite course to build a virtual community project. Students will interview selected persons involved in community health to identify how the nursing process is utilized to deliver competent care with families, communities, clients with developmental needs, and vulnerable populations. Students will identify settings that are appropriate to community health nursing and care delivery methods utilized within those settings.

NUR 380 Gerontology Nursing I Three hours
This course is designed to further develop the practicing nurse’s knowledge in the area of gerontology nursing. The course will guide students in reflecting upon their own and society’s views on aging, and specifically, how an aging population impacts the nation’s health policy and nursing care demands. Theories of aging and the physical and functional changes that accompany aging will be incorporated into the nursing process for providing safe care and promoting healthy practices in the older adult. Quality of life measures for the older adult living with chronic illness and transitioning through care settings will be emphasized.

NUR 381 Gerontology Nursing II Three hours
The second course in gerontology nursing will focus on the older adult who has impaired physical or functional changes. Older adults’ differing responses to illness are presented, including delirium states versus dementia. Case studies will explore acute and chronic states of illness and how evidence based practice and quality care can promote health, prevent further illness or complications, and restore and rehabilitate. Palliative care will also be addressed in the course.

OR 100 First Class One hour
Enhances the new student’s academic and social integration into college. Essentially, the goal is to maximize the student’s potential to achieve academic success and to adjust responsibly to the individual and interpersonal challenges of college life. The class is required for all first-time new students. Students will also be required to be part of FIRST CLASS, a semester-long program that embraces the Christian liberal arts status of CU while developing the virtues of character, leadership, and financial stewardship.

OR 110 First-Year Seminar Part II One hour
This class intends to expose students to the valuable experience of serving others. Through this experience students will gain an understanding of the call to service through the model of Christian principles that lead to a lifelong integration of servant leadership.

PHI 241 Introduction of Philosophy Three hours
A survey of philosophical questions and major Western philosophical traditions.

PHI 280 Special Topics in Philosophy Three hours
This course investigates a broad topic in the field of Philosophy in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Philosophy.

PHI 345 Philosophy of Religion Three hours
A critical examination of basic religious concepts and beliefs. Topics to be considered are: religious experience, faith and reason, arguments about God’s existence, the problem of evil, religious language, religious pluralism, and the relationship between science and religion.

PHI 361 Ethics Three hours
Study of the principles and methods used in evaluating human conduct with an emphasis on the origin and development of the major views of the good life. Examination of the Biblical, historical, and contemporary themes in Christian ethics through an examination of major personalities, movements, principles, and practices. Application of Christian ethics to the issues and problems of modern society.

PHI 380/480 Selected Topics Three hours
A survey and discussion of selected advanced topics in Christian studies.
PHYSICS
(1College of Arts and Sciences)

PHY 200 Special Topics in Physics Three hours
This course investigates a broad topic in the field of Physics in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Physics.

PHY 231 Mechanics Three hours
An intermediate course in classical mechanics. Topics covered will be: Newtonian mechanics, motion of particles in multi-dimensions, rigid body motion and statics, gravitation, moving coordinate systems, Lagrange's equations of motion, tensor algebra, the theory of small vibrations, special relativity, and relativistic dynamics. Prerequisites: PHY 242; PHY 242.

PHY 332 Engineering Statics Three hours
A course in the study of mechanics in which forces systems are in equilibrium. Topics covered are center of mass, moments of force and inertia, statics of rigid bodies, statics of structures, stress and strain, friction, and virtual work. Prerequisite: PHY 241.

PHY 333 Electronic Circuits Three hours

PHY 338 Modern Physics I Three hours
An intermediate-level study of modern physics, including special relativity, early quantum physics, quantum mechanics, atoms and molecules, and quantum distributions and statistics. Prerequisite: PHY 241-244.

PHY 339 Modern Physics II Three hours
A continuation of Modern Physics I covering solid-state physics, nuclear physics, elementary-particle physics, astrophysics, and cosmology. Prerequisite: PHY 338.

PHY 408 Special Topics One to Three hours
A special course offered on demand to advanced physics students who have a specific interest in the fields of physics and engineering. The course may be repeated for credit provided the topics differ each semester. Prerequisite: Consent of Instructor.

PHY 421 Computational Science One to Two hours
A one-to two credit hour course on computational methods for the modeling of scientific phenomena, including a selection from the solution of linear equations, interpolation and extrapolation, integration, function evaluation, series, elliptic integrals, sorting techniques, minimization and maximization of functions, eigenvalues, empirical statistical description of data and modeling, integration of ordinary differential equations. Prerequisites: MTH 211 and CIS 300.

PHY 431 Introduction to Quantum Mechanics Three hours
An introductory course in Quantum Mechanics covering classical physics, wave packets, Schrodinger wave equation, eigenfunctions and eigenvalues, one-dimensional potentials, hydrogen atom, helium atom, and other related topics. Prerequisites: MTH 311 and PHY 242.

PHY 438 Introduction to Electromagnetism Three hours
An introduction to electromagnetism including electrostatic fields, electromagnetic waves, Maxwell's equations, magnetic fields, magnetic materials, and applications. Prerequisites: PHY 242 and MTH 211.

PHY 451 Thermodynamics Three hours
An introduction to the foundations of thermal physics including thermo dynamical processes, heat engines, entropy, Boltzmann distributions, phase transformations, and thermal radiation. Prerequisites: PHY 241, MTH 211.
PHY 490 Senior Research One to Three hours
Senior research is a course for students nearing the completion of a physics major or minor that offers credit for significant work in theoretical or experimental physics under the guidance of an advisor. Prerequisite: Major or minor in physics with at least a junior standing.

POLITICAL SCIENCE
(College of Arts and Sciences)

POL 110 American Government Three hours
This course studies the development and interrelation of American national state, and local governments; and public opinion, political parties, civil rights, duties of citizenship, and present governmental trends.

POL 122 State and Kentucky Government Three hours
This course studies the development of state constitutions and governments; and role of state government in the nation; interrelations of state, national, and local governments. Special attention is given to the constitution and government of Kentucky. Prerequisite: POL 110 or consent of instructor.

POL 201 Introduction to Political Science Three hours
An introduction to the fundamental methodological and theoretical concepts of political science: ideologies, political power political behavior, political/governing institutions, and the social and economic needs of individuals in society.

POL 280 Special Topics in Political Science Three hours
This course investigates a broad topic in the field of Political Science in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Political Science.

POL 315 World Geography Three hours
This course highlights the topography, climate, natural resources, and demography of the seven continents and further emphasizes map, and political status of major world powers and other global considerations.

POL 330 Public Administration Three hours
A study of the administration in private and public organizations. It is an interdisciplinary course and is taken for credit in the fields of political science, sociology, and psychology.

POL 331 Municipal Government Three hours
This course covers the structure and functions of municipal government, and its relation to state government. Special government problems of towns, small cities, and expanding metropolitan areas are emphasized. Prerequisite: POL 110 or consent of instructor.

POL 334 Introduction to Criminal Law Three hours
See CJ 334 for course description.

POL 336 Modern Presidency Three hours
This course covers the executive branch of government and its relation with Congress, the courts, and the bureaucracy. The historical evolution of the office will be included. May be taken as history credit.

POL 341 Comparative Government Three hours
Monarchic, republican, democratic, constitutional, and dictatorial forms of government will be studied along with the historical, economic, social, and cultural forces influence the modern governments of leading countries. Prerequisite: POL 110 or consent of instructor.

POL 345 Democratization Three hours
This course provides and examination of the causes and effects of democracy and democratization from both a comparative and international perspective. Particular emphasis will be placed on the pace of recent attempts at democratization around the world.

POL 351 American Diplomacy Three hours
This course covers American foreign relations from the Revolution to the present; principles of successful diplomacy, and diplomatic service and careers. Prerequisite: POL 110 or consent of instructor.

POL 352 International Relations Three hours
This course covers the development of modern international relations, factors shaping foreign policies of nations, war, pacific settlements of disputes, and the United Nations. Prerequisite: POL 110 or consent of instructor.

POL 355 Human Rights Three hours
This course will introduce to student to the various human rights issues as they relate to the global stage of politics. Topics will be selected on the basis of their relevancy to current breaking events. The course will examine the tension between human rights and sovereignty as we consider the potential for improving the status of global human rights in the post-Cold War era. Writing or research intensive.

POL 361 Social Statistics Three hours
This course is designed to acquaint the political science student with the logic and method of statistics, covering frequency distribution, measures of central tendency and variation, random sampling, and testing of hypotheses. Students planning to enter law school or to take graduate study in political science or business should take this course.

POL 362 Methods of Research Three hours
This course is to be an interdisciplinary course in the field of political science, sociology, and psychology. Recitation and lectures will be three hours a week and introduction to the scope and methods of inquiry into the area of the social sciences. Emphasis will be placed on the historical developments and on recent developments of social science methodology and research techniques.

POL 382 American Constitutional Development Three hours
Covers the making of the Constitution: its interpretations through statutes, judicial decisions, governmental practice, amendments; and civil rights. Recent decisions, interpretations, and developments included. Prerequisite: POL 110 or consent of instructor. May be taken as history credit.

POL 405 Terrorism Studies Three hours
This course offers a variety of conceptual tools and frameworks for students to think strategically about key issues in the contemporary security environment. Specifically, it examines the unique challenge terrorism poses to the international and domestic system, while developing an understanding of terrorist motivations, strategies, means, and ends. This course will seek to educate the students for a world of uncertainty by drawing extensively on research in the field of terrorism, counterterrorism, and weapons of mass destruction. Writing or research intensive.

POL 421 Corrections Three hours
See CJ 421 for description of course. Writing or research intensive.

POL 430 Public Administration Three hours
This course will provide an overview of the field of public administration by focusing on its development and importance in modern government operations. The course will also review operation of government at local, state and federal levels.

POL 431 Civil Liberties Three hours
In this course, the student is confronted with the fact that the Constitution defines our freedoms in cursory language, thus leaving it to the courts to flesh out the document's skeletal guarantees. Special emphasis will be placed on the affirmative action efforts. Writing or research intensive.

POL 442 Political Geography Three hours
See GEG 442 for description of course. Writing or research intensive.
POL 451 Political Parties Three hours
The development of nature, composition, tactics, and changing ideologies of political parties are emphasized, as well as the role of parties and pressure groups in a democracy. Writing or research intensive. Prerequisite: PCL 110 or consent of instructor.

POL 453 Public Opinion Three hours
This course studies the nature, formation, role, and change in public opinion; modern mass communication which shapes public opinion; and problems of enlightened public opinion in a democracy. Writing or research intensive. Prerequisite: PCL 110 or consent of instructor.

POL 472 Government and Industry Three hours
Government stimulation, regulation, and control of industry; antitrust laws and their enforcement; price controls in war and peace times; and government projects and ownership are emphasized. Prerequisite: ECO 110; PCL 110; or consent of instructor.

POL 480 Special Topics Three hours
A survey and discussion of selected advanced topics in contemporary political science, including such subjects as new administrative theory, political polling, constitutional changes, political gridlock, etc. Topics will be selected on the basis of their relevancy to current breaking events. Writing or research intensive.

POL 482 Western Political Philosophy Three hours
An examination and discussion of the development of European and American political doctrines with emphasis on the forces producing the doctrines. Prerequisite: PCL 110 or consent of instructor.

POL 485 Independent Study Three hours
Requires a research paper using primary source materials and an oral presentation to the division faculty. Limited to students majoring or minoring in political science or social science in senior year. Enrollies must have an overall 3.25 standing, 3.5 in political science, show promise in the field of political science and be able to travel to do research if necessary. Writing or research intensive.

POL 495 Practicum in Political Science Three hours
Internship or practical field application of political science. Arranged by individual appointment with the instructor. Writing or research intensive. Prerequisites: Junior or Senior standing or consent of instructor.

POL 499 Senior Seminar Three hours
Students will apply research skills and acquired political science knowledge to a specific topic of instruction, with the intention of producing a senior thesis suitable for public presentation. Students will be exposed to seminal and major academic literature in the topic area. Topics may vary among sections and semesters offered, and the course may be repeated once for credit. Writing or research intensive.

PSY 222 Psychology of Adjustment Three hours
This course focuses on healthy life adjustment. The student will have many opportunities to apply psychological information to his/her own personal adjustment, thus developing a deeper understanding of self and the means of adjusting to life more effectively. Topics include: stress management, relationships, gender roles, emotions, communication, and identity formation. Prerequisite: PSY 111.

PSY 280 Special Topics in Psychology Three hours
This course investigates a broad topic in the field of Psychology in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Psychology.

PSY 311 Learning and Behavior Three hours
Presents the basic principles of classical and operant conditioning in a practical way where the students can learn to become effective change agents. The emphasis will be on how these principles can be used to solve social and psychological behavioral problems. Prerequisite: PSY 111.

PSY 312 Human Cognitive Processes Three hours
Processes involved in such complex human behaviors as language, memory, attention, and problem solving with an emphasis upon experimental findings and current theories. Prerequisite: PSY 111.

PSY 321 Lifespan Development Three hours
Lifespan Development will focus on the physical, cognitive, social, moral, and emotional development of the individual across the lifespan from conception, through birth, childhood, adolescence, and adulthood. Prerequisite: PSY 111.

PSY 322 Theories of Personality Three hours
This course summarizes, compares, and contrasts the major historical and contemporary theories of personality. Prerequisite: PSY 111.

PSY 333 Group Dynamics Three hours
This course focuses on theories of groups and the dynamics involved in group behavior. (Emphasis will be upon those factors of group dynamics which will lead to better interpersonal relationships). Prerequisite: PSY 111.

PSY 341 Social Psychology Three hours
Social influences shaping personality and group behavior; culture, social attitudes, followers, customs, crowds, leaders, social institutions; and social conflicts resulting from race prejudice, nationalism, and class domination are studied. Prerequisites: PSY 111 or SOC 110.

PSY 343 Gender Studies Three hours
This course will provide an examination of similarities and differences between males and females which arise from physical factors and the socialization process. Resulting consequences to the individual, the family, and society will be explored. Prerequisite: PSY 111 or SOC 110.

PSY 361 Social Statistics Three hours
This course is designed to acquaint the social science student with the logic and methods of statistics, covering frequency distribution, measures of central tendency and variation, probability and the normal curve, chi-square, distribution-free methods, regression and correlation, as well as inferential methods (t-tests, etc.). It is an inter-disciplinary course and may be taken for credit in five different fields: economics, political science, psychology, social work, and sociology. Recommended for students interested in graduate work.

PSY 363 Experimental Psychology with Lab Four hours
Experimental Psychology is designed to provide foundational information on designing, conducting, and reporting results from psychological research. Experimental methods will be emphasized. Prerequisites: PSY 111, PSY 361.
PSY 401 History and Systems of Psychology Three hours
A history of modern psychology dealing with the continuous development and decline of different systematic positions or schools of thought. Prerequisite: PSY 111.

PSY 412 Abnormal Psychology Three hours
Manifestations and diagnosis of abnormal behavior, etiology, and treatment are the focus of the Abnormal Psychology course. This course will also address various issues relevant to the field of mental health. Prerequisites: PSY 111.

PSY 414 Introduction to Counseling Three hours
This course explores the vocations that provide counseling as a component of service. Topics include major theoretical orientations, counselor ethics and professional development issues. Prerequisite: PSY 111.

PSY 420 Behavioral Neuroscience Three hours
This is a detailed study of the physiological elements of psychology. Emphasis is placed upon functions of the nervous system especially as they are related to mental disorders, emotions, learning, attention, senses, drugs, and therapies. Prerequisite: PSY 111.

PSY 452 Psychology of Religious Experience Three hours
This course will explore 1) religious experience from a psychological perspective, and 2) psychology from the perspective of religious faith in order to facilitate the student's integration of psychological principles and theories with that of religious faith and beliefs. Prerequisite: PSY 111.

PSY 475 Practicum One to Four hours
An out-of-classroom experience for students in psychology to learn through first-hand experience by involvement in practical work that is psychological in nature. Prerequisite: Upper division major in psychology in good standing, GPA of 3.0 or higher, and permission from lead professor in psychology.

PSY 480 Special Topics One to Three hours
A survey and discussion of selected advanced topics in contemporary psychology. Prerequisite: Five courses in Psychology, may be repeated for credit up to six hours.

PSY 490 Independent Study One to Three hours
Requires a research paper using primary source material and an oral presentation to the division faculty. For students majoring in psychology or social science area in senior year. Must have a 3.25 overall standing, 3.50 in psychology, show promise in the field of psychology and be able to travel to do research if necessary. Prerequisite: consent of instructor.

PSY 499 Capstone in Psychology Three hours
This course is intended to help graduating seniors synthesize and integrate the essential features of the undergraduate curriculum. This will produce a mindset that will prepare the student for graduate level engagement or professional employment utilizing the essential knowledge gained through the scientist-practitioner model of psychology.

SED 404 Emotional Disturbance and Behavioral Disorders Three hours
Enables master teachers to understand interconnections between biological, cognitive, social, and emotional dimensions of emotional and behavioral disorders. The interplay of race, gender, social class, and ethnicity with factors of family structure, peer relationships, and school experiences will be researched and reported through oral and written presentations.

SED 405 Curriculum and Methods in Learning and Behavior Disorders P-12 Three hours
Provides opportunities for investigating research-based best practices exploring the advantages/limitations of instructional strategies and practices for teaching individuals with emotional/behavioral disorders. Candidates will examine how technology, media, resources, and materials may be used to maximize teaching effectiveness in the classroom. Emphasis is on constructing unit lessons, lesson presentations, and evaluation of student progress. Candidates will develop lesson plans that accommodate the needs of learners with disabilities and that provide differentiated learning experiences. Designing instructional strategies for diversity in culture and in learning styles, adapting commercial and teacher-made materials, assessing learner progress, and using technology to enhance instruction are studied in depth. Primary graduate study will address the resources and techniques used to transition individuals with emotional/behavioral disorders into and out of school and post-school environments.

SED 406 Behavior Management of Children and Youth with Learning and Behavior Problems Three hours
This course is designed to provide students with knowledge and understanding of behavioral assessment and intervention strategies that have been effective for individuals with emotional/behavioral disorders across the age range. Students will learn to (a) identify and assess problem behavior, (b) design and implement behavioral interventions, (c) design learning environments that will prevent problem behaviors, and (d) apply behavioral procedures in educational settings. Primary research project will address the collaborative and consultative roles of the special education teacher in the reintegration of individuals with emotional/behavioral disorders.

SED 407 Theories of Reading and Educational Practices P-12 Three hours
This course will concentrate on the best practices for teaching reading to students with learning and behavioral difficulties. Candidates will conduct research on literacy problems in the United States and examine reading approaches for students with reading difficulties. Understanding of best practice strategies for teaching of reading will be applied through a research paper project.

SED 408 Prescriptive and Instructional Strategies Three hours
This course will explore strategies for teaching skills and content areas, such as reading, mathematics, social studies, oral and written language, and study skills to students with learning and behavioral disorders. The course will provide instruction in designing goals and objectives anchored in both general and special curricula. Primary graduate project will reflect candidates understanding of instructional planning in a collaborative context including individuals with exceptionalities, families, professional colleagues, and personnel from other agencies. This course will require a 10-hour field experience component.
SED 409 Classroom Management  Three hours
This course will assist the candidate teachers in developing research-based strategies for creating and managing a classroom environment that maximizes student learning and prevents potential problems. Topics for in-depth study include: effective schools research; teacher behavior and management techniques; discipline theories; conferencing and referrals; observation, reporting, and communication skills. Candidates will observe, record, and analyze both teacher and student behaviors as they relate to the instructional program and learning environment during the required 10 Field/Service Learning Hours. An action research paper will require the candidate to exam classroom management models.

SED 410 Teaching Mathematics to Children and Youth with EBD  Three hours
The primary focus of this course is an in-depth examination of the teaching of mathematics to children with learning and behavioral disorders. The overall contexts in which these researched-based best practices are considered as the national curricular reforms in mathematics. Clearly, this course primarily attends to domains of pedagogy, and its relationship to subject matter, curriculum, and pedagogical content knowledge. Specific attention is provided in this course to the teaching that responds to the reform recommendations identified by National Council of Teachers of Mathematics (NCTM). Candidates will demonstrate their understanding of best practice mathematics instruction through a case-study project.

SED 411 Assessment and Instructional Methods  Three hours
This course will provide participants with an understanding and informed use of assessment data. It focuses on policies and procedures involved in the screening, diagnosis, and placement of individuals with emotional/behavioral disorders including academic and social behaviors. The primary research project will involve the assessment of appropriate and problematic social behaviors of individuals with EBD.

SED 412 Developmental Reading in Middle and High School  Three hours
This course studies the development of reading skills in the content areas, interpretation of formal and informal assessments, readability formulas, instruction in study skills, and diagnostic teaching of students with reading difficulties.

SED 413 Introduction to Learning Disabilities  Three hours
This course will provide information focusing on the identification, instruction, and assessment of individuals with specific learning disabilities and learning differences. Special emphasis will be placed on the etiologies of learning disabilities and the medical factors that may impact the learning of individuals with learning disabilities. Participants will learn the psychological, social, and emotional characteristics of individuals with learning disabilities. A primary research project explores the impact learning disabilities may have on auditory processing skills and phonological awareness as they relate to individual reading abilities.

SOCIETY
(College of Arts and Sciences)

SOC 110 Introduction to Sociology  Three hours
An introduction to sociology as a discipline. The sociological perspective will be used to examine social groups, structure, and institutions, as well as everyday human interaction.

SOC 215 Human Interaction  Three hours
See PSY 215

SOC 225 Social Stratification and Mobility  Three hours
This course deals with the process of social mobility and the social stratification structure in society. Prerequisite: SOC 110.

SOC 230 Social Problems  Three hours
This course investigates patterns, dynamics, and consequences of discrimination, economic deprivation, oppression, and populations at risk. It looks at the changing attitudes and practices of family, institution, and cultural values and also explores deviant behavior and the underlying effects on humanity.

SOC 235 Criminology  Three hours
See CJ 235 for description of course.

SOC 280 Special Topics in Sociology  Three hours
This course investigates a broad topic in the field of Sociology in more depth than a general survey class. Class topics will vary with offering. This course will meet general education requirements in Sociology.

SOC 312 Organizational Behavior  Three hours
See BA 312 for description.

SOC 321 Cultural Geography and Anthropology  Three hours
Students explore the interplay of natural environment, social organization, and culture. Emphasis is on the diverse ways that ethnicity emerges as various human groups adjust to locate in which they live.

SOC 331 Marriage and Family  Three hours
An examination of marriage and the family, historically and conventionally from a social scientific and Christian perspective. Topics include, but are not limited to, dating, marriage, value selection, impact of family on society, childhood, and changing family dynamics. Prerequisites: SOC 110 or consent of instructor.

SOC 332 Juvenile Delinquency  Three hours
See CJ 332 for description of course.

SOC 333 Group Dynamics  Three hours
See PSY 333 for description of course. Prerequisite: PSY 111.

SOC 340 Sociology of Religion  Three hours
The study of religion as an institution. An examination of how such factors as history, ethnicity, denominationalism, church polity, and doctrine shape religious belief and impact society. Particular attention will be given to the study of Christianity in America and around the world.

SOC 341 Social Psychology  Three hours
See PSY 341 for description of course. Prerequisites: SOC 110; PSY 111.

SOC 342 Race and Ethnic Relations  Three hours
This course will examine inter- and intra-group relationships between various racial and ethnic groups in America. Particular attention will be given to the causes, consequences, and reduction of prejudice and discrimination. Prerequisites: SOC 110; PSY 111; or consent of instructor.

SOC 343 Gender Studies  Three hours
This course will provide an examination of similarities and differences between males and females which arise from physical factors and the socialization process. Resulting consequences to the individual, the family, and society will be explored. Prerequisite: PSY 111 or SOC 110.

SOC 361 Social Statistics  Three hours
See POL 363 for description of course.

SOC 362 Methods of Research  Three hours
See POL 362 for description of course.

SOC 371 Public Opinion  Three hours
This course studies the nature, formation, role, and change in public opinion; modern mass communication which shapes public opinion; and problems of enlightened public opinion in a democracy. Writing or research intensive. Prerequisite: SOC 110 or consent of instructor.
SOC 375/485 Practicum  One to Four hours
Supervised learning experiences in various professional settings, including social agencies. May be applied to major or minor. Approval of instructor, Divisional Chair, and Vice President for Academic Affairs must be granted prior to the experience. Prerequisite: Upper division major or minor in sociology in good standing.

SOC 380/480 Special Topics  One to Three hours
A survey and discussion of advanced topics in sociology. May be repeated for credit up to six hours. Prerequisite: SOC 110.

SOC 400 Special Topics  Three hours
This course includes topics of individual interest and need. Course may be repeated for credit provided that topics differ.

SOC 413 Sociology of Deviant Behavior  Three hours
This course is a study of the theoretical and empirical approaches to the analysis of deviance. It will include societal reactions and deviant responses to various types of behavior that occur outside of cultural expectations.

SOC 415 Family Violence  Three hours
This course presents an overview of family violence in our society, along with theories and research on various types of domestic violence including spouse abuse, child abuse, and elder abuse.

SOC 425 Death, Dying, and Bereavement  Three hours
See SWK 425 for description of course.

SOC 431 Civil Liberties  Three hours
See CJ 431 for description of course.

SOC 473 Social Theory  Three hours
This course examines the important sociological theorists in their study of human society. The prominent theorists such as Marx, Durkheim, Weber, Mead, and Parsons will be studied. Prerequisite: SOC 110.

SOC 390/490 Independent Study  Two or Three hours
This course requires a research paper using primary source material and an oral presentation to the division faculty. Limited to students majoring in sociology or social science area in senior year. To enroll, students must have a 3.25 overall standing, 3.50 in major field, show promise in field of sociology and be able to do research, if necessary. Prerequisite: SOC 110.

SOCIAL WORK  (Carver School of Social Work)

SWK 210 Introduction to Social Work  Three hours
An introduction to the practice of generalist social work. Historical and contemporary principles of the profession are explored as well as an overview of the theoretical perspectives that inform the profession. Basic social work knowledge and values are reviewed along with the fields of practice. This course is designed to familiarize students with the social work curriculum and profession as well as help them decide if they wish to pursue social work as an area of emphasis.

SWK 220 Practice I  Three hours
This course provides basic skills necessary to perform generalist social work practice with systems of all sizes but primarily focuses on micro systems with individuals and families. The problem-solving process is introduced and practiced using a strengths model as the foundation for intervention. Students learn to define issues, collect and assess data; plan and contract, identify alternative, implement action, and monitor outcomes with pseudo clients from diverse backgrounds. Fifteen clock hours of volunteer work will be required along with classroom instruction, discussion, and interaction. Prerequisite: SWK 210 and acceptance into the program area or minor.

SWK 310 Social Policy and Planning  Three hours
This interactive course will examine current social welfare policy and explore how social workers can become agents of change at the local, state, national, and international level. Historical and current patterns of social service delivery systems will be analyzed to gain insight about the relationship between social policy and social work practice. Social work roles that lead to empowerment will be highlighted. Course format will be interactive utilizing classroom debate and presentation, simulation games, field trips, and outside speakers. Open to non-majors.

SWK 311 Human Behavior and the Social Environment I  Three hours
This course provides content about theories and knowledge of human bio-psycho-social development from micro, mezzo, and macro system levels. Values, ethics, and spiritual issues related to development are also explored. Birth through late adolescence will be investigated. Prerequisite courses include PSY 114, BIO 110, and SOC 110. Prerequisite: SWK 210 (for students with a social work area)

SWK 312 Human Behavior and the Social Environment II  Three hours
This course is the second in a two-part series about human behavior and the social environment. It explicates the bio-psycho-social-spiritual aspects of aging adults. Prerequisite courses include: SWK 311 or permission from the instructor.

SWK 315 Crisis Intervention  Three hours
Many social service and divinity professionals are hurled into the position of assisting and providing counsel to persons experiencing acute situational and interpersonal stress. This course explores crisis intervention theory, research, and practice. The principle goal is to provide students with a crisis intervention model applicable to all people in crisis. Open to non-majors.

SWK 340 Practice II  Three hours
The problem-solving process acquired during Practice I (SWK 220) is built upon and expanded to include practice with families and groups from differing social, cultural, racial, religious, spiritual, and class backgrounds. This course explores all system levels but primarily focuses practice on micro and mezzo systems. The process of evaluation and termination is explored in greater detail complementing the concurrently taught research methods course. Prerequisite: SWK 220
SWK 342 Human Diversity Three hours
This course is designed to assist students to successfully manage interpersonal relationships with people from differing cultural and ethnic backgrounds. Emphasis will be placed on the social systems, value orientations, and lifestyles of major ethnic minorities in the United States, along with the effects of prejudice, discrimination, and racism. Students will be expected to explore their own ethnicity and develop a greater understanding of one’s origin. In addition, this course will review denominational differences, religion, and the Appalachian region. Open to non-majors.

SWK 350 Values and Ethics in Social Work Practice Three hours
An overview of social work values and ethics with an emphasis on their application in professional practice. Special attention will be given to ethical dilemmas faced by social workers. This course examines Judeo-Christian values and ethics and how they interact, parallel or come into conflict with the ethics and values of the social work profession.

SWK 355 Faith-Based Social Services and Ministries Three hours
This course prepares students to work in church and faith-based organizations. This course is an introduction to the nature of faith-based social services and social ministries. Content includes spirituality assessment tools, the biblical and theological basis for faith-based social services, various models for faith-based services and recent government initiatives/policies related to faith-based services.

SWK 360 Child Abuse and Neglect Three hours
This is the first of two required courses for child welfare certification. It is open to all students.

SWK 365 Quantitative Statistics and Research Methods for Social Work Three hours
This course demonstrates linkages between theory and research, the role of research in investigating theory, logic applied in the research process, stages of the research process, strategies and techniques in data collection, the major approaches to data analysis, and methods for preparing a research proposal. The primary focus is on quantitative methods.

SWK 366 Qualitative Statistics and Research Methods for Social Work Three hours
This course explores issues related to the qualitative research and presents the foundations and techniques of carrying out qualitative research. This course introduces the five qualitative traditions of inquiry (biography, phenomenological, grounded theory, ethnography, and case study). Topics include theoretical foundations, planning for a qualitative research project, ethics of conducting research, data collection and analysis, and writing/presenting qualitative research. This course requires a research project involving participant observation and/or interviewing. Prerequisite: SWK 220

SWK 370 Child Abuse and Interventions Three hours
This is the second of two required courses for child welfare certification. It is open to all students.

SWK 410 Field Instruction Twelve hours
This course requires two hours of weekly classroom seminar. Field education is designed, coordinated, supervised, and evaluated on the basis of criteria by which students demonstrate the achievement of social work program objectives. Students spend a minimum of 450 clock hours during the last semester of their senior year at an approved practicum setting that meets the criteria for social work field education as stated by the Council on Social Work Education. Application for field instruction must be processed and approved the semester before registering for SWK 410. Prerequisites are: All social work courses except SWK 450 which can be taken concurrently. Social work majors only.

SWK 414 Introduction to Counseling Three hours
See PSY 414 for course description.

SWK 425 Death, Dying, and Bereavement Three hours
This course is designed to provide both theoretical and experiential exposure to the diverse population experiencing death, dying, and bereavement. Values and ethics of professional practice are explored as well as social and economic issues that interact with the aspects of dying.

SWK 450 Practice III Three hours
This course will instruct the generalist social work student on developing and conducting interventions with macro structures. Students will explore and practice evaluating and intervening with organizations and communities. Practice III prepares students to identify the need, develop, administer, and evaluate programs that serve clients from diverse social, cultural, racial, religious, spiritual, and class backgrounds by using a strengths perspective for service development. Prerequisite: SWK 340.

SWK 460 Aging Three hours
This is an interdisciplinary baccalaureate level service-learning course that will explore a wide variety of issues relating to aging. This course will provide an opportunity for the student to learn about the aged by providing exposure to the aged individual, their families, and their social groups. In addition, this course will explore the physical, emotional, psychological, social, and sexual activities of the aged, and we will visit various types of home and community-based services for older adults.

SWK 480 Special Topics Three hours
This course is a survey and discussion of selected advanced topics in the field of generalist social work practice. May be repeated for credit up to six hours.

SWK 481 Addictions Three hours
This course utilizes the strengths perspective to explore the biological, psychological, social and spiritual aspects of addictions and treatment across the lifespan and with special populations. Although there is an emphasis on drug and alcohol addictions, the course will also examine other addictions such as eating, gaming/internet, gambling, etc. Additional key elements include: an exploration of personal beliefs and experiences that may impact practice; analysis of related ethical issues and guidelines; and the historical influences on public policies and laws related to addictions.

SWK 482 Conflict Resolution Three hours
Managing conflict is an essential skill for most professionals, particularly within the work setting. This course will introduce students to the conflict resolution and mediation process as a strategy to manage conflict between professionals, between professional and clients and between clients themselves. Case studies and role-play scenarios will be utilized for students to apply knowledge in a variety of setting such as child welfare, family counseling, criminal justice, healthcare, education, business organizations and pastoral counseling. Students are encouraged to take on roles of negotiator, mediator, facilitator and advocate.

SWK 483 Foster Care and Adoption Three hours
This course is an interdisciplinary course which offers an introduction to the foster care and adoptive processes. Service needs, statistical data and issues impacting service delivery will be examined. This course will explore the physical, emotional, psychological, social and spiritual needs of individuals in out of home care. Attachment and grief issues which impact these individuals for life will also be explored. This course is open to non-majors.

SWK 490 Independent Study One to Three hours
This course requires a research paper in an area of social work practice that is consistent with the student’s area of emphasis and for which no formal courses are offered. To qualify for this course the student must be a social work major, have senior standing, a minimum of 2.80 grade point average in social work courses, permission of the professor directing the study, and permission of the Dean of the Currier School of Social Work.
SPANISH
(College of Arts and Sciences)

SPA 111 Elementary Spanish I Three hours
An introductory course in the Spanish language. Grammar, conversation, reading and writing are emphasized by means of pattern drills, exercises, and tapes accompanying the textbook.

SPA 112 Elementary Spanish II Three hours
A continuation of SPA 111. Prerequisite: SPA 111 or equivalent.

SPA 211 Intermediate Spanish I Three hours
A continuation of the study of the Spanish language by means of further grammar study; readings and discussions in Spanish of various cultural presentations; and conversational practice in class and in the laboratory. Prerequisite: SPA 112 or equivalent.

SPA 212 Intermediate Spanish II Three hours
A continuation of SPA 211. Prerequisite: SPA 211 or equivalent.

SPA 220 Reading and Culture Three hours
This course studies an interactive select of cultural and literary readings with topics that will increase students' knowledge of the Hispanic world. Taught in Spanish. Prerequisites: SPA 212 or equivalent proficiency with department chair approval.

SPA 225 Advanced Conversation Three hours
A course designed to develop the vocabulary and oral communication skills of the student with a background of two year of college or equivalent. Special emphasis placed on the acquisition of idioms and fundamental conversational vocabulary in Spanish. Taught in Spanish. Prerequisites: SPA 212 or equivalent proficiency with department chair approval.

SPA 230 Advanced Spanish Composition and Grammar Three hours
This course is designed to make students' writing more accurate and organized as well as to develop a style in Spanish using reading text as examples. Concentration will be on more sophisticated structures of Spanish syntax, and further vocabulary expansion. Prerequisites: SPA 212 or equivalent proficiency with department chair approval. Not open to native speakers.

SPA 230 Introduction to Literary Analysis Three hours
An introduction to important literary and cultural texts with the tools required to understand and discuss them. This course will enable students to engage in more sophisticated texts from different discourses, periods, and cultures and is a prerequisite for 300 level literature courses. Taught in Spanish. Prerequisites: SPA 212 or equivalent proficiency with department chair approval.

SPA 321 Survey of Spanish Literature Three hours
The goal of the Survey of Spanish Literature is to enable students to understand literature terminology in Spanish and survey the outstanding Spanish writers from the beginning to the present.

SPA 322 Survey of Latin American Literature Three hours
The goal of the Survey of Latin American Literature is to enable students to understand literature terminology in Spanish and survey the outstanding Latin American writers from the beginning to the present.

SPA 331 Spanish Civilization and Culture Three hours
A study of the various aspects of Spanish culture such as arts, theater, music, leisure activities, geography, political structures, and the main events of Spanish history. Taught in Spanish. SPA 220 or equivalent proficiency with department chair approval.

SPA 332 Latin American Civilization and Culture Three hours
A cultural survey of Latin America through literary, historical and cultural texts. Major issues and challenges to the Latino population will be addressed. It will include the contributions made by Latinos to US culture. Taught in Spanish. Prerequisite: SPA 220 or equivalent proficiency with department chair approval.

SPA 350 Teaching of Foreign Language P-12 Three hours
This course is designed to help students develop an understanding of current theories of foreign language learning through the development of knowledge and skills necessary to prepare students to assume roles as foreign language teachers at P-12 levels.

SPA 360 Spanish Study Abroad Three to twelve hours
This course is a requirement for all Spanish Teaching Certification Majors (P-12). It's focus is in the development of the 5 "Cs": communication, cultures, connections, comparisons and communities through a total immersion environment. Candidates will have the option to choose between a semester or a summer program.

SPA 380 Special Topics: Latin American Film & Culture Three hours
A survey of Latin American film from the 1950's to nowadays. This three-year level course, taught in English, is interdisciplinary and cross-cultural emphasizing the socioeconomic and political issues that gave rise to a specific movement. This course is designed to introduce the students to the cinematic work of a number of Latin American film artists, and to develop a more detailed and creative reception of each film.

SPA 390/490 Independent Study One to Three hours
Superior students who have completed Survey of Spanish Literature I (SPA 311) may apply to the chair to do independent reading in the Spanish language. All independent study must be directed by a member of the language faculty.

THEATER
(College of Arts and Sciences)

TH 100 Introduction to Dance One hour
This course covers the exercises, steps and positions for beginning technical and performance dance. Dance styles to be covered include ballet, jazz and tap. Exercises include center work, across-the-floor, barre and combinations.

TH 101 Ballroom Dancing I One hour
This course covers the basic dance steps, positions and formations. Dances to be covered include swing, cha-cha, salsa/nambro and waltz.

TH 102 Ballroom Dancing II One hour
This course covers the basic dance steps, positions and formations. Dances to be covered include polka, foxtrot, tango and rumba.

TH 120 Fundamentals of Speech Three hours
A course designed to help students write and present speeches effectively. Emphasis is placed on the use of standard diction. Cross-listed with MAC.

TH 131 Introduction to Theater Three hours
A basic course in theater including history and environment of the stage. Elements and arts of theater are studied.

TH 200 Stagecraft I Three hours
Instruction in design, construction, and decoration of sets for plays. Makeup and costumes are also studied.

TH 210 Stage Makeup Three hours
An exploration of the fundamental skills necessary for the creation and application of character and fantasy theatrical makeup. The purchase of a basic makeup kit is required.
TH 230  Theater Art Field Studies   One to Three hours
The course is integrated with a tour of theaters, costume companies, set
construction companies, and attendance at plays. It will include seminars,
preparatory for the tour, lectures, discussions during the tour, and
discussion seminars following the tour. A special feature of the tour will be
critical seminars with renowned drama critics.

TH 240  Reporting and Newswriting   Three hours
See MAC 240 for description of course.

TH 242  Theater History I   Three hours
Survey of theater history from Ancient Greece through the 1600s.

TH 253  Fundamentals of Acting   Three hours
A study of the actor as interpreter of dramatic literature. Emphasis is on
movement and gesture, voice, and diction. The Stanislavsky system is
studied.

TH 280  Special Topics in Theater   Three hours
This course investigates a broad topic in the field of Theater in more depth
than a general survey class. Class topics will vary with offering. This course
will meet general education requirements in Theater.

TH 334  Directing   Three hours
A study of the role of the theatrical director in the production of plays.
Prerequisite: TH 231.

TH 335  Children's Theater   Three hours
A comprehensive course that involves reading and studying plays that are
appropriate for Children's Theater. Projects in production and staging
techniques are required.

TH 336  Church Drama   Three hours
Reading and studying plays appropriate for church presentations. Projects
in production and staging techniques are required.

TH 342  Theater History II   Three hours
Survey of theater history from 1700s to present.

TH/FLM 351  Screen Acting   Three hours
Students receive instruction and practice in the basics of acting for the
camera, including genre-based performance, playing to the camera,
shooting out of sequence, and blocking. In addition, class exercises will
cover character development, audition techniques, and script analysis.

TH 360  Musical Theater Workshop   Three hours
A performance workshop designed to allow practical application of skills
taught in fusing acting and singing. It will provide an opportunity for
students to experience the technical elements of musical production and
develop audition techniques. This course may be repeated.

TH 375  Contemporary Drama   Three hours
Representative American, English, and Continental European plays are
studied, beginning with Ibsen and continuing to the present.

TH 380  Special Topics   One to Three hours
A course designed for special studies in theater as needed and when a
qualified instructor is available.

TH 385/485  Internship   One to Three hours
This course will provide students with hands-on experience in the theater
industry. This experience may include, but is not limited to, set
construction, operating lighting/sound equipment, working as running
crew, working with the box office, or performing with a professional
company. Maybe repeated for a total of six credit hours. Prerequisites:
Consent of the instructor and an overall 2.5 GPA.

TH 400  Designing for the Stage   Three hours
A study of the technical aspects of school play production with advanced
instruction in design, plans, and construction of sets for a play. Prerequisite:
TH 200.

TH 410  Theater and Stage Management   Three hours
This course will familiarize students with the business, organization and
management of the theater. The course will include an analysis of the role
of the stage manager as well as the general theater management roles,
including organization, marketing and fundraising.

TH 442  History and Analysis of Musical Theater   Three hours
This course is designed to familiarize students with the origins and
historical development of the musical. Focus will be given to its evolution
from operetta and vaudeville entertainment in the late 1800's to modern
Broadway hits. Relevant cultural and political influences on the form will
be discussed, as well as historically influential composers, directors,
producers and performers in the genre. The course will study the
development of musical theater in chronological order by decades, while
analyzing the structure of the art form from each period.

TH 475  Seminar   One hour
This course is the capstone seminar course designed to complete the
studies of theater majors. A portfolio of past work will be compiled. This
course is required for all theater majors during the last semester of their
senior year.

TH 490  Independent Study   One to Three hours
Students who have successfully completed at least 15 hours of their
theater studies, and who have a minimum grade point average of 2.80 in
theater and 2.50 overall, may apply to the theater professor for the
privilege of independent study from one to three hours credit, depending
upon the nature and scope of the study project agreed upon.

TH 491  Shakespeare   Three hours
Representative comedies, histories, and tragedies of Shakespeare are
studied. A history of the Elizabethan theater, stage, and acting is included.
Students listen to dramatic recordings of Shakespeare's plays and do some
Dramatic reading and interpretation.

TH  Performance/Production   One hour
Course numbers are 109, 111, 209, 211, 309, 311, 409, 411
This course is open to all students performing or working in a major role
with a main stage theater production at Campbellsville University. Theater
majors are required to enroll for a minimum of four credit hours. Theater
minors are required to enroll for a minimum of two credit hours.

TH  Singing Onstage   One hour
Course numbers are 115, 215, 315, 415
Individual instruction on vocal technique for singing onstage, including
weekly performances in a lab setting.
