## Office of Financial Aid

The national Cohort Default Rate is the percentage of borrowers who entered repayment on Federal Family Education Loan (FFEL) Program or William D. Ford Federal Direct Loan (Direct Loan) Program loans during a particular timeframe, and subsequently defaulted. The repayment period for FY 2017 was October 1, 2016 through September 30, 2017, with the default occurring prior to September 30, 2019. During the FY 2017 borrower cohort tracking period, more than 4.2 million borrowers entered repayment, with 417,429 of them, or 9.7%, defaulting on their loans. These borrowers attended 6,060 postsecondary institutions across the country.

Campbellsville University's official cohort default rate for FY 2017 is 12.9%. CU anticipates the FY 2018 Official Cohort Default rate being available to publish in Fall 2021.
