

Annual Impact

\$2,970,022

Campbellsville University operates eight regional education centers across the Commonwealth of Kentucky. These education centers enable students of all ages and interests to expand their opportunities through higher education in their local communities.

CU's Somerset Noe Education Center is dedicated to the development and educational enhancement of adult learners through accelerated programs with classes offered both day and night. Along with a School of Barbering and School of Cosmetology, students at the Noe Education Center can choose from 13 majors to earn a degree. The Somerset campus also allows students to participate in Men's Basketball and Men's Golf.

As a distinct yet integral extension of the main campus, the Somerset Noe Education Center shares the Campbellsville University mission and promise to each student enrolled. Campbellsville University is committed to providing a Christ-centered, high-quality educational experience to all students.

Another Measure of Impact

A Pulaski County college graduate who remains in the local economy for a 25-year career makes greater economic impact than a typical high school graduate.

25-Year Career Local Economic Impact

Scope & Purpose of Study

This study is designed to quantify the impact of the operations of Campbellsville University's Noe Education Center within the Pulaski County economy. Planned renovations and expansions of university facilities have also been studied to determine the economic impact of those investments.

In this study, economic impact is measured in terms of dollar value of total economic output, jobs, wages, and local tax revenues generated as a result of the business activities related to the operations of the Louisville Education Center. From this study, policy makers and planners can gain a systematic understanding of the overall economic impact the center has on Pulaski County.
