

International Orientation

ACTIVATE YOUR EMAIL

- 1) Access TigerNet on the Campbellsville University website. Hover over "Students" at the top right and TigerNet will be your first option.
- 2) Sign in with your ID and your PIN, these should have been provided when you were admitted.
- 3) Click on the Students tab on the upper left hand side.
- 4) Choose "Student Email Account Information" on the left menu
- 5) Click "Generate Student Email"
- 6) Follow the link that says "Click here to generate your student email"
- 7) It will show you your ID number, Name, email address, and your initial password. It will also give you the link you should follow to finish setting up your email account.
- 8) When you log in the first time you will need to choose a new password and set up 2-way authentication. The system will help you with these steps.
